

## McPhy selected to equip a large capacity hydrogen station in the west of France

**La Motte-Fanjas, October 22, 2021 – 07:30 am CEST – McPhy (Euronext Paris Compartment C: MCPHY, FR0011742329)**, (the “Company”) specialized in zero-carbon hydrogen production and distribution equipment (electrolyzers and refueling stations), today announces that it has received an order to supply a large capacity hydrogen station in the west of France<sup>1</sup>.

McPhy will design, manufacture and integrate a McFilling "Dual Pressure" hydrogen station. Providing two distribution pressures (350 and 700 bar), this robust equipment, at the cutting edge of technology, is designed to refuel all forms of hydrogen mobility: light vehicles, garbage trucks, buses or trucks.

With a distribution capacity of 800 kg/day, this model of station responds to the growing demand of the zero-emission mobility market, and to the increasingly ambitious decarbonization schemes emerging in the heart of the territories.

This new contract brings the number of McPhy references to 37 stations<sup>2</sup>, confirming the Group's position as a major player in hydrogen mobility.

### About McPhy

Specialized in hydrogen production and distribution equipment, McPhy is contributing to the global deployment of zero-carbon hydrogen as a solution for energy transition. With its complete range of products dedicated to the industrial, mobility and energy sectors, McPhy offers its customers turnkey solutions adapted to their applications in industrial raw material supply, recharging of fuel cell electric vehicles or storage and recovery of electricity surplus based on renewable sources. As designer, manufacturer and integrator of hydrogen equipment since 2008, McPhy has three development, engineering and production centers in Europe (France, Italy, Germany). Its international subsidiaries provide broad commercial coverage for its innovative hydrogen solutions. McPhy is listed on Euronext Paris (compartment C, ISIN code: FR0011742329, MCPHY).
