GENFIT: PRESENCE AT BIO-EUROPE 2011 FROM OCTOBER 31ST TO NOVEMBER 2ND, 2011

Lille (France), Cambridge (Massachusetts, United States), October 27, 2011 – GENFIT (Alternext: ALGFT; ISIN: FR0004163111), a biopharmaceutical company at the forefront of drug discovery and development, focusing on the early diagnosis and preventive treatment of cardiometabolic and associated disorders, today announces its presence at BIO-Europe 2011, from October 31st to November 2nd, in Düsseldorf.

After a fruitful participation at the BioPartnering conference, held in London on October 10th and 11th 2011, the Company will present the development strategy and perspectives for its leading drug candidate GFT505 in certain diseases associated with diabetes, in particular NAFLD/NASH, following on from recent success recorded in the latest clinical trials with the drug candidate.

About GENFIT:

GENFIT is a biopharmaceutical company focused on the Discovery and Development of drug candidates in therapeutic fields linked to cardiometabolic disorders (prediabetes/diabetes, atherosclerosis, dyslipidemia, inflammatory diseases...). GENFIT uses a multi-pronged approach based on early diagnosis, preventive solutions, and therapeutic treatments and advances therapeutic research programs, either independently or in partnership with leading pharmaceutical companies (SANOFI, SERVIER, ...), to address these major public health concerns and their unmet medical needs.

GENFIT's research programs have resulted in the creation of a rich and diversified pipeline of drug candidates at different stages of development, including GENFIT's lead proprietary compound, GFT505, that is currently in Phase II.

With facilities in Lille, France, and Cambridge, MA (USA), the Company has approximately 100 employees. GENFIT is a public company listed on the Alternext trading market by Euronext™ Paris (Alternext: ALGFT; ISIN: FR0004163111).
