New success on bond markets: Veolia raises 1.5 billion euros in two tranches

Veolia successfully issued 2 senior bonds, a 7-year bond for 850 million euros bearing a coupon of 3.324 % and a 12-year bond for 650 million euros bearing a coupon of 3.795 %.

The transaction attracted market interest, **gathering more than 300 orders from various investors for an overall amount of 5.1 billion euros**. Thanks to strong demand, the **new issue concession was kept between 0 and 2 basis points**.

This high level of oversubscription, the quality of the investors and the very good terms obtained testify to the very positive perception of Veolia's signature and its financial solidity, as well as to the market's approval of its Framework.

*"Less than a month after our inaugural Green Bond, this double-tranch transaction confirmed the Group's ability to tap financial markets with excellent conditions, which contributed to the optimisation of our net result", says **Emmanuelle Menning, Deputy Veolia CEO Finance and Purchasing**. "The excellent market response confirms the relevance of Veolia's positioning as the world leader in ecological transformation, as well as the strength of our activities in our three businesses: water, energy and waste."*

ABOUT VEOLIA Veolia group aims to become the benchmark company for ecological transformation.
