

The apoA-I companY

Press Release

## **ABIONYX Pharma : Combined Annual Shareholders' Meeting on June 30, 2026: Availability of preparatory documents and procedures for participation and voting**

**Toulouse, FRANCE, Fullerton, UNITED STATES, June 9, 2026, 6:00 p.m. CEST – ABIONYX Pharma, (FR0012616852 – ABNX – PEA PME eligible),** a next-generation biopharmaceutical company developing innovative therapies for sepsis and critical care based on a proprietary apoA-I technology platform, hereby notifies the public that the Company's Combined Annual General Meeting will be held on Tuesday, June 30, 2026, at 4:00 p.m., at the Company's registered office, 33-43 Av. Georges Pompidou, 31130 Balma, France.

The documents for this General Meeting are available on the Company's website, under the "Investors" section. To cast their votes, shareholders may, in accordance with the procedures described in the prior notice published in the BALO on May 22, 2026:

- attend the general meeting in person;
- vote by mail, using a mail-in ballot or by granting proxy to the Chair of the Meeting.

Shareholders wishing to follow the general meeting but unable to attend in person are invited to connect via the following link: [click here](#).

This live broadcast of the general meeting will not allow for remote voting or questions.

A replay of the general meeting will be available on the Company's website following the meeting.

### **About ABIONYX Pharma**

ABIONYX Pharma is a next-generation biopharmaceutical company focused on sepsis and critical care, developing breakthrough biotherapies for serious conditions for which there are no effective treatments. Through its proprietary apoA-I-based technology platform, ABIONYX Pharma designs innovative biologics and next-generation HDL carriers that target the immune-inflammatory dysregulation at the core of sepsis and other severe diseases. Driven by recognized scientific expertise, a differentiated pipeline, and an expanding global clinical network, ABIONYX Pharma aims to redefine therapeutic standards for sepsis and become a key player in intensive care.
