dated 9 October 2009

relating to

**Capped Bonus Certificates
relating to the Shares
denominated in Euro**

to be publicly offered in the French Republic and
to be admitted to trading on a regulated market in the French Republic

RISK FACTORS

The purchase of certificates issued under the Base Prospectus dated 09 October 2009 (the "**Certificates**", the "**Base Prospectus**") is associated with certain risks. The information set forth in these Final Terms merely contains the major risks connected with an investment in the Certificates.

No person should purchase the Certificates unless that person understands the mechanics of the Certificates and the extent of that person's exposure to potential loss. Each prospective purchaser of Certificates should consider carefully whether the Certificates are suitable for it in the light of such purchaser's circumstances and financial position. In this context, investors should take into consideration the risks of an investment in the Certificates (risks relating to the Issuer as well as risks relating to the type of the Certificates and/or the underlying, if any) as well as the other information contained in the Base Prospectus, any supplements and in these Final Terms.

The order of the risk factors described herein does not imply any statement about the likelihood of occurrence of each risk factor or the influence of such risk factor on the value of the Certificates.

Moreover, additional risks that are not known at the date of preparation of these Final Terms or currently believed to be immaterial could likewise have an adverse effect on the value of the Certificates.

It is possible that the performance of the Certificates is affected by several risk factors at the same time, but the Issuer is unable to make any reliable prediction on such combined effects.

The occurrence of one or more of the risks disclosed in the Base Prospectus, any supplement and/or these Final Terms or any additional risks may lead to a material and sustained loss and, depending on the structure of the Certificates, even result in the **total loss** of the capital invested by the investor.

These risk warnings do not substitute advice by the investor's bank or by the investor's legal, business or tax advisers, which should in any event be obtained by the investor in order to be able to assess the consequences of an investment in the Certificates. Investment decisions should not be made solely on the basis of the risk warnings set out in this Base Prospectus, any supplement or these Final Terms since such information cannot serve as a substitute for individual advice and information which is tailored to the requirements, objectives, experience, knowledge and circumstances of the investor concerned.

Prospective purchasers of the Certificates are advised to read the complete Base Prospectus including the chapter on "Risk Factors" before reaching an investment decision.

1. Risks relating to Capped Bonus Certificates

General

Capped Bonus Certificates relating to shares denominated in EUR (the "**Underlying Assets**") grant to the investor the right to receive on the Redemption Date from the Issuer the payment of (i) a Fixed Amount or (ii) a Redemption Amount which shall be calculated as described below.

The Redemption Amount shall be calculated by multiplying the price of the Underlying Asset on the Valuation Date (converted into Euro, if applicable) with the Ratio. The Redemption Amount, however, will not exceed the Maximum Amount.

The investor shall receive the Fixed Amount, if (i) during the Monitoring Period the price of the Underlying Asset has never been equal to or below the Barrier and (ii) the price of the Underlying Asset on the Valuation Date is below the Bonus Barrier.

The Fixed Amount and the Maximum Amount shall be converted into EUR, if applicable.

Limited profit potential and Exposure

Under no circumstances will the investor receive a payment which exceeds the Maximum Amount.

If the price of the Underlying Asset during the Monitoring Period has at least once been equal to or below the Barrier the investor receives the Redemption Amount depending on the price of the Underlying Asset on the Valuation Date, as described above. This amount may be considerably below the purchase price the investor paid for the Certificates. In extreme cases this may lead to a **total loss** of invested capital.

The Certificates do not entitle the Certificateholders to receive a dividend payment and therefore do not constitute a regular source of income. Possible losses in connection with an investment in the Certificates can therefore not be compensated by other income from the Certificates. In addition, investors should consider that the return on the investment in the Certificates is reduced by the costs in connection with the purchase or sale of the Certificates.

Correlation risk

In general, the price of the Certificates will rise and fall along with the price of the Underlying Asset, but it will not exactly follow it. If the Underlying Asset trades close to the Barrier, this may lead to increased price fluctuations (volatility) in the Certificates, particularly as the Certificates approach maturity. This is due to the fact that in this case, even small movements in the price of the Underlying Asset may determine whether the Fixed Amount or the Redemption Amount is to be paid.

In the case of a sale during the life of the Certificates, the repayment scenarios have only a limited influence on the price.

Risk of Loss due to Changes in the Volatility of the Underlying Asset

Changes in the frequency and intensity of fluctuations in the price of the Underlying Asset (volatility) may increase the risks connected with the purchase of the Certificates as with increasing volatility of the Underlying Asset the probability increases that the Barrier of the Certificates will be triggered.

Continuous price of the Underlying Asset and the price of the Underlying Asset on the Valuation Date

The question whether the Fixed Amount or the Redemption Amount shall be payable is decided on the basis of any price of the Underlying Asset determined at any time during the Monitoring Period. In the case that the Redemption Amount is payable, however, the calculation of the Redemption Amount is based only on one price of the Underlying Asset on the Valuation Date as determined in the Terms and Conditions.

Extraordinary early termination and adjustment rights

According to the terms and conditions of the Certificates as set forth in the Final Terms the Issuer may be entitled to make adjustments to the terms and conditions of the Certificates or to early terminate the Certificates if certain circumstances occur. Such circumstances are described in the terms and conditions and may include, without limitation, the cancellation of or changes made to an index in the case of index-linked Certificates or events that have a significant impact on the underlying shares in the case of equity-linked Certificates. Any adjustment of the terms and conditions may have a negative effect on the value of the Certificates and the redemption amount. Also, the amount at which the Certificates are redeemed in the event of an early termination may be lower than the amount the holders of the Certificates would have received without such early termination.

Market Disruption and postponement of payments

The Issuer may be entitled to determine market disruptions or other events which may lead to a postponement of a calculation and/or of any payments and which may affect the value of the Certificates.

Risks associated with Currency

If the Underlying Asset is expressed in a currency different from EUR or if the Underlying Asset is composed of components expressed in a currency different from EUR and if the payments has to be converted into EUR the risk in connection with an investment in the Certificates does not only depend on the development of the price or the price of the Underlying Asset but also on the development of the respective currency. Unfavourable developments in these markets can increase the risk and could lead to a decrease in the value of the Certificates. Changes in exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

Certificates are unsecured obligations

The obligations under the Certificates constitute direct, unconditional and unsecured obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

Issuer's solvency

The holders of the Certificates assume the credit risk of Commerzbank Aktiengesellschaft as Issuer of the Certificates. In case of insolvency of the Issuer, the holders of the Certificates may lose part or all of their invested capital if the insolvency estate of the Issuer does not suffice to satisfy all unsecured and unsubordinated obligations of the Issuer.

The Certificates are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbands deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*).

2. Risk Factors relating to the Underlying Asset

Shares are associated with particular risks, such as the risk that the respective company will be rendered insolvent, the risk that the share price will fluctuate or risks relating to dividends, over which the Issuer has no control. The performance of the shares depends to a very significant extent on developments on the capital markets, which in turn depend on the general global economic situation and more specific economic and political conditions. Shares in companies with low to medium market capitalisation may be subject to even higher risks (e.g. relating to their volatility or insolvency) than is the case for shares in larger companies. Moreover, shares in companies with low capitalisation may be extremely illiquid as a result of low trading volumes.

Shares of companies with its statutory seat or with significant business operations in countries with limited certainty of law are subject to additional risks such as, for instance, government interventions or nationalisation which may lead to a total or partial loss of the invested capital or of access to the capital invested in such country.

The realisation of such risks may also lead to a total or partial loss of the invested capital for holders of Certificates linked to such shares.

Holders of Certificates that are linked to share prices do, contrary to investors which directly invest in the shares, not receive dividends or other distributions payable to the holders of the underlying shares.

§ 3 (REDEMPTION)

- (1) Subject to § 4, each Certificate will be redeemed on the Redemption Date.
- (2) Subject to paragraph (3) each Certificate shall be redeemed by the payment of an amount in the Issue Currency (rounded, if necessary, to the next Eurocent (EUR 0.01) with EUR 0.005 rounded upwards) (the "**Redemption Amount**") which shall be equal to (i) the Reference Price B of the Share on the Valuation Date multiplied with (ii) the Ratio.

The Redemption Amount, however, will not exceed the Maximum Amount.

- (3) Subject to the provisions paragraph (2) above, each Certificate shall be redeemed by the payment of the Fixed Amount, if
 - (a) during the Monitoring Period the Reference Price A has never been equal to or below the Barrier and
 - (b) the Reference Price B on the Valuation Date is below the Bonus Barrier.

§ 4 (ADJUSTMENTS, EARLY REDEMPTION)

- (1) If an Adjustment Event or an Extraordinary Event (both as defined below) has occurred, the Issuer is entitled to make adjustments to the Terms and Conditions of the Certificates taking into consideration the provisions set forth hereinafter. If an Extraordinary Event has occurred, the Issuer may (instead of an adjustment) terminate and redeem all, but not less than all Certificates prematurely on the early redemption date (the "**Early Redemption Date**") with a prior notice of seven Payment Business Days in accordance with § 12, provided that an adjustment is not possible or is unreasonable (*unzumutbar*) for the Issuer. In any case, the Issuer is neither obliged to make adjustments to the Terms and Conditions of the Certificates nor to early terminate the Certificates.
 - (a) When making adjustments to the Terms and Conditions, the Issuer shall act in its reasonable discretion (§ 315 German Civil Code (*BGB*)) and is entitled, but not obligated, to

take into consideration the adjustments to option or futures contracts relating to the Share made by the Related Exchange or that would have been made by the Related Exchange if such option or futures contracts were traded on the Related Exchange.

Any of the before-mentioned adjustments may, among others, relate to the Ratio, the Barrier and the Bonus Barrier and may result in the Share being replaced by other securities, a basket of securities and/or cash, and another stock exchange being determined as the Exchange. However, the Issuer is also entitled to make other adjustments taking into consideration the before-mentioned principles.

Adjustments and determinations take effect as from the date determined by the Issuer in its reasonable discretion (§ 315 German Civil Code (*BGB*)), provided that (in case the Issuer takes into consideration the manner in which adjustments are or would be made by the Related Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Related Exchange if such option or futures contracts were traded at the Related Exchange.

Adjustments as well as the effective date shall be notified by the Issuer in accordance with § 12.

- (b) If the Certificates are called for redemption due to the occurrence of an Extraordinary Event, they shall be redeemed at the early redemption amount per Certificates (the "**Early Redemption Amount**") which shall be calculated by the Issuer in its reasonable discretion (§ 315 German Civil Code (*BGB*)). Such Early Redemption Amount shall be notified in accordance with § 12. The rights arising from the Certificates will terminate upon the payment of the Early Redemption Amount.

(2) "**Adjustment Event**" means:

- (a) any of the following actions taken by the issuer of the underlying Share (the "Company"): capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Company's reserves, issuance of securities with option or conversion rights related to the Share, distributions of extraordinary dividends, stock splits or any other split, consolidation or alteration of category;
- (b) a spin-off of a part of the Company in such a way that a new independent entity is formed, or that the spun-off part of the Company is absorbed by another entity;
- (c) the adjustment of option or futures contracts relating to the Share at the Related Exchange or the announcement of such adjustment; or
- (d) any other adjustment event being economically comparable to the before-mentioned events with regard to their effects.

(3) "**Extraordinary Event**" means any of the following events:

- (a) a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise, as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer;
- (b) the termination of trading in, or early settlement of, option or futures contracts relating to the Share at the Related Exchange or the announcement of such termination or early settlement;
- (c) the becoming known of the intention of the Company or of the Exchange to terminate the listing of the Share on the Exchange due to a merger by absorption or by creation, a change of legal form into a company without shares or any other reason or the

termination of the listing of the Share at the Exchange or the announcement of the Exchange that the listing of the Share at the Exchange will terminate immediately or at a later date and that the Share will not be admitted, traded or listed at any other exchange which is comparable to the Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;

- (d) the Issuer and/or its affiliates (§ 15 of the German Stock Corporation Act (AktG)) are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any transactions or investments that the Issuer considers necessary to hedge its risks resulting from the assumption and performance of its obligations under the Certificates or (ii) to realize, regain or transfer the proceeds resulting from such transactions or investments;
 - (e) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
 - (f) the application for insolvency proceedings or for comparable proceedings with regard to the assets of the Company according to the applicable law of the Company; or

If there is no options or futures exchange in the country in which the Company has its residence on which option or futures contracts on shares are traded, the Issuer will determine the Related Exchange in its reasonable discretion (§ 315 of the German Civil Code) and will make notification thereof in accordance with § 12.

- (3) If any payment with respect to a Certificate is to be effected on a day other than a Payment Business Day, payment shall be effected on the next following Payment Business Day. In this case, the relevant Certificateholder shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
- (4) All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives.
- (5) The Issuer may deposit with the Amtsgericht, Frankfurt am Main, payments not claimed by Certificateholders within 12 months after its respective due date, even though the respective Certificateholders may not be in default of acceptance. § 7 (TAXES)

All present and future taxes, fees or other duties in connection with the Certificates shall be borne and paid by the Certificateholders. The Issuer is entitled to withhold from payments to be made under the Certificates any taxes, fees and/or duties payable by the Certificateholder in accordance with the previous sentence.
