## OVERVIEW

In 2011 the Renault group sold a record 2.7 million vehicles (+3.6\%) and took $3.6 \%$ of the global passenger car and light commercial vehicle (PC + LCV) market. The Renault brand drove the growth with a $6.8 \%$ increase in worldwide sales.
The pace of international sales growth picked up further in 2011. At 1.2 million units, the Group's international sales accounted for $43 \%$ of the mix, compared with $37 \%$ in 2010.

Growth was especially pronounced in two key Regions for Renault's future expansion: Eurasia (+60.1\%) and the Americas (+25.2\%).
The Group reported revenues of € $€ 2,628$ million, up $9.4 \%$ on 2010.
The Group's operating margin came to $€ 1,091$ million in 2011 , or $2.6 \%$ of revenues, compared with $€ 1,099$ million and $2.8 \%$ of revenues in 2010.

Automotive operating margin amounted to € $€ 330$ million ( $0.8 \%$ of revenues), compared with €396 million ( $1.1 \%$ of revenues) in 2010. A positive $€ 455$ million impact from volumes and $€ 500$ million in cost structure improvements under the monozukuri plan were unable to completely offset negative factors, mainly external, such as the exchange rate effect ( $€ 199$ million), the mix/price impact ( $€ 245$ million) and higher raw materials costs ( $€ 509$ million).

Supply issues resulting from the tsunami in Japan had an estimated negative impact of €200 million on Automotive's operating margin in 2011. The problems primarily affected production, marketing offers and logistics.

Sales Financing contributed a record €761 million to the Group's operating margin. The €58 million rise was achieved through increased loans outstanding and the historically low cost of risk.

After recognizing an income of $€ 153$ million in other operating income and expenses, the Group reported operating profit of €1,244 million, compared with $€ 635$ million in 2010.

## IN BRIEF

Renault's share in associated companies, mainly Nissan, AB Volvo and AvtoVAZ, generated income of $€ 1,524$ million in 2011.

Net income amounted to €2,139 million, and net income, Group share, was €2,092 million.
Automotive generated operational free cash flow of $€ 1,084$ million, beating the target set in 2011. This was achieved by maintaining operating earnings despite a series of crises (supply constraints, sovereign debt) and by actively managing the working capital requirement and investments in an uncertain economic environment.

These performances helped reduce Automotive's net financial debt for the third year running. Net debt was cut by $€ 1,136$ million to the record low of $€ 299$ million at December 31, 2011. In 2011 the Group pursued a policy of reducing Automotive's gross debt through early repayment of the $€ 2$ billion remaining on the loan from the French government. At the same time the Group maintained Automotive's substantial liquidity reserve at €11.4 billion, compared with €12.8 billion in 2010. The debt-to-equity ratio stood at $1.2 \%$ at end-2011, compared with $6.3 \%$ at end-2010.

## 2012 OUTLOOK

The global automotive market (PC + LCV) is expected to grow 4\% year on year in 2012. Trends will remain contrasted, with markets outside Europe continuing to grow, especially Brazil (5\%) and Russia ( $8 \%$ ). With the economic environment remaining highly uncertain, the European market is expected to contract by $3 \%$ to $4 \%$, including a decrease of $7 \%$ to $8 \%$ in France. Backed by the momentum of international growth, major launches (including Lodgy, Clio IV and Zoé), a new range of Energy engines and the introduction of the new design identity, Renault will continue to grow sales, in line with the objectives in the Renault 2016 - Drive the Change plan.
The Group targets positive Automotive operational free cash flow in 2012, with a ratio of capital expenditures and R\&D below 9\% of Group revenues.

## SALES PERFORMANCE

OVERVIEW

## EUROPE

In Europe, where the PC+LCV market contracted by $0.5 \%$, Group sales fell by $5.7 \%$. Renault maintained its position as Europe's second-ranked brand.

- In France, the Group sold 689,022 vehicles, down 7.5\% on 2010. After difficulties in the first half of the year, linked to supply issues, notably after the tsunami, deliveries increased from the end of the thirdquarter on the back of a strong order book, enabling the Group to post excellent results for the last part of the year and to stabilize its market share for 2011 as a whole to $26.1 \%$ ( -1.8 points).
- In Germany, Group sales rose by $5.7 \%$ to 181,176 units, in a market that expanded by $9.4 \%$.
- In strongly falling markets, such as Spain (-16.9\%) and Italy (-10.4\%), the Group focused on retail sales channels. It saw market share fall in both countries, with sales down by $20.6 \%$ and $13.5 \%$ respectively.
- In the UK, where the market contracted by $2.4 \%$, Group sales were hit, mainly by the depreciation of the pound, falling by $21.9 \%$.

## OUTSIDE EUROPE

Outside Europe, the Group demonstrated its growth potential and reported a faster pace of global expansion with 1.2 million vehicles sold, a rise of $19.2 \%$ on 2010. The share of Renault group vehicles sold outside Europe increased by 6 points to 43\% of sales, compared with 37\% in 2010.
Of the Group's five largest markets, three were outside Europe (Brazil, Russia, Turkey) in 2011. The Group reported record sales in the Regions outside Europe.

- Americas: Brazil is now the Group's second biggest market, rising one place on 2010. The Group increased its sales by $21.2 \%$, in a market that grew by $2.9 \%$, reflecting the success enjoyed by Renault products in this Region (Sandero phase 2, launched in spring 2011, was developed exclusively for these markets). The Group had market share of $5.7 \%$, a rise of 0.9 points. Duster received a warm welcome on its launch in October 2011.
- Eurasia: Russia became the Group's fourth largest market, rising 5 places on 2010, with sales surging by $60.4 \%$ in a market that was still supported by scrappage bonuses over part of the year, and which expanded by $40.0 \%$. The Group had market share of $5.8 \%$ (up 0.7 points) thanks to the success of Sandero and Logan.
- Euromed: In Turkey, the Group's fifth-largest market, sales volumes rose by $23.4 \%$ in a market that grew by $13.4 \%$. This result is linked to the success of Fluence (+21.9\%) and Symbol (marketed in the Euromed Region under the name of Thalia), which is market No. 1, all categories.
- In Algeria and Morocco, the Group continued to expand, posting growth of $18.4 \%$ and $18.8 \%$ respectively, in markets that were up 31.7\% and 8.4\%.
- Asia-Africa: In Iran, sales volumes doubled to 93,578 units on 2010, partly offsetting the $29.9 \%$ fall in Group sales in South Korea, on a fiercely competitive market. In India, 2011 saw the launch of Fluence and Koleos. In 2012, the range will gain three more vehicles, including Pulse and Duster. These launches illustrate the brand's ambitions to become a leading player on this market, which is the third cornerstone of its international strategy, alongside Russia and Brazil.

## SALES FINANCING

- RCI Banque originated a record €11.1 billion in new financing in 2011, excluding card business and personal loans (up 11.0\%).

### 1.1.2. RENAULT BRAND

## $\rightarrow$ Passenger cars

The Renault brand is the driving force behind Group growth. Sales rose by $6.1 \%$ in 2011, with $1,918,212$ vehicles sold.

- On the $A$ segment, Twingo, a model that is more or less exclusively European, held onto its position as one of the top-three sellers in its category, with 134,200 registrations. Twingo remains the leader in France, with $33.5 \%$ of its segment. It also put in a strong showing in Germany, where it held onto second place.
- On the B segment, sales of Sandero and Logan, marketed under the Renault brand name outside Europe, totalled 196,428 units ( $+35.2 \%$ ) and 253,698 units ( $+33.6 \%$ ) respectively. These two M0 platform vehicles fit well with demand in growing markets such as Russia and Brazil. In Brazil, Sandero phase 2, a vehicle developed solely for this Region, is enjoying huge success.

Pending its renewal in 2012, Clio (Clio II+Clio III) saw sales fall to 375,714 units in 2011.

- On the C segment, the Mégane family consolidated its No. 2 position on the European market, with 401,305 registrations, despite supply issues in the first half of the year. Mégane is No. 1 on its segment in France, Belgium and Portugal. Mégane Coupé ( 31,073 registrations) and Scénic ( 156,562 registrations) are the biggest-selling vehicles in their category in Europe.

Fluence continues to gain ground on markets around the world, with 102,154 vehicles sold ( $+69.9 \%$ ). It ranks second in its segment in Turkey.

Duster was launched in Brazil and Argentina in late 2011 with sales of 9,391 and 4,898 units respectively.

- On the $D$ and $E$ segments, Laguna sales dipped slightly to 50,498 units, but it held onto the No. 3 position in its segment in France. Sales of Koleos rose significantly to 49,220 units, and Renault Espace remains No. 1 on the MPV market in France, 15,418 units and with a segment share of $31.4 \%$. Rounding out the Renault offering in these segments, Latitude sold 14,925 vehicles in 2011.

## $\rightarrow$ Light commercial vehicles

With the pick-up in the LCV market in Europe ( $+7.3 \%$ ) and worldwide (+6.5\%), Renault reported a $11.1 \%$ increase in worldwide sales, driven in particular by the recent renewal of the range and its international growth.

Turkey became Renault's No. 2 LCV market with a rise of $31.5 \%$ of its sales volumes.

Sales of Kangoo rose by $9.1 \%$ to 125,048 units, Renault Trafic gained $18.3 \%$ to sell 63,446 vehicles, and Renault Master sold 84,835 sales units (+22.7\%).

## SALES PERFORMANCE

### 1.1.3. DACIA BRAND

The Dacia brand reported contrasting results for sales of its various models in Europe. On the $B$ segment, sales of Sandero fell by $48.9 \%$ to 68,979 units. The fall was particularly sharp in France $(-59.8 \%)$ with the end of the scrappage bonuses and LPG incentives.

Conversely, on the C segment, Duster reported excellent results for its first full year on the market, increasing sales by $+129.9 \%$, with 132,287 vehicles sold. It remains No. 2 for sales of crossovers in Europe, with a $12.4 \%$ share of this segment.

Overall, the Dacia brand saw sales dip by $1.8 \%$ in 2011. The success of Duster partly offsets falling sales of Sandero and Logan in Europe, where the brand maintains market share of $1.6 \%$.

### 1.1.4. RENAULT SAMSUNG MOTORS BRAND

South Korea fell seventh in the Group markets, whose local brand, Renault Samsung Motors, holds 8.3\% of the market. In 2011 Renault Samsung Motors PC sales in South Korea fell by $29.9 \%$ to 109,221 units, as a result of fierce competition.

### 1.2. SALES FINANCING

### 1.2.1. PROPORTION OF NEW VEHICLES FINANCED

Continuing the growth plan initiated in 2010, the RCI Banque group generated strong sales momentum throughout 2011. The proportion of new vehicles financed was up at virtually all subsidiaries.

The increase in the proportion of new vehicles financed was particularly marked for the Nissan and Dacia brands, rising by 3 and 3.9 points respectively to $28.7 \%$ and $29.5 \%$.

The proportion of new vehicle registrations financed by RCI Banque in the Europe Region rose to $33.0 \%$ (compared with $31.3 \%$ in 2010). The proportion was $35.4 \%$ for Renault vehicles (compared with $34.0 \%$ in 2010) and $26.6 \%$ for Nissan (compared with $23.9 \%$ in 2010). This improvement can be explained by the continuation of RCl's competitive commercial policy, particularly the package deals combining financing and services, and by the efforts made through the brands to use financing operations as a way to build customer loyalty.

The proportion of new vehicles financed by RCI Banque in the Americas Region rose to $33.4 \%$, up from $31.0 \%$ in 2010.

In South Korea, RCI Banque's proportion of new vehicles financed surged to $56.6 \%$, up from $46.1 \%$ in 2010 . It is now the only country in the Asia-Africa Region where RCI operates.

In the Euromed Region (including Romania and Morocco), the proportion of new vehicles financed by RCI Banque jumped to $19.0 \%$ in 2011 from 13.8\% in 2010.

### 1.2.2. RCI BANQUE'S NEW FINANCING CONTRACTS AND AVERAGE LOANS OUTSTANDING

RCI Banque originated $€ 11.1$ billion in new financing in 2011, excluding card business and personal loans, up from $€ 10$ billion in 2010, an increase of $11.0 \%$. The number of new vehicle financing contracts totaled $1,024,771$ in 2011, compared with 953,110 vehicle contracts in 2010, a $7.5 \%$ increase.

RCI Banque's average loans outstanding totaled € $£ 2.8$ billion, up $8.8 \%$ on 2010.

### 1.2.3. INTERNATIONAL DEVELOPMENT AND NEW ACTIVITIES

While supporting the Renault and Nissan brands in their international development, RCI Banque is pursuing its own geographical expansion, responding to brand market requirements.

In September 2011, RCI Banque set up an activity in Ireland through a fully owned subsidiary. The subsidiary provides financing for consumers as well as for the local Renault network.

Moreover, marking the launch of Renault electric vehicles in fourth-quarter 2011, RCI Banque has developed a special marketing model based on the rental of batteries for Renault electric vehicles (Fluence Z.E. and Kangoo Z.E.). These financing products are available in all the European countries where Renault electric vehicles are sold (France, Germany, Italy, Spain, UK, Switzerland, Austria, the Netherlands, Belgium, Portugal) and will be developed throughout 2012.

Automotive's revenue contribution in 2011 was $€ 40,679$ million, up $9.4 \%$ on 2010. This increase was mainly attributable to:

- a positive volume effect (5.2 points) linked to international sales growth;
- the product line-up, particularly Duster, and the end of the scrappage bonus scheme, which generated a positive mix effect of 3.0 points;
- other Group businesses (sales of components and vehicles to partners), which had a positive impact of 2.9 points;
- a slightly favorable price effect (0.4 of a point); pressure on prices in Europe was offset by raising international prices to mitigate the negative exchange rate effect ( 1.1 points).

By Region (excluding other businesses):

- international ${ }^{(1)}$ operations were up sharply and contributed 6.7 points to growth owing to a strong volume effect, despite Renault Samsung Motors difficulties in South Korea;
- Europe was up slightly and had a 0.7 points impact on revenue growth, as the improved mix offset the decline in volumes.

Group operating margin came to €1,091 million in 2011, or $2.6 \%$ of revenues, compared with $€ 1,099$ million and $2.8 \%$ of revenues in 2010.

OPERATING SEGMENT CONTRIBUTION TO GROUP OPERATING MARGIN

| $\%$ of Group revenues | $2.6 \%$ | $2.8 \%$ | -0.2 pt |

Automotive's operating margin fell by €66 million, to $€ 330$ million ( $0.8 \%$ of revenues). This is due to:

- €500 million in cost structure reductions under the monozukuri plan;
- €455 million from volume growth, related directly to commercial performances and changes in the geographical mix
which did not entirely offset the impact of negative factors, mainly externalities such as:
- the $€ 509$ million increase in raw materials costs;
- a negative €199 million exchange rate effect linked to a basket of currencies that was mainly affected by movements against euro in the Argentine peso and the Iranian rial;
- a negative mix/price impact of €245 million, as the effects of product enhancements and mix distortions linked to supply problems outweighed the positive revenue impact;
- other elements for €68 million of which €19 million due to the G\&A increase.

Overall, supply issues resulting from the tsunami in Japan had an estimated negative impact of $€ 200$ million on Automotive's operating margin in 2011. The problems primarily affected production, marketing offers and logistics.
Sales Financing made a $€ 761$ million contribution to the Group's operating margin, an $8.2 \%$ increase on 2010. With an $8.8 \%$ increase in average loans outstanding relative to 2010, this financial performance confirms the sales growth strategy. The cost of risk reached a record $0.23 \%$ of average loans outstanding, well below RCI group's historical trend of around $0.60 \%$. This was achieved through an improved risk situation in Spain and Romania and reversals of networkrelated provisions as dealerships returned to better financial health, especially in Europe.

## FINANCIAL RESULTS

After reaching a very low level in 2010 in connection with the product cycle, Research and Development expenses rose €193 million compared with 2010 to €2,027 million in 2011, in line with what was announced in the Renault 2016 - Drive the Change Plan.

Capitalized development expenses came to $39.1 \%$ of the total spend in 2011, after $38.5 \%$ in 2010.

Other operating income and expenses showed net income of $€ 153$ million, compared with a net charge of $€ 464$ million in 2010. This item was mainly made up of:

- €133 million in capital gains on property disposals;
- €71 million from the reversal of restructuring provisions;
- €61 million charge from recognition of depreciation for three vehicles in the range and recoveries on previously impaired assets (to reflect improved cash flow prospects for vehicles in the range).

After recognizing other operating income and expenses, the Group reported operating profit of $€ 1,244$ million, compared with €635 million in 2010 .

The financial result showed a net charge of €121 million, compared with €376 million in 2010, reflecting the reduction in debt and early repayment of $€ 2$ billion to settle the Ioan granted by the French government in 2009.

Renault's share in associated companies generated a net gain of $€ 1,524$ million in 2011 (compared with $€ 1,289$ million in 2010), of which:

- €1,332 million from Nissan (compared with €1,084 million in 2010);
- €136 million from AB Volvo (compared with €214 million in 2010, but with an ownership stake of $21.8 \%$ until October 2010, compared with 6.8\% in 2011);
- €49 million from AvtoVAZ (compared with a loss of €21 million in 2010).

Current and deferred taxes represented a charge of $€ 508$ million (compared with $€ 58$ million in 2010), i.e. €408 million in current tax (compared with €340 million in 2010) and €108 million for impairment of net deferred tax assets calculated on French tax Group tax losses carried forward (compared with €238 million of deferred tax assets recognized in 2010). This is due to the combined effects of amendments to the Budget Act in France and updated assumptions for recognition of these tax losses.
Net income amounted to €2,139 million, compared with $€ 3,490$ million in 2010 (including $€ 2,000$ million in capital gains from the disposal in October 2010 of B shares in AB Volvo).

The Group's share of net income totaled € $€ 2,092$ million ( $€ 3,420$ million in 2010).

### 2.1.2. NET CAPEX AND R\&D EXPENSES

Automotive's tangible and intangible investments net of disposals (excluding capitalized leased vehicles) came to $€ 2,212$ million in 2011 (including € $€ 08$ million in R\&D expenses) compared with $€ 1,644$ million in 2010 (including €666 million in R\&D expenses).

Investment increased in 2011 compared with 2010, which was a low-spend year owing to the product cycle. The increase was consistent with the target of keeping the ratio of capex and R\&D expenses below or equal to $9 \%$ of Group revenues.
Europe received 49\% of total gross investment, while $51 \%$ went to the rest of the world.

- in Europe: range-related investment accounted for $60 \%$ of the outlay, with a particular focus on electric vehicles
(Zoé, Twizy and Kangoo), gasoline and diesel engines, and New Clio;
- outside Europe: spending was allocated primarily to Morocco (new Tangiers industrial facility), Romania, South America, Russia, Turkey and South Korea.
Consistent with previous years, the non range-related investment policy was focused mainly on quality, working conditions and the environment.

### 2.1.3. AUTOMOTIVE DEBT

In line with the target set in the Renault 2016 - Drive the Change Plan, Automotive generated operational free cash flow of $€ 1,084$ million in 2011, comprising:

- cash flow of $€ 2,910$ million;
- a €627 million change in the working capital requirement through active management of receivables and inventory;
- tangible and intangible investments net of disposals in the amount of $€ 2,212$ million, up $€ 568$ million ( $€ 1,644$ million in 2010), but still in line with the Plan's target of keeping the ratio to below 9\% of revenues;
- a negative €241 million change in capitalized leased vehicles.

These performances helped reduce Automotive's net financial debt for the third year running. Net debt was cut by $€ 1,136$ million to the record low of $€ 299$ million at December 31, 2011.

In accordance with the policy announced in the mid-term plan, Renault 2016 - Drive the Change, a dividend of €1.16 per share, representing the dividends received by the Group for its interests in listed companies in 2011, will be proposed for approval of shareholders at the upcoming annual general meeting.

### 2.1.4. LIQUIDITY AT DECEMBER 31,2011

In 2011, the Group pursued a policy aimed at reducing Automotive's gross debt through early repayment of the $€ 2$ billion still owing on the loan from the French government, while maintaining Automotive's cash high levels. On December 31, 2011, Automotive's liquidity reserve amounted to € $€ 1.4$ billion, comprising:

- $€ 7.6$ billion in cash and cash equivalents;
- $€ 3.8$ billion in undrawn confirmed credit lines.

On December 31, 2011, RCI Banque had:

- a liquidity reserve of $€ 3.4$ billion, representing available liquidity surplus to the certificates of deposit and commercial paper outstanding;
- available liquidity of $€ 6.3$ billion, covering more than two times all outstanding commercial paper and certificates of deposit, including $€ 4.5$ billion in undrawn confirmed credit lines, €1.7 billion in Central Bank eligible collateral, and $€ 0.1$ billion in cash.

## Financial Information on the Alliance

FINANCIAL INFORMATION ON THE ALLIANCE

The purpose of the financial data in this section is twofold: to broadly quantify the economic significance of the RenaultNissan Alliance through key performance indicators, and to make it easier to compare the assets and liabilities of the two Groups. The data of both Groups comply with the accounting standards applied by Renault in 2011.

The characteristics of the Alliance mean, among other things, that Renault and Nissan's assets and liabilities cannot be combined. Consequently, these data do not correspond to a consolidation as defined by generally accepted accounting principles and are not certified by the statutory auditors.

Information concerning Renault is based on the consolidated figures released at December 31, 2011, while the information concerning Nissan is based on the restated consolidated figures prepared for the purposes of the Renault consolidation, covering the period from January 1 to December 31, 2011 whereas Nissan's financial year-end is March 31.

## KEY PERFORMANCE INDICATORS

The preparation of the key performance indicators under Renault accounting policies takes into account restatement of figures published by Nissan under Japanese Accounting Standards into IFRS. Additionally, the following treatments have been performed:

- reclassifications have been made when necessary to harmonize the presentation of the main income statement items;
- restatements for harmonization of accounting standards and adjustments to fair value applied by Renault for acquisitions of 1999 and 2002 are included.

REVENUES 2011

| (€ million) | Renault | Nissan ${ }^{(1)}$ | Intercompany eliminations | Alliance |
| :---: | :---: | :---: | :---: | :---: |
| Sales of goods and services | 41,192 | 76,415 | $(3,509)$ | 114,098 |
| Sales financing revenues | 1436 | 4,309 | (122) | 5,623 |
| Revenues | 42,628 | 80,724 | $(3,631)$ | 119,721 |

(1) Converted at the average exchange rate for 2011: EUR $1=J P Y$ 111.0.

The Alliance's intercompany business mainly consists of commercial transactions between Renault and Nissan. Those items have been eliminated to produce the revenue indicator. Their value is estimated on the basis of Renault's 2011 results.

The operating margin, the operating income and the net income of the Alliance in 2011 are as follows:

| (€ million) | Operating <br> margin | Operating <br> income | Net <br> income |
| :--- | ---: | ---: | ---: |
| Renault | 1,091 | 1,244 | 807 |
| Nissan ${ }^{(1)}$ | 4,477 | 3,942 | 3,288 |
| Alliance | $\mathbf{5 , 5 6 8}$ | $\mathbf{5 , 1 8 6}$ | $\mathbf{4 , 0 9 5}$ |

(1) Converted at the average exchange rate for 2011: EUR $1=J P Y$ 111.0.
(2) Renault's net income is adjusted to exclude Nissan's contribution and Nissan's net income is similarly adjusted to exclude Renault's contribution.

Intercompany transactions impacting the indicators are minor and have therefore not been eliminated.

For the Alliance, the operating margin is equivalent to $4.7 \%$ of revenues.

In Nissan retreated financial indicators shown above, combined costs effects of tsunami disaster in Japan and floods in Thailand corresponds to approximatively €500 millions, which constitute almost the variance between operating margin and operating income.

In 2011, the Alliance's research and development expenses, after capitalization and amortization, are as follows:

| (€ million) |  |
| :--- | ---: |
| Renault | 2,027 |
| Nissan ${ }^{(1)}$ | 3,300 |
| Alliance | $\mathbf{5 , 3 2 7}$ |

The values shown for Nissan assets and liabilities reflect restatements for harmonization of accounting standards and adjustments to fair value applied by Renault for acquisitions made in 1999 and 2002, mainly concerning revaluation of land, capitalization of development expenses, and pensionrelated provisions.

Balance sheet items have been reclassified where necessary to make the data consistent across both Groups.

Nissan's restated balance sheet includes the securitized items presented off-balance sheet in Nissan's financial statements under Japanese GAAP.

Purchases of property, plant and equipment by both Alliance groups for 2011, excluding leased vehicles, amount to:

| (€ million) |  |
| :--- | ---: |
| Renault | 1,898 |
| Nissan ${ }^{(1)}$ | 3,083 |
| Alliance | $\mathbf{4 , 9 8 1}$ |

(1) Converted at the average exchange rate for 2011: EUR $1=J P Y$ 111.0.

Based on the best available information, Renault estimates that the impact of full consolidation of Nissan on its shareholders' equity calculated under current accounting policies would result in:

- a maximum 5-10\% decrease in shareholders' equity - Group share;
- a €22 billion increase in shareholders' equity - minority interests' share.
