NetEDI is renowned for its powerful NetTIX cloud-based accounting, ERP integration and digitization solutions platform that connects and automates vital business processes across all industries. With this deal, *Cegedim e-business*, which is currently rolling out its comprehensive digitalization service *SY by Cegedim*, confirms its commitment to innovation, notably with the NetTIX platform providing a global PEPPOL solution.

Its NetTIX platform provides a single point for EDI services, ERP integration and document digitization

Benoît Garibal, Director of Cegedim e-business, comments, "NetEDI is a fast-growing company, particularly well positioned within the healthcare and retail markets. Clear technological and business synergies and the opportunity to strengthen our footprint in the UK make this acquisition a significant step in supporting our customers' digital transformation.
