Issue Price: EUR 0.25 per Security

This document constitutes the final terms of the Certificates (the "Final Terms") described herein for the purposes of Article 5.4 of Directive 2003/71/EC (the "Prospectus Directive") and is prepared in connection with the Global Structured Securities Programme established by Barclays Bank PLC (the "Bank") and Barclays Capital (Cayman) Limited ("BCCL") and is supplemental to and should be read in conjunction with the Base Prospectus dated 5 August 2011, as supplemented and amended from time to time, which constitutes a base prospectus (the "Base Prospectus") for the purpose of the Prospectus Directive. Full information on the Issuer and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus is available for viewing during normal business hours at the registered office of the Issuer and the specified office of the Issue and Paying Agent for the time being in London, and copies may be obtained from such office. Words and expressions defined in the Base Prospectus and not defined in this document shall bear the same meanings when used herein.

The Issuer accepts responsibility for the information contained in these Final Terms. To the best of its knowledge and belief (having taken all reasonable care to ensure that such is the case) the information contained in these Final Terms is in accordance with the facts and does not contain anything likely to affect the import of such information.

Investors should refer to the sections headed "Risk Factors" in the Base Prospectus for a discussion of certain matters that should be considered when making a decision to invest in the Securities.

**Barclays Capital** 

Final Terms dated 24 February 2012

The distribution of this document and the offer of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession these Final Terms come are required by the Bank to inform themselves about and to observe any such restrictions. Details of selling restrictions for various jurisdictions are set out in "Purchase and Sale" in the Base Prospectus. In particular, the Securities have not been, and will not be, registered under the US Securities Act of 1933, as amended. Trading in the Securities has not been approved by the US Commodity Futures Trading Commission under the US Commodity Exchange Act of 1936, as amended. Subject to certain exceptions, the Securities may not at any time be offered, sold or delivered in the United States or to US persons, nor may any US persons at any time trade or maintain a position in such Securities.

#### Part A

#### Terms and Conditions of the Securities

The Securities shall have the following terms and conditions, which shall complete, modify and/or amend the Base Conditions and/or any applicable Relevant Annex(es) set out in the Base Prospectus dated 5 August 2011.

# 8 Performance of Reference Asset(s) or Other Variable, Explanation of Effect on Value of Investment and Associated Risks and Other Information Concerning the Reference Asset(s) and/ or Other Underlying

IF Public Offer - Details of the historic performance of the Reference Asset can be obtained from various internationally recognised published or electronically available news sources, for example,

Reuters: .GDAXI

Investors should note that historical performance should not be taken as an indication of future performance of the Reference Asset. The Issuer makes no representation whatsoever, whether expressly or impliedly, as to the future performance of the Reference Asset. The Issuer does not intend to provide post-issuance information.

Investors should form their own views on the merits of an investment related to the Reference Asset based on their own investigation thereof.

The description below represents a summary only of some of the features of the investment product described in this Final Terms. It does not purport to be an exhaustive description.

The product is issued as Certificates in EUR and aims to provide exposure to the performance of the Reference Asset. An investor's exposure to the Reference Asset will be amplified (leveraged) because part of the investment in the Reference Asset will effectively be financed by the Issuer itself. Another effect of this Issuer financing is that the purchase price of the Certificates will always be less than a corresponding direct investment in the components of the Index. The Issuer will charge a variable financing cost for providing the financing. This financing cost will accrue daily and be deducted from the amount payable to investors on redemption of the Certificates.

The Certificates will redeem automatically if the value of the Reference Asset falls to, or below, a specified level. Otherwise, the Certificates are redeemable annually by investors and daily by the Issuer in accordance with the terms set out above.

The amount payable on redemption of the Certificates will be determined by reference to the value of the Reference Asset, the outstanding financed amount and the Security Ratio.

The maximum loss for an investor in respect of each Certificate is limited to the purchase price of the Certificate.

# 8 Performance of Reference Asset(s) or Other Variable, Explanation of Effect on Value of Investment and Associated Risks and Other Information Concerning the Reference Asset(s) and/ or Other Underlying

IF Public Offer - Details of the historic performance of the Reference Asset can be obtained from various internationally recognised published or electronically available news sources, for example,

Reuters: .GDAXI

Investors should note that historical performance should not be taken as an indication of future performance of the Reference Asset. The Issuer makes no representation whatsoever, whether expressly or impliedly, as to the future performance of the Reference Asset. The Issuer does not intend to provide post-issuance information.

Investors should form their own views on the merits of an investment related to the Reference Asset based on their own investigation thereof.

The description below represents a summary only of some of the features of the investment product described in this Final Terms. It does not purport to be an exhaustive description.

The product is issued as Certificates in EUR and aims to provide a positive return if the price of the Reference Asset falls over the investment period and conversely, a negative return if the price of the Reference Asset rises over the investment period. This inverse exposure to the Reference Asset (typically referred to as "short exposure") may be amplified (leveraged) in certain circumstances. The return on the Certificates factors in a net financing cost which may be positive or negative and which is comprised of any proceeds that the Issuer receives through its hedge for the Certificates, less (i) any associated borrowing costs, and (ii) a variable charge for arranging the Certificates. This net financing cost will accrue daily and be added to, or deducted from (as the case may be) the amount payable to investors on redemption of the Certificates.

The Certificates will redeem automatically if the value of the Reference Asset rises to, or above, a specified level. Otherwise, the Certificates are redeemable annually by investors and daily by the Issuer in accordance with the terms set out above.

The amount payable on redemption of the Certificates will be determined by reference to the value of the Reference Asset, the outstanding financed amount and the Security Ratio.

The maximum loss for an investor in respect of each Certificate is limited to the purchase price of the Certificate
