DSM purchases two Prodways ProMaker P2000 ST printers

Prodways Group today announces new sales of selective laser sintering machines to DSM, a leading chemical company. With these sales, Prodways Group is bolstering its relationships with its longtime material supplier.

DSM has chosen Prodways to print its new PBT powder Arnite® AM1210 for selective laser sintering. The PBT's electrical, mechanical and flame-retardant properties make it particularly well suited to the electronics and electrical industries. The material has been tested on Prodways ProMaker P4500 printer and will be sold by Prodways.

In addition, DSM recently purchased two ProMaker P2000 ST machines for high-temperature (up to 280°C) selective laser sintering to test its powders and to use in manufacturing applications.

More information about Prodways' [ProMaker P2000 ST](#) and [ProMaker P4500](#) 3D printers on our website.

About Prodways Group

Prodways Group is a specialist in industrial and professional 3D printing with a unique positioning as an integrated European player. The Group has developed right across the 3D printing value chain (software, machines, materials, parts & services) with a high value added technological industrial solution. Prodways Group offers a wide range of 3D printing systems and premium composite, hybrid and powder materials (SYSTEMS division). The company also manufactures and markets parts on demand, prototypes and small production run 3D printed items in plastic and metal (PRODUCTS division). The Group targets a significant number of sectors, from aeronautics to healthcare.

Listed on Euronext Paris, the Group reported in 2018 revenue of €61 million.

Prodways Group is a Groupe Gorgé company.
