

Eurofins announces the completion of its purchase of related party-owned sites

2 September 2025

Eurofins Scientific (EUFI.PA), a global scientific leader in bioanalytical testing, announces that it has successfully completed today its planned purchase of related party-owned sites. The purchase has been structured as a single acquisition of a company holding all related party-owned sites confirmed to be of strategic interest, with the scope and valuation of those assets in line with what was communicated on 23 July 2025.

This announcement follows the very high approval rating of 95.6% for the 18th resolution presented at the Annual Ordinary General Meeting on 24 April 2025. Following the transaction, annualised rent paid to related parties is expected to decline to a negligible amount, and eventually to zero once the leases on the few, minor remaining related party-owned sites conclude.

The acquisition has been financed from the proceeds of the senior unsecured Euro-denominated bonds issued on 5 August 2025. The net impact of the transaction on Eurofins' financial leverage ratio is expected to be less than 0.2x.

About Eurofins – the global leader in bio-analysis

Eurofins is Testing for Life. The Eurofins Scientific SE network of independent companies believes that it is a global leader in food, environment, pharmaceutical and cosmetic product testing and in discovery pharmacology, forensics, advanced material sciences and agrosience contract research services. It is also one of the market leaders in certain testing and laboratory services for genomics, and in the support of clinical studies, as well as in biopharma contract development and manufacturing. It also has a rapidly developing presence in highly specialised and molecular clinical diagnostic testing and in-vitro diagnostic products.

With over 65,000 staff across a decentralised and entrepreneurial network of more than 950 laboratories in over 1,000 companies in 60 countries, Eurofins offers a portfolio of over 200,000 analytical methods to evaluate the safety, identity, composition, authenticity, origin, traceability and purity of a wide range of products, as well as providing innovative clinical diagnostic testing services and in-vitro diagnostic products.

Eurofins companies' broad range of services are important for the health and safety of people and our planet. The ongoing investment to become fully digital and maintain the best network of state-of-the-art laboratories and equipment supports our objective to provide our customers with high-quality services, innovative solutions and accurate results in the best possible turnaround time (TAT). Eurofins companies are well positioned to support clients' increasingly stringent quality and safety standards and the increasing demands of regulatory authorities as well as the evolving requirements of healthcare practitioners around the world.

The Eurofins network has grown very strongly since its inception and its strategy is to continue expanding its technology portfolio and its geographic reach. Through R&D and acquisitions, its companies draw on the latest developments in the field of biotechnology and analytical chemistry to offer their clients unique analytical solutions.

Shares in Eurofins Scientific SE are listed on the Euronext Paris Stock Exchange (ISIN FR0014000MR3, Reuters EUFI.PA, Bloomberg ERF FP).
