

PRESS RELEASE

LAUNCH OF ASTRA 3B SATELLITE POSTPONED

Luxembourg/Kourou (French Guiana), 10 April 2010. – SES ASTRA, an SES company (Euronext Paris and Luxembourg Stock Exchange: SESG), has announced today that the launch of its new ASTRA 3B satellite has again been postponed. This decision has been taken by Arianespace following the detection of an anomaly in the launch vehicle's pressurization system. A new launch date will be communicated in due time. ASTRA 3B is to be launched onboard an Ariane 5 rocket from Kourou, French Guiana.

About SES ASTRA

www.ses-astra.com

SES ASTRA is the leading Direct-to-Home (DTH) satellite system in Europe. The satellite fleet currently comprises 15 satellites. The ASTRA satellite system delivers services to more than 125 million DTH and cable households and transmits more than 2,500 analogue and digital television and radio channels. SES ASTRA also provides satellite-based multimedia, internet and telecommunication services to enterprises, governments and their agencies. With more than 110 High Definition (HD) channels on its main orbital positions, ASTRA represents the most important HDTV platform for Europe's leading broadcasters. The prime orbital positions for ASTRA are 19.2° East, 28.2° East, 23.5° East, 5° East and 31.5° East.

SES ASTRA is an SES company (Euronext Paris and Luxembourg Stock Exchange: SESG). SES wholly owns the market-leading satellite operators SES ASTRA and SES WORLD SKIES as well as participations in Ciel in Canada, QuetzSat in Mexico and satellite infrastructure start-up O3b Networks. SES provides outstanding satellite communications solutions via a global fleet of 41 satellites in 26 orbital locations. For further information: www.ses.com
