FINAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the General Conditions and the Product Conditions applicable to each Series of Securities described herein (the "relevant Product Conditions") as set forth in the Base Prospectus relating to Turbos dated 1 July 2011 (the "Base Prospectus") as supplemented from time to time which constitutes a base prospectus for the purposes of the Prospectus Directive (Directive 2003/71/EC) (the "Prospectus Directive"). This document constitutes the Final Terms of each Series of the Securities described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Base Prospectus as so supplemented. Full information on the Issuer and each Series of the Securities described herein is only available on the basis of the combination of these Final Terms and the Base Prospectus as so supplemented. The Base Prospectus as so supplemented is available for viewing at the office of the Issuer at 250 Bishopsgate, London EC2M 4AA, United Kingdom and copies may be obtained from the Issuer at that address.

These Final Terms relate to the Securities and must be read in conjunction with, and are subject to, the General Conditions and the relevant Product Conditions contained in the Base Prospectus as so supplemented. These Final Terms, the relevant Product Conditions and the General Conditions together constitute the Conditions of each Series of the Securities described herein and will be attached to the Global Certificate representing each such Series of the Securities. In the event of any inconsistency between these Final Terms and the General Conditions or the relevant Product Conditions, these Final Terms will govern.

The Netherlands Authority for the Financial Markets has provided the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin), Financial Market Authority (FMA), the Financial Services and Markets Authority (FSMA), Comisión Nacional del Mercado de Valores (CNMV), Comissão do Mercado de Valores Mobiliários (CMVM), Autorité des Marchés Financiers (AMF), Irish Financial Services Regulatory Authority (IFSRA), Commissione Nazionale per le Società e la Borsa (CONSOB), Commission de Surveillance du Secteur Financier (CSSF), Financial Services Authority (FSA), the Financial Supervisory Authority (FIN-FSA), the Danish Financial Services Authority (Finanstilsynet), the Swedish Financial Supervisory Authority and the Financial Supervisory Authority of Norway (Finanstilsynet) with a certificate of approval attesting that the Base Prospectus has been drawn up in accordance with the Prospectus Directive.

In respect of Securities to be listed on the SIX Swiss Exchange Ltd, the Programme, together with any Final Terms, will constitute the listing prospectus pursuant to the Listing Rules of the SIX Swiss Exchange Ltd.

INFORMATION ON THE UNDERLYING

Performance of Underlying/formula/ other variable, explanation of effect on value of investment and associated risks and other information concerning the Underlying:

General: Fluctuations in the value of the Underlying will have an effect on the value of the Securities throughout the life of the Securities and at maturity/expiration. The value of the Underlying may go down or up throughout the life of the Securities.

Positive Correlation: All other things being equal, positive performance of the Underlying will have a positive effect on the value of the Securities at maturity/expiration, and negative performance of the Underlying will have a negative effect on the value of the Securities at maturity/expiration.

Leverage: All other things being equal, positive or negative changes in the performance of the Underlying will have a proportionately larger effect on the value of the Securities, and therefore leverage has the potential to magnify gains or losses of the Securities.

No Capital Protection: All other things being equal, the value or performance of the Underlying will affect the value of the Securities at maturity/expiration, to such an extent that the value of the Securities at maturity/expiration may be zero.

Autocallable: If the value or performance of the Underlying on a specified date meets certain specified conditions, it will affect the value of the Securities, and will potentially lead to the automatic

termination of the Securities prior to its scheduled maturity/
expiration.

INFORMATION ON THE UNDERLYING

Performance of Underlying/formula/ other variable, explanation of effect on value of investment and associated risks and other information concerning the Underlying:

General: Fluctuations in the value of the Underlying will have an effect on the value of the Securities throughout the life of the Securities and at maturity/expiration. The value of the Underlying may go down or up throughout the life of the Securities.

Positive Correlation: All other things being equal, positive performance of the Underlying will have a positive effect on the value of the Securities at maturity/expiration, and negative performance of the Underlying will have a negative effect on the value of the Securities at maturity/expiration.

Entitlement Less Than 1: Any increase in the value or performance of the Underlying will have a lesser effect on the value of the Securities at maturity/expiration than would have been the case if the Securities had been exposed to one unit of the Underlying.

Leverage: All other things being equal, positive or negative changes in the performance of the Underlying will have a proportionately larger effect on the value of the Securities, and therefore leverage has the potential to magnify gains or losses of the Securities.

No Capital Protection: All other things being equal, the value or performance of the Underlying will affect the value of the Securities at maturity/expiration, to such an extent that the value of the Securities at maturity/expiration may be zero.

FX Adjustment: The value of the Securities at maturity/expiration will be affected both by the value or performance of the Underlying and by the performance of the relevant FX rate between the currency of the Underlying and the currency of the Securities.

Autocallable: If the value or performance of the Underlying on a specified date meets certain specified conditions, it will affect the value of the Securities, and will potentially lead to the automatic termination of the Securities prior to its scheduled maturity/expiration.

INFORMATION ON THE UNDERLYING

Performance of Underlying/formula/ other variable, explanation of effect on value of investment and associated risks and other information concerning the Underlying:

General: Fluctuations in the value of the Underlying will have an effect on the value of the Securities throughout the life of the Securities and at maturity/expiration. The value of the Underlying may go down or up throughout the life of the Securities.

Positive Correlation: All other things being equal, positive performance of the Underlying will have a positive effect on the value of the Securities at maturity/expiration, and negative performance of the Underlying will have a negative effect on the value of the Securities at maturity/expiration.

Leverage: All other things being equal, positive or negative changes in the performance of the Underlying will have a proportionately larger effect on the value of the Securities, and therefore leverage has the potential to magnify gains or losses of the Securities.

No Capital Protection: All other things being equal, the value or performance of the Underlying will affect the value of the Securities at maturity/expiration, to such an extent that the value of the Securities at maturity/expiration may be zero.

Autocallable: If the value or performance of the Underlying on a specified date meets certain specified conditions, it will affect the value of the Securities, and will potentially lead to the automatic termination of the Securities prior to its scheduled maturity/expiration.
