3. NOTIFICATION AND AUTHORISATION

The *Commission de Surveillance du Secteur Financier (CSSF)*, Luxembourg, has provided the *Autorité des marchés financiers (AMF)*, France, with a certificate of approval attesting that the Debt Issuance Programme Prospectus has been drawn up in accordance with the Prospectus Directive.

The Issuer and the Guarantor have authorised the use of these Final Terms and the Debt Issuance Programme Prospectus dated 28 April 2009 by the Dealer/Managers and the entities in charge of the distribution of the Notes (the **Distributors** and, together with the Dealer/Managers, the **Financial Intermediaries**) in connection with offers of the Notes to the public in France for the period set out in paragraph 13 below.

4. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE

Save for any fees payable to the Dealer, and except as mentioned below, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Issuer and Société Générale expect to enter into hedging transactions in order to hedge the Issuer's obligations under the Notes. Should any conflicts of interest arise between (i) the responsibilities of Société Générale as Calculation Agent for the Notes and (ii) the responsibilities of Société Générale as counterparty to the above mentioned hedging transactions, the Issuer and Société Générale hereby represent that such conflicts of interest will be resolved in a manner which respects the interests of the Noteholders.

8. PERFORMANCE OF INDEX/FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING (Index Linked Notes only)

Under these Notes, the Noteholders are entitled to receive two conditional indexed coupons totally linked to the performance of the Underlying(s) calculated on annual Valuation Dates, on the basis of its initial level. At maturity, the Noteholders are entitled to receive an amount totally linked to the performance of the Underlying(s). The actual redemption date of these Notes is directly related to the performance of the Underlying(s): the better the performance, the sooner the redemption date and conversely, the worse the performance and the later the redemption date. The return under these Notes is totally linked to the performance of the Underlying(s): the higher the performance, the higher the return. The return depends upon the fact that the performance of the Underlying(s) reaches or does not reach a pre-determined threshold. Accordingly, a small downward or upward movement of the Underlying(s) close to the threshold may result in a significantly larger increase or decrease of the return of the Notes. Some of the performances used to calculate the return of the Notes are capped at a pre-determined level, i.e. the Noteholders may not benefit from any future performance, if any, above that level. The return of these Notes is linked to the performances of the Underlying(s) as calculated on pre-determined Valuation Dates, and regardless of the level of such Underlying(s) between these dates. As a result, the Closing Price of the Underlying(s) on these dates will affect the value of the Notes more than any other single factor. Under these Notes, at maturity, the Noteholders may not receive the amount initially invested. Noteholders are entitled to receive a Final Redemption Amount which may, in case of an adverse evolution of the Underlying(s) during the term of the Notes, be significantly lower than the amount per Note initially invested.

Pursuant to the provisions of the Equity Technical Annex, upon the occurrence of certain Extraordinary Events and Adjustments affecting the Underlying(s), the Calculation Agent may decide an Early Redemption of the Notes on the basis of Market Value.

$$99.91\% \times \left(1 + 0.30\% \times \frac{Nb(t)}{360} \right)$$
