## **Odiot SA announces its exclusive partnership with the Stéphanie Coutas Agency**

Paris, June 1 – 9:00 a.m

**ODIOT S.A (Euronext Access, FR0014010DV3 – MLODT) announces the signing of a commercial partnership with the Stéphanie Coutas Agency, internationally acclaimed interior architect and decorator.**

Under the terms of this agreement, Odiot, Biennais and Tétard Frères creations — sterling silver, vermeil and precious metal pieces — will be presented exclusively at the Stéphanie Coutas Gallery, located in the Golden Triangle at 10 avenue Matignon, in Paris' 8<sup>th</sup> arrondissement. The gallery will serve as ODIOT's sole point of sale in Paris for the duration of the contract.

This partnership provides a showcase for ODIOT's pieces within a prestigious setting at the intersection of residential design and the decorative arts. It marks a significant milestone in the company's sales development strategy. ODIOT intends to pursue a highly selective approach to distribution, working with partners who share its standards of aesthetic refinement, craftsmanship and artisanal excellence.

The choice of Stéphanie Coutas Agency reflects a natural alignment of values: celebrated for its ultra-high-end projects and its elegant fusion of French romanticism with clean, contemporary lines, the studio embodies a vision that closely mirrors that of ODIOT.

Gilles-Emmanuel Trutat, Chairman and CEO of ODIOT, said: "We are delighted to be partnering with Studio Stéphanie Coutas. As the head of one of France's oldest luxury houses, my goal is to bring the brand into the modern era — and Stéphanie Coutas's design vision and creations are the perfect expression of that ambition."

Stéphanie Coutas, founder of the eponymous agency, said: "I am thrilled to be collaborating with ODIOT, an iconic house of French heritage and *savoir-faire*. Through this partnership, we share a common purpose: to champion *the métiers* of excellence and to keep the French *art de vivre* alive in a vision that is both contemporary and timeless."
