

# ALBIOMA

## PRESS Release

Paris La Défense, 16 December 2021

## *Albioma wins 5 MWp of solar projects in mainland France*

Albioma has been awarded the contracts for all the projects, representing an aggregate capacity of 5 MWp, for which the Group bid in response to the French government's call for tenders (CRE4.13) for "solar power plants on buildings with a capacity between 100 kWp and 8 MWp" issued in July 2021.

This installed capacity is spread over 12 projects, located in the Auvergne-Rhône-Alpes, Occitanie and Provence-Alpes-Côte-d'Azur regions, where Albioma has been operating since December 2018.

Construction of these projects will begin in 2023, with commissioning scheduled for the second half of 2023.

Next on the agenda: Full-year results for the 2021 financial year, on 2 March 2022 (before trading).

### *About Albioma*

Albioma is an independent renewable energy producer, supporting the energy transition with biomass and photovoltaic energy.

The Group operates in the French overseas departments, mainland France, Mauritius and Brazil. For 25 years it has been developing a unique partnership with the sugar industry, producing renewable energy from bagasse, a fibrous residue of sugar cane.

Albioma is also the leading generator of photovoltaic power overseas, where it constructs and operates innovative projects with integrated storage capabilities. Albioma has recently strengthened its position in solar power in metropolitan France.

The Group recently announced the acquisition of a geothermal power plant in Turkey.

Albioma is listed on the Euronext Paris exchange (compartment B) - Eligible for SRD, PEA & PEA-PME and forms part of SBF 120 and CAC Mid 60.

The Group is also listed in the Gaïa Index of socially responsible midcap companies.
