under the Global Structured Securities Programme

Issue Price: EUR 201,696.60 per Security

This document constitutes the final terms of the Certificates (the "**Final Terms**") described herein for the purposes of Article 5.4 of Directive 2003/71/EC (the "**Prospectus Directive**") and is prepared in connection with the Global Structured Securities Programme established by Barclays Bank PLC (the "**Bank**") and Barclays Capital (Cayman) Limited ("**BCCL**") and is supplemental to and should be read in conjunction with the Base Prospectus dated 5 August 2011, as supplemented and amended from time to time, which constitutes a base prospectus (the "**Base Prospectus**") for the purpose of the Prospectus Directive. Full information on the Issuer and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus is available for viewing during normal business hours at the registered office of the Issuer and the specified office of the Issue and Paying Agent for the time being in London, and copies may be obtained from such office. Words and expressions defined in the Base Prospectus and not defined in this document shall bear the same meanings when used herein.

The Issuer accepts responsibility for the information contained in these Final Terms. To the best of its knowledge and belief (having taken all reasonable care to ensure that such is the case) the information contained in these Final Terms is in accordance with the facts and does not contain anything likely to affect the import of such information.

Investors should refer to the sections headed "Risk Factors" in the Base Prospectus for a discussion of certain matters that should be considered when making a decision to invest in the Securities.

Barclays Capital

Final Terms dated 17 August 2011

The distribution of this document and the offer of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession these Final Terms come are required by the Bank to inform themselves about and to observe any such restrictions. Details of selling restrictions for various jurisdictions are set out in "Purchase and Sale" in the Base Prospectus. In particular, the Securities have not been, and will not be, registered under the US Securities Act of 1933, as amended. Trading in the Securities has not been approved by the US Commodity Futures Trading Commission under the US Commodity Exchange Act of 1936, as amended. Subject to certain exceptions, the Securities may not at any time be offered, sold or delivered in the United States or to US persons, nor may any US persons at any time trade or maintain a position in such Securities.

8 PERFORMANCE OF REFERENCE ASSET(S) OR OTHER VARIABLE, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE REFERENCE ASSET(S) AND/OR OTHER UNDERLYING

Details of the historic performance of the Reference Asset can be obtained from various internationally recognised published or electronically available news sources, for example, Bloomberg: BXIIQVET .

Investors should note that historical performance should not be taken as an indication of future performance of the Reference Asset. The Issuer makes no representation whatsoever, whether expressly or impliedly, as to the future performance of the Reference Asset. The Issuer does not intend to provide post-issuance information.

Investors should form their own views on the merits of an investment related to the Reference Asset based on their own investigation thereof.

The description below represents a summary only of some of the features of the investment product described in this Final Terms. It does not purport to be an exhaustive description.

The product is issued as open-ended Certificates in EUR and aims to track the price performance of the Reference Asset. The Certificates are redeemable annually by investors and daily by the Issuer in accordance with the terms set out above. The amount payable on redemption of the Certificates is determined by reference to the price of the Reference Asset on the Valuation Date taking into account the accumulated management fee and the Security Ratio.

Investors should note that fees and costs (“**Index Charges**”) are charged by the Index Sponsor for the management of the Index. The Index Charges are taken into account in the calculation of the Index by the Index Sponsor and the Index is published net of these charges. The Index Charges are in addition to the Management Fee of the Certificate and are set out in the section titled “Index Fees and Costs” below and are available on request from the Issuer.

Barclays Capital Q-Voltas Index Family

The Barclays Capital VOLTAS Index Family is a set of investable indices reflecting the performance of the Barclays Capital Q-VOLatility Term structure Arbitrage Strategy (the “Q-VOLTAS Strategy” or the “Strategy”) when applied to different Underlying Market Indices.

The Q-VOLTAS Strategy aims to capture the premium in the implied volatility term structure in all market conditions. The Strategy shifts between the Carry and Reverse Carry position based on an algorithmic signal. The Strategy attempts to capture and is implemented through short-term futures index (the “Short-Term Index”) and mid-term rolling futures index (the “Mid-Term Index”) on the Volatility Index of the Underlying Market Index.

In normal market conditions, the implied volatility term structure is in contango, or upward sloping and the Strategy. The strategy captures the term structure premium through a short position in the Short-Term Index and a long position in the Mid-Term Index. This is the Carry Position. The Mid-Term Index acts as a hedge against movements in spot volatility because of lower roll costs at the back-end of the curve than at the front-end. As the short-end of the volatility term structure is more sensitive to changes in implied volatility than the long-end, the position is run vega-neutral through a 65.8 per cent. exposure to the Mid-Term Index and a -34.2 per cent. exposure to the Short-Term Index.

The Strategy monitors the slope of the implied volatility term structure on a daily basis. Whenever the term structure slope decreases significantly, the Strategy changes the exposure to 34.2 per cent. long the Short-Term Index and 65.8 per cent. short the Mid-Term Index. This is the Reverse Carry Position. When the slope of the implied volatility term structure starts increasing again, the Strategy shifts back to the Carry Position.

The excess return version of the Index is calculated by taking the returns of the excess return Short-Term and Mid-Term Indices and multiplying by the exposure. The total return version of the Index is calculated by adding the Index Currency risk-free rates (the “Cash Rate”) to the excess return version of the Index.

The Index is calculated net of 1 per cent. p.a. costs and 1 per cent. p.a. management fees.

Barclays Capital, the investment banking division of Barclays Bank PLC, is the Index Sponsor and is responsible for selecting the index components in accordance with the methodology that forms the basis of the Index, as amended from time to time.

A daily level for the Index will be calculated by the Index Sponsor. The index value will be published by the Index Sponsor as soon as reasonably possible on each index business day, subject to the occurrence of an index disrupted day. The relevant provisions shall be read *mutatis mutandis*.
