For the purpose of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if an event giving rise to a Market Disruption Event occurs in respect such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of that Index shall be based on a comparison of (i) the portion of the level of the Index attributable to that security or Component Security, and (ii) the overall level of that Index, in each case using the official opening weightings as published by the Sponsor as part of the market “opening data”.

## SCHEDULE 2

### TAX TREATMENT OF THE CERTIFICATES IN BELGIUM

The following information is general in nature with respect to the tax treatment of Certificates held by persons that are resident in Belgium for tax purposes and that are the beneficial owners of any income from the Certificates. It does not constitute tax advice and does not purport to treat all aspects of an investment in the Certificates. In certain cases, other rules may apply. Moreover, the tax laws and their interpretation are liable to change at any time. Potential investors who would like complete information about the tax consequences in Belgium of the acquisition, holding and assignment of the Certificates should consult their regular financial and tax advisors.

#### (i) *Tax rules applicable to individuals*

Individuals Certificate holders resident in Belgium for tax purposes are, in principle, subject to personal income tax in Belgium ("*impôt des personnes physiques / personenbelasting*") and will, in principle, be subject to the tax treatment described below insofar as the Certificates are concerned. Other rules may apply in specific situations, in particular if an individual holds the Certificates in the context of a professional activity or if the investment in the Certificates falls outside the scope of normal wealth management.

Profits realised upon Maturity of the Certificates should be considered as interest. Payments of interest on the Certificates made through a paying agent in Belgium will in principle be subject to a 15% withholding tax in Belgium (computed on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for individuals. However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return and will be taxed at a flat rate of 15% (plus communal surcharges). If the interest is received through a foreign paying agent within the meaning of the Savings Directive and such agent levied the Home State Tax (*i.e.*, a taxation at source) (see paragraph (iv) below), such Home State Tax does not relieve the Belgian individual from declaring the interest income in his personal income tax return. However, the Home State Tax will be imputed to the beneficiary's tax liability. If the Home State Tax exceeds the taxpayer's tax liability, the surplus will be reimbursed provided it is at least €2.50.

Profits realised on the Certificates as a consequence of sale to a third party could be considered as either interest or capital gain depending on whether or not the Certificates qualify as fixed income securities. According to certain authors, Certificates should in principle qualify as fixed income securities if there is a causal link between the amount of return and the detention period of the security. However, even in the absence of a causal link, one could be of the view that the profits still qualify as interest, but that it is impossible to determine the taxable income, due to lack of a causal link. The law defines the taxable income (for profits realized prior to maturity) as the income *pro rata* the period during which the Certificate holder held the Certificates. If there is no causal link between the amount of return and the detention period of the security, it is not possible to determine a *pro rata* income. To the extent that the profit qualifies as capital gains, such gains are not taxable in the hands of individuals, unless they fall outside the scope of normal wealth management or the Certificates are redeemed by the Issuer. In the latter case, the profit is taxable as interest (as described above). Capital losses are not tax deductible.

#### (ii) *Tax rules applicable to corporate investors*

Companies Certificate holders resident in Belgium for tax purposes are, in principle, subject to corporate income tax in Belgium ("*impôt des sociétés / vennootschapsbelasting*") and will, in principle, be subject to the tax treatment described below insofar as the Certificates are concerned.

Profits realised upon Maturity of the Certificates should be considered as interest. Interest derived by Belgian corporate investors on the Certificates will be subject to Belgian corporate income tax of 33.99%. To the extent that payments of interest on the Certificates are made through a paying agent in Belgium, such payments will in principle be subject to a 15% withholding tax in Belgium (computed on the interest received after deduction of any non-Belgian withholding taxes). In certain circumstances, exemption from withholding tax may be

available. The withholding tax that has been levied, if any, should normally be creditable against the corporate income tax due.

Profits realised on the Certificates as a consequence of sale to a third party could be considered as either interest or capital gain depending on whether or not the Certificates qualify as fixed income securities. According to certain authors, Certificates should in principle qualify as fixed income securities if there is a causal link between the amount of return and the detention period of the security. However, even in the absence of a causal link, one could be of the view that the profits still qualify as interest, but that it is impossible to determine the taxable profit, due to lack of a causal link. The law defines the taxable income (for profits realized prior to maturity) as the income *pro rata* the period during which the Certificate holder held the Certificates. If there is no causal link between the amount of return and the detention period of the security, it is not possible to determine a *pro rata* income. To the extent that the profit qualifies as capital gains, such gains realised by Belgian corporate investors will be subject to Belgian corporate income tax of 33.99%. Capital losses are in principle tax deductible.

**(iii) Tax rules applicable to other legal entities**

Legal entities Certificate holders resident in Belgium for tax purposes are, in principle, subject to legal entities tax in Belgium ("*impôt des personnes morales / rechtspersonenbelasting*") and will, in principle, be subject in Belgium to the tax treatment described below insofar as the Certificates are concerned.

Profits realised upon Maturity of the Certificates should be considered as interest. Payments of interest on the Certificates made through a paying agent in Belgium will in principle be subject to a 15% withholding tax in Belgium (computed on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for legal entities. However, if the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared by the legal entities themselves in a withholding tax return and withholding tax of 15% must be paid to the Treasury.

Profits realised on the Certificates as a consequence of sale to a third party could be considered as either interest or capital gain depending on whether or not the Certificates qualify as fixed income securities. According to certain authors, Certificates should in principle qualify as fixed income securities if there is a causal link between the amount of return and the detention period of the security. However, even in the absence of a causal link, one could be of the view that the profits still qualify as interest, but that it is impossible to determine the taxable profit, due to lack of a causal link. The law defines the taxable income (for profits realized prior to maturity) as the income *pro rata* the period during which the Certificate holder held the Certificates. If there is no causal link between the amount or return and the detention period of the security, it is not possible to determine a *pro rata* income. To the extent that the profit qualifies as capital gains, such gains are not taxable in the hands of legal entities, unless the Certificates are redeemed by the Issuer. In such case, the capital gain is taxable as interest (as described above). Capital losses are not tax deductible.

**(iv) Savings Directive**

On 3 June 2003, the European Council of Economics and Finance Ministers adopted a directive on the taxation of savings income in the form of interest payments (hereinafter the "Savings Directive"), which was transposed into Belgian law by the Act of 17 May 2004. The Savings Directive entered into force on 1 July 2005. Pursuant to the directive, paying agents established in an EU Member State must provide that State's competent authority with certain details of the payment of interest to any individual resident in another EU Member State. That competent authority is then required to communicate this information to the competent authority of the EU Member State of which the recipient is a resident for tax purposes.

However, for a transitional period, Belgium, Luxembourg and Austria (and other dependent or non-EU countries (see below)) instead operate a withholding system in relation to such payments. The withholding tax, or Home State Tax ("*prélèvement pour l'Etat de résidence / woonstaathetfing*") as defined in the Belgian implementation of the directive, will be levied on interest payments at a rate of 15%. The tax rate will be increased to 20% between 1 July 2008 and 30 June 2011 and to 35% thereafter. The ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries. However, the aforementioned EU Member States provide for a procedure allowing recipients of such payments resident in other EU Member States to avoid the withholding tax by authorising their paying agent to report the payment or by presenting a certificate issued by the competent authority of their

EU Member State of which the recipient is a resident for tax purposes. If withholding taxes are imposed in accordance with the above, the EU Member State of residence for tax purposes of the recipient of such payments should ensure the elimination of any double taxation which might result from the imposition of this withholding tax. It should do so by crediting this withholding tax up to the amount of tax due in its territory and by reimbursing any excess amount of tax withheld or by granting a refund of the withholding tax.

The territorial scope of the Savings Directive has been extended to Switzerland, Lichtenstein, Andorra, Monaco, San Marino, the Dutch Antilles, Aruba, Guernsey, Jersey, the Isle of Man, Montserrat, the British Virgin Islands, the Cayman Islands, the Government of Anguilla and Turks and Caicos. The agreements with the Government of Anguilla, Aruba, the Cayman Islands, Montserrat and the Dutch Antilles provide for bilateral automatic exchange of information for tax purposes between the contracting States (except the agreement with the Cayman Islands, which information commitments only apply to paying agents established in the Cayman Islands). For a transitional period, all these countries (except the Cayman Islands) apply the withholding tax. The other countries (Switzerland, Lichtenstein, Andorra, Monaco, San Marino, Turks and Caicos, Jersey, the Isle of Man, the British Virgin Islands and Guernsey), have opted to permanently apply the withholding tax on the interests payments made to individuals established in one of the contracting states.

**The above description does not constitute a summary of the tax laws currently in force, which are liable to change and evolve over time. In each case, please consult your tax and financial advisor concerning your individual situation as well as further to any change in the tax laws.**

## SCHEDULE 4

### TAX TREATMENT OF THE CERTIFICATES IN THE NETHERLANDS

#### *General*

The following is a general summary of the Dutch tax consequences as at the date hereof in relation to the acquisition, holding or disposal of Certificates. This summary does not purport to describe all possible tax considerations or consequences that may be relevant to a holder of Certificates or a prospective holder and in view of its general nature, it should be treated with corresponding caution. Holders should consult their tax advisers with regard to the tax consequences of investing in the Certificates.

Except as otherwise indicated, this summary only addresses the tax legislation as in effect at the date hereof and as interpreted in published case law until this date, without prejudice to any amendment introduced at a later date and implemented with or without retroactive effect.

This paragraph does not describe the Dutch tax consequences of the acquisition, holding and disposal of the Certificates if a holder of Certificates or individuals related to such holder (statutorily defined term) and certain of their relatives by blood or marriage in the direct line (including foster children) have a substantial interest or deemed substantial interest (statutorily defined terms) in the Issuer.

Generally speaking, a holder of securities in a company is considered to hold a substantial interest in such company, if such holder, alone or, in case of individuals, together with his/her partner (statutorily defined term), directly or indirectly, holds (i) an interest of 5% or more of the total issued and outstanding capital of that company or of 5% or more of the issued and outstanding capital of a certain class of shares of that company or (ii) holds rights to acquire, directly or indirectly, such interest or (iii) holds certain profit sharing rights in that company that relate to 5% or more of the company's annual profits and/or to 5% or more of the company's liquidation proceeds. A deemed substantial interest arises if a substantial interest (or part thereof) has been disposed of, or is deemed to have been disposed of, on a non-recognition basis.

#### *Taxes on income and capital gains*

##### *Residents of the Netherlands*

Generally speaking, if the holder of the Certificates is an entity that is a resident or deemed to be resident of the Netherlands for Dutch corporate income tax purposes, any payment under the Certificates or any gain realised on the disposal or deemed disposal of the Certificates is subject to corporate income tax rate at a rate of 25.5% (a corporate income tax rate of 20.0% applies with respect to taxable profits up to €10,000 and 23.0% over the following €160,000, the first two brackets for 2008).

A Dutch qualifying pension fund and a Dutch qualifying tax exempt investment fund (in Dutch: "*vrijgestelde beleggingsinstelling*") are in principle not subject to Dutch corporate income tax. A qualifying Dutch investment fund (in Dutch "*fiscale beleggingsinstelling*") is subject to corporate income tax at a special rate of zero per cent.

If a holder of the Certificates is an individual, resident or deemed to be resident of the Netherlands for Dutch income tax purposes (including the non-resident individual holder who has made an election for the application of the rules of the Dutch Income Tax Act 2001 as they apply to residents of the Netherlands), any payment under the Certificates or any gain realised on the disposal or deemed disposal of the Certificates is taxable at the progressive income tax rates (with a maximum of 52%) and any loss may be deductible, if:

(a) the Certificates are attributable to an enterprise from which the holder of the Certificates derives a share of the profit, whether as an entrepreneur or as a person who has a co-entitlement to the net worth of such enterprise, without being a shareholder, as defined in the Dutch Income Tax Act 2001; or

(b) the holder of the Certificates is considered to perform activities with respect to the Certificates that go beyond ordinary asset management (in Dutch "*normaal vermogensbeheer*") or derives benefits from the Certificates that are (otherwise) taxable as benefits from other activities (in Dutch "*resultaat uit overige werkzaamheden*").

If the above-mentioned conditions (a) and (b) do not apply to the individual holder of the Certificates, such holder will be taxed annually on a deemed income of 4% of his or her net investment assets for the year at an income tax rate of 30%. The net investment assets for the year is the average of the fair market value of the investment assets less the allowable liabilities at the beginning of that year and the fair market value of the

investment assets less the allowable liabilities at the end of that year. The Certificates are included as investment assets. A tax free allowance may be available. Actual results (gains/losses) benefits derived from the Certificates are as such not subject to Dutch income tax.

#### *Non-residents of the Netherlands*

A holder of the Certificates will not be subject to Dutch taxes on income or capital gains in respect of any payment under the Certificates or in respect of any gains or losses realised on the disposal or deemed disposal of the Certificates, provided that:

(a) such holder is neither resident nor deemed to be resident of the Netherlands nor has made an election for the application of the rules of the Dutch Income Tax Act 2001 as they apply to residents of the Netherlands; and

(b) such holder does not have an interest in an enterprise or deemed enterprise (statutorily defined term) which, in whole or in part, is either effectively managed in the Netherlands or carried on through a permanent establishment, a deemed permanent establishment or a permanent representative in the Netherlands and to which enterprise or part of an enterprise the Certificates are attributable; and

(c) in the event the holder is an individual, such holder does not carry out any activities in the Netherlands with respect to the Certificates that go beyond ordinary active asset management (in Dutch “*normaal vermogensbeheer*”) and does not derive benefits from the Certificates that are (otherwise) taxable as benefits from other activities in the Netherlands (in Dutch “*resultaat uit overige werkzaamheden*”).

A holder of the Certificates will not become subject to taxation on income and capital gains in the Netherlands by reason only of the execution, delivery and/or enforcement of the Certificates or the performance by the Issuer of its obligations under the Certificates.

#### ***Gift and estate taxes***

##### *Residents of the Netherlands*

Gift, estate or inheritance taxes will arise in the Netherlands with respect to a transfer of the Certificates by way of a gift by, or on the death of, a holder of such Certificates who is resident or deemed resident of the Netherlands at the time of the gift or his or her death.

##### *Non-residents of the Netherlands*

No Dutch gift, estate or inheritance taxes will arise on the transfer of Certificates by way of gift by, or on the death of, a holder of Certificates who is neither resident nor deemed to be resident in the Netherlands, unless:

(a) such holder at the time of the gift has or at the time of his death had an enterprise or an interest in an enterprise that, in whole or in part, is or was either effectively managed in the Netherlands or carried on through a permanent establishment or a permanent representative in the Netherlands and to which enterprise or part of an enterprise the Certificates are or were attributable; or

(b) in the case of a gift of a Certificate by an individual who at the date of the gift was neither resident nor deemed to be resident in the Netherlands, such individual dies within 180 days after the date of the gift, while being resident or deemed to be resident in the Netherlands.

For purposes of Dutch gift, estate and inheritance taxes, amongst others, a person that holds the Dutch nationality will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the 10 years preceding the date of the gift or his death. Additionally, for purposes of Dutch gift tax, amongst others, a person not holding the Dutch nationality will be deemed to be resident in the Netherlands if he has been resident in the Netherlands at any time during the 12 months preceding the date of the gift. Applicable tax treaties may override deemed residency.

#### ***Other taxes and duties***

No Dutch VAT and no Dutch registration tax, customs duty, stamp duty or any other similar documentary tax or duty, other than court fees, will be payable by the holders of the Certificates in respect or in connection with the issue of the Certificates or with respect to the settlement of the Certificates.
