Restated net cash position <sup>5</sup>	3,922	4,562	3,740
Workforce (number of employees)	15,698	15,417	14,751

(1) Growth at constant exchange rates is calculated by applying, for each currency, the average exchange rates of the previous period to the revenue for the period.

(2) Recurring operating income is one of the main performance indicators monitored by the Group's management. It corresponds to operating income excluding non-recurring items having a significant impact that could affect understanding of the Group's economic performance.

(3) Adjusted free cash flow is the sum of cash flows related to operating activities, less operating investments and the repayment of lease liabilities recognised in accordance with IFRS 16 (consolidated statement of cash flows).

(4) The IFRS net cash position includes cash and marketable securities, less bank overdrafts and short-term debt. It does not include lease liabilities recognised in accordance with IFRS 16.

(5) Restated net cash position includes cash investments that do not meet IFRS criteria for cash equivalents as a result of their original maturity of more than three months.

## 2. HALF-YEAR BUSINESS REPORT

### 2.1 HALF-YEAR HIGHLIGHTS

The first half of 2020 was marked by an unprecedented health and economic crisis in scale, duration and geographic extent. As expected, the pandemic intensified in the second quarter in Europe, America and again in certain Asian countries, leading to the temporary closure of the stores in compliance with the various governmental directives, and the stoppage of the production sites in France and Europe to protect all the employees.

The Group's consolidated revenue in the first half of 2020 amounted to €2,488 million, down -24% at current exchange rates and -25% at constant exchange rates. Sales trends in the second quarter (-41% at current exchange rates and -42% at constant exchange rates) reflect the impacts of the health crisis on the network. Recurring operating income

amounted to €535 million (21.5% of sales) at the end of June. Net income reached €335 million (13.5% of sales). Executive Chairman of Hermès, Axel Dumas, said:

*"This unprecedented crisis, which began at the start of the year and is still ongoing, allows us to test our business model's strength. True to its values, the Group has preserved jobs and maintained the basic salaries of its employees worldwide without having recourse to the exceptional governmental subsidies provided in various countries. I am proud of the teams' dedication, and the courage, commitment and generosity they have shown. I want to thank them. The loyal clients, desirable collections, agile omnichannel network and independence of the Group are the pillars that give us confidence in the future and will support our recovery."*

### 2.2 FIRST-HALF ACTIVITY

(At constant exchange rates unless otherwise indicated)

In the first half 2020, all the geographical areas were impacted by the health crisis and stores' closure. The revenue generated in the Group's stores was down -22% at constant exchange rates, they are gradually recovering.

- ♦ In Asia excluding Japan (-9%), all stores reopened in Mainland China in March, and sales are growing strongly, while activity in Hong Kong and Macao remains down due to border control measures. Several countries in the region experienced a second wave of store closures, including Singapore until mid-June, Australia and Thailand. A new flagship store opened in Sydney in June, and the stores in Guangzhou in Mainland China and Bellavita in Taiwan successfully reopened in April and May after expansions. The rollout of the new digital platform in Asia continued in Hong Kong and Macau in February and in Korea in June, in a context of very strong growth in e-commerce sales.
- ♦ In Japan (-23%), following the Japanese government's announcement of a state of emergency, most stores were closed in April and May for about 6 weeks. The recovery is particularly dynamic thanks to the loyalty of local customers. Sales were especially strong on the new *hermes.jp* platform.
- ♦ America (-42%) was affected by total store closings for more than 10 weeks in the United States, as the other countries in the region, with a very gradual recovery at the end of June. The Montreal store, enlarged and renovated, reopened in June.

- ♦ Europe excluding France (-36%) and France (-38%) have been strongly affected by the reduction in tourist flows. After the closure of the entire European network for an average of nine weeks, stores gradually reopened in Germany late April, in France mid-May, in Italy and Spain late May and in the United Kingdom mid-June.

Leather Goods and Saddlery posted a decrease (-23%) due to the closure of stores in the various geographic areas. Hermès closed its production sites in France mid-March to protect employees for four weeks and reopened gradually, except for the Hermès Perfumes site in Le Vaudreuil which began producing hydro-alcoholic gel. Investments in production capacity have been maintained, with the continuation of the Guyenne and Montereau leather workshops, and the projects in Louviers and in the Ardennes. Hermès continues to strengthen its local integration in France.

The Group's other business lines were also strongly impacted by store closures in the second quarter, after an excellent month of January which had benefited from the favorable dynamics of the Chinese New Year. The Ready-to-wear and Accessories (-29%) and Silk and Textiles (-39%) business lines were further penalized by the traffic declines.

Perfumes were down (-29%), despite the very successful launch of the Beauty line with the first lipstick collection early February, as were Watches (-19%). The other Hermès business lines (-4%) have held up particularly well thanks to Jewellery and Home universe.

(2) The "Ready-to-wear and Accessories" business line includes Hermès Ready-to-wear for men and women, belts, jewellery accessories, gloves, hats and shoes.

(3) The "Other Hermès business lines" include Jewellery and Hermès Home products (Art of Living and Hermès Tableware).

(4) The "Other products" include the production activities carried out on behalf of non-group brands (textile printing, tanning, etc.), as well as the John Lobb, Saint-Louis, Puiforcat and Shang Xia products.

## 2.3 TREND IN FIRST-HALF RESULTS

The gross margin was 65%, down 3.7 points compared with the first half of 2019. The health crisis linked to the Covid-19 pandemic has resulted in a deterioration in collection turnover rates and lower productivity of production sites.

Selling, marketing and administrative expenses, which represented €769 million, compared with €842 million in the first half of 2019, included €107 million in communication expenditure (compared with €145 million in the previous half-year).

Other income and expenses amounted to €314 million (compared with €269 million in the previous half-year). This figure includes €232 million in depreciation and amortisation expense, an increase which notably reflects the rapid pace of investment in the development and renovation of the distribution network. It also comprises the €67 million cost of free share plans and a €20 million donation to AP-HP (the Parisian public hospital system).

Recurring operating income totalled €535 million, compared with €1,144 million in the first half of 2019. Operating margin, which amounted to 21.5%, compared with 34.8% in the first half of 2019, was impacted by strong vertical integration and the weight of fixed costs, consisting mainly of payroll and depreciation of investments and leases.

Net financial income, which includes interests on lease liabilities, financial income from cash management investments and foreign exchange gains and losses, represented an expense of €43 million, compared with €16 million in the first half of 2019.

After taking into account an income tax expense of €161 million and income from associates (€3 million), consolidated net income attributable to owners of the parent amounted to €335 million, compared with €754 million in the first half of 2019.

## 2.4 INVESTMENTS

Investments amounted to €171 million in the first half of 2020, including €162 million in operating investments, reflecting the decision to pursue the Group's strategic projects.

<i>In millions of euros</i>	<b>H1 2020</b>	<b>FY 2019</b>	<b>H1 2019</b>
Operating investments	162.2	478.0	169.8
Investments in financial assets	8.6	12.8	0.8
<b>Subtotal – Investments (excluding financial investments)</b>	<b>170.8</b>	<b>490.9</b>	<b>170.6</b>
Financial investments <sup>1</sup>	-	76.6	60.8
<b>TOTAL INVESTMENTS</b>	<b>170.8</b>	<b>567.4</b>	<b>231.4</b>

(1) Financial investments correspond to the investments for which the sensitivity and maturity requires that they be classified as financial assets in accordance with IFRS.

2

## 2.5 FINANCIAL POSITION

Operating cash flows totalled €634 million, compared with €971 million at end-June 2019. After the change in working capital requirements, taking into account operating investments and the deduction for repayment of lease liabilities, adjusted free cash flow came to €27 million, compared with €618 million in the first half of 2019.

After payment of the ordinary dividend (€474 million) and share buybacks (€123 million for 167,769 shares excluding sales and purchases made under the liquidity contract), net cash amounted to €3,742 million, compared with €4,372 million as of 31 December 2019.

The restated net cash position, which includes financial investments with maturities of more than three months, amounted to €3,922 million at 30 June 2020, compared with €4,562 million at 31 December 2019.

After payment of the ordinary dividend, shareholders' equity attributable to owners of the parent amounted to €6,340 million at 30 June 2020, compared with €6,568 million at 31 December 2019.

## 2.6 OUTLOOK

As of the date of this financial report, almost all of the Group's stores have reopened, in compliance with strict sanitary measures, even if the recovery in activity remains gradual in several countries. The Group is particularly pleased to welcome its customers, loyal to the Saddler's spirit.

For 2020, the impacts of the Covid-19 pandemic remain difficult to assess today due to the developments that are continuing in the various geographic areas. The craftsmanship model implemented mostly in France, the balanced distribution network and the local customer base are all factors that contribute to the company's resilience. The Group

remains highly involved and mobilized by adapting its systems to protect all its employees and customers.

Thanks to its unique business model, Hermès is pursuing its long-term development strategy based on creativity, maintaining control over know-how and singular communication.

In the medium term, despite growing economic, geopolitical and monetary uncertainties around the world, the Group confirms an ambitious goal for revenue growth at constant exchange rates.

## 2.7 RISKS AND UNCERTAINTIES

The Hermès Group's results are exposed to the risks and uncertainties set out in the 2019 Universal registration document. In the health, economic, political and social environment stemming from the Covid-19 epidemic, the Group is exposed in particular to the risks of a major

external crisis, business disruption, damage to the health and safety of people and consumers, and to foreign exchange risk. The economic and financial strength of the Hermès Group gives it the means to face this unprecedented health crisis.

## 2.8 RELATED-PARTY TRANSACTIONS

Information on the main related-party transactions relating to the six months to 30 June 2020 is provided in Note 31 to the condensed consolidated financial statements for the first half of 2020.

The condensed interim consolidated financial statements as presented were approved by the Executive Management on 29 July 2020 after review by the Audit and Risk Committee at its meeting of 28 July 2020.

## NOTE 1 ACCOUNTING PRINCIPLES AND POLICIES

The Hermès Group's condensed interim consolidated financial statements were prepared in accordance with IAS 34 *Interim financial reporting* as adopted by the European Union. The accompanying notes do not contain all of the information required for the full annual financial statements. They should therefore be read in conjunction with the consolidated financial statements for 2019.

The accounting policies and calculation methods used to prepare these condensed interim financial statements are the same as those used to prepare the financial statements for the year ended 31 December 2019 and described therein, with the exception of the estimated income tax expense for the first half and employee benefits, which are measured separately (Note 1.1).

The standards adopted by the European Union may be consulted at [www.eur-lex.europa.eu](http://www.eur-lex.europa.eu).

### 1.1 Special features of the preparation of interim financial statements

The half-yearly tax expense is calculated on the basis of an estimated average annual rate.

Barring a specific event, the post-employment benefit obligation is not subject to an actuarial valuation in the first half. The expense recognised for the first half-year is one-half of the net expense calculated for 2020 as a whole, based on the data and actuarial assumptions used as at 31 December 2019.

### 1.2 Impacts of the Covid-19 epidemic

The health crisis resulted in store closures in the first half of 2020, in compliance with the various governmental directives, and the temporary shutdown of production sites in order to all the employees. Against that backdrop, the Group's consolidated revenue for the first half of 2020 amounted to €2,488 million, down -24% at current exchange rates and down -25% at constant exchange rates, compared with the first half of 2019.

True to its values, the Group has preserved jobs and maintained the basic salaries of its employees worldwide without having recourse to the exceptional governmental subsidies provided in various countries.

Operating margin is impacted by strong vertical integration and the weight of fixed costs, consisting mainly of payroll and amortisation of investments and leases.

In addition, Hermès donated €20 million to AP-HP (the Parisian public hospital system), recognised in "Other expenses".

Rent discounts granted by lessors in the context of the Covid-19 epidemic are recognised in "Other income" in an immaterial amount at 30 June 2020.

### 1.3 Change in accounting standards

The impact of the November 2019 IFRIC decision on the determination of the term of leases and the depreciation period for the fixtures of the properties leased is currently being assessed.

## NOTE 2 CHANGES IN THE SCOPE OF CONSOLIDATION

No significant change in the scope of consolidation occurred during the first half of 2020.

### NOTE 3 ALTERNATIVE PERFORMANCE MEASURES

This Note aims to present the main Alternative Performance Measures ("APM") followed by the Group Management, and their reconciliation, where appropriate, with the aggregates of the IFRS consolidated financial statements.

- ♦ Growth in revenue at constant exchange rates: calculated by applying, for each currency, the average exchange rates of the previous period to the revenue for the period.
- ♦ Recurring operating come: operating income exclusive of non-recurring items with a significant impact that may affect understanding of the Group's economic performance.
- ♦ Net cash position: includes cash and marketable securities, less bank overdrafts and short-term debt. It does not include lease liabilities recognised pursuant to IFRS 16. The reconciliation of this aggregate with items in the consolidated balance sheet is presented in Note 22.1.
- ♦ Restated net cash position: net cash plus cash investments that do not meet IFRS cash equivalents criteria specifically as a result of their original maturity of more than three months.

The reconciliation between net cash and restated net cash is presented below:

<i>In millions of euros</i>	<b>H1 2020</b>	<b>FY 2019</b>	<b>H1 2019</b>
<b>NET CASH POSITION</b>	<b>3,741.8</b>	<b>4,371.6</b>	<b>3,531.7</b>
Cash investments with maturity at outset of over 3 months	180.0	190.0	208.2
<b>RESTATED NET CASH POSITION</b>	<b>3,921.8</b>	<b>4,561.6</b>	<b>3,739.8</b>

For management purposes, the Hermès Group sees all lease payments as items affecting operating activities. IFRS 16 considers fixed lease payments as the sum of the repayment of the principal portion of the lease liability and the payment of financial interest. Consequently, the Group follows the following APM:

- ♦ adjusted free cash flow is the cash flow related to operating activity, less operating investments and the repayment of lease liabilities recognised in accordance with IFRS 16 (consolidated statement of cash flows).

The reconciliation of this indicator with the Group's statement of consolidated cash flows presented in section 3.5 is as follows:

<i>In millions of euros</i>	<b>H1 2020</b>	<b>FY 2019</b>	<b>H1 2019</b>
Operating cash flows	634.3	2,063.3	970.8
+ Change in working capital requirements	(324.8)	23.9	(88.4)
- Operating investments	(162.2)	(478.0)	(169.8)
- Repayment of lease liabilities	(120.1)	(202.8)	(95.2)
<b>ADJUSTED FREE CASH FLOW</b>	<b>27.2</b>	<b>1,406.4</b>	<b>617.5</b>

### NOTE 4 SEASONAL NATURE OF THE BUSINESS

The Group's overall activity has historically been balanced over the year as a whole (in 2019, 48% of the Group's revenue was generated during the first half, and 52% during the second).

However, given the health crisis, which has heavily impacted business in the second quarter, seasonality is expected to have a stronger impact in 2020.

<b>TOTAL</b>	<b>(43.4)</b>	<b>(68.6)</b>	<b>(16.3)</b>

The ineffective portion of cash flow hedges includes €4.4 million in over-hedging in the first half of 2020, compared with -€1.2 million in over-hedging in the first half of 2019. The impact of the effective portion of the hedges recorded in equity is shown in Note 23.3.

**NOTE 10 INCOME TAX****10.1 Tax rate**

The Group's estimated tax rate in 2020 is 32.7% (33.1% in 2019), based on a projected tax rate in France of 32.02% in 2020 and 28.41% in 2021.

**10.2 Deferred taxes**

The net change in deferred tax assets and liabilities is broken down as follows:

<i>In millions of euros</i>	<b>H1 2020</b>	<b>FY 2019</b>	<b>H1 2019</b>
Deferred tax assets at 1 January	510.8	462.4	462.4
Deferred tax liabilities at 1 January	24.6	37.3	37.3
<b>Net deferred tax assets at 1 January</b>	<b>486.2</b>	<b>425.1</b>	<b>425.1</b>

<b>NET DEFERRED TAX ASSETS AT THE END OF THE PERIOD</b>	<b>506.1</b>	<b>486.2</b>	<b>446.0</b>
Balance of deferred tax assets at the end of the period	528.6	510.8	473.4
Balance of deferred tax liabilities at the end of the period	22.5	24.6	27.4

(1) The equity impact primarily involves the deferred tax change resulting from revaluations recorded in equity (investments and financial investments and hedging of future cash flows). These changes had no impact on net income for the half-year (see Note 23.4).

**NOTE 11 EARNINGS PER SHARE**

The calculation and reconciliation of basic earnings per share and diluted earnings per share is as follows:

<b>LEASE LIABILITIES AT END OF PERIOD</b>	<b>1,506.2</b>

At the end of June 2020, rents relating to uncapitalised leases correspond to rents with variable payments in the amount of €96.2 million for the first half of 2020 (compared with €125.7 million in the first half of 2019) and exempted rents (rents on assets with a low

unit value or on leases with a term of less than 12 months) in the amount of €1.8 million (compared with €5.1 million in the first half of 2019).

Financial expenses relating to lease liabilities are presented in Note 9.

(1) Investments made during the first half of 2020 mainly include the opening and renovation of stores and capital expenditure to expand production capacity.

(2) Impairment losses relate to production lines and stores deemed not to be sufficiently profitable. It is noted that the cash generating units on which impairment losses have been recognised are not individually material when compared with the Group's overall business.

No item of property, plant or equipment has been pledged as debt collateral. Furthermore, the amount of such assets in temporary use is not material when compared with the total value of property, plant and equipment.

It is stipulated that the Group and its subsidiaries are not bound by any contractual obligation to buy, build or develop investment properties, existing or not. Moreover, the costs incurred for the upkeep, maintenance and improvement of the investment assets are neither significant nor likely, as far as we know, to change materially in the coming financial years.

Net rental income from investment property amounted to €4.2 million in the first half of 2020, compared with €4.6 million in the first half of 2019.

Over 6 months	6.6	5.0	1.6	0.1
<b>TOTAL</b>	<b>47.0</b>	<b>9.8</b>	<b>37.2</b>	<b>60.9</b>

With the exception of other non-current assets, all receivables are due within one year. There were no significant payment deferrals that would justify the discounting of receivables.

The Group's policy is to take out insurance covering accounts receivable inasmuch as local conditions permit.

Consequently, the expected risk of non-recovery is low, as evidenced by accounts receivable impairment, which amounted to 5% of the gross value as at 30 June 2020 (2% at end of 2019). There is no significant concentration of credit risk.

## NOTE 23 EQUITY

At 30 June 2020, Hermès International's share capital consisted of 105,569,412 fully paid-up shares with a par value of €0.51 each, of which 968,764 treasury shares.

During the first half of 2020, the following treasury share movements occurred:

- ♦ buyback of 167,769 shares for €122.5 million, excluding movements under the liquidity contract;
- ♦ sale of 118 shares as part of the liquidity contract;
- ♦ delivery of 560,516 free shares allotted to Hermès Group employees.

It is specified that no shares are reserved for issuance under put options or agreements to sell shares.

For management purposes, the Hermès Group uses the notion of "equity attributable to owners of the parent" as shown in the consolidated statement of changes in equity. More specifically, equity includes the remeasurement of financial instruments and actuarial gains and losses, as defined in Notes 1.10 and 1.18 of the 2019 Universal registration document.

The Group's objectives, policies and procedures in the area of capital management are in keeping with sound management principles designed

to ensure that operations are well-balanced financially and to minimise the use of debt. As its surplus cash position gives it some flexibility, the Group does not use prudential ratios such as "return on equity" in its capital management. During the current year, the Group made no change in its capital management policy and objectives.

## 23.1 Dividends

In the context of the crisis related to Covid-19, on the proposal of the Executive Management, the Supervisory Board has decided to modify the initial proposal for the payment of an ordinary dividend submitted to the Shareholders' General Meeting, and to reduce the amount from €5.00 to €4.55 per share, i.e. the same amount as paid in 2019.

The General Meeting of 24 April 2020, called to approve the financial statements for the year ended 31 December 2019, therefore approved payment of an ordinary dividend of €4.55 per share for the financial year.

Taking into account the interim cash dividend of €1.50 per share paid on 5 March 2020, a balance of €3.05 was paid in cash on 30 April 2020.

The total amount of the ordinary dividend paid was accordingly €474.1 million.

## 23.2 Foreign currency adjustments

**NOTE 25 EXPOSURE TO MARKET RISKS**

The Hermès Group's results are exposed to the risks and uncertainties set out in the 2019 Universal registration document. In the health, economic, political and social environment stemming from the Covid-19 epidemic, the Group is exposed in particular to the risks of a major

external crisis, activity disruption, damage to the health and safety of people and consumers, and to foreign exchange risk. The economic and financial strength of the Hermès Group gives it the means to face this unprecedented health crisis.

The net position of financial instruments on the balance sheet is as follows:

<i>In millions of euros</i>	<b>30/06/2020</b>	<b>31/12/2019</b>	<b>30/06/2019</b>

Net financial derivative liabilities	(41.9)	(47.1)	(59.5)
<b>Net position of financial derivatives</b>	<b>27.5</b>	<b>(10.6)</b>	<b>(1.9)</b>

The ineffective portion of cash flow hedges recorded in profit or loss is negative €28.7 million (of which €4.4 million from over-hedging), compared with negative €66.9 million (of which negative €1.5 million from over-hedging) at 31 December 2019 and negative €26.2 million (of which negative €1.2 million from over-hedging) at 30 June 2019 (see Note 9). The impact of the effective portion of the hedges recorded in equity is shown in Note 23.3.

The valuation methods used for financial instruments as at 30 June 2020 are identical to those used at 31 December 2019, as described on page 310 of the 2019 Universal registration document.

**NOTE 26 PROVISIONS**

<i>In millions of euros</i>	<b>30/06/2019</b>	<b>31/12/2019</b>	<b>Allocations</b>	<b>Reversals <sup>1</sup></b>	<b>Exchange rate impact</b>	<b>Other and reclassifications <sup>2</sup></b>	<b>30/06/2020</b>

<b>TRADE PAYABLES AND OTHER LIABILITIES</b>	<b>1,362.3</b>	<b>1,673.1</b>	<b>1,476.0</b>

Other current and non-current liabilities mainly consist of tax and social liabilities.

**NOTE 30 OFF-BALANCE-SHEET COMMITMENTS**

There was no material change in off-balance sheet commitments during the half-year.

**NOTE 31 RELATED-PARTY TRANSACTIONS**

Relations between the Hermès Group and related companies during the first half of 2020 were comparable with those of 2019. Specifically, no unusual transaction, by its nature or amount, was carried out during the period.

**NOTE 32 SHARE-BASED PAYMENTS**

The total expense incurred in the first half of 2020 for all free share allocation plans (including social security contributions) was €66.7 million, compared with €114.1 million at end-2019 and €36.5 million in the first half of 2019.

No new plans were established in the first half of 2020.

**NOTE 33 SUBSEQUENT EVENTS**

In July, as part of the strengthening of its vertical integration strategy, Hermès acquired 100% of J3L, specialising in metal parts dedicated to leather goods and fashion accessories. Hermès previously held a 30% stake in the capital of the Group's long-standing supplier. The transaction, authorized by French competition authorities, will have no significant impact on the accounts.

# 4. STATUTORY AUDITORS' REVIEW REPORT ON THE 2020 INTERIM FINANCIAL INFORMATION

*This is a free translation into English of the Statutory Auditors' review report issued in French and is provided solely for the convenience of English speaking readers. This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.*

To the shareholders,

In accordance with the engagement entrusted to us by your General Meeting and pursuant to Article L. 451-1-2 III of the French Monetary and Financial Code (Code monétaire et financier), we performed:

- ♦ a review of the condensed interim consolidated financial statements of Hermès International for the period from 1 January to 30 June 2020, as attached to this report;
- ♦ a verification of the information given in the half-year business report.

These condensed interim consolidated financial statements were prepared under the responsibility of the Executive Management on 29 July 2020 based on available information at that date in a changing context due to the Covid-19 crisis and to difficulties to assess its consequences and future outlook. Our role is to express an opinion on these financial statements based on our review.

4

## 1. CONCLUSION ON THE FINANCIAL STATEMENTS

We conducted our review in accordance with professional standards applicable in France. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34, the standard of IFRS as adopted by the European union applicable to interim financial information.

## 2. SPECIFIC VERIFICATION

We also verified the information given in the interim management report prepared on 29 July 2020 commenting on the condensed interim consolidated financial statements that were the subject of our review.

We have no matters to report as to its fair presentation and its consistency with the condensed interim consolidated financial statements.
