## Commenting on the results, Chairman and CEO Christophe de Margerie said :

«Total reported adjusted net income of 2.8 billion euros for the third quarter, stable compared to the second quarter, despite a slightly weaker environment. The Group benefited from improved operational performance in refining and confirmed the solid profitability of its operations, mainly driven by the Upstream.

The successful start-up of Pazflor in Angola, one of the largest deep-offshore oil facilities ever built, shows once again Total's expertise in operating technologically complex major projects. Pazflor is the first of many major start-ups that will ensure our growth over the coming years.

Also during the third quarter, our new, bolder exploration strategy paid off with three major discoveries in Azerbaijan, French Guyana and Norway. Over the coming quarters, we will continue to pursue this strategy with an active and promising exploration program.

Finally, the Group demonstrated its new dynamic by recently announcing an ambitious reorganization project for the Downstream-Chemicals ${ }^{3}$. This new organization is centered around two main competencies, one industrial and the other commercial, and will make our existing operations more competitive as well as improve the outlook for profitable growth. »

Adjusted net operating income from the Upstream segment was $2,323 \mathrm{M} €$ in the third quarter 2011 compared to $2,123 \mathrm{M} €$ in the third quarter 2010, an increase of $9 \%$.

Expressed in dollars, the increase is $20 \%$ and reflects mainly the impact of higher hydrocarbon prices.

The effective tax rate for the Upstream segment was $63.9 \%$ compared to $59.5 \%$ in the third quarter 2010, essentially due to higher hydrocarbon prices, mix effects and an increase in UK petroleum taxes.

Adjusted net operating income from the Upstream segment in the first nine months of 2011 was $7,629 \mathrm{M} €$ compared to $6,297 \mathrm{M} €$ for the same period last year, an increase of $21 \%$. Expressed in dollars, adjusted net operating income from the Upstream segment was $10.7 \mathrm{~B} \$$, an increase of $30 \%$ compared to the first nine months of 2010, essentially due to the impact of higher hydrocarbon prices.

The return on average capital employed ( $\mathrm{ROACE}^{24}$ ) for the Upstream segment was 21\%, for the twelve months ended September 30, 2011, stable compared to the twelve months ended June 30, 2011, and to the full year 2010.

The annualized third quarter 2011 ROACE for the Upstream segment was 19\%.

** based on distillation capacity at the beginning of the year.

In the third quarter 2011, refinery throughput decreased by 7\% compared to the third quarter 2010 and increased by 4\% compared to the second quarter 2011. The decrease compared to the third quarter 2010 was mainly due to the sale of interests in CEPSA and to the higher level of turnarounds (Antwerp, Port Arthur) than in the previous year.

In the first nine months of 2011, refinery throughput decreased by 7\% compared to the same period last year, reflecting essentially a higher level of turnarounds in 2011 and work on the Lindsey refinery.

The European refining margin indicator (ERMI) averaged $13.4 \$ / t$ in the third quarter 2011, a decrease of $18 \%$ compared to the third quarter 2010. In the first nine months of 2011, the ERMI averaged 18.1 \$/t, a decrease of $30 \%$ compared to the same period in 2010.

Adjusted net operating income from the Downstream segment was $388 \mathrm{M} €$ in the third quarter 2011, an increase of 47\% compared to the third quarter 2010.
Expressed in dollars, adjusted net operating income from the Downstream segment was $548 \mathrm{M} \$$, an increase of $61 \%$, despite an environment that remained difficult, due in particular to improved operational performance in refining in the third quarter 2011, as well as more favorable conditions for supply optimization.

In the first nine months of 2011, adjusted net operating income from the Downstream segment was $861 \mathrm{M} €$, a decrease of $5 \%$ compared to the same period last year.

Expressed in dollars, adjusted net operating income from the Downstream segment was 1.2 $\mathrm{B} \$$ in the first nine months of 2011 , an increase of $2 \%$ compared to the first nine months of 2010.

The ROACE ${ }^{25}$ for the Downstream segment was $8 \%$ for the twelve months ended September 30, 2011, compared to $6 \%$ for the twelve months ended June 30, 2011, and 8\% for the full year 2010.

The annualized third quarter 2011 ROACE for the Downstream segment was 11\%.

In the third quarter 2011, the environment remained globally favorable for specialty chemicals but deteriorated for petrochemicals due to softer demand.

Sales for the Chemicals segment were $4.7 \mathrm{~B} €$ in the third quarter 2011.
The adjusted net operating income for the Chemicals segment was $239 \mathrm{M} €$ in the third quarter 2011, a decrease of $7 \%$ compared to the third quarter 2010. The impact of lower petrochemical margins in Europe and the US was offset mainly by stronger results from Qatar and South Korea. The slight decrease in specialty chemical results was mainly due to the sale of part of the resins activities at the beginning of the quarter.

In the first nine months of 2011, adjusted net operating income for the Chemicals segment was $724 \mathrm{M} €$ compared to $687 \mathrm{M} €$ for the same period last year, an increase of $5 \%$.

The ROACE ${ }^{26}$ for the Chemicals segment was $12 \%$ for the twelve months ended September 30, 2011, stable compared to the twelve months ended June 30, 2011, and to the full year 2010.

The annualized third quarter 2011 ROACE for the Chemicals segment was $13 \%$.

[^8]The ROACE for the Group for the twelve months ended September 30, 2011, was $17 \%$ compared to $16 \%$ for the twelve months ended June 30, 2011, and $16 \%$ for the full year 2010.
The annualized third quarter 2011 ROACE for the Group was $16 \%$.
Return on equity for the twelve months ended September 30, 2011, was 19\%.
Investments excluding acquisitions ${ }^{27}$ were 13.5 B\$ in the first nine months of 2011, in line with the budget.

The net-debt-to-equity ratio as of September 30, 2011, was $15.2 \%$ compared to $24.3 \%$ at the end of the second quarter 2011. Supported by its strong results, the Group's net-debt-to-equity ratio is expected to be in the lower end of its 20-30\% range at year-end 2011.

Pursuant to the October 27, 2011, decision by the Board of Directors, Total will pay the third quarter interim dividend of $€ 0.57$ per share on March 22, $2012^{28}$.

In the fourth quarter 2011, the production ramp-up from the Pazflor field in Angola and the progressive recovery of production in Libya are expected to be partially offset by turnarounds at Snovhit and Yemen LNG.

Pending partner approvals, Total expects to launch in the coming months a series of major new projects, including Ofon 2 and Egina in Nigeria, Ichthys in Australia, and Tempa Rossa in Italy. Launching the Shtokman project in Russia remains contingent on an improvement in the fiscal regime and the agreement of the partners.

Total is in the notification / consultation process with labor representatives for the project to reorganize the Downstream and Chemicals segments that should allow the company to put in place a dynamic and more competitive organization at the start of 2012.

The Group begins the fourth quarter confident in an environment where conditions remain favorable for the Upstream and refining margins are slightly improved.

[^9]The September 30, 2011 notes to the consolidated financial statements are available on the Total web site (www.total.com).This document may contain forward-looking statements, including within the meaning of the Private Securities Litigation Reform Act of 1995, notably with respect to the financial condition, results of operations, business, strategy and plans of TOTAL.
Such statements are based on a number of assumptions that could ultimately prove inaccurate, and are subject to a number of risk factors, including currency fluctuations, the price of petroleum products, the ability to realize cost reductions and operating efficiencies without unduly disrupting business operations, environmental regulatory considerations and general economic and business conditions. Neither TOTAL nor any of its subsidiaries assumes any obligation to update publicly any forward-looking statement, whether as a result of new information, future events or otherwise. Further information on factors which could affect the company's financial results is provided in documents filed by the Group with the French Autorité des Marchés Financiers and the U.S. Securities and Exchange Commission ("SEC").

Financial information by business segment is reported in accordance with the internal reporting system and shows internal segment information that is used to manage and measure the performance of TOTAL.
Performance indicators excluding the adjustment items, such as adjusted operating income, adjusted net operating income, and adjusted net income are meant to facilitate the analysis of the financial performance and the comparison of income between periods.
Adjustment items include:

## (i) Special items

Due to their unusual nature or particular significance, certain transactions qualified as "special items" are excluded from the business segment figures. In general, special items relate to transactions that are significant, infrequent or unusual. However, in certain instances, transactions such as restructuring costs or asset disposals, which are not considered to be representative of the normal course of business, may be qualified as special items although they may have occurred within prior years or are likely to occur again within the coming years.
(ii) Inventory valuation effect

The adjusted results of the Downstream and Chemicals segments are presented according to the replacement cost method. This method is used to assess the segments' performance and facilitate the comparability of the segments' performance with those of its competitors.
In the replacement cost method, which approximates the LIFO (Last-In, First-Out) method, the variation of inventory values in the statement of income is, depending on the nature of the inventory, determined using either the month-end prices differential between one period and another or the average prices of the period rather than the historical value. The inventory valuation effect is the difference between the results according to the FIFO (First-In, First-Out) and the replacement cost.
(iii) Effect of changes in fair value

As from January 1, 2011, the effect of changes in fair value presented as an adjustment item reflects for some transactions differences between internal measures of performance used by TOTAL's management and the accounting for these transactions under IFRS.
IFRS requires that trading inventories be recorded at their fair value using period-end spot prices. In order to best reflect the management of economic exposure through derivative transactions, internal indicators used to measure performance include valuations of trading inventories based on forward prices.
Furthermore, TOTAL, in its trading activities, enters into storage contracts, which future effects are recorded at fair value in Group's internal economic performance. IFRS precludes recognition of this fair value effect.
(iv) Until June 30, 2010, TOTAL's equity share of adjustment items reconciling "Business net income" to Net income attributable to equity holders of Sanofi
The adjusted results (adjusted operating income, adjusted net operating income, adjusted net income) are defined as replacement cost results, adjusted for special items, excluding the effect of changes in fair value as from January 1 ${ }^{\text {st }}, 2011$ and excluding TOTAL's equity share of adjustment items related to Sanofi until June 30, 2010.

Dollar amounts presented herein represent euro amounts converted at the average euro-dollar exchange rate for the applicable period and are not the result of financial statements prepared in dollars.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE FIRST NINE MONTHS OF 2011 

(unaudited)

## 1) Accounting policies

## > Accounting policies applicable in 2011

The interim consolidated financial statements of TOTAL S.A. and its subsidiaries (the Group) as of September 30, 2011 are presented in Euros and have been prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting". The accounting policies applied for the consolidated financial statements as of September 30, 2011 do not differ significantly from those applied for the consolidated financial statements as of December 31, 2010 which have been prepared on the basis of IFRS (International Financial Reporting Standards) as adopted by the European Union and IFRS as issued by the IASB (International Accounting Standard Board). The new accounting standards and amendments mandatory for the annual period beginning January 1, 2011 are described in Note 1W to the consolidated financial statements as of December 31, 2010 and have no material effect on the Group's consolidated financial statements for the first nine months of 2011.

The preparation of financial statements in accordance with IFRS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of preparation of the financial statements and reported income and expenses for the period. The management reviews these estimates and assumptions on an ongoing basis, by reference to past experience and various other factors considered as reasonable which form the basis for assessing the carrying amount of assets and liabilities. Actual results may differ significantly from these estimates, if different assumptions or circumstances apply. These judgments and estimates relate principally to the application of the successful efforts method for the oil and gas accounting, the valuation of long-lived assets, the provisions for asset retirement obligations and environmental remediation, the pensions and post-retirement benefits and the income tax computation. These estimates and assumptions are described in the Notes to the consolidated financial statements as of December 31, 2010.

Furthermore, when the accounting treatment of a specific transaction is not addressed by any accounting standard or interpretation, the management applies its judgment to define and apply accounting policies that will lead to relevant and reliable information, so that the financial statements:

- give a true and fair view of the Group's financial position, financial performance and cash flows;
- reflect the substance of transactions;
- are neutral;
- are prepared on a prudent basis; and
- are complete in all material aspects.

Pursuant to the accrual basis of accounting followed by the Group, the financial statements reflect the effects of transactions and other events when they occur. Assets and liabilities such as property, plant and equipment and intangible assets are usually measured at amortized cost. Financial assets and liabilities are usually measured at fair value.

## > Accounting policies not yet applicable

In May 2011, the IASB issued a package of standards on consolidation : standard IFRS 10 "Consolidated financial statements", standard IFRS 11 "Joint arrangements", standard IFRS 12 "Disclosure of interests in other entities", revised standard IAS 27 "Separate financial statements" and revised standard IAS 28 "Investments in associates and joint ventures". These standards are applicable for annual periods beginning on or after January 1, 2013.
In June 2011, the IASB issued revised standard IAS 19 "Employee benefits", which leads in particular to the full recognition of the net position in respect of employee benefits obligations (liabilities net of assets) in the balance sheet and the elimination of the corridor approach currently used by the Group. This standard is applicable for annual periods beginning on or after January 1, 2013.
In addition, the IASB published in May 2011 standard IFRS 13 "Fair value measurement", applicable for annual periods beginning on or after January 1, 2013, and in June 2011 revised standard IAS 1 "Presentation of financial statements", applicable for annual periods beginning on or after July 1, 2012.

The impact of the application of these standards is currently assessed by the Group.

## 2) Changes in the Group structure, main acquisitions and divestments

## > Upstream

- TOTAL finalized in March 2011 the acquisition from Santos of an additional 7.5\% interest in Australia's GLNG project. This increases TOTAL's overall stake in the project to 27.5\%.
The acquisition cost amounts to $€ 200$ million ( $\$ 281$ million) and mainly corresponds to the value of mineral interests that have been recognized as intangible assets on the face of the consolidated balance sheet for €217 million.
- In March 2011, Total E\&P Canada Ltd., a TOTAL subsidiary, and Suncor Energy Inc. (Suncor) have finalized a strategic oil sands alliance encompassing the Suncor-operated Fort Hills mining project, the TOTAL-operated Joslyn mining project and the Suncor-operated Voyageur upgrader project. All three assets are located in the Athabasca region of the province of Alberta, in Canada.

TOTAL acquired 19.2\% of Suncor's interest in the Fort Hills project, increasing TOTAL's overall interest in the project to $39.2 \%$. Suncor, as operator, holds $40.8 \%$. TOTAL also acquired a $49 \%$ stake in the Suncoroperated Voyageur upgrader project. For those two acquisitions, the Group paid €1,939 million (CAD 2,666 million) mainly representing the value of intangible assets for $€ 445$ million and the value of tangible assets for €1,453 million.
Furthermore, TOTAL sold to Suncor $36.75 \%$ interest in the Joslyn project for €612 million (CAD 842 million), and received the cash payment in April 2011. The Group, as operator, retains a 38.25\% interest in the project.

- TOTAL finalized in April 2011 the sale of its $75.8 \%$ interest in its upstream Cameroonian affiliate Total E\&P Cameroun to Perenco, for an amount of $€ 173$ million ( $\$ 254$ million), net of cash sold.
- TOTAL and the Russian company Novatek signed in March 2011 two Memorandums of Cooperation to develop the cooperation between TOTAL on one side, and Novatek and its main shareholders on the other side.
This cooperation is developed around two transactions:
- TOTAL took a 12.09\% shareholding in Novatek. This transaction has been effective since April 1, 2011 and amounted to $€ 2,901$ million ( $\$ 4,108$ million). TOTAL considers that it has a significant influence through its representation on the Board of Directors of Novatek and its participation in the Yamal LNG project. Therefore, the interest in Novatek is accounted for by the equity method as from the second quarter 2011.
- In October 2011, TOTAL became the main international partner on the Yamal LNG project holding a $20 \%$ share, and Novatek still holds a $51 \%$ interest in the project.
- After the all-cash tender of $\$ 23.25$ per share launched on April 28, 2011 and completed on June 21, 2011, TOTAL has acquired a $60 \%$ stake in SunPower Corp., a U.S. company listed on the Nasdaq with headquarters in San Jose (California), one of the most established players in the American solar industry. Shares of SunPower Corp. continue to be traded on the Nasdaq.
The acquisition cost, whose cash payment occurred on June 21, 2011, amounts to €974 million (\$1,394 million). In accordance with revised IFRS 3, TOTAL is currently assessing the fair value of identifiable acquired assets, liabilities and contingent liabilities. Based on available information, provisional fair value of net assets acquired at $100 \%$ amounts to $\$ 1,540$ million.

Given the estimated fair value of instruments that are likely to confer rights to minority interests, provisional goodwill amounts to $\$ 532$ million. This goodwill must be allocated within twelve months from the acquisition date.

Provisional allocation of fair value by main categories of assets and liabilities is as follows:

|  | Fair value at <br> acquisition date |
| :--- | :---: |
| (M\$) | 476 |
| Intangible assets | 589 |
| Tangible assets | $(427)$ |
| Net debt | 902 |
| Other capital employed | $\mathbf{1 , 5 4 0}$ |
| Net assets of SunPower (100\%) as of June 21, 2011 |  |

Acquisition-related costs recognized in the statement of income for the first nine months of 2011 amounts to $€ 9$ million.

As part of the transaction, various agreements were signed, including a financial guarantee agreement through which TOTAL guarantees up to $\$ 1$ billion SunPower's repayment obligations under letters of credit that would be issued during the next five years for the development of solar power plants and large roofs activities. Furthermore, the contractual obligations of SunPower are now included in TOTAL's notes to the consolidated financial statements. As of December 31, 2010, these obligations mainly included purchase commitments for $\$ 4.3$ billion.

- TOTAL finalized in July 2011 the sale of $10 \%$ of its interest in the Colombian pipeline OCENSA. The Group still holds a $5.2 \%$ interest in this asset.
- TOTAL finalized in September 2011 the acquisition of Esso Italiana's interests respectively in the Gorgoglione concession ( $25 \%$ interest), which contains the Tempa Rossa field, and in two exploration licenses located in the same area ( $51.7 \%$ for each one). The acquisition increases TOTAL's interest in the operated Tempa Rossa field to $75 \%$.

## > Downstream

- TOTAL and International Petroleum Investment Company (a company wholly-owned by the Government of Abu Dhabi) entered into an agreement on February 15, 2011 for the sale, to International Petroleum Investment Company (IPIC), of the 48.83\% equity interest held by TOTAL in the share capital of CEPSA, to be completed within the framework of a public tender offer being launched by IPIC for all of the CEPSA shares not yet held by IPIC, at a unit purchase price of $€ 28$ per CEPSA share. TOTAL sold to IPIC all of its equity interest in CEPSA and received, as of July 29, 2011, an amount of $€ 3,659$ million.

## > Chemicals

- TOTAL finalized in July 2011 the sale of its photocure and coatings resins businesses to Arkema for an amount of $€ 520$ million, net of cash sold.

## 3) Adjustment items

Financial information by business segment is reported in accordance with the internal reporting system and shows internal segment information that is used to manage and measure the performance of TOTAL.

Performance indicators excluding the adjustment items, such as adjusted operating income, adjusted net operating income, and adjusted net income are meant to facilitate the analysis of the financial performance and the comparison of income between periods.

Adjustment items include:
(i) Special items

Due to their unusual nature or particular significance, certain transactions qualified as "special items" are excluded from the business segment figures. In general, special items relate to transactions that are significant, infrequent or unusual. However, in certain instances, transactions such as restructuring costs or asset disposals, which are not considered to be representative of the normal course of business, may be qualified as special items although they may have occurred within prior years or are likely to occur again within the coming years.

## (ii) Inventory valuation effect

The adjusted results of the Downstream and Chemicals segments are presented according to the replacement cost method. This method is used to assess the segments' performance and facilitate the comparability of the segments' performance with those of its competitors.
In the replacement cost method, which approximates the LIFO (Last-In, First-Out) method, the variation of inventory values in the statement of income is, depending on the nature of the inventory, determined using either the month-end prices differential between one period and another or the average prices of the period rather than the historical value. The inventory valuation effect is the difference between the results according to the FIFO (First-In, First-Out) and the replacement cost.
(iii) Effect of changes in fair value

As from January 1, 2011, the effect of changes in fair value presented as adjustment item reflects for some transactions differences between internal measure of performance used by TOTAL's management and the accounting for these transactions under IFRS.

IFRS requires that trading inventories be recorded at their fair value using period-end spot prices. In order to best reflect the management of economic exposure through derivative transactions, internal indicators used to measure performance include valuations of trading inventories based on forward prices.
Furthermore, TOTAL, in its trading activities, enters into storage contracts, which future effects are recorded at fair value in Group's internal economic performance. IFRS precludes recognition of this fair value effect.
(iv) Until June 30, 2010, TOTAL's equity share of adjustment items reconciling "Business net income" to Net income attributable to equity holders of Sanofi

The adjusted results (adjusted operating income, adjusted net operating income, adjusted net income) are defined as replacement cost results, adjusted for special items, excluding the effect of changes in fair value as from January 1, 2011 and excluding TOTAL's equity share of adjustment items related to Sanofi until June 30, 2010.

The detail of the adjustment items is presented in the table below.

In the first nine months of 2011, the heading "Other items" includes the impact of the change in taxation in the United Kingdom on the deferred tax liability for $€(178)$ million. The House of Commons voted the increase of the Supplementary charge applicable to oil activities from $20 \%$ to $32 \%$, within the framework of the Finance Act 2011 enacted July 19, 2011.

Furthermore, since 1966, the Group has been taxed in accordance with the consolidated income tax treatment approved on a three-year renewable basis by the French Ministry of Economy, Finance and Industry. The approval for the period 2008-2010 expired on December 31, 2010 and in July 2011, TOTAL S.A. announced that it took the decision not to ask for the renewal of this agreement.

As a consequence, TOTAL S.A. is taxed in accordance with the French common tax regime as from 2011. The exit from the consolidated income tax treatment has no significant impact, neither on the Group's financial situation nor on the consolidated results.

## 4) Shareholders' equity

## Treasury shares (TOTAL shares held by TOTAL S.A.)

As of September 30, 2011, TOTAL S.A. held $9,225,377$ of its own shares, representing $0.39 \%$ of its share capital, detailed as follows:

- $6,712,528$ shares allocated to TOTAL restricted shares plans for Group employees; and
- $2,512,849$ shares intended to be allocated to new TOTAL share purchase option plans or to new restricted shares plans.
These $9,225,377$ shares are deducted from the consolidated shareholders' equity.

## Treasury shares (TOTAL shares held by Group subsidiaries)

As of September 30, 2011, TOTAL S.A. held indirectly through its subsidiaries $100,331,268$ of its own shares, representing $4.24 \%$ of its share capital, detailed as follows:

- 2,023,672 shares held by a consolidated subsidiary, Total Nucléaire, $100 \%$ indirectly held by TOTAL S.A.;
- $98,307,596$ shares held by subsidiaries of Elf Aquitaine (Financière Valorgest, Sogapar and Fingestval). These 100,331,268 shares are deducted from the consolidated shareholders' equity.

## Dividend

The Board of Directors of October 28, 2010 decided to pay interim dividends on a quarterly basis beginning in fiscal year 2011. The interim dividend of $€ 0.57$ per share for the first quarter 2011, approved by the Board of Directors of April 28, 2011, was paid on September 22, 2011.
The Board of Directors of July 28, 2011 and the one of October 27, 2011 approved interim dividends of $€ 0.57$ per share for the second quarter 2011 and $€ 0.57$ per share for the third quarter 2011, that will be paid on December 22, 2011 (ex-dividend date will be December 19, 2011) and March 22, 2012 (ex-dividend date will be March 19, 2012), respectively.

## Other Comprehensive Income

Detail of other comprehensive income showing items reclassified from equity to net income is presented in the table below:

## Currency translation adjustment

## 5) Financial debt

The Group issued bonds, mainly through its subsidiaries Total Capital and Total Capital Canada Ltd. During the first nine months of 2011, both subsidiaries issued bonds as follows:

- Bond 6.500\% 2011-2016 (150 million AUD)
- Bond 3.875\% 2011-2018 (500 million GBP)
- Bond 4.125\% 2011-2021 (500 million USD)
- Bond 1.625\% 2011-2014 (750 million USD)
- Bond Libor USD 3 months + 0.380\% 2011-2014 (750 million USD)
- Bond 5.750\% 2011-2014 (100 million AUD)
- Bond Libor USD 3 months + 0.09\% 2011-2013 (1,000 million USD)
- Bond 4.000\% 2011-2016 (600 million NOK)
- Bond 3.625\% 2011-2016 (600 million SEK)

The Group reimbursed bonds during the first nine months of 2011:

- Bond 5.750\% 2005-2011 (100 million AUD)
- Bond 4.000\% 2005-2011 (100 million CAD)
- Bond 5.750\% 2004-2011 (100 million AUD)
- Bond 7.500\% 2008-2011 (150 million AUD)
- Bond 4.875\% 2004-2011 (200 million CAD)
- Bond 1.625\% 2005-2011 ( 550 million CHF)
- Bond 3.875\% 2006-2011 (1,400 million EUR)
- Bond Euribor 3 months + 0.04\% 2006-2011 (42 million EUR)
- Bond JPY Libor + 0.15\% 2008-2011 (10,000 million JPY)
- Bond 3.750\% 2008-2011 (150 million USD)

In the context of its active cash management, the Group may temporarily increase its current borrowings, particularly in the form of commercial paper. The changes in current borrowings, cash and cash equivalents and current financial assets resulting from this cash management in the quarterly financial statements are not necessarily representative of a longer-term position.

## 6) Related parties

The related parties are principally equity affiliates and non-consolidated investments. There were no major changes concerning transactions with related parties during the first nine months of 2011.

## 7) Other risks and contingent liabilities

TOTAL is not currently aware of any exceptional event, dispute, risks or contingent liabilities that could have a material impact on the assets and liabilities, results, financial position or operations of the Group.

## Antitrust investigations

During the third quarter of 2011, the Group has not been fined pursuant to a Court ruling. The principal antitrust proceedings in which the Group's companies are involved are described thereafter.

## Chemicals segment

- As part of the spin-off of Arkema ${ }^{1}$ in 2006, TOTAL S.A. or certain other Group companies agreed to grant Arkema guarantees for potential monetary consequences related to antitrust proceedings arising from events prior to the spin-off.
These guarantees cover, for a period of ten years, $90 \%$ of amounts paid by Arkema related to (i) fines imposed by European authorities or European member-states for competition law violations, (ii) fines imposed by U.S. courts or antitrust authorities for federal antitrust violations or violations of the competition laws of U.S. states, (iii) damages awarded in civil proceedings related to the government proceedings mentioned above, and (iv) certain costs related to these proceedings. The guarantee related to anti-competition violations in Europe applies to amounts above a $€ 176.5$ million threshold. On the other hand, the agreements provide that Arkema will indemnify TOTAL S.A. or any Group company for $10 \%$ of any amount that TOTAL S.A. or any Group company are required to pay under any of the proceedings covered by these guarantees.
If one or more individuals or legal entities, acting alone or together, directly or indirectly holds more than onethird of the voting rights of Arkema, or if Arkema transfers more than $50 \%$ of its assets (as calculated under the enterprise valuation method, as of the date of the transfer) to a third party or parties acting together, irrespective of the type or number of transfers, these guarantees will become void.
- In the United States, investigations into certain commercial practices of some subsidiaries of the Arkema group have been closed since 2007; no charges have been brought against Arkema. Civil liability lawsuits, for which TOTAL S.A. has been named as the parent company, are about to be closed and are not expected to have a significant impact on the Group's financial position.
- In Europe, since 2006, the European Commission has fined companies of the Group in its configuration prior to the spin-off an overall amount of $€ 385.47$ million, of which Elf Aquitaine and/or TOTAL S.A. were held jointly liable for $€ 280.17$ million, Elf Aquitaine being personally fined $€ 23.6$ million for deterrence. These fines are entirely settled as of today.
As a result, since the spin-off, the Group has paid the overall amount of $€ 188.07$ million $^{2}$, corresponding to $90 \%$ of the fines overall amount once the threshold provided for by the guarantee is deducted.

The European Commission imposed these fines following investigations between 2000 and 2004 into commercial practices involving eight products sold by Arkema. Five of these investigations resulted in prosecutions from the European Commission for which Elf Aquitaine has been named as the parent company, and two of these investigations named TOTAL S.A. as the ultimate parent company of the Group.

TOTAL S.A. and Elf Aquitaine are contesting their liability based solely on their status as parent companies and appealed for cancellation and reformation of the rulings that are still pending before the relevant EU court of appeals or supreme court of appeals. Within the framework of one of these proceedings, the General Court of the European Union, in a decision dated June 7, 2011, partially accepted Arkema's appeal, reducing the fine pronounced against it by the amount of $€ 105.79$ million. On the same day, the General Court rejected the appeal lodged by TOTAL S.A. and Elf Aquitaine. An appeal has been lodged by the parent companies against this decision during the third quarter of 2011. Considering the parent companies remain liable for Arkema's infringement, the European Commission demanded the payment of $€ 105.79$ million (plus interest of $€ 31.31$ million). Elf Aquitaine paid these amounts in July 2011 and lodged an appeal against this recovery.
On September 29, 2011, in another proceeding, the supreme court of the European Union has squashed the European Commission's decision of January 19, 2005, as well as the decision of the General Court of the European Union of September 30, 2009, stating Elf Aquitaine's liability, but confirmed the decision vis-à-vis Arkema. Due to the guarantees that benefit to Arkema, this favorable decision has no financial impact for the Group.

[^14]Besides, civil proceedings against Arkema and other groups of companies were initiated before German and Dutch courts by third parties for alleged damages pursuant to two of the above mentioned legal proceedings engaged by the European Commission. TOTAL S.A. was summoned to serve notice of the dispute before the German court. At this point, the probability to have a favorable verdict and the financial impacts of these procedures are uncertain due to the number of legal difficulties they gave rise to, the lack of documented claims and evaluations of the alleged damages.

Arkema began implementing compliance procedures in 2001 that are designed to prevent its employees from violating antitrust provisions. However, it is not possible to exclude the possibility that the relevant authorities could commence additional proceedings involving Arkema regarding events prior to the spin-off, as well as Elf Aquitaine and/or TOTAL S.A. based on their status as parent company.
Within the framework of the legal proceedings described above, a $€ 17$ million reserve remains booked in the Group's consolidated financial statements as of September 30, 2011.

## Downstream segment

- Pursuant to a statement of objections received by Total Nederland N.V. and TOTAL S.A. (based on its status as parent company) from the European Commission, Total Nederland N.V. was fined in 2006 € 20.25 million, for which TOTAL S.A. was held jointly liable for $€ 13.5$ million. TOTAL S.A. appealed this decision before the relevant court and this appeal is still pending. Within the framework of this legal proceeding, a $€ 24$ million reserve is booked in the Group's consolidated financial statements as of September 30, 2011.
In addition, pursuant to a statement of objections received by Total Raffinage Marketing (formerly Total France) and TOTAL S.A. from the European Commission regarding another product line of the Refining \& Marketing division, Total Raffinage Marketing was fined $€ 128.2$ million in 2008, which has been paid, and for which TOTAL S.A. was held jointly liable based on its status as parent company. TOTAL S.A. also appealed this decision before the relevant court and this appeal is still pending.
- Finally, TotalGaz and Total Raffinage Marketing received a statement of objections in July 2009 from the French Antitrust Authority (Autorité de la concurrence française) regarding alleged antitrust practices concerning another product line of the Refining \& Marketing division. The case was dismissed by decision of the French antitrust authorities on December 17, 2010.

Whatever the evolution of the investigations and proceedings described above, the Group believes that their outcome should not have a material adverse effect on the Group's financial situation or consolidated results.

## Buncefield

On December 11, 2005, several explosions, followed by a major fire, occurred at an oil storage depot at Buncefield, north of London. This depot was operated by Hertfordshire Oil Storage Limited (HOSL), a company in which TOTAL's UK subsidiary holds 60\% and another oil group holds 40\%.
The explosion caused injuries, most of which were minor injuries, to a number of people and caused property damage to the depot and the buildings and homes located nearby. The official Independent Investigation Board has indicated that the explosion was caused by the overflow of a tank at the depot. The Board's final report was released on December 11, 2008. The civil procedure for claims, which had not yet been settled, took place between October and December 2008. The Court's decision of March 20, 2009, declared TOTAL's UK subsidiary liable for the accident and solely liable for indemnifying the victims. The subsidiary appealed the decision. The appeal trial took place in January 2010. The Court of Appeals, by a decision handed down on March 4, 2010, confirmed the prior judgment. The Supreme Court of United Kingdom has partially authorized TOTAL's UK subsidiary to contest the decision. TOTAL's UK subsidiary finally decided to withdraw from this recourse following settlement agreements reached in mid-February 2011.
The Group carries insurance for damage to its interests in these facilities, business interruption and civil liability claims from third parties. The provision for the civil liability that appears in the Group's consolidated financial statements as of September 30, 2011, stands at $€ 81$ million after taking into account the payments previously made.
The Group believes that, based on the information currently available, on a reasonable estimate of its liability and on provisions recognized, this accident should not have a significant impact on the Group's financial situation or consolidated results.

In addition, on December 1, 2008, the Health and Safety Executive (HSE) and the Environment Agency (EA) issued a Notice of prosecution against five companies, including TOTAL's UK subsidiary. By a judgment on July 16, 2010, the subsidiary was fined $£ 3.6$ million and paid it. The decision takes into account a number of elements that have mitigated the impact of the charges brought against it.

## Erika

Following the sinking in December 1999 of the Erika, a tanker that was transporting products belonging to one of the Group companies, the Tribunal de grande instance of Paris convicted TOTAL S.A. of marine pollution pursuant to a judgment issued on January 16, 2008, finding that TOTAL S.A. was negligent in its vetting procedure for vessel selection, and ordering TOTAL S.A. to pay a fine of $€ 375,000$. The court also ordered compensation to be paid to those affected by the pollution from the Erika up to an aggregate amount of $€ 192$ million, declaring TOTAL S.A. jointly and severally liable for such payments together with the Erika's inspection and classification firm, the Erika's owner and the Erika's manager.
TOTAL has appealed the verdict of January 16, 2008. In the meantime, it nevertheless proposed to pay third parties who so requested definitive compensation as determined by the court. Forty-two third parties have been compensated for an aggregate amount of $€ 171.5$ million.

By a decision dated March 30, 2010, the Court of Appeal of Paris upheld the lower court verdict pursuant to which TOTAL S.A. was convicted of marine pollution and fined $€ 375,000$. TOTAL appealed this decision to the French Supreme Court (Cour de cassation).

However, the Court of Appeal ruled that TOTAL S.A. bears no civil liability according to the applicable international conventions and consequently ruled that TOTAL S.A. be not convicted.
TOTAL S.A. believes that, based on the information currently available, the case should not have a significant impact on the Group's financial situation or consolidated results.

## Blue Rapid and the Russian Olympic Committee - Russian regions and Interneft

Blue Rapid, a Panamanian company, and the Russian Olympic Committee filed a claim for damages with the Paris Commercial Court against Elf Aquitaine, alleging a so-called non-completion by a former subsidiary of Elf Aquitaine of a contract related to an exploration and production project in Russia negotiated in the early 1990s. Elf Aquitaine believed this claim to be unfounded and opposed it. On January 12, 2009, the Commercial Court of Paris rejected Blue Rapid's claim against Elf Aquitaine and found that the Russian Olympic Committee did not have standing in the matter. Blue Rapid and the Russian Olympic Committee appealed this decision. On June 30, 2011, the Court of Appeal of Paris dismissed as inadmissible the claim of Blue Rapid and the Russian Olympic Committee against Elf Aquitaine, notably on the grounds of the contract's termination.
In connection with the same facts, and fifteen years after the termination of the exploration and production contract, a Russian company, which was held not to be the contracting party to the contract, and two regions of the Russian Federation which were not even parties to the contract, have launched an arbitration procedure against the aforementioned former subsidiary of Elf Aquitaine that was liquidated in 2005, claiming alleged damages of \$ 22.4 billion. For the same reasons as those successfully adjudicated by Elf Aquitaine against Blue Rapid and the Russian Olympic Committee, the Group considers this claim to be unfounded as to a matter of law or fact. The Group has lodged a criminal complaint to denounce the fraudulent claim which the Group believes it is a victim of and has taken, and reserved its rights to take, other actions and measures to defend its interests.

## Iran

In 2003, the United States Securities and Exchange Commission (SEC) followed by the Department of Justice (DoJ) issued a formal order directing an investigation in connection with the pursuit of business in Iran, by certain oil companies including, among others, TOTAL.

The inquiry concerns an agreement concluded by the Company with a consultant concerning a gas field in Iran and aims to verify whether certain payments made under this agreement would have benefited Iranian officials in violation of the Foreign Corrupt Practices Act (FCPA) and the Company's accounting obligations.
Investigations are still pending and the Company is cooperating with the SEC and the DoJ. In 2010, the Company opened talks with U.S. authorities, without any acknowledgement of facts, to consider an out-of-court settlement. Generally, out-of-court settlements with U.S. authorities include payment of fines and the obligation to improve internal compliance systems or other measures.
In this same case, a judicial inquiry related to TOTAL was initiated in France in 2006. In 2007, the Company's Chief Executive Officer was placed under formal investigation in relation to this inquiry, as the former President of the Middle East department of the Group's Exploration \& Production division. The Company has not been notified of any significant developments in the proceedings since the formal investigation was launched.
At this point, the Company cannot determine when these investigations will terminate, and cannot predict their results, or the outcome of the talks that have been initiated, or the costs of a potential out-of-court settlement. Resolving this case is not expected to have a significant impact on the Group's financial situation or any impact on its future planned operations.

## Oil-for-Food Program

Several countries have launched investigations concerning possible violations related to the United Nations (UN) Oil-for-Food program in Iraq.

Pursuant to a French criminal investigation, certain current or former Group employees were placed under formal criminal investigation for possible charges as accessories to the misappropriation of corporate assets and as accessories to the corruption of foreign public agents. The Chairman and Chief Executive Officer of the Company, formerly President of the Group's Exploration \& Production division, was also placed under formal investigation in October 2006. In 2007, the criminal investigation was closed and the case was transferred to the Prosecutor's office. In 2009, the Prosecutor's office recommended to the investigating judge that the case against the Group's current and former employees and TOTAL's Chairman and Chief Executive Officer not be pursued.

In early 2010, despite the recommendation of the Prosecutor's office, a new investigating judge, having taken over the case, decided to indict TOTAL S.A. on bribery charges as well as complicity and influence peddling. The indictment was brought eight years after the beginning of the investigation without any new evidence being added to the affair.

In October 2010, the Prosecutor's office recommended to the investigating judge that the case against TOTAL S.A. the Group's current and former employees and TOTAL's Chairman and Chief Executive Officer not be pursued. However, by ordinance notified in early August 2011, the investigating judge on the matter decided to send the case to trial.

The Company believes that its activities related to the Oil-for-Food program have been in compliance with this program, as organized by the UN in 1996. The Volcker report released by the independent investigating committee set up by the UN had discarded any bribery grievance within the framework of the Oil-For-Food program with respect to TOTAL.

## Libya

Stopped since early March 2011 due to the security context in Libya, the Group's production started up again at the end of September 2011 on the offshore Al Jurf field located in contractual areas 15, 16 \& 32 (ex C137) at the level existing before the events. The restart of the Group's production on the onshore fields remains subject to the stabilization of the security context.

In addition, in June 2011, the United States Securities and Exchange Commission (SEC) issued to certain oil companies - including, among others, TOTAL - a formal request for information related to their operations in Libya. TOTAL is cooperating with this non public investigation.

## Syria

Since May 10, 2011, the European Union has adopted measures prohibiting the supply of certain equipment to Syria, as well as prohibiting certain financial and asset transactions with respect to a list of named individuals and entities. These measures apply to European persons and to entities constituted under the laws of a EU Member State. In addition, since September 3, 2011, the European Union has adopted further measures, including, notably, a prohibition on the purchase, import or transportation from Syria of crude oil and petroleum products. TOTAL does not believe that its current business activities in Syria are in contravention of these measures.

During the third quarter of 2011, the Group's production in Syria was not significantly reduced. In addition, in early September 2011, the Group ceased to purchase hydrocarbons from Syria.

## Yemen

During the third quarter of 2011, the Group's activities have not been significantly impacted by the security context in Yemen.

## Commitments

In the Upstream, the Group has signed during the first nine months of 2011 guarantees in respect of construction contracts for an amount of about $€ 3.1$ billion.

## 11)Changes in progress in the Group structure

## > Upstream

- TOTAL signed in March 2011 agreements for the acquisition in Uganda of a one-third interest in Blocks 1, 2 and 3A held by Tullow Oil plc for $\$ 1,467$ million (amount as of January 1, 2010, to which will add costs of interim period). Following this acquisition, TOTAL would become an equal partner with Tullow and CNOOC in the blocks, each with a one-third interest and each being an operator of one of the blocks. Subject to the decision of the Authorities, TOTAL would be the operator of Block 1.
- TOTAL announced in June 2011 the signing of an agreement with Silex Gas Norway AS, a wholly owned subsidiary of Allianz, to sell its entire stake in Gassled (6.4\%) and related entities for a price of NOK 4.64 billion. The transaction is subject to approval by the relevant authorities.

As of September 30, 2011, the assets and liabilities included in the transaction have been classified respectively as "Assets classified as held for sale" on the face of the consolidated balance sheet for €529 million and as "Liabilities directly associated with the assets classified as held for sale" on the face of the consolidated balance sheet for $€ 338$ million.

## > Downstream

- TOTAL signed in June 2011, a sale and purchase agreement to sell most of its Marketing assets in the United Kingdom, the Channel Islands and the Isle of Man to Rontec Investments LLP, a consortium led by Snax 24, one of the leading independent forecourt operators in the UK. This transaction is expected to be completed later in 2011.

The sale process for TOTAL's refining assets in the UK is ongoing.
As of September 30, 2011, assets and liabilities of the Marketing businesses included in the transaction and of the Refining business have been classified respectively as "Assets classified as held for sale" on the face of the consolidated balance sheet for $€ 1,101$ million and as "Liabilities directly associated with the assets classified as held for sale" on the face of the consolidated balance sheet for $€ 3$ million.

## 12)Post-closing events

The Group announced in October 2011 a plan of reorganization of its business segments Downstream and Chemicals. This plan would change the current organization through the creation of:

- a Refining \& Chemicals division that would be a major production hub combining all of TOTAL's refining, petrochemical, and specialty chemicals operations.
- a Supply \& Marketing division that would be dedicated to the global supply and marketing of petroleum products.

The consultation and notification process towards employee representatives is in progress.

## Statutory auditors' review report on the interim condensed consolidated financial statements

## Dear Chairman and Chief Executive Officer,

In our capacity as statutory auditors of Total S.A. and in accordance with your request, we have performed a review of the accompanying interim condensed consolidated financial statements of Total S.A. for the nine-month period ended September 30, 2011.

The preparation of these interim condensed consolidated financial statements is the responsibility of your board of directors. Our responsibility is to express a conclusion on these financial statements based on our review.

We conducted our review in accordance with professional standards applicable in France. A review consists of primarily making inquiries of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that the interim condensed consolidated financial statements, taken as a whole, are free from material misstatement as we would not become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 - standard of the IFRS as adopted by the European Union related to interim financial information.
