

Harmonization of the procedural framework for discussions relating to the adaptation and strengthening of the Casino Group's financial structure

Paris, 15 May 2026

Further to the Group's previous communications regarding the project to strengthen and adapt its financial structure, discussions are continuing with financial creditors across various entities within the Group.

As the formalization of a comprehensive agreement is facilitated by the existence of a uniform framework, the Group has applied to the President of the Paris Economic Activities Court for the opening of conciliation proceedings for the benefit of several of its companies¹ for an initial period of four months, potentially extendable by one month. In this context, the appointment of SCP BTSG (Maître Marc Sénéchal) as conciliator is being considered for certain of these entities, while the appointment of SCP CBF Associés (Maître Lou Fréchar) is being sought as conciliator for Quatrim.

The Group will seek the consent of Quatrim's high-yield bondholders for the opening of conciliation proceedings concerning Quatrim and Monoprix SAS, being respectively borrower and guarantor of these bonds.

These conciliation proceedings, which are consistent with those initiated early March², only concern the financial debt of the companies involved and will have no impact on the Group's relationships with its operating partners (in particular its suppliers) and employees. Operational activities will continue as normal, in line with the Group's strategic priorities.
