Financial Information

Schneider Electric launches an offering of bonds convertible into new shares and/or exchangeable for existing shares (OCEANEs) due 2034 for a nominal amount of €800 million and a concurrent repurchase of its outstanding OCEANEs due 2030 by way of a reverse bookbuilding process

Rueil-Malmaison (France), 4 June 2026 – Schneider Electric (ISIN Code: FR0000121972) (the “**Company**”) announces today the launch of an offering of senior unsecured bonds convertible into new shares and/or exchangeable for existing shares of the Company (OCEANEs) due 2034 (the “**Bonds**”), by way of a placement to qualified investors (within the meaning of the Prospectus Regulation (as defined below)) only in accordance with Article L. 411-2, 1° of the French *Code monétaire et financier*, for a nominal amount of €800 million (the “**Offering**”).

The net proceeds of the Offering will be used to finance the repurchase of the outstanding bonds convertible into new shares and/or exchangeable for existing shares of the Company (OCEANEs) due 27 November 2030 issued by the Company on 27 November 2023 (ISIN Code: FR001400M9F9, the “**2030 OCEANEs**”) under the terms described below. The remaining part of the net proceeds, if any, will be used for general corporate purposes. The repurchase of the 2030 OCEANEs will be conducted through a concurrent repurchase by way of a reverse bookbuilding process, which may be followed by an early redemption under the clean-up call option provided in the terms and conditions of the 2030 OCEANEs.

Rationale for the Offering

In a proactive effort to actively manage dilution and optimize its cost of financing, the Company has offered to repurchase its outstanding 2030 OCEANEs. The Offering is a key component of the Company’s broader financing strategy, allowing it to refinance the 2030 OCEANEs with more attractive terms, including a higher conversion price and a lower coupon. The Company remains firmly committed to preserving its strong investment-grade credit profile.

Financial Information

Main terms of the Bonds

The Bonds will be issued with a denomination of €100,000 each (the “**Principal Amount**”), will be convertible and/or exchangeable into new and/or existing shares of Schneider Electric (the “**Shares**”) and are expected to pay a fixed coupon at a rate between 0.25% and 0.75% per annum, payable semi-annually in arrear on 30 September and 30 March of each year (or on the following business day if this date is not a business day), and for the first time on 30 September 2026 (there will be a short first interest period).

The conversion/exchange premium will be set between 35% and 40% above the Company's reference share price on the regulated market of Euronext in Paris (“**Euronext Paris**”)¹.

The final terms and conditions of the Bonds are expected to be determined following the completion of the bookbuilding process later today, and the settlement-delivery of the Bonds is expected to take place on 11 June 2026 (the “**Issue Date**”).

Unless previously converted, exchanged, redeemed or purchased and cancelled, the Bonds will be redeemed at par on 30 September 2034 (or on the following business day if this date is not a business day) (the “**Maturity Date**”).

The Bonds may be redeemed prior to maturity at the option of the Company and at the option of the bondholders, under certain conditions.

In particular, the Bonds may be fully redeemed early at par plus any accrued interest at the Company's option at any time from 21 October 2032 (inclusive), subject to a prior notice of at least 30 (but not more than 60) calendar days, if the arithmetic average, calculated over a period of 10 consecutive trading days chosen by the Company from among the 20 consecutive trading days preceding the day of the publication of the early redemption notice, of the daily products on each of such 10 consecutive trading days of the volume weighted average price of the Company's shares on Euronext Paris and the applicable conversion/exchange ratio on each such trading day, exceeds 130% of the nominal value of each Bond.

Bondholders will be granted the right to convert or exchange the Bonds into new and/or existing shares of the Company (the “**Conversion/Exchange Right**”) which they may exercise at any time from the day (inclusive) following the 40th day after the Issue Date up to the 7th business day (inclusive) preceding the Maturity Date or, as the case may be the relevant early redemption date.

Bondholders will also be entitled to require an early redemption of their Bonds at par on 30 September 2032, subject to prior notice of at least 30 calendar days (without exceeding 60 calendar days).

The conversion/exchange ratio of the Bonds is set at the Principal Amount divided by the prevailing initial conversion/exchange price, subject to standard adjustments, including anti-dilution and dividend protections, as described in the terms and conditions of the Bonds. Upon exercise of their Conversion/Exchange Right, bondholders will receive at the option of the Company new and/or existing shares of the Company carrying in all cases all rights attached to existing shares of the Company as from the date of delivery.

¹ The reference share price will be equal to the volume-weighted average price (VWAP) of Schneider Electric's shares recorded on Euronext Paris between the opening and close of trading today.

Not for release, publication or distribution, directly or indirectly, in or into the United States of America, or to U.S. Persons (as defined in regulation S under the U.S. Securities Act of 1933, as amended), or in or into Australia, Canada, Japan, South Africa or any other jurisdiction in which it would be unlawful to do so.

Financial Information

Application will be made for the admission of the Bonds to trading on Euronext Access™ in Paris to occur within 30 calendar days from the Issue Date.

Legal framework of the Offering and placement

The Bonds will be issued by way of a placement to qualified investors only (within the meaning of Regulation (EU) 2017/1129 (as amended, the “**Prospectus Regulation**”)), in accordance with Article L. 411-2, 1° of the French *Code monétaire et financier*, as per the authorization granted by the Company’s extraordinary general meeting held on 7 May 2025 (19th resolution), in France and outside of France (excluding, in particular, the United States of America, Australia, Japan, Canada or South Africa), without an offer to the public (other than to qualified investors) in any country (including France).

Existing shareholders of the Company shall have no preferential subscription rights, and there will be no priority subscription period, in connection with the issuance of the Bonds or the underlying new Shares issued upon conversion.

Intentions of existing shareholders

The Company is not aware of the intention of any of its main shareholders to participate in the Offering.

Lock-up undertaking

In the context of the Offering, the Company will agree to a lock-up undertaking with respect to its Shares and securities giving access to the share capital for a period starting from the announcement of the final terms of the Bonds and ending 90 calendar days after the Issue Date, subject to certain customary exceptions or waiver from the Joint Global Coordinators.

Dilution

For illustrative purposes, considering a maximum nominal amount of €800 million, a reference share price of €283.45² and a 37.5% conversion / exchange premium corresponding to the mid-point of the marketing range, the potential dilution would represent approximately 0.4% of the Company’s outstanding share capital, if the Conversion/Exchange Right was exercised for all the Bonds and the Company decided to deliver new Shares only upon exercise of the Conversion/Exchange Right.

Available information

Neither the offering of the Bonds, nor the admission of the Bonds to trading on Euronext Access™ is subject to a prospectus approved by the French *Autorité des marchés financiers* (the “**AMF**”). No key information document required by the PRIIPs Regulation (as defined below) has been or will be prepared. Detailed information about Schneider Electric, including its business, results, prospects and the risk factors to which Schneider Electric is exposed are described in the Company’s universal registration document (*Document d’enregistrement universel*) for the financial year ended 31 December 2025, filed by the Company with the AMF on 27 March 2026 under No. D.26-0159 and the Company’s quarterly revenues press release as at 31 March 2026, which are all available on the Company’s website (www.se.com).

Financial Information

Concurrent repurchase of the 2030 OCEANES

Concurrently with the Offering, the Company will conduct today a concurrent reverse bookbuilding process to collect irrevocable orders from holders of the 2030 OCEANES willing to sell their 2030 OCEANES (the “**Repurchase**”). The Repurchase of 100% of the 2030 OCEANES would allow the Company to avoid potential dilution of 0.5% of its outstanding share capital.

The Repurchase is targeted at holders of the outstanding 2030 OCEANES that are eligible in their respective jurisdictions, in particular that are not persons located or resident in the United States of America or persons acting for the account or benefit of such persons, willing to sell their 2030 OCEANES to the Company.

As at the close of business on 3 June 2026, there was €650,000,000 in aggregate principal amount of the 2030 OCEANES outstanding.

Repurchase Price

The repurchase price per 2030 OCEANE will be 145.7% (€145,700) before any adjustment for the change in the price of the Shares on the day of the Repurchase.

In respect of any 2030 OCEANE repurchased, Schneider Electric will pay interest accrued up to (excluding) the settlement date of the Concurrent Repurchase (assuming settlement on 12 June 2026) corresponding to €85.65 per €100,000 in principal amount of the 2030 Bonds.

The results of the Repurchase are expected to be announced today, together with the final terms of the Bonds.

Transaction Conditions

The settlement of the Repurchase is conditional upon the settlement of the Bonds.

The settlement of the Repurchase is expected to take place on 12 June 2026, subject to the right of the Company not to proceed with the Offering nor with the Repurchase if indications of interest received from holders of the 2030 OCEANES represent less than 60% in principal amount of the 2030 OCEANES outstanding.

The 2030 OCEANES accepted in the Repurchase will be cancelled in accordance with their terms and conditions.

The bookbuilding process of the Bonds and the concurrent reverse bookbuilding process of the 2030 OCEANES are independent from the other. The allocation of the Bonds is not contingent upon the indications of interest to sell expressed by the holders of the 2030 OCEANES in the concurrent reverse bookbuilding process.

Clean-up

If, at any time after the settlement of the Repurchase, the number of 2030 OCEANES still outstanding represents less than 15% of the number of 2030 OCEANES originally issued, the Company may redeem, in accordance with Condition 1.9.1.3 2. of the terms and conditions of the 2030 OCEANES, the outstanding 2030 OCEANES, in whole but not in part, at their par value.
