3. NOTIFICATION AND AUTHORISATION

The *Commission de Surveillance du Secteur Financier (CSSF)*, Luxembourg, has provided the *Autorité des marchés financiers (AMF)*, France, with a certificate of approval attesting that the Debt Issuance Programme Prospectus has been drawn up in accordance with the Prospectus Directive.

The Issuer and the Guarantor have authorised the use of these Final Terms and the Debt Issuance Programme Prospectus dated 27 April 2010 by the Dealer/Managers and the entities in charge of the distribution of the Notes (the **Distributors** and, together with the Dealer/Managers, the **Financial Intermediaries**) in connection with offers of the Notes to the public in France for the period set out in paragraph 13 below, being specified that names and addresses of the Distributors, if any, are available upon request to the Dealer (specified above in the item 40 of the Part A).

4. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE

Save for any fees payable to the Dealer, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer.

The Issuer and Société Générale expect to enter into hedging transactions in order to hedge the Issuer's obligations under the Notes. Should any conflicts of interest arise between (i) the responsibilities of Société Générale as Calculation Agent for the Notes and (ii) the responsibilities of Société Générale as counterparty to the above mentioned hedging transactions, the Issuer and Société Générale hereby represent that such conflicts of interest will be resolved in a manner which respects the interests of the Noteholders.

8. PERFORMANCE OF INDEX/FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING (Index Linked Notes only)

Under these Notes, the Noteholders will not receive any coupons during the term of the Notes. At maturity, the Noteholders are entitled to receive at least 100% of the Specified Denomination (the «Minimum Redemption Amount»). The return under these Notes is totally linked to the performance of the Underlying(s): the higher the performance, the higher the return. The return of these Notes is determined based on the average performances of the Underlying(s) as calculated on pre-determined Valuation Dates and regardless of the level of such Underlying(s) between these dates. The return depends upon the fact that the average performances of the Underlying(s) reaches or does not reach pre-determined thresholds. Accordingly, a small downward or upward movement of the average performances of the Underlying(s) close to these thresholds may result in a significantly larger increase or decrease of the return of the Notes. As a result, the Closing Price of the Underlying(s) on these dates will affect the value of the Notes more than any other single factor. Under these Notes, at maturity, the Noteholders will receive at least 100% of the Specified Denomination. The Notes are different from conventional debt securities in that there will be no periodic payment of interest on the Notes, and the effective yield to maturity of the Notes based on the Minimum Redemption Amount may be less than that which would be payable on such a conventional debt security. Noteholders should realize that the return of only the Minimum Redemption Amount at maturity will not compensate for any opportunity cost implied by inflation and other factors relating to the time value of money.

The Notes may be redeemed early in the event that the outstanding nominal amount is reduced to or falls below 10% of the initial nominal amount of such Notes.

In such event the Issuer will have the option to redeem any outstanding Notes early upon giving not less than 15 Business Days notice. This could lead to investors receiving an amount at redemption earlier than had been anticipated in circumstances over which the investors have no control and may affect the value of their investment.

Pursuant to the provisions of the Equity Technical Annex, upon the occurrence of certain Extraordinary Events and Adjustments affecting the Underlying, the Calculation Agent may decide an Early Redemption of the Notes on the basis of Market Value.

9. PERFORMANCE OF RATE[S] OF EXCHANGE AND EXPLANATION OF EFFECT ON VALUE OF INVESTMENT (Dual Currency Notes only)

The Notes issued on 01 October 2010, will be fully subscribed by Société Générale and thereafter offered to the public in the secondary market, in France, from 01 October, 2010 to 31 December 2010.

The offer price of the Notes evolves at an annual rate of 0.50% between the Issue Date and 06/01/11 (included) in order to reach 100% on 06/01/11 in accordance with the following formula :

Issue Price x [1+0.50% x Nb(t)/360]

Where :

“Nb(t)” means, the number of calendar days between the Issue Date and such date “t” on which the market value of the Notes will be calculated (both dates included).
