About Artefact | artefact.com

Created from the merger of the startup Artefact founded in Paris in 2015 and the media agency NetBooster founded in 1998, Artefact has emerged in 5 years as a leading player in Data consulting transformation & “data driven’ digital marketing. Operating in 18 offices and 14 countries, Artefact is a new generation of data services company, specializing in data transformation and data-driven digital marketing consulting, dedicated to transforming data into business impact across the entire value chain of organisations. Artefact offers a comprehensive range of data-driven solutions built upon deep data science and AI technology: data strategy, data governance, medialake design, data-driven customer experience, precision marketing, multi-channel campaign management and brand Studio - to more than 400 customers including many world leaders. Artefact has created in January 2019 its own AI R&D center and has been serving international groups in creating their own AI Lab. Artefact is listed on Euronext Growth Paris Stock Exchange (ISIN code: FR0000079683).
