DRONE VOLT

wins a firm order for 12 HELIPLANE units worth €1.4 million

Villepinte, November 5, 2026

DRONE VOLT, a manufacturer of professional civilian drones and an expert in onboard solutions, announces that it has received an order for an initial batch of 12 HELIPLANE[1] drones, representing total revenue of approximately 1.4 million euros.

Delivery and invoicing for this order will take place in the first quarter of 2027, **thereby helping to support the Group's growth trajectory** in high-margin business segments.

A significant order for the HELIPLANE[1]
With 12 units ordered in a single transaction, this order marks **an important first step in the commercial rollout** of the HÉLIPLANE, a long-range vertical takeoff and landing (VTOL) drone developed by DRONE VOLT.

This order confirms **the expertise of DRONE VOLT's teams in developing cutting-edge equipment capable of meeting specific needs** and demonstrates **the growing interest among professional customers** in platforms that combine mobility, endurance, and range for surveillance, inspection, and security missions across vast areas.

Strong commercial momentum allows the company to look ahead to 2027 with confidence
Beyond this order, **DRONE VOLT expects to soon secure additional significant orders for its drones and solutions** from other partners, with deliveries scheduled for 2027.

Marc COURCELLE, CEO of DRONE VOLT, stated: *"This major order is the culmination of several months of negotiations. It reflects the trust placed in our teams and our technologies, and rewards the in-depth work undertaken by DRONE VOLT to support its customers over the long term with highly technical solutions. Other negotiations of a similar nature are currently underway and could come to fruition in the coming weeks. We are therefore approaching the end of the year with confidence and numerous expressions of interest in our solutions, underscoring the effectiveness of our strategic pivot."*

Next press release: annual revenue, January 13, 2027.
