These forward-looking statements are based on a series of assumptions, both general and specific, in particular the application of accounting principles and methods in accordance with IFRS (International Financial Reporting Standards) as adopted in the European Union. These forward-looking statements have also been developed from scenarios based on a number of economic assumptions in the context of a given competitive and regulatory environment. Important factors that could cause actual results to differ materially from the results anticipated in the forward-looking statements include, among others, overall trends in general economic activity and in the Group's markets in particular, regulatory changes, and the success of the Company's strategic, operating and financial initiatives. More detailed information on the potential risks that could affect the Company's financial results can be found in the Universal Registration Document and in the Last Financial Report filed with the French Autorité des Marchés Financiers. Investors are advised to take into account factors of uncertainty and risk likely to impact the operations of the Group when considering the information contained in such forward-looking statements. Other than as required by applicable law, the Company does not undertake any obligation to update or revise any forward-looking information or statements.
