

APPLICABLE FINAL TERMS

Investors should have sufficient knowledge and experience of financial and business matters to evaluate the merits and risks of investing in a particular issue of Euro Medium Term Notes as well as access to, and knowledge of, appropriate analytical tools to assess such merits and risks in the context of their financial situation. Certain issues of Euro Medium Term Notes are not an appropriate investment for investors who are unsophisticated with respect to the applicable interest rate indices, currencies, other indices or formulas, or redemption or other rights or options. Investors should also have sufficient financial resources to bear the risks of an investment in Euro Medium Term Notes. For a more detailed description of the risks associated with any investment in the Notes investors should read the section of the Debt Issuance Programme Prospectus headed "*Risk Factors*".

The Notes and the Guarantee have not been approved or disapproved by the U.S. Securities and Exchange Commission (the SEC), any State securities commission in the United States or any other U.S. regulatory authority, nor have any of the foregoing Authorities passed upon or endorsed the merits of the offering of the Notes or the accuracy or adequacy of this Debt Issuance Programme Prospectus. INVESTMENT CONSIDERATIONS

Prospective investors should carefully consider the following investment considerations, in addition to the matters set forth elsewhere in these Final Terms and the Debt Issuance Programme Prospectus (as referred to below), prior to investing in the Notes.

Credit exposures to Reference Entities

For the purposes of the Notes, the Issuer is deemed to have entered into a synthetic Default Swap (as defined in Schedule 1, and which is in the form attached as Schedule 2) under which it has synthetically sold to the Default Swap Counterparty (as defined in Schedule 1) protection on a portfolio of Reference Entities (as defined in the Default Swap).

The redemption amount of the Notes at their Maturity Date will depend on whether Credit Events (as defined in the Default Swap) have occurred in respect of the Reference Entities under the Default Swap. Consequently, as described in these Final Terms, the Notes create significantly leveraged exposure to the credit of such Reference Entities. Noteholders may lose, in part or in whole, amounts invested in the Notes as the result of a Credit Event occurring with respect to one or more Reference Entities.

Settlement protocols

Under the Default Swap, the Final Value of a Reference Entity is a factor in the determination of the Aggregate Loss Amount (as each such term is defined in the Default Swap), which, in turn, is a factor in the determination of the redemption amount of the Notes at their Maturity Date. The Default Swap provides that the Calculation Agent may choose to determine the Final Value in respect of a Reference Entity by reference to a Settlement Protocol (as defined in the Default Swap). In this connection, investors should note the following: (i) the Final Value as determined by reference to a Settlement Protocol may differ from the Final Value determined otherwise and a lower Final Value would tend to reduce the amount payable to Noteholders upon redemption of the Notes; and (ii) the Calculation Agent may have a conflict of interest to the extent that it participates in the Settlement Protocol and influences the pricing mechanism thereunder.

Limited liquidity of the Notes

There is not at present an active and liquid secondary market for the Notes. There can be no assurance that a secondary market for any of the Notes will develop, or, if a secondary market does develop, that it will provide the holders of the Notes with liquidity or that it will continue for the entire life of the Notes. This may leave Noteholders with an illiquid investment. Illiquidity means that a Noteholder may not be able to realise its anticipated yield. Illiquidity can obviously have an adverse effect on the market value of the Notes. Consequently, any purchaser of Notes must be prepared to hold such Notes until final redemption or maturity of the Notes.

Non-reliance

The Noteholders who purchase the Notes will be deemed to have represented and agreed that they (i) have the knowledge and sophistication independently to appraise and understand the financial and legal terms and conditions of the Notes and to assume the economic consequences and risks thereof; (ii) to the extent necessary, have consulted with their own independent financial, legal or other advisers and have made their own investment, hedging and trading decisions in connection with the Notes based upon their own judgement and the advice of such advisers and not upon any view expressed by the Issuer or the Dealer; (iii) have not relied upon any representations (whether written or oral) of any other party, and are not in any fiduciary relationship with the Issuer or the Dealer; (iv) have not obtained from the Issuer or the Dealer (directly or indirectly through any other person) any advice, counsel or assurances as to the expected or projected success, profitability, performance, results or benefits of the Notes, and have agreed that the Issuer and the Dealer do not have any liability in that respect; (v) have not relied upon any representations (whether written or oral) by, nor received any advice from, the Issuer or the Dealer as to the possible characterisation under the laws or regulations of any jurisdiction of the Notes described in these Final Terms and understand that nothing contained herein should be construed as such a representation or advice for the purposes of the laws or regulations of any jurisdiction.

Awareness

The Noteholders are informed that each of the Issuer and the Dealer hold or may from time to time hold Obligations (including the Selected Obligations) of the Reference Entities, all as defined in the Default Swap.

Under the terms of the Default Swap, Société Générale as the Default Swap Counterparty may, for the purposes of determining the Loss Amount (as defined in the Default Swap) in respect of a Reference Entity, select obligations with the lowest price of any obligations which meet the relevant criteria. In making any such selection, the Default Swap Counterparty will not be liable to account to the Noteholders, or any other person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from any such selection.

Certain affiliates of the Default Swap Counterparty may from time to time advise the Reference Entities, the issuers of Selected Obligations regarding transactions to be entered into by them, or engage in transactions involving one or more Reference Entities, issuers of Selected Obligations for their proprietary accounts and for other accounts under their management.

Any such transactions may have a positive or negative effect on the creditworthiness of the Reference Entities and the value of the related Selected Obligations and therefore on the value of the Notes. Accordingly, certain conflicts of interest may arise both among these affiliates and between the interests of these affiliates and the interests of Noteholders.

PART A – CONTRACTUAL TERMS

The Notes described herein are designated as Permanently Restricted Notes. As a result, they may not be legally or beneficially owned at any time by any U.S. Person (as defined in Regulation S) and accordingly are being offered and sold outside the United States to persons that are not U.S. Persons in reliance on Regulation S.

By its purchase of a Note, each purchaser will be deemed or required, as the case may be, to have agreed that it may not resell or otherwise transfer any Note held by it except outside the United States in an offshore transaction to a person that is not a U.S. Person.

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth under the heading “*Terms and Conditions of the French Law Notes*” in the Debt Issuance Programme Prospectus dated 27 April 2010 which constitutes a base prospectus for the purposes of the Prospectus Directive (Directive 2003/71/EC) (the Prospectus Directive). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Debt Issuance Programme Prospectus and any Supplement(s) to such Debt Issuance Programme Prospectus published prior to the Issue Date (as defined below) (Supplement(s)); provided, however, that to the extent such Supplement (i) is published after these Final Terms have been signed or issued and (ii) provides for any change to the Conditions as set out under the heading “*Terms and Conditions of the French Law Notes*”, such change(s) shall have no effect with respect to the Conditions of the Notes to which these Final Terms relate. Full information on the Issuer and the offer of the Notes are only available on the basis of the combination of these Final Terms, the Debt Issuance Programme Prospectus and any Supplement(s). Prior to acquiring an interest in the Notes described herein, prospective investors should read and understand the information provided in the Debt Issuance Programme Prospectus and any Supplement(s) and be aware of the restrictions applicable to the offer and sale of such Notes in the United States or to, or for the account or benefit of, U.S. persons. Copies of the Debt Issuance Programme Prospectus, any Supplement(s) and these Final Terms are available for inspection from the head office of the Issuer, the specified offices of the Paying Agents and, in the case of Notes admitted to trading on the regulated market of the Luxembourg Stock Exchange, on the website of the Luxembourg Stock Exchange (www.bourse.lu).

Schedule 1: General Provisions

(this Schedule forms part of the Final Terms to which it is attached)

The Default Swap

Default Swap means a synthetic credit default swap between the Issuer and Société Générale as default swap counterparty (the **Default Swap Counterparty**) in the form attached as Schedule 2 and relating to a portfolio of Reference Entities as disclosed in Appendix A of Schedule 2 (the **Reference Portfolio**). Pursuant to the Default Swap, the Protection Buyer (as defined in the Default Swap) would have the right to exercise the credit default provisions immediately upon (and at any time subsequent to) the occurrence of a Credit Event (as defined in the Default Swap) in respect of one or more Reference Entities within the Reference Portfolio during the period from and including the Effective Date (as defined in the Default Swap) to and including the Latest Determination Time (as defined in the Default Swap). The amount at which the Notes will be redeemed at their Maturity Date will depend on whether the Conditions to Settlement have been satisfied in respect of one or more Reference Entities within the Reference Portfolio. Consequently, the redemption amount payable in respect of the Notes is linked to the credit risk of the Reference Portfolio.

Schedule 2: Form of Confirmation of Default Swap

(this Schedule forms part of the Final Terms to which it is attached)

The following pro forma portfolio credit default swap confirmation sets out the terms relating to the Default Swap referred to in the Final Terms to which this pro forma confirmation (the **Confirmation**) is attached. For the purpose of determining the Final Redemption Amount, the Issuer shall be deemed to have entered into a portfolio credit default swap transaction (for the purposes of this Confirmation, the **Transaction**), acting as a hypothetical protection seller, on the terms set out below. The counterparty in relation to such Transaction shall, for the avoidance of doubt, be Société Générale acting as a hypothetical protection buyer. Other than for the purposes of calculation referred to above, in no event shall the parties be deemed to have entered into a transaction on the terms set out below. Any notice or communication required to be given by a person pursuant to the Confirmation will be deemed to have been given, and will be deemed effective, on the date on which it is sent by or on behalf of such person. Any determinations or notifications to be made by Société Générale as Protection Buyer hereunder (except in relation to the selection of Selected Obligations and the Notice of Selected Obligations) shall be made by the Calculation Agent in its sole and absolute discretion as if, for the purposes of this Transaction, the Calculation Agent were the Protection Buyer.

This Confirmation shall supplement, form part of, and be subject to an agreement in the form of the 1992 ISDA Master Agreement (Multicurrency – Cross Border) (the **1992 Form**) as if an agreement in such form had been executed (but without any Schedule except for the election of English Law as the governing law, EUR as the Termination Currency and the deletion of the Events of Default and Termination Events in Section 5 in respect of each party) on the Trade Date of the Transaction.
