The Issuer is a public company incorporated and registered in Jersey under the Companies (Jersey) Law 1991 (as amended) with registered number 109413.

B.16 Direct/ indirect  
control of the  
Issuer

The shares in the Issuer are held entirely by ETFS Holdings (Jersey) Limited ("**HoldCo**"), a holding company incorporated in Jersey. The shares in HoldCo are directly owned by ETF Securities Limited ("**ETFSL**") which is also incorporated in Jersey. The Issuer is neither directly or indirectly owned or controlled by any other party to the programme.

B.20 Special purpose  
vehicle

The Issuer has been established as a special purpose vehicle for the purpose of issuing the Currency-Hedged Commodity Securities as asset-backed securities in the form of individual or index securities (the "**Currency-Hedged Commodity**

Securities”).

---

B.21 Principal activities and overview of the parties

The principal activity of the Issuer is issuing several classes of Currency-Hedged Commodity Securities which are backed by derivative contracts (the “**Commodity Contracts**”) which provide exposure to movements in indices (the “**DJ-UBS Commodity Indices**”) calculated and published by CME Group Index Services LLC (“**CME Indices**”) in conjunction with UBS Securities LLC (“**UBS Securities**”) which indices track movements in the price of individual commodity futures contracts or baskets of commodity futures contracts and for which the effects of foreign exchange risk are hedged. The Issuer has established a programme under which different classes of Currency-Hedged Commodity Securities may be issued from time to time. Currency-Hedged Commodity Securities are designed to give Australian Dollar, Euro and Pound Sterling investors exposure to the performance of various individual commodity futures contracts and baskets of commodity futures contracts priced in US Dollars and to hedge such exposure against exchange rate movements between the US Dollar and the Australian Dollar, Euro or Pound Sterling respectively.

The DJ-UBS Commodity Indices form part of the basis of the pricing of the Currency-Hedged Commodity Securities (which are priced according to the Formula).

Currency-Hedged Commodity Securities can be issued and redeemed on a daily basis by financial institutions (“**Authorised Participants**”) who (i) have entered into an agreement entitled “Authorised Participant Agreement” with the Issuer; (ii) have certified to the Issuer as to their status under the Financial Services and Markets Act 2000 (“**FSMA**”); and (iii) (except in the case of a Commodity Contract Counterparty which has entered into an Authorised Participant Agreement with the Issuer) has entered into a corresponding agreement entitled “Direct Agreement” with at least one Commodity Contract Counterparty and which has not been notified by that Commodity Contract Counterparty that it is not an unacceptable authorised participant in respect of that Commodity Contract Counterparty. Other holders of Currency-Hedged Commodity Securities may also redeem Currency-Hedged Commodity Securities if there are no Authorised Participants or if the Issuer otherwise announces. All other parties may buy and sell Currency-Hedged Commodity Securities through trading on an exchange or market on which the Currency-Hedged Commodity Securities are admitted to trading.

The Issuer achieves a return based on the movements of the relevant DJ-UBS Commodity Indices by holding corresponding Commodity Contracts purchased from UBS AG, London Branch (“**UBS**”) and Merrill Lynch International (“**MLI**”) (together the current “**Commodity Contract Counterparties**”). The terms of the Commodity Contracts purchased or to be purchased by the Issuer are governed by (i) an agreement entitled “**UBS Facility Agreement**” between the Issuer and UBS dated 23 February 2012; and (ii) an agreement entitled “**MLI Facility Agreement**” between the Issuer and MLI dated 23 February 2012, together the “**Facility Agreements**”.

The payment obligations of MLI under its Facility Agreement are supported by a guarantee (the “**BAC Guarantee**”) from Bank of America Corporation (“**BAC**”) granted in favour of the Issuer.

The obligations of the Commodity Contract Counterparties to the Issuer under Commodity Contracts are secured by collateral provided by the Commodity Contract Counterparties and held in accounts in the names of the Commodity Contract Counterparties at Bank of New York Mellon (“**BNYM**”). Pursuant to (i) agreements entitled “UBS Security Agreement” between UBS and the Issuer and “UBS Control Agreement” between BNYM, UBS and the Issuer each dated 23 February 2012; and (ii) agreements entitled “MLI Security Agreement” between the MLI and the Issuer and “MLI Control Agreement” between BNYM, MLI and the Issuer each dated 23 February 2012, UBS and MLI are required to transfer to a collateral account, securities and obligations to the value of the Issuer’s total exposure under the Commodity Contracts to UBS or MLI (as applicable). The collateral held is adjusted daily to reflect the value of the relevant Commodity Contracts.

Currency-Hedged Commodity Securities are constituted under an agreement entitled the “**Trust Instrument**” between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee (the “**Trustee**”) of all rights and entitlements under the Trust Instrument for any person identified on the registers as holding the Currency-Hedged Commodity Securities (the “**Security Holders**”).

The Issuer and the Trustee have entered into a document entitled “**Security Deed**” which covers each pool of Commodity Contracts attributable to any class of Currency-Hedged Commodity Securities (each a “**Pool**”) and the rights and entitlements held by the Trustee under the Security Deed are held by the Trustee on trust for the Security Holders of the relevant class of Currency-Hedged Commodity Security.

The Issuer is a special purpose company whose only assets attributable to the Currency-Hedged Commodity Securities are the Commodity Contracts and related contractual rights and so the ability of the Issuer to meet its obligations in relation to Currency-Hedged Commodity Securities will be wholly dependent on its receipt of payments under the Commodity Contracts from UBS and MLI and its ability to realise the collateral under the UBS Security Agreement, UBS Control Agreement, MLI Security Agreement and MLI Control Agreement.

ETF Management Company (Jersey) Limited (“**ManJer**”), a company which is wholly-owned by ETFSL, supplies, or will arrange the supply of, all management and administration services to the Issuer and pays all the management and administration costs of the Issuer in return for a fee payable by the Issuer.

## B.25 Underlying assets

The underlying for the Currency-Hedged Commodity Securities of each class, on which they are secured, is the Commodity Contracts of the same class, the Facility Agreements (to the extent attributable to that class) and the UBS Security Agreement, the UBS Control Agreement and/or the MLI Security Agreement and the MLI Control Agreement in favour of the Issuer in respect of such Commodity Contract Counterparties' obligations to the Issuer under the Facility Agreements in respect of that class. The Currency-Hedged Commodity Securities are backed by Commodity Contracts of equivalent value.

The securitised assets backing the issue, being the Commodity Contracts, Facility Agreements, the BAC Guarantee, the UBS Security Agreement, the UBS Control Agreement, the MLI Security Agreement and the MLI Control Agreement, have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Currency-Hedged Commodity Securities. Currency-Hedged Commodity Securities of each class are backed by Commodity Contracts with corresponding terms and each time a Currency-Hedged Commodity Security is created or redeemed a matching amount of Commodity Contracts are purchased or cancelled by the Issuer. Commodity Contracts will be purchased from one or more Commodity Contract Counterparties.

The Issuer will decline applications for Currency-Hedged Commodity Securities if it cannot for any reason create corresponding Commodity Contracts with a Commodity Contract Counterparty.

At the date of this Prospectus, the Issuer has entered into arrangements with two Commodity Contract Counterparties – UBS and MLI.

Under the Facility Agreements there are limits, both daily and in aggregate, on the number of Commodity Contracts that can be created or cancelled at any time. Creations and redemptions of Currency-Hedged Commodity Securities are subject to both daily limits and total aggregate limits, to match the limits on Commodity Contracts.

B.28 Structure of the transaction

Currency-Hedged Commodity Securities are constituted by the Trust Instrument. Under the terms of the Trust Instrument, the Trustee acts as Trustee for the Security Holders of each class of Currency-Hedged Commodity Security.

If an Authorised Participant does not make payment for the full amount of Currency-Hedged Commodity Securities applied for on the due date for payment or the following business day, the Issuer may elect by notice to the Authorised Participant to cancel the application.

A Security Holder who is also an Authorised Participant may, at any time, by lodging a redemption request (in such form as the Issuer will determine from time to time) with the Issuer, require the redemption of all or any of its Currency-Hedged Commodity Securities at the price on the day such redemption request is submitted. **Section C - Securities**

C.1 Type and class of securities being offered

The Issuer has created and made available for issue four families of Currency-Hedged Commodity Securities ("Classic Individual Currency-Hedged Commodity Securities", "Classic Index Currency-Hedged Commodity Securities", "Longer Dated Individual Currency-Hedged Commodity Securities" and "Longer Dated Index Currency-Hedged Commodity Securities") each of which has been issued in multiple classes. Each class of Currency-Hedged Commodity Securities give investors exposure to the performance of various individual commodity futures contracts and baskets of commodity futures contracts by tracking the DJ-UBS Commodity Indices.

The return on the Currency-Hedged Commodity Securities is linked in each case to the performance of the related DJ-UBS Commodity Indices as follows:

- Classic Individual Currency-Hedged Commodity Securities track DJ-UBS Commodity Indices which provide exposure to movements in the value of futures contracts in one type of commodity due for delivery within a range of one to three months and hedged against the effects of foreign exchange risk between the US Dollar and the relevant currency;

- Classic Index Currency-Hedged Commodity Securities track DJ-UBS Commodity Indices which provide exposure to movements in the value of futures contracts in a number of different commodities due for delivery within a range of one to three months and hedged against the effects of foreign exchange risk between the US Dollar and the relevant currency;

- Longer Dated Index Currency-Hedged Commodity Securities track DJ-UBS Commodity Indices which provide exposure to movements in the value of futures contracts in a number of different commodities due for delivery within a range of four to six months and hedged against the effects of foreign exchange risk between the US Dollar and the relevant currency;

in each case plus an adjustment for the risk free interest rate which accrues to a fully collateralised position in the relevant underlying futures contracts.

Currency-Hedged Commodity Securities are designed to give investors a “total return” similar to that which could be achieved from managing a long fully cash collateralised unleveraged position in futures contracts of specific maturities, less applicable fees. Unlike managing futures positions, Currency-Hedged Commodity Securities involve no rolling, margin calls, expiry or futures brokerage.

$$P_{i,t} = P_{i,t-1} \times \left( \frac{I_{i,t}}{I_{i,t-1}} + CA_{i,t} \right)$$

where:

$P_{i,t}$  is the price of a Currency-Hedged Commodity Security of class  $i$  for day  $t$

$I_{i,t-1}$  is the Closing Settlement Price Level of the Commodity Index to which Currency-Hedged Commodity Securities of class  $i$  relate for day  $t-1$ ; and

## Section D - Risks

D.2 Key risks of Issuer The following are the key risks of the Issuer:

The Issuer has been established as a special purpose vehicle for the purpose of issuing the Currency-Hedged Commodity Securities as asset-backed securities.

Although Currency-Hedged Commodity Securities are secured by Commodity Contracts and collateral, the value of such Currency-Hedged Commodity Securities and the ability of the Issuer to pay any redemption amounts remains partly dependent on the receipt of amounts due from UBS and MLI under the Facility Agreements, the Security Agreements and the Control Agreements and amounts due from BAC in respect of MLI obligations. No holder has any direct rights of enforcement against any such person.

There can be no assurance UBS, MLI or any other entity will be able to fulfil their payment obligations under the relevant Commodity Contracts, Facility Agreement, BAC Guarantee, Security Agreement or Control Agreement. Consequently, there can be no assurance that the Issuer will be able to redeem Currency-Hedged Commodity Securities at their redemption price.

---

D.6 Key risks of securities

The following are the key risks of securities:

- Investors in Currency-Hedged Commodity Securities may lose the value of their entire investment or part of it.
- The Commodity Indices incorporate a daily adjustment to reflect movements in the exchange rate between the US Dollar and the relevant currency which is made by rebalancing the hedge position on a daily basis. Such adjustment does not reflect a pure currency hedge as investors will still be exposed to exchange rate movements that on intra-day change in the value of the corresponding unhedged commodity index.
- There are certain circumstances in which an early redemption of Currency-Hedged Commodity Securities may be imposed on investors, which may result in an investment in Currency-Hedged Commodity Securities being redeemed earlier than desired.
- The ability of the Issuer to pay on redemption of Currency-Hedged Commodity Securities is wholly dependent on it receiving payment from a Commodity Contract Counterparty.
- No Commodity Contract Counterparty has guaranteed the performance of the Issuer's obligations and no holder has any direct rights of enforcement against any such person.
- In the event of realisation of collateral from a Commodity Contract Counterparty, the value of the assets realised may be less than required to meet the redemption amount due to Security Holders and any

realisation of the collateral may take time.

- An investor's potential loss is limited to the amount of the investor's investment.
