FOR INDUSTRY AND MOBILITY

The detailed list of transactions is available on Lhyfe's website ([www.lhyfe-finance.com](http://www.lhyfe-finance.com)).

This press release is issued also on behalf of Portzamparc pursuant to Article 6, paragraph 2, of Commission Delegated Regulation (EU) 2016/1052.

## About Lhyfe

Created in Nantes in 2017, Lhyfe produces and supplies renewable green hydrogen for mobility and industry. Its production plant and its commercial pipeline will allow access to renewable green hydrogen in industrial quantities and form part of a virtuous energy model benefitting the environment. It is a member of France Hydrogène and Hydrogen Europe. Lhyfe inaugurated its first green hydrogen industrial production site in September 2021. It currently has 93 projects in its pipeline across Europe, of which 20 in advanced development by 2026, to contribute in mobility and industry decarbonization. A research program started in 2019 should also lead to the start of a test phase in real conditions for the world's first floating electrolyzer linked to a floating wind farm planned for fall 2022.
