

NACON ANNOUNCES UPCOMING OFFICIALLY LICENSED REVOSIM BUNDLE RS PURE FOR PLAYSTATION 5

Lesquin, August 19th, 2025 – NACON is proud to announce that its upcoming **Revosim RS PURE** sim racing bundle has been officially licensed by Sony Interactive Entertainment for PlayStation®5 console. The **Direct Drive bundle** includes a **9Nm wheelbase**, a **100kg Load Cell pedal set**, and a **fully customizable steering wheel**.

This new officially licensed bundle marks Revosim's debut on PlayStation®5 console, combining high performance, modularity, and accessibility. It will be part of the **Revosim ecosystem**, ensuring compatibility with a range of future and existing components designed to expand and customize the sim racing experience.

The announcement follows the successful PC* launch of the **RS PURE** in June 2025, which introduced Revosim's first Direct Drive model to sim racing enthusiasts. The PlayStation®5 console version will offer the same precision engineering and immersive experience.

Details on technical specifications, price and release date will be revealed in the coming weeks.

"The entire Revosim team is extremely proud to soon be offering a new comprehensive bundle for PlayStation®5 console users. This collaboration reflects our ongoing commitment to providing gamers with ever greater immersion, realism, and enjoyment. As sim racing enthusiasts, we design each product with precision and attention to detail to deliver an experience that faithfully replicates the sensations of racing. With Revosim, NACON is strengthening its strategic position at the crossroads of racing game development and sim racing hardware manufacturing, offering immersive and exhilarating racing experiences to all drivers — whether they compete at the highest level or simply share a passion for the sport." – Sébastien Waxin, Head of Racing at NACON.
