

Q3 2023 revenue

- **Q3 2023 revenue: stable year-on-year at €50.1m**
- **Growth impacted by:**
 - The completed deployment of solutions under the *Séгур* French Digital Healthcare investment programme:
 - Adverse market conditions affecting Pharmacy sector.

In €m	2022	2023	Change 2023 / 2022
Q1	49.4	56.3	+14% (*)
Q2	54.2	56.3	4 %
Q3 (unaudited)	50.1	50.1	0 %
9 month YTD	153.7	162.7	6 %

(*) Strong growth in Q1 reflecting a favourable comparison base (restructuring of the electronic labelling activity).

Q3 2023 business highlights:

- The PHARMAGEST Division reported revenue of €36.8m, marginally down on Q3 2022 (-1%). For the first 9 months, revenue rose 6% to €120.5m.
 - The hardware configuration business was down in relation to Q3 2022, reflecting notably completion of the technical compliance campaign for the installed base combined with the rollout of *Séгур* functionalities.
 - The economic environment impacted by inflation and rising operating costs, combined with a financial context unfavourable for investment, also adversely impacted equipment purchases by pharmacies, including for electronic labels.
 - Driven by the success of new offerings, and in particular messaging, mobility and back-up solutions, sales of licenses and services remain buoyant.
 - Recurring revenue continue to show strong growth.
 - This Division accounted for 74 % of Equasens Group's total revenue.

- **The AXIGATE LINK Division** had revenues of €7.4m, up 6% on Q3 2022. Revenue for the first 9 months rose 6% to €22.3m.
 - The Division is continuing to grow in its historical market segments of nursing homes and hospital-at-home care.
 - The TITANLINK solution continues to display strong growth, particularly in Belgium, as new functionalities, such as CARELIB, are being integrated into the software.
 - This Division accounted for 14 % of Equasens Group's total revenue.

- **The E-CONNECT Division** had revenue of €3.6m, with strong growth of 23% compared with Q3 2022. Revenue for the first nine months rose 13% to €11.7m.
 - Once again, the Division registered a very good performance for the quarter: Mobility solutions have been a genuine success, made possible by the Division's ability to meet the challenges of production capacity and component sourcing.
 - This Division accounted for 7 % of Equasens Group's total revenue.

- **The MEDICAL SOLUTIONS Division** had revenue of €1.8m, down 24% on Q3 2022. For the full first nine months, total revenue remained stable year-on-year, at €6.7m.
 - This decline in revenue reflects the end of Medistory 4 license sales in H1 linked to the *Séгур* rollout initiated in Q3 2022.
 - Today, the Division is offering a new subscription-based version of its Médistory software representing a source of recurring revenue.
 - This Division accounted for 4 % of Equasens Group's total revenue.

- **The FINTECH Division** reported sales of €0.4m for Q3 2022 and €1.5m for the first 9 months, unchanged in relation to the same periods in 2022.
 - The continuing rise in refinancing rates continues to penalise the financing brokerage activity.
 - This Division accounted for 1 % of Equasens Group's total revenue.

2023 outlook

- Excluding the comparison base effect from the end of the *Séгур* deployment in 2022 and its exceptional contribution to revenue, growth momentum of the PHARMAGEST Division's remains solid.
- The AXIGATE LINK and e-CONNECT Divisions are also confident that their growth levels will remain strong for the remainder of the year.
- The MEDICAL SOLUTIONS Division is currently restructuring its offering and organization in order to enhance its performance.
- Based on the positive results of a major business development campaign, the FINTECH Division is confident about its outlook for year-end.
- The Group will continue to be on the lookout for external growth opportunities in France and Europe.

Financial calendar:

- Q4 2023 revenue: 6 February 2024
