

Nexans is preferred power export cable supplier for the Seagreen offshore wind farm project

- *Nexans is SSE's preferred supplier for the design, manufacture and installation of the onshore and offshore export cables for the 1,075MW Seagreen wind farm project*
- *Nexans will supply and install the three 65 km offshore export cables and three 20 km onshore export cables for the project*

Paris La Défense, November 4, 2019 – Nexans has been appointed by SSE as the preferred supplier to design, manufacture and install the onshore and offshore export cables for the Phase 1 development of the Seagreen offshore wind farm project. Currently under construction off the Angus coast, Phase 1 comprises the Seagreen Alpha and Bravo wind farms. With a combined capacity of 1,075MW, they will form the largest windfarm project in Scotland when they come on line in 2024.

Nexans will supply and install the three 65 km offshore export cables and three 20 km onshore export cables for the project.

Seagreen Project Director John Hill said: *"We are pleased to announce Nexans as our preferred supplier to design, supply and install the onshore and offshore export cable. Nexans is one world leaders in this field and this agreement is a major step forward for the Seagreen project."*

Vincent Desale, Nexans SEVP for the Subsea and Land System Business Group commented: *"We are delighted to receive this agreement from SSE and we are excited to be helping to bring the biggest windfarm in Scotland to life."*

SSE Renewables, Seagreen's owner, is hosting a number of "Meet the Buyer" events on the 5th, 6th, and 7th of November in Inverness, Aberdeen and Dundee respectively to promote contract opportunities for local companies to engage with the Seagreen project, Nexans will be attending these events to meet with members of the supply chain and discuss their service offerings for the project.

About Nexans

Nexans brings energy to life through an extensive range of advanced cabling systems, solutions and innovative services.

For over 120 years, Nexans has been providing customers with cutting-edge cabling infrastructure for power and data transmission. Today, beyond cables, the Group advises customers and designs solutions and services that maximize performance and efficiency of their projects in four main business areas: Building & Territories (including utilities, e-mobility), High Voltage & Projects (covering offshore wind farms, submarine interconnections, land high voltage), Telecom & Data (covering data transmission, telecom networks, hyperscale data centers, LAN), and Industry & Solutions (including renewables, transportation, Oil & Gas, automation, and others).

Corporate Social Responsibility is a guiding principle of Nexans' business activities and internal practices. In 2013 Nexans became the first cable provider to create a Foundation supporting sustainable initiatives bringing access to energy to disadvantaged communities worldwide. The Group's commitment to developing ethical, sustainable and high-quality cables also drives its active involvement within leading industry associations, including Europacable, the NEMA, ICF or CIGRE to mention a few.

Nexans employs nearly 27,000 people with industrial footprint in 34 countries and commercial activities worldwide. In 2018, the Group generated 6.5 billion euros in sales.

Nexans is listed on Euronext Paris, compartment A.
