Winamp for Creators Partners With Acclaimed Belgian Singer Typh Barrow For a Full Digital Services Collaboration

[Winamp for Creators](#) – the all-in-one platform designed to simplify the lives of artists and music professionals by consolidating essential tools and services for music management and revenue optimization – announces its first Digital Services Collaboration with **Belgian widely renowned Typh Barrow**.

After a two-year break, **singer-songwriter Typh Barrow** returns with [Close to Me](#), a sultry pop-soul track radiating passion and sensuality. Known for her two gold-certified albums (RAW, Aloha), Typh has captivated audiences with her powerhouse vocals and magnetic stage presence. With a new Tour scheduled for early 2026, this marks the long-awaited comeback of one of Belgium's most celebrated voices.

Through this collaboration, Winamp for Creators **acts as the privileged and main Digital Full Services partner** for Typh Barrow's upcoming project. The partnership covers a 360° digital strategy designed to build, manage, promote, and monetize both the music and the fanbase. Among the services provided: worldwide music distribution, a next-generation website builder with fan CRM and monetization tools, as well as advanced marketing features including pre-save campaigns, playlist pitching, and targeted digital advertising.

"By collaborating with a renowned artist such as Typh Barrow, we want to prove that with Winamp for Creators, any artist worldwide can access the essential suite of tools and services to grow their career. In today's fragmented digital landscape, efficiency and integration are key – and that's exactly what we deliver. Winamp is proud and grateful to work hand in hand with Typh's team," **said Thierry Ascarez, Chief Business Officer of Winamp.**

"For Typh's comeback, we wanted a strong partner able to combine innovation, efficiency, and fan engagement. Winamp for Creators provides us with a platform and services perfectly suited to what we were looking for : a complete ecosystem to manage her releases and build stronger connections with fans worldwide," **said Guillaume Collard, manager of Typh Barrow.**

“Winamp for Creators is designed to help artists thrive as businesses. Today, in the music industry, artists and music professionals have lost control, forced to juggle numerous tools and services spread across multiple platforms. This complexity makes managing their content increasingly difficult. For the first time, a single platform aggregates everything they need into one seamless experience, Our collaboration with Typh Barrow embodies this vision and shows the future of artist management.” **says Alexandre Saboundjian, CEO of Winamp.**
