The "DUOCALL JANUARY 2012" Securities are denominated in EUR and are scheduled to be redeemed 5 years and 3 months after their issue.

The Securities may be automatically early redeemed pursuant to the provisions detailed in §40(t) of Part A.

If neither early redeemed nor purchased and cancelled, the Securities offers the possibility to receive on the Redemption Date a Redemption Amount pursuant to the provisions detailed in §40(u) of Part A.

The Securities are not capital-protected. There is a risk of partial or total capital loss, and consequently an investment in the Securities is highly speculative, involving significant risk, including the possible loss of the entire amount invested, and should therefore only be considered by investors who can afford a loss of their entire investment.

During the secondary market period, the price of the Securities will depend upon market conditions and may be subject to significant fluctuations. If the Securities are sold, before the Redemption Date, there is a higher probability that the investor will suffer a loss of its investment.
