

**Regulated information****Update on the publication date for the first half 2026 results**

**Roubaix, February 12, 2026** –OVHcloud announces that the publication of its first-half 2026 results has been brought forward to April 9, 2026, instead of April 16, 2026 as initially planned.

The change in publication date is due to internal scheduling constraints.

**About OVHcloud**

OVHcloud is a global player and the leading European cloud provider operating over 500,000 servers within 46 datacenters across 4 continents to reach 1.6 million customers in over 140 countries. Spearheading a trusted cloud and pioneering a sustainable cloud with the best price-performance ratio, the Group has been leveraging for over 20 years an integrated model that guarantees total control of its value chain: from the design of its servers to the construction and management of its datacenters, including the orchestration of its fiber-optic network. This unique approach enables OVHcloud to independently cover all the uses of its customers so they can seize the benefits of an environmentally conscious model with a frugal use of resources and a carbon footprint reaching the best ratios in the industry. OVHcloud now offers customers the latest-generation solutions combining performance, predictable pricing, and complete data sovereignty to support their unfettered growth.
