COiL
ADDING VALUE TO ALUMINIUM

World leader in aluminium
anodising

Brussels, 14 September 2022 (5.45pm)

INTERIM DIVIDEND OF €1 PAID OUT ON SEPTEMBER 30

COIL, the world leader for aluminium anodising, is announcing that the interim dividend of EUR 1.00 gross per share will be paid out on September 30, in line with the decision taken today by the shareholder's general meeting.

The meeting decided to distribute an interim dividend to the shareholders based on the figures of the last completed financial year (being the financial year closed on 31 December 2021) for an amount of EUR 1.00 gross per share.

With a share price of EUR 9 on September 7, 2022, this interim dividend corresponds to a gross annual yield of 11.1%.

ABOUT COIL

COIL is the world's leading anodiser in the building and industrial sectors and trades under the ALOXIDE® brand name.

Anodising is an electrochemical process (electrolysis) which develops a natural, protective oxide layer on the surface of aluminium and can be coloured in a range of UV-proof finishes. It gives the metal excellent resistance to corrosion and/or reinforces its functional qualities. Anodising preserves all the natural and ecological properties of aluminium; it retains its high rigidity and excellent strength-to-weight ratio, its non-magnetic properties, its exceptional resistance to corrosion. The metal remains totally and repeatedly recyclable through simple re-melting. Anodised aluminium is used in a wide variety of industries and applications: architecture, design, manufacturing and the automotive sector.

COIL deploys an industrial model that creates value by leveraging its unique know-how, its operational excellence, the quality of its investments and the expertise of its people. COIL has around 110 employees in Belgium and Germany and generated a turnover of around €25 million in 2021.
