SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

(Mark One)

☒ **ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the fiscal year ended December 31, 2019

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____.

Commission File No. 1-768

CATERPILLAR INC.

(Exact name of Registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation)

510 Lake Cook Road, Suite 100, Deerfield, Illinois

(Address of principal executive offices)

37-0602744

(IRS Employer I.D. No.)

60015

(Zip Code)

Registrant's telephone number, including area code: **(224) 551-4000**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol (s)	Name of each exchange on which registered
Common Stock (\$1.00 par value)	CAT	New York Stock Exchange ⁽¹⁾
9 3/8% Debentures due March 15, 2021	CAT21	New York Stock Exchange
8% Debentures due February 15, 2023	CAT23	New York Stock Exchange
5.3% Debentures due September 15, 2035	CAT35	New York Stock Exchange

⁽¹⁾ In addition to the New York Stock Exchange, Caterpillar common stock is also listed on stock exchanges in France and Switzerland.

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Table of Contents

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of June 28, 2019, there were 562,589,191 shares of common stock of the Registrant outstanding, and the aggregate market value of the voting stock held by non-affiliates of the Registrant (assuming only for purposes of this computation that directors and executive officers may be affiliates) was approximately \$76.8 billion.

As of December 31, 2019, there were 550,082,610 shares of common stock of the Registrant outstanding.

Documents Incorporated by Reference

Portions of the documents listed below have been incorporated by reference into the indicated parts of this Form 10-K, as specified in the responses to the item numbers involved.

Part III 2020 Annual Meeting Proxy Statement (Proxy Statement) to be filed with the Securities and Exchange Commission (SEC) within 120 days after the end of the fiscal year.

PART I

Item 1. Business.

General

Originally organized as Caterpillar Tractor Co. in 1925 in the State of California, our company was reorganized as Caterpillar Inc. in 1986 in the State of Delaware. As used herein, the term “Caterpillar,” “we,” “us,” “our” or “the company” refers to Caterpillar Inc. and its subsidiaries unless designated or identified otherwise.

Overview

With 2019 sales and revenues of \$53.800 billion, Caterpillar is the world’s leading manufacturer of construction and mining equipment, diesel and natural gas engines, industrial gas turbines and diesel-electric locomotives. The company principally operates through its three primary segments - Construction Industries, Resource Industries and Energy & Transportation - and also provides financing and related services through its Financial Products segment. Caterpillar is also a leading U.S. exporter. Through a global network of independent dealers and direct sales of certain products, Caterpillar builds long-term relationships with customers around the world.

Currently, we have five operating segments, of which four are reportable segments and are described below.

Categories of Business Organization

1. **Machinery, Energy & Transportation** — Represents the aggregate total of Construction Industries, Resource Industries, Energy & Transportation and All Other operating segment and related corporate items and eliminations.
2. **Financial Products** — Primarily includes the company’s Financial Products Segment. This category includes Caterpillar Financial Services Corporation (Cat Financial), Caterpillar Insurance Holdings Inc. (Insurance Services) and their respective subsidiaries.

Other information about our operations in 2019, including certain risks associated with our operations, is included in Part II, Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Construction Industries

Our Construction Industries segment is primarily responsible for supporting customers using machinery in infrastructure, forestry and building construction. The majority of machine sales in this segment are made in the heavy and general construction, rental, quarry and aggregates markets and mining.

The nature of customer demand for construction machinery varies around the world. Customers in developing economies often prioritize purchase price in making their investment decisions, while customers in developed economies generally weigh productivity and other performance criteria that contribute to lower owning and operating costs over the lifetime of the machine. To meet customer expectations in developing economies, Caterpillar developed differentiated product offerings that target customers in those markets, including our SEM brand machines. We believe that these customer-driven product innovations enable us to compete more effectively in developing economies. The majority of Construction Industries' research and development spending in 2019 focused on the next generation of construction machines.

The competitive environment for construction machinery is characterized by some global competitors and many regional and specialized local competitors. Examples of global competitors include CASE (part of CNH Industrial N.V.), Deere Construction & Forestry (part of Deere & Company), Doosan Infracore Co., Ltd., Hitachi Construction Machinery Co., Ltd., Hyundai Construction Equipment Co., Ltd., J.C. Bamford Excavators Ltd., Kobelco Construction Machinery (part of Kobe Steel, Ltd), Komatsu Ltd., Kubota Farm & Industrial Machinery (part of Kubota Corporation), and Volvo Construction Equipment (part of the Volvo Group). As an example of regional and local competitors, our competitors in China also include Guangxi LiuGong Machinery Co., Ltd., Longking Holdings Ltd., Sany Heavy Industry Co., Ltd., XCMG Group, Shandong Lingong Construction Machinery Co., Ltd. (SDLG, part of the Volvo Group) and Shantui Construction Machinery Co., Ltd., (part of Shandong Heavy Industry Group Co.). Each of these companies has varying product lines that compete with Caterpillar products, and each has varying degrees of regional focus.

The Construction Industries product portfolio includes the following machines and related parts and work tools:

- asphalt pavers
- backhoe loaders
- compactors
- cold planers
- compact track and multi-terrain loaders
- mini, small, medium and large excavators
- forestry excavators
- feller bunchers
- harvesters
- knuckleboom loaders
- motorgraders
- pipelayers
- road reclaimers
- site prep tractors
- skidders
- skid steer loaders
- telehandlers
- small and medium track-type tractors
- track-type loaders
- wheel excavators
- compact, small and medium wheel loaders
- utility vehicles

Resource Industries

The Resource Industries segment is primarily responsible for supporting customers using machinery in mining, heavy construction, quarry and aggregates, waste and material handling applications. Caterpillar offers a broad product range and services to deliver comprehensive solutions for our mining customers. We manufacture high productivity equipment for both surface and underground mining operations around the world. Our equipment is used to extract and haul copper, iron ore, coal, oil sands, aggregates, gold and other minerals and ores. In addition to equipment, Resource Industries also develops and sells technology products and services to provide customers fleet management systems, equipment management analytics and autonomous machine capabilities.

Customers in most markets place an emphasis on equipment that is highly productive, reliable and provides the lowest total cost of ownership over the life of the equipment. In some developing markets, customers often prioritize purchase price in making their investment decisions. We believe our ability to control the integration and design of key machine components represents a competitive advantage. Our research and development efforts remain focused on providing customers the lowest total cost of ownership enabled through the highest quality, most productive products and services in the industry.

The competitive environment for Resource Industries consists of a few larger global competitors that compete in several of the markets that we serve and a substantial number of smaller companies that compete in a more limited range of products, applications, and regional markets. Our global surface competitors include Deere Construction & Forestry (part of Deere & Company), Epiroc AB, Hitachi Construction Machinery Co., Ltd., Komatsu Ltd., Liebherr-International AG, Sandvik AB, and Volvo Construction Equipment. Our global underground competitors include Epiroc AB, Komatsu Ltd., Sandvik AB and Zhengzhou Coal Mining Machinery Group Co., Ltd.

The Resource Industries product portfolio includes the following machines and related parts:

- electric rope shovels
- draglines
- hydraulic shovels
- rotary drills
- hard rock vehicles
- large track-type tractors
- large mining trucks
- longwall miners
- large wheel loaders
- off-highway trucks
- articulated trucks
- wheel tractor scrapers
- wheel dozers
- landfill compactors
- soil compactors
- machinery components
- autonomous ready vehicles and solutions
- select work tools
- hard rock continuous mining systems

Energy & Transportation

Our Energy & Transportation segment supports customers in oil and gas, power generation, marine, rail and industrial applications, including Cat® machines. The product and services portfolio includes reciprocating engines, generator sets, marine propulsion systems, gas turbines and turbine-related services, the remanufacturing of Caterpillar engines and components and remanufacturing services for other companies, diesel-electric locomotives and other rail-related products and services and product support of on-highway vocational trucks for North America.

Regulatory emissions standards require us to continue to make investments as new products and new regulations are introduced. On-going compliance with these regulations remains a focus. Emissions compliance in developing markets is complex due to rapidly evolving and unique requirements where enforcement processes can often vary. We employ robust product development and manufacturing processes to help us comply with these regulations.

The competitive environment for reciprocating engines in marine, oil and gas, industrial and electric power generation systems along with turbines in oil and gas and electric power generation consists of a few larger global competitors that compete in a variety of markets that Caterpillar serves, and a substantial number of smaller companies that compete in a limited-size product range, geographic region and/or application. Principal global competitors include Cummins Inc., Deutz AG, INNIO, Rolls-Royce Power Systems and Wärtsilä Corp. Other competitors, such as Fiat Industrial SpA (CNHI), GE Power, Kawasaki Heavy Industries Energy System & Plant Engineering, MAN Energy Solutions (VW), Mitsubishi Heavy Industries Ltd., Siemens Power and Gas, Volvo Penta AB, Weichai Power Co., Ltd., and other emerging market competitors compete in certain markets in which Caterpillar competes. An additional set of competitors, including Aggreko plc, Baker Hughes Co., Generac Holdings, Kohler Power Systems, and others, are primarily packagers who source engines and/or other components from domestic and international suppliers and market products regionally and internationally through a variety of distribution channels. In rail-related businesses, our global competitors include Alstom SA, Bombardier Transportation, CRRC Corp., LTD., The Greenbrier Companies, Siemens Mobility, Voestalpine AG, Vossloh AG and Wabtec Freight. We also compete with other companies on a more limited range of products, services and/or geographic regions.

The Energy & Transportation portfolio includes the following products and related parts:

- reciprocating engine powered generator sets
- reciprocating engines supplied to the industrial industry as well as Caterpillar machinery
- integrated systems used in the electric power generation industry
- turbines, centrifugal gas compressors and related services
- reciprocating engines and integrated systems and solutions for the marine and oil and gas industries
- remanufactured reciprocating engines and components
- diesel-electric locomotives and components and other rail-related products and services

Financial Products Segment

The business of our Financial Products Segment is primarily conducted by Cat Financial, Insurance Services and their respective subsidiaries. Cat Financial is a wholly owned finance subsidiary of Caterpillar Inc. and its primary business is to provide retail and wholesale financing alternatives for Caterpillar products to customers and dealers around the world. Retail financing is primarily comprised of the financing of Caterpillar equipment, machinery and engines. Cat Financial also provides financing for vehicles, power generation facilities and marine vessels that, in most cases, incorporate Caterpillar products. In addition to retail financing, Cat Financial provides wholesale financing to Caterpillar dealers and purchases short-term trade receivables from Caterpillar. The various financing plans offered by Cat Financial are primarily designed to increase the opportunity for sales of Caterpillar products and generate financing income for Cat Financial. A significant portion of Cat Financial's activity is conducted in North America, with additional offices and subsidiaries in Latin America, Asia/Pacific, Europe, Africa and the Middle East.

For over 35 years, Cat Financial has been providing financing in the various markets in which it participates, contributing to its knowledge of asset values, industry trends, product structuring and customer needs.

In certain instances, Cat Financial's operations are subject to supervision and regulation by state, federal and various foreign governmental authorities, and may be subject to various laws and judicial and administrative decisions imposing various requirements and restrictions which, among other things, (i) regulate credit granting activities and the administration of loans, (ii) establish maximum interest rates, finance charges and other charges, (iii) require disclosures to customers and investors, (iv) govern secured transactions, (v) set collection, foreclosure, repossession and other trade practices and (vi) regulate the use and reporting of information related to a borrower's credit experience. Cat Financial's ability to comply with these and other governmental and legal requirements and restrictions affects its operations.

Cat Financial's retail loans (totaling 49 percent*) include:

- Loans that allow customers and dealers to use their Caterpillar equipment or other assets as collateral to obtain financing (24 percent*).

- Installment sale contracts, which are equipment loans that enable customers to purchase equipment with a down payment or trade-in and structure payments over time (25 percent*).

Cat Financial's retail leases (totaling 35 percent*) include:

- Finance (non-tax) leases, where the lessee for tax purposes is considered to be the owner of the equipment during the term of the lease, that either require or allow the customer to purchase the equipment for a fixed price at the end of the term (22 percent*).
- Tax leases that are classified as either operating or finance leases for financial accounting purposes, depending on the characteristics of the lease. For tax purposes, Cat Financial is considered the owner of the equipment (12 percent*).
- Governmental lease-purchase plans in the U.S. that offer low interest rates and flexible terms to qualified non-federal government agencies (1 percent*).

Cat Financial also purchases short-term receivables from Caterpillar (14 percent*).

Cat Financial's wholesale loans and leases (2 percent*) include inventory/rental programs, which provide assistance to dealers by financing their new Caterpillar inventory and rental fleets.

*Indicates the percentage of Cat Financial's total portfolio at December 31, 2019. We define total portfolio as total finance receivables (net of unearned income and allowance for credit losses) plus equipment on operating leases, less accumulated depreciation. For more information on the above and Cat Financial's concentration of credit risk, please refer to Note 7 — "Cat Financial Financing Activities" of Part II, Item 8 "Financial Statements and Supplementary Data."

Cat Financial operates in a highly competitive environment, with financing for users of Caterpillar equipment available through a variety of sources, principally commercial banks and finance and leasing companies. Cat Financial's competitors include, Australia and New Zealand Banking Group Limited, Banc of America Leasing & Capital LLC, BNP Paribas Leasing Solutions Limited, Wells Fargo Equipment Finance Inc. and various other banks and finance companies. In addition, many of our manufacturing competitors own financial subsidiaries, such as John Deere Capital Corporation, Komatsu Financial L.P., Kubota Credit Corporation and Volvo Financial Services, which utilize below-market interest rate programs (funded by the manufacturer) to assist machine sales. Caterpillar and Cat Financial work together to provide a broad array of financial merchandising programs around the world to meet these competitive offers.

Cat Financial's financial results are largely dependent upon the ability of Caterpillar dealers to sell equipment and customers' willingness to enter into financing or leasing agreements. Cat Financial is also affected by, among other things, the availability of funds from its financing sources, its cost of funds relative to its competitors and general economic conditions such as inflation and market interest rates.

Cat Financial has a match-funding policy that addresses interest rate risk by aligning the interest rate profile (fixed or floating rate) of its debt portfolio with the interest rate profile of its receivables portfolio within predetermined ranges on an ongoing basis. In connection with that policy, Cat Financial uses interest rate derivative instruments to modify the debt structure to match assets within the receivables portfolio. This matched funding reduces the volatility of margins between interest-bearing assets and interest-bearing liabilities, regardless of which direction interest rates move. For more information regarding match funding, please see Note 4 — "Derivative financial instruments and risk management" of Part II, Item 8 "Financial Statements and Supplementary Data." See also the risk factors associated with our financial products business included in Item 1 A. of this Form 10-K.

In managing foreign currency risk for Cat Financial's operations, the objective is to minimize earnings volatility resulting from conversion and the remeasurement of net foreign currency balance sheet positions, and future transactions denominated in foreign currencies. This policy allows the use of foreign currency forward, option and cross currency contracts to offset the risk of currency mismatch between the assets and liabilities, and exchange rate risk associated with future transactions denominated in foreign currencies.

Cat Financial provides financing only when certain criteria are met. Credit decisions are based on a variety of credit quality factors including prior payment experience, customer financial information, credit-rating agency ratings, loan-to-value ratios and other internal metrics. Cat Financial typically maintains a security interest in retail-financed equipment and requires physical damage insurance coverage on financed equipment. Cat Financial finances a significant portion of Caterpillar dealers' sales and inventory of Caterpillar equipment throughout the world. Cat Financial's competitive position is improved by marketing programs offered in conjunction with Caterpillar and/or Caterpillar dealers. Under these programs, Caterpillar, or the dealer, funds an amount at the outset of the transaction, which Cat Financial then recognizes as revenue over the term of the financing. We believe that these marketing programs provide Cat Financial a significant competitive advantage in financing Caterpillar products.

Caterpillar Insurance Company, a wholly owned subsidiary of Caterpillar Insurance Holdings Inc., is a U.S. insurance company domiciled in Missouri and primarily regulated by the Missouri Department of Insurance. Caterpillar Insurance Company is licensed to conduct property and casualty insurance business in 50 states, the District of Columbia and Guam, and as such, is also regulated in those jurisdictions. The State of Missouri acts as the lead regulatory authority and monitors Caterpillar Insurance Company's financial status to ensure that it is in compliance with minimum solvency requirements, as well as other financial ratios prescribed by the National Association of Insurance Commissioners. Caterpillar Insurance Company is also licensed to conduct insurance business through a branch in Zurich, Switzerland and, as such, is regulated by the Swiss Financial Market Supervisory Authority.

Caterpillar Life Insurance Company, a wholly owned subsidiary of Caterpillar, is a U.S. insurance company domiciled in Missouri and primarily regulated by the Missouri Department of Insurance. Caterpillar Life Insurance Company is licensed to conduct life and accident and health insurance business in 26 states and the District of Columbia and, as such, is also regulated in those jurisdictions. The State of Missouri acts as the lead regulatory authority and it monitors the financial status to ensure that it is in compliance with minimum solvency requirements, as well as other financial ratios prescribed by the National Association of Insurance Commissioners. Caterpillar Life Insurance Company provides stop loss insurance protection to a Missouri Voluntary Employees' Beneficiary Association (VEBA) trust used to fund medical claims of salaried retirees of Caterpillar under the VEBA.

Caterpillar Insurance Co. Ltd., a wholly owned subsidiary of Caterpillar Insurance Holdings Inc., is a captive insurance company domiciled in Bermuda and regulated by the Bermuda Monetary Authority. Caterpillar Insurance Co. Ltd. is a Class 2 insurer (as defined by the Bermuda Insurance Amendment Act of 1995), which primarily insures its parent and affiliates. The Bermuda Monetary Authority requires an Annual Financial Filing for purposes of monitoring compliance with solvency requirements.

Caterpillar Product Services Corporation (CPSC), a wholly owned subsidiary of Caterpillar, is a warranty company domiciled in Missouri. CPSC previously conducted a machine extended service contract program in Germany and France by providing machine extended warranty reimbursement protection to dealers in Germany and France. The program was discontinued effective January 1, 2013, though CPSC continues to provide extended warranty reimbursement protection under existing contracts.

Caterpillar Insurance Services Corporation, a wholly owned subsidiary of Caterpillar Insurance Holdings Inc., is a Tennessee insurance brokerage company licensed in all 50 states, the District of Columbia and Guam. It provides brokerage services for all property and casualty and life and health lines of business.

Caterpillar's insurance group provides protection for claims under the following programs:

- Contractual Liability Insurance to Caterpillar and its affiliates, Caterpillar dealers and original equipment manufacturers (OEMs) for extended service contracts (parts and labor) offered by Caterpillar, third party dealers and OEMs.
- Cargo insurance for the worldwide cargo risks of Caterpillar products.
- Contractors' Equipment Physical Damage Insurance for equipment manufactured by Caterpillar or OEMs, which is leased, rented or sold by third party dealers to customers.
- General liability, employer's liability, auto liability and property insurance for Caterpillar.
- Retiree Medical Stop Loss Insurance for medical claims under the VEBA.

- Brokerage services for property and casualty and life and health business.

Acquisitions

Information related to acquisitions appears in Note 24 — “Acquisitions” of Part II, Item 8 “Financial Statements and Supplementary Data.”

Competitive Environment

Caterpillar products and product support services are sold worldwide into a variety of highly competitive markets. In all markets, we compete on the basis of product performance, customer service, quality and price. From time to time, the intensity of competition results in price discounting in a particular industry or region. Such price discounting puts pressure on margins and can negatively impact operating profit. Outside the United States, certain competitors enjoy competitive advantages inherent to operating in their home countries or regions.

Raw Materials and Component Products

We source our raw materials and manufactured components from suppliers both domestically and internationally. These purchases include unformed materials and rough and finished parts. Unformed materials include a variety of steel products, which are then cut or formed to shape and machined in our facilities. Rough parts include various sized steel and iron castings and forgings, which are machined to final specification levels inside our facilities. Finished parts are ready to assemble components, which are made either to Caterpillar specifications or to supplier developed specifications. We machine and assemble some of the components used in our machines, engines and power generation units and to support our after-market dealer parts sales. We also purchase various goods and services used in production, logistics, offices and product development processes. We maintain global strategic sourcing models to meet our global facilities’ production needs while building long-term supplier relationships and leveraging enterprise spend. We expect our suppliers to maintain, at all times, industry-leading levels of quality and the ability to timely deliver raw materials and component products for our machine and engine products. However, increases in demand have led to parts and components constraints across some products. We use a variety of agreements with suppliers to protect our intellectual property and processes to monitor and mitigate risks of the supply base causing a business disruption. The risks monitored include supplier financial viability, the ability to increase or decrease production levels, business continuity, quality and delivery.

Patents and Trademarks

We own a number of patents and trademarks, which have been obtained over a period of years and relate to the products we manufacture and the services we provide. These patents and trademarks are generally considered beneficial to our business. We do not regard our business as being dependent upon any single patent or group of patents.

Order Backlog

The dollar amount of backlog believed to be firm was approximately \$13.7 billion at December 31, 2019 and \$16.5 billion at December 31, 2018. Compared with year-end 2018, the order backlog decreased across the three primary segments. Of the total backlog at December 31, 2019, approximately \$3.8 billion was not expected to be filled in 2020.

Dealers and Distributors

Our machines are distributed principally through a worldwide organization of dealers (dealer network), 46 located in the United States and 119 located outside the United States, serving 191 countries. Reciprocating engines are sold principally through the dealer network and to other manufacturers for use in products. Some of the reciprocating engines manufactured by our subsidiary Perkins Engines Company Limited are also sold through its worldwide network of 67 distributors covering 178 countries. The FG Wilson branded electric power generation systems primarily manufactured by our subsidiary Caterpillar Northern Ireland Limited are sold through its worldwide network of 150 distributors covering 109 countries. Some of the large, medium speed reciprocating engines are also sold under the MaK brand through a worldwide network of 20 distributors covering 130 countries.

Our dealers do not deal exclusively with our products; however, in most cases sales and servicing of our products are the dealers’ principal business. Some products, primarily turbines and locomotives, are sold directly to end customers through sales forces employed by the company. At times, these employees are assisted by independent sales representatives.

While the large majority of our worldwide dealers are independently owned and operated, we own and operate a dealership in Japan that covers approximately 80% of the Japanese market: Nippon Caterpillar Division. We are currently operating this Japanese dealer directly and its results are reported in the All Other operating segment. There are also three independent dealers in the Southern Region of Japan.

For Caterpillar branded products, the company's relationship with each of its independent dealers is memorialized in standard sales and service agreements. Pursuant to these agreements, the company grants the dealer the right to purchase and sell its products and to service the products in a specified geographic service territory. Prices to dealers are established by the company after receiving input from dealers on transactional pricing in the marketplace. The company also agrees to defend its intellectual property and to provide warranty and technical support to the dealer. The agreement further grants the dealer a non-exclusive license to use the company's trademarks, service marks and brand names. In some instances, a separate trademark agreement exists between the company and a dealer.

In exchange for these rights, the agreement obligates the dealer to develop and promote the sale of the company's products to current and prospective customers in the dealer's service territory. Each dealer agrees to employ adequate sales and support personnel to market, sell and promote the company's products, demonstrate and exhibit the products, perform the company's product improvement programs, inform the company concerning any features that might affect the safe operation of any of the company's products and maintain detailed books and records of the dealer's financial condition, sales and inventories and make these books and records available at the company's reasonable request.

These sales and service agreements are terminable at will by either party primarily upon 90 days written notice.

Employment

As of December 31, 2019, we employed about 102,300 full-time persons of whom approximately 58,700 were located outside the United States. In the United States, we employed approximately 43,600 employees, most of whom are at-will employees and, therefore, not subject to any type of employment contract or agreement. At select business units, certain highly specialized employees have been hired under employment contracts that specify a term of employment, pay and other benefits.

Full-Time Employees at Year-End

	2019	2018
Inside U.S.	43,600	44,600
Outside U.S.	58,700	59,400
Total	102,300	104,000
By Region:		
North America	43,900	44,900
EAME	18,400	18,000
Latin America	16,400	17,300
Asia/Pacific	23,600	23,800
Total	102,300	104,000

As of December 31, 2019, there were approximately 8,290 U.S. hourly production employees who were covered by collective bargaining agreements with various labor unions, including The United Automobile, Aerospace and Agricultural Implement Workers of America (UAW), The International Association of Machinists and The United Steelworkers. Approximately 6,880 of such employees are covered by collective bargaining agreements with the UAW that expire on December 17, 2020 and March 1, 2023. Outside the United States, the company enters into employment contracts and agreements in those countries in which such relationships are mandatory or customary. The provisions of these agreements generally correspond in each case with the required or customary terms in the subject jurisdiction.

Environmental Matters

The company is regulated by federal, state and international environmental laws governing our use, transport and disposal of substances and control of emissions. In addition to governing our manufacturing and other operations, these laws often impact the development of our products, including, but not limited to, required compliance with air emissions standards applicable to internal combustion engines. We have made, and will continue to make, significant research and development and capital expenditures to comply with these emissions standards.

We are engaged in remedial activities at a number of locations, often with other companies, pursuant to federal and state laws. When it is probable we will pay remedial costs at a site, and those costs can be reasonably estimated, the investigation, remediation, and operating and maintenance costs of the remedial action are accrued against our earnings. Costs are accrued based on consideration of currently available data and information with respect to each individual site, including available technologies, current applicable laws and regulations, and prior remediation experience. Where no amount within a range of estimates is more likely, we accrue the minimum. Where multiple potentially responsible parties are involved, we consider our proportionate share of the probable costs. In formulating the estimate of probable costs, we do not consider amounts expected to be recovered from insurance companies or others. We reassess these accrued amounts on a quarterly basis. The amount recorded for environmental remediation is not material and is included in the line item "Accrued expenses" in Statement 3 — "Consolidated Financial Position at December 31" of Part II, Item 8 "Financial Statements and Supplementary Data." There is no more than a remote chance that a material amount for remedial activities at any individual site, or at all the sites in the aggregate, will be required.

Available Information

The company files electronically with the Securities and Exchange Commission (SEC) required reports on Form 8-K, Form 10-Q, Form 10-K and Form 11-K; proxy materials; ownership reports for insiders as required by Section 16 of the Securities Exchange Act of 1934 (Exchange Act); registration statements on Forms S-3 and S-8, as necessary; and other forms or reports as required. The SEC maintains a website (www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The company maintains a website (www.Caterpillar.com) and copies of our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to these reports filed or furnished with the SEC are available free of charge through our website (www.Caterpillar.com/secfilings) as soon as reasonably practicable after filing with the SEC. Copies of our board committee charters, our board's Guidelines on Corporate Governance Issues, Worldwide Code of Conduct and other corporate governance information are available on our website (www.Caterpillar.com/governance). The information contained on the company's website is not included in, or incorporated by reference into, this annual report on Form 10-K.

Item 1A. Risk Factors.

The statements in this section describe the most significant risks to our business and should be considered carefully in conjunction with Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the "Notes to Consolidated Financial Statements" of Part II, Item 8 "Financial Statements and Supplementary Data" to this Form 10-K. In addition, the statements in this section and other sections of this Form 10-K, including in Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations," include "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995 and involve uncertainties that could significantly impact results. Forward-looking statements give current expectations or forecasts of future events about the company or our outlook. You can identify forward-looking statements by the fact they do not relate to historical or current facts and by the use of words such as "believe," "expect," "estimate," "anticipate," "will be," "should," "plan," "forecast," "target," "guide," "project," "intend," "could" and similar words or expressions.

Forward-looking statements are based on assumptions and on known risks and uncertainties. Although we believe we have been prudent in our assumptions, any or all of our forward-looking statements may prove to be inaccurate, and we can make no guarantees about our future performance. Should known or unknown risks or uncertainties materialize or underlying assumptions prove inaccurate, actual results could materially differ from past results and/or those anticipated, estimated or projected.

We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You should, however, consult any subsequent disclosures we make in our filings with the SEC on Form 10-Q or Form 8-K.

The following is a cautionary discussion of risks, uncertainties and assumptions that we believe are significant to our business. In addition to the factors discussed elsewhere in this report, the following are some of the important factors that, individually or in the aggregate, we believe could make our actual results differ materially from those described in any forward-looking statements. It is impossible to predict or identify all such factors and, as a result, you should not consider the following factors to be a complete discussion of risks, uncertainties and assumptions.

MACROECONOMIC RISKS

Our business and the industries we serve are highly sensitive to global and regional economic conditions.

Our results of operations are materially affected by economic conditions globally and regionally and in the particular industries we serve. The demand for our products and services tends to be cyclical and can be significantly reduced in periods of economic weakness characterized by lower levels of government and business investment, lower levels of business confidence, lower corporate earnings, high real interest rates, lower credit activity or tighter credit conditions, perceived or actual industry overcapacity, higher unemployment and lower consumer spending. A prolonged period of economic weakness may also result in increased expenses due to higher allowances for doubtful accounts and potential goodwill and asset impairment charges. Economic conditions vary across regions and countries, and demand for our products and services generally increases in those regions and countries experiencing economic growth and investment. Slower economic growth or a change in the global mix of regions and countries experiencing economic growth and investment could have an adverse effect on our business, results of operations and financial condition.

The energy, transportation and mining industries are major users of our products, including the coal, iron ore, gold, copper, oil and natural gas industries. Customers in these industries frequently base their decisions to purchase our products and services on the expected future performance of these industries, which in turn are dependent in part on commodity prices. Prices of commodities in these industries are frequently volatile and can change abruptly and unpredictably in response to general economic conditions and trends, government actions, regulatory actions, commodity inventories, production and consumption levels, technological innovations, commodity substitutions, market expectations and any disruptions in production or distribution or changes in consumption. Economic conditions affecting the industries we serve may in the future also lead to reduced capital expenditures by our customers. Reduced capital expenditures by our customers are likely to lead to a decrease in the demand for our products and services and may also result in a decrease in demand for aftermarket parts as customers are likely to extend preventative maintenance schedules and delay major overhauls when possible.

The rates of infrastructure spending, commercial construction and housing starts also play a significant role in our results. Our products are an integral component of these activities, and as these activities decrease, demand for our products may be significantly impacted, which could negatively impact our results.

Commodity price changes, material price increases, fluctuations in demand for our products, significant disruptions to our supply chains or significant shortages of material may adversely impact our financial results or our ability to meet commitments to customers.

We are a significant user of steel and many other commodities required for the manufacture of our products. Increases in the prices of such commodities would increase our costs, negatively impacting our business, results of operations and financial condition if we are unable to fully offset the effect of these increased costs through price increases, productivity improvements or cost reduction programs.

We rely on suppliers to produce or secure material required for the manufacture of our products. Production challenges at suppliers, a disruption in deliveries to or from suppliers or decreased availability of raw materials or commodities could have an adverse effect on our ability to meet our commitments to customers or increase our operating costs. On the other hand, in circumstances where demand for our products is less than we expect, we may experience excess inventories and be forced to incur additional costs and our profitability may suffer. Our business, competitive position, results of operations or financial condition could be negatively impacted if supply is insufficient for our operations, if we experience excess inventories or if we are unable to adjust our production schedules or our purchases from suppliers to reflect changes in customer demand and market fluctuations on a timely basis.

Changes in government monetary or fiscal policies may negatively impact our results.

Most countries where our products and services are sold have established central banks to regulate monetary systems and influence economic activities, generally by adjusting interest rates. Interest rate changes affect overall economic growth, which affects demand for residential and nonresidential structures, as well as energy and mined products, which in turn affects sales of our products and services that support these activities. Interest rate changes may also affect our customers' ability to finance machine purchases, can change the optimal time to keep machines in a fleet and can impact the ability of our suppliers to finance the production of parts and components necessary to manufacture and support our products. Increases in interest rates could negatively impact sales and create supply chain inefficiencies.

Central banks and other policy arms of many countries may take actions to vary the amount of liquidity and credit available in an economy. The impact from a change in liquidity and credit policies could negatively affect the customers and markets we serve or our suppliers, create supply chain inefficiencies and could adversely impact our business, results of operations and financial condition.

Changes in monetary and fiscal policies, along with other factors, may cause currency exchange rates to fluctuate. Actions that lead the currency exchange rate of a country where we manufacture products to increase relative to other currencies could reduce the competitiveness of products made in that country, which could adversely affect our competitive position, results of operations and financial condition.

Government policies on taxes and spending also affect our business. Throughout the world, government spending finances a significant portion of infrastructure development, such as highways, rail systems, airports, sewer and water systems, waterways and dams. Tax regulations determine asset depreciation lives and impact the after-tax returns on business activity and investment, both of which influence investment decisions. Unfavorable developments, such as decisions to reduce public spending or to increase taxes, could negatively impact our results.

Our global operations are exposed to political and economic risks, commercial instability and events beyond our control in the countries in which we operate.

Our global operations are dependent upon products manufactured, purchased and sold in the U.S. and internationally, including in countries with political and economic instability or uncertainty. This includes, for example, the uncertainty related to the United Kingdom's withdrawal from the European Union (commonly known as "Brexit"). Some countries have greater political and economic volatility and greater vulnerability to infrastructure and labor disruptions than others. Our business could be negatively impacted by adverse fluctuations in freight costs, limitations on shipping and receiving capacity, and other disruptions in the transportation and shipping infrastructure at important geographic points of exit and entry for our products. Operating in different regions and countries exposes us to a number of risks, including:

- multiple and potentially conflicting laws, regulations and policies that are subject to change;
- imposition of currency restrictions, restrictions on repatriation of earnings or other restraints;
- imposition of new or additional tariffs or quotas;
- withdrawal from or modification of trade agreements or the negotiation of new trade agreements;
- imposition of new or additional trade and economic sanctions laws imposed by the U.S. or foreign governments;
- war or acts of terrorism; and
- political and economic instability or civil unrest that may severely disrupt economic activity in affected countries.

The occurrence of one or more of these events may negatively impact our business, results of operations and financial condition.

OPERATIONAL RISKS

The success of our business depends on our ability to develop, produce and market quality products that meet our customers' needs.

Our business relies on continued global demand for our brands and products. To achieve business goals, we must develop and sell products that appeal to our dealers, OEMs and end-user customers. This is dependent on a number of factors, including our ability to maintain key dealer relationships, our ability to produce products that meet the quality, performance and price expectations of our customers and our ability to develop effective sales, advertising and marketing programs. In addition, our continued success in selling products that appeal to our customers is dependent on leading-edge innovation, with respect to both products and operations, and on the availability and effectiveness of legal protection for our innovations. Failure to continue to deliver high quality, innovative, competitive products to the marketplace, to adequately protect our intellectual property rights, to supply products that meet applicable regulatory requirements, including engine exhaust emission requirements or to predict market demands for, or gain market acceptance of, our products, could have a negative impact on our business, results of operations and financial condition.

We operate in a highly competitive environment, which could adversely affect our sales and pricing.

We operate in a highly competitive environment. We compete on the basis of a variety of factors, including product performance, customer service, quality and price. There can be no assurance that our products will be able to compete successfully with other companies' products. Thus, our share of industry sales could be reduced due to aggressive pricing or product strategies pursued by competitors, unanticipated product or manufacturing difficulties, our failure to price our products competitively, our failure to produce our products at a competitive cost or an unexpected buildup in competitors' new machine or dealer-owned rental fleets, which could lead to downward pressure on machine rental rates and/or used equipment prices.

Lack of customer acceptance of price increases we announce from time to time, changes in customer requirements for price discounts, changes in our customers' behavior or a weak pricing environment could have an adverse impact on our business, results of operations and financial condition.

In addition, our results and ability to compete may be impacted negatively by changes in our geographic and product mix of sales.

Increased information technology security threats and more sophisticated computer crime pose a risk to our systems, networks, products and services.

We rely upon information technology systems and networks, some of which are managed by third parties, in connection with a variety of business activities. Additionally, we collect and store sensitive information relating to our business, customers, dealers, suppliers and employees. Operating these information technology systems and networks and processing and maintaining this data in a secure manner, is critical to our business operations and strategy. Information technology security threats -- from user error to cybersecurity attacks designed to gain unauthorized access to our systems, networks and data -- are increasing in frequency and sophistication. Cybersecurity attacks may range from random attempts to coordinated and targeted attacks, including sophisticated computer crime and advanced persistent threats. These threats pose a risk to the security of our systems and networks and the confidentiality, availability and integrity of our data. Cybersecurity attacks could also include attacks targeting customer data or the security, integrity and/or reliability of the hardware and software installed in our products. It is possible that our information technology systems and networks, or those managed by third parties, could have vulnerabilities, which could go unnoticed for a period of time. While various procedures and controls have been and are being utilized to mitigate such risks, there can be no guarantee that the actions and controls we have implemented and are implementing, or which we cause or have caused third party service providers to implement, will be sufficient to protect our systems, information or other property.

We have experienced cyber security threats and vulnerabilities in our systems and those of our third party providers, and we have experienced viruses and attacks targeting our information technology systems and networks. Such prior events, to date, have not had a material impact on our financial condition, results of operations or liquidity. However, the potential consequences of a future material cybersecurity attack include reputational damage, litigation with third parties, government enforcement actions, penalties, disruption to systems, unauthorized release of confidential or otherwise protected information, corruption of data, diminution in the value of our investment in research, development and engineering, and increased cybersecurity protection and remediation costs, which in turn could adversely affect our competitiveness, results of operations and financial condition. Due to the evolving nature of such security threats, the potential impact of any future incident cannot be predicted. Further, the amount of insurance coverage we maintain may be inadequate to cover claims or liabilities relating to a cybersecurity attack.

In addition, data we collect, store and process is subject to a variety of U.S. and international laws and regulations, such as the European Union's General Data Protection Regulation that became effective in May 2018, which may carry significant potential penalties for noncompliance.

Our business is subject to the inventory management decisions and sourcing practices of our dealers and our OEM customers.

We sell finished products primarily through an independent dealer network and directly to OEMs and are subject to risks relating to their inventory management decisions and operational and sourcing practices. Both carry inventories of finished products as part of ongoing operations and adjust those inventories based on their assessments of future needs and market conditions, including levels of used equipment inventory and machine rental usage rates. Such adjustments may impact our results positively or negatively. If the inventory levels of our dealers and OEM customers are higher than they desire, they may postpone product purchases from us, which could cause our sales to be lower than the end-user demand for our products and negatively impact our results. Similarly, our results could be negatively impacted through the loss of time-sensitive sales if our dealers and OEM customers do not maintain inventory levels sufficient to meet customer demand.

We may not realize all of the anticipated benefits of our acquisitions, joint ventures or divestitures, or these benefits may take longer to realize than expected.

In pursuing our business strategy, we routinely evaluate targets and enter into agreements regarding possible acquisitions, divestitures and joint ventures. We often compete with others for the same opportunities. To be successful, we conduct due diligence to identify valuation issues and potential loss contingencies, negotiate transaction terms, complete complex transactions and manage post-closing matters such as the integration of acquired businesses. Further, while we seek to mitigate risks and liabilities of such transactions through due diligence, among other things, there may be risks and liabilities that our due diligence efforts fail to discover, that are not accurately or completely disclosed to us or that we inadequately assess. We may incur unanticipated costs or expenses following a completed acquisition, including post-closing asset impairment charges, expenses associated with eliminating duplicate facilities, litigation, and other liabilities. Risks associated with our past or future acquisitions also include the following:

- the failure to achieve the acquisition's revenue or profit forecast;
- the business culture of the acquired business may not match well with our culture;
- technological and product synergies, economies of scale and cost reductions may not occur as expected;
- unforeseen expenses, delays or conditions may be imposed upon the acquisition, including due to required regulatory approvals or consents;
- we may acquire or assume unexpected liabilities or be subject to unexpected penalties or other enforcement actions;
- faulty assumptions may be made regarding the macroeconomic environment or the integration process;
- unforeseen difficulties may arise in integrating operations, processes and systems;
- higher than expected investments may be required to implement necessary compliance processes and related systems, including information technology systems, accounting systems and internal controls over financial reporting;
- we may fail to retain, motivate and integrate key management and other employees of the acquired business;
- higher than expected costs may arise due to unforeseen changes in tax, trade, environmental, labor, safety, payroll or pension policies in any jurisdiction in which the acquired business conducts its operations; and

- we may experience problems in retaining customers and integrating customer bases.

Many of these factors will be outside of our control and any one of them could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and attention. They may also delay the realization of the benefits we anticipate when we enter into a transaction.

In order to conserve cash for operations, we may undertake acquisitions financed in part through public offerings or private placements of debt or equity securities, or other arrangements. Such acquisition financing could result in a decrease in our earnings and adversely affect other leverage measures. If we issue equity securities or equity-linked securities, the issued securities may have a dilutive effect on the interests of the holders of our common shares.

Failure to implement our acquisition strategy, including successfully integrating acquired businesses, could have an adverse effect on our business, financial condition and results of operations. Furthermore, we make strategic divestitures from time to time. In the case of divestitures, we may agree to indemnify acquiring parties for certain liabilities arising from our former businesses. These divestitures may also result in continued financial involvement in the divested businesses following the transaction, including through guarantees or other financial arrangements. Lower performance by those divested businesses could affect our future financial results.

Union disputes or other labor matters could adversely affect our operations and financial results.

Some of our employees are represented by labor unions in a number of countries under various collective bargaining agreements with varying durations and expiration dates. There can be no assurance that any current or future issues with our employees will be resolved or that we will not encounter future strikes, work stoppages or other disputes with labor unions or our employees. We may not be able to satisfactorily renegotiate collective bargaining agreements in the United States and other countries when they expire. If we fail to renegotiate our existing collective bargaining agreements, we could encounter strikes or work stoppages or other disputes with labor unions. In addition, existing collective bargaining agreements may not prevent a strike or work stoppage at our facilities in the future. We may also be subject to general country strikes or work stoppages unrelated to our business or collective bargaining agreements. A work stoppage or other limitations on production at our facilities for any reason could have an adverse effect on our business, results of operations and financial condition. In addition, many of our customers and suppliers have unionized work forces. Strikes or work stoppages experienced by our customers or suppliers could have an adverse effect on our business, results of operations and financial condition.

Unexpected events may increase our cost of doing business or disrupt our operations.

The occurrence of one or more unexpected events, including war, acts of terrorism or violence, civil unrest, fires, tornadoes, tsunamis, hurricanes, earthquakes, floods and other forms of severe weather in the United States or in other countries in which we operate or in which our suppliers are located could adversely affect our operations and financial performance. Natural disasters, pandemic illness, including the current COVID-19 outbreak, equipment failures, power outages or other unexpected events could result in physical damage to and complete or partial closure of one or more of our manufacturing facilities or distribution centers, temporary or long-term disruption in the supply of component products from some local and international suppliers, and disruption and delay in the transport of our products to dealers, end-users and distribution centers. Existing insurance coverage may not provide protection for all of the costs that may arise from such events.

FINANCIAL RISKS

Disruptions or volatility in global financial markets could limit our sources of liquidity, or the liquidity of our customers, dealers and suppliers.

Continuing to meet our cash requirements over the long-term requires substantial liquidity and access to varied sources of funds, including capital and credit markets. Global economic conditions may cause volatility and disruptions in the capital and credit markets. Market volatility, changes in counterparty credit risk, the impact of government intervention in financial markets and general economic conditions may also adversely impact our ability to access capital and credit markets to fund operating needs. Global or regional economic downturns could cause financial markets to decrease the availability of liquidity, credit and credit capacity for certain issuers, including certain customers, dealers and suppliers. An inability to access capital and credit markets may have an adverse effect on our business, results of operations, financial condition and competitive position. Furthermore, changes in global economic conditions, including material cost increases and decreases in economic activity in key markets we serve, and the success of plans to manage cost increases, inventory and other important elements of our business may significantly impact our ability to generate funds from operations.

In addition, demand for our products generally depends on customers' ability to pay for our products, which, in turn, depends on their access to funds. Changes in global economic conditions may result in customers experiencing increased difficulty in generating funds from operations. Capital and credit market volatility and uncertainty may cause financial institutions to revise their lending standards, resulting in customers' decreased access to capital. If capital and credit market volatility occurs, customers' liquidity may decline which, in turn, would reduce their ability to purchase our products.

Failure to maintain our credit ratings would increase our cost of borrowing and could adversely affect our cost of funds, liquidity, competitive position and access to capital markets.

Each of Caterpillar's and Cat Financial's costs of borrowing and their respective ability to access the capital markets are affected not only by market conditions but also by the short- and long-term credit ratings assigned to their respective debt by the major credit rating agencies. These ratings are based, in significant part, on each of Caterpillar's and Cat Financial's performance as measured by financial metrics such as net worth, interest coverage and leverage ratios, as well as transparency with rating agencies and timeliness of financial reporting. There can be no assurance that Caterpillar and Cat Financial will be able to maintain their credit ratings. We receive debt ratings from the major credit rating agencies. Moody's long- and short-term ratings of Caterpillar and Cat Financial are A3 and Prime-2 ("low-A"), while other major credit rating agencies maintain a "mid-A" debt rating. A downgrade of our credit rating by any of the major credit rating agencies would result in increased borrowing costs and could adversely affect Caterpillar's and Cat Financial's liquidity, competitive position and access to the capital markets, including restricting, in whole or in part, access to the commercial paper market. There can be no assurance that the commercial paper market will continue to be a reliable source of short-term financing for Cat Financial or an available source of short-term financing for Caterpillar. An inability to access the capital markets could have an adverse effect on our cash flow, results of operations and financial condition.

Our Financial Products segment is subject to risks associated with the financial services industry.

Cat Financial is significant to our operations and provides financing support for a significant share of our global sales. The inability of Cat Financial to access funds to support its financing activities to our customers could have an adverse effect on our business, results of operations and financial condition.

Continuing to meet Cat Financial's cash requirements over the long-term could require substantial liquidity and access to sources of funds, including capital and credit markets. Cat Financial has continued to maintain access to key global medium term note and commercial paper markets, but there can be no assurance that such markets will continue to represent a reliable source of financing. If global economic conditions were to deteriorate, Cat Financial could face materially higher financing costs, become unable to access adequate funding to operate and grow its business and/or meet its debt service obligations as they mature, and be required to draw upon contractually committed lending agreements and/or seek other funding sources. However, there can be no assurance that such agreements and other funding sources would be available or sufficient under extreme market conditions. Any of these events could negatively impact Cat Financial's business, as well as our and Cat Financial's results of operations and financial condition.

Market disruption and volatility may also lead to a number of other risks in connection with these events, including but not limited to:

- Market developments that may affect customer confidence levels and cause declines in the demand for financing and adverse changes in payment patterns, causing increases in delinquencies and default rates, which could impact Cat Financial's write-offs and provision for credit losses.
- The process Cat Financial uses to estimate losses inherent in its credit exposure requires a high degree of management's judgment regarding numerous subjective qualitative factors, including forecasts of economic conditions and how economic predictors might impair the ability of its borrowers to repay their loans. Financial market disruption and volatility may impact the accuracy of these judgments.
- Cat Financial's ability to engage in routine funding transactions or borrow from other financial institutions on acceptable terms or at all could be adversely affected by disruptions in the capital markets or other events, including actions by rating agencies and deteriorating investor expectations.
- As Cat Financial's lending agreements are primarily with financial institutions, their ability to perform in accordance with any of its underlying agreements could be adversely affected by market volatility and/or disruptions in financial markets.

Changes in interest rates or market liquidity conditions could adversely affect Cat Financial's and our earnings and/or cash flow.

Changes in interest rates and market liquidity conditions could have an adverse impact on Cat Financial's and our earnings and cash flows. Because a significant number of the loans made by Cat Financial are made at fixed interest rates, its business results are subject to fluctuations in interest rates. Certain loans made by Cat Financial and various financing extended to Cat Financial are made at variable rates that use LIBOR as a benchmark for establishing the interest rate. LIBOR is the subject of recent proposals for reform. On July 27, 2017, the United Kingdom's Financial Conduct Authority announced that it intends to stop persuading or compelling banks to submit LIBOR rates after 2021. These reforms may cause LIBOR to cease to exist, new methods of calculating LIBOR to be established such that LIBOR continues to exist after 2021 or the establishment of an alternative reference rate(s). Several offerings of securities that include such an alternative reference rate have now been completed by other companies. The consequences of these developments cannot be entirely predicted and could have an adverse impact on the market value for or value of LIBOR-linked securities, loans, derivatives, and other financial obligations or extensions of credit held by or due to Cat Financial, as well as the revenue and expenses associated with those securities, loans and financial instruments. Cat Financial has created a cross-functional team that will assess risk across multiple categories as it relates to the use of LIBOR in securities, loans, derivatives, and other financial obligations or extensions of credit held by or due to us. The team is also closely monitoring the progress of LIBOR reform and preparing to incorporate appropriate fallback language for transitioning to an alternative reference rate(s) into new agreements with customers. The team is reviewing how to best manage those customer agreements that extend beyond 2021 and utilize LIBOR. Other changes in market interest rates may influence Cat Financial's borrowing costs and could reduce its and our earnings and cash flows, returns on financial investments and the valuation of derivative contracts. Cat Financial manages interest rate and market liquidity risks through a variety of techniques that include a match funding strategy, the selective use of derivatives and a broadly diversified funding program. There can be no assurance, however, that fluctuations in interest rates and market liquidity conditions will not have an adverse impact on its and our earnings and cash flows. If any of the variety of instruments and strategies Cat Financial uses to hedge its exposure to these types of risk is ineffective, this may have an adverse impact on our earnings and cash flows. With respect to Insurance Services' investment activities, changes in the equity and bond markets could result in a decline in value of its investment portfolio, resulting in an unfavorable impact to earnings.

An increase in delinquencies, repossessions or net losses of Cat Financial customers could adversely affect its results.

Inherent in the operation of Cat Financial is the credit risk associated with its customers. The creditworthiness of each customer and the rate of delinquencies, repossessions and net losses on customer obligations are directly impacted by several factors, including relevant industry and economic conditions, the availability of capital, the experience and expertise of the customer's management team, commodity prices, political events and the sustained value of the underlying collateral. Any increase in delinquencies, repossessions and net losses on customer obligations could have a material adverse effect on Cat Financial's and our earnings and cash flows. In addition, although Cat Financial evaluates and adjusts its allowance for credit losses related to past due and non-performing receivables on a regular basis, adverse economic conditions or other factors that might cause deterioration of the financial health of its customers could change the timing and level of payments received and necessitate an increase in Cat Financial's estimated losses, which could also have a material adverse effect on Cat Financial's and our earnings and cash flows.

Currency exchange rate fluctuations affect our results of operations.

We conduct operations in many countries involving transactions denominated in a variety of currencies. We are subject to currency exchange rate risk to the extent that our costs are denominated in currencies other than those in which we earn revenues. Fluctuations in currency exchange rates have had, and will continue to have, an impact on our results as expressed in U.S. dollars. There can be no assurance that currency exchange rate fluctuations will not adversely affect our results of operations, financial condition and cash flows. While the use of currency hedging instruments may provide us with protection from adverse fluctuations in currency exchange rates, by utilizing these instruments we potentially forego the benefits that might result from favorable fluctuations in currency exchange rates. In addition, our outlooks do not assume fluctuations in currency exchange rates. Adverse fluctuations in currency exchange rates from the date of our outlooks could cause our actual results to differ materially from those anticipated in our outlooks and adversely impact our business, results of operations and financial condition.

We also face risks arising from the imposition of exchange controls and currency devaluations. Exchange controls may limit our ability to convert foreign currencies into U.S. dollars or to remit dividends and other payments by our foreign subsidiaries or businesses located in or conducted within a country imposing controls. Currency devaluations result in a diminished value of funds denominated in the currency of the country instituting the devaluation.

Restrictive covenants in our debt agreements could limit our financial and operating flexibility.

We maintain a number of credit facilities to support general corporate purposes (facilities) and have issued debt securities to manage liquidity and fund operations (debt securities). The agreements relating to a number of the facilities and the debt securities contain certain restrictive covenants applicable to us and certain subsidiaries, including Cat Financial. These covenants include maintaining a minimum consolidated net worth (defined as the consolidated shareholder's equity including preferred stock but excluding the pension and other post-retirement benefits balance within accumulated other comprehensive income (loss)), limitations on the incurrence of liens and certain restrictions on consolidation and merger. Cat Financial has also agreed under certain of these agreements not to exceed a certain leverage ratio (consolidated debt to consolidated net worth, calculated (1) on a monthly basis as the average of the leverage ratios determined on the last day of each of the six preceding calendar months and (2) at each December 31), to maintain a minimum interest coverage ratio (profit excluding income taxes, interest expense and net gain/(loss) from interest rate derivatives to interest expense, calculated at the end of each calendar quarter for the rolling four quarter period then most recently ended) and not to terminate, amend or modify its support agreement with us.

A breach of one or more of the covenants could result in adverse consequences that could negatively impact our business, results of operations and financial condition. These consequences may include the acceleration of amounts outstanding under certain of the facilities, triggering of an obligation to redeem certain debt securities, termination of existing unused commitments by our lenders, refusal by our lenders to extend further credit under one or more of the facilities or to enter into new facilities or the lowering or modification of our credit ratings or those of one or more of our subsidiaries.

Sustained increases in funding obligations under our pension plans may impair our liquidity or financial condition.

We maintain certain defined benefit pension plans for our employees, which impose on us certain funding obligations. In determining our future payment obligations under the plans, we assume certain rates of return on the plan assets and a certain level of future benefit payments. Significant adverse changes in credit or capital markets could result in actual rates of return being materially lower than projected and result in increased contribution requirements. Our assumptions for future benefit payments may also change over time and could be materially higher than originally projected. We expect to make contributions to our pension plans in the future, and may be required to make contributions that could be material. We may fund contributions through the use of cash on hand, the proceeds of borrowings, shares of our common stock or a combination of the foregoing, as permitted by applicable law. Our assumptions for future benefit payments may change over time and could be materially higher than projected. These factors could significantly increase our payment obligations under the plans, and as a result, adversely affect our business and overall financial condition.

LEGAL & REGULATORY RISKS

Our global operations are subject to a wide-range of trade and anti-corruption laws and regulations.

Due to the international scope of our operations, we are subject to a complex system of import- and export-related laws and regulations, including U.S. regulations issued by Customs and Border Protection, the Bureau of Industry and Security, the Office of Antiboycott Compliance, the Directorate of Defense Trade Controls and the Office of Foreign Assets Control, as well as the counterparts of these agencies in other countries. Any alleged or actual violations may subject us to increased government scrutiny, investigation and civil and criminal penalties, and may limit our ability to import or export our products or to provide services outside the United States. Furthermore, embargoes and sanctions imposed by the U.S. and other governments restricting or prohibiting sales to specific persons or countries or based on product classification may expose us to potential criminal and civil sanctions. We cannot predict the nature, scope or effect of future regulatory requirements to which our operations might be subject or in certain locations the manner in which existing laws might be administered or interpreted.

In addition, the U.S. Foreign Corrupt Practices Act and similar foreign anti-corruption laws generally prohibit companies and their intermediaries from making improper payments or providing anything of value to improperly influence foreign government officials for the purpose of obtaining or retaining business, or obtaining an unfair advantage. Recent years have seen a substantial increase in the global enforcement of anti-corruption laws. Our operations outside the United States, including in developing countries, expose us to the risk of such violations. Violations of anti-corruption laws or regulations by our employees, intermediaries acting on our behalf, or our joint venture partners may result in severe criminal or civil sanctions, could disrupt our business, and result in an adverse effect on our reputation, business and results of operations or financial condition.

International trade policies may impact demand for our products and our competitive position.

Government policies on international trade and investment such as import quotas, capital controls or tariffs, whether adopted by individual governments or addressed by regional trade blocs, can affect the demand for our products and services, impact the competitive position of our products or prevent us from being able to sell products in certain countries. The implementation of more restrictive trade policies, such as more detailed inspections, higher tariffs or new barriers to entry, in countries where we sell large quantities of products and services could negatively impact our business, results of operations and financial condition. For example, a government's adoption of "buy national" policies or retaliation by another government against such policies could have a negative impact on our results of operations.

We may incur additional tax expense or become subject to additional tax exposure.

We are subject to income taxes in the United States and numerous other jurisdictions. Our future results of operations could be adversely affected by changes in the effective tax rate as a result of a change in the mix of earnings between U.S. and non-U.S. jurisdictions or among jurisdictions with differing statutory tax rates, changes in our overall profitability, changes in tax laws or treaties or in their application or interpretation, changes in tax rates, changes in generally accepted accounting principles, changes in the valuation of deferred tax assets and liabilities, changes in the amount of earnings indefinitely reinvested in certain non-U.S. jurisdictions, the results of audits and examinations of previously filed tax returns and continuing assessments of our tax exposures. We are also subject to the continuous examination of our income tax returns by the U.S. Internal Revenue Service and other tax authorities. We regularly assess the likelihood of an adverse outcome resulting from these examinations. If our effective tax rates were to increase, or if the ultimate determination of our taxes owed is for an amount in excess of amounts previously accrued, our operating results, cash flows and financial condition could be adversely affected. For information regarding additional legal matters related to our taxes, please see Note 6 — "Income taxes" and Note 22 — "Environmental and legal matters" of Part II, Item 8 "Financial Statements and Supplementary Data" to this Annual Report on Form 10-K.

Costs associated with lawsuits or investigations or adverse rulings in enforcement or other legal proceedings may have an adverse effect on our results of operations.

We are subject to a variety of legal proceedings and legal compliance risks in virtually every part of the world. We face risk of exposure to various types of claims, lawsuits and government investigations. We are involved in various claims and lawsuits related to product design, manufacture and performance liability (including claimed asbestos exposure), contracts, employment issues, environmental matters, intellectual property rights, tax, securities and other legal proceedings that arise in and outside of the ordinary course of our business. The industries in which we operate are also periodically reviewed or investigated by regulators, which could lead to enforcement actions, fines and penalties or the assertion of private litigation claims. It is not possible to predict with certainty the outcome of claims, investigations and lawsuits, and we could in the future incur judgments, fines or penalties or enter into settlements of lawsuits and claims that could have an adverse effect on our reputation, business, results of operations or financial condition in any particular period.

The global and diverse nature of our operations means that legal and compliance risks will continue to exist and additional legal proceedings and other contingencies, the outcome of which cannot be predicted with certainty, may arise from time to time. In addition, subsequent developments in legal proceedings may affect our assessment and estimates of loss contingencies recorded as a reserve and require us to make payments in excess of our reserves, which could have an adverse effect on our reputation, business and results of operations or financial condition.

New regulations or changes in financial services regulation could adversely impact Caterpillar and Cat Financial.

Cat Financial's operations are highly regulated by governmental authorities in the locations where it operates, which can impose significant additional costs and/or restrictions on its business. In the United States, for example, certain Cat Financial activities are subject to the U.S. Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank), which includes extensive provisions regulating the financial services industry. As a result, Cat Financial has become and could continue to become subject to additional regulatory costs that could be significant and have an adverse effect on Cat Financial's and our results of operations and financial condition. Changes in regulations or additional regulations in the United States or internationally impacting the financial services industry could also add significant cost or operational constraints that might have an adverse effect on Cat Financial's and our results of operations and financial condition.

We are subject to stringent environmental laws and regulations that impose significant compliance costs.

Our facilities, operations and products are subject to increasingly stringent environmental laws and regulations globally, including laws and regulations governing emissions to noise, air, releases to soil and discharges to water and the generation, handling, storage, transportation, treatment and disposal of non-hazardous and hazardous waste materials. Some environmental laws impose strict, retroactive and joint and several liability for the remediation of the release of hazardous substances, even for conduct that was lawful at the time it occurred, or for the conduct of, or conditions caused by, prior operators, predecessors or other third parties. Failure to comply with environmental laws could expose us to penalties or clean-up costs, civil or criminal liability and sanctions on certain of our activities, as well as damage to property or natural resources. The potential liabilities, sanctions, damages and remediation efforts related to any non-compliance with such laws and regulations could negatively impact our ability to conduct our operations and our financial condition and results of operations. In addition, there can be no assurances that we will not be adversely affected by costs, liabilities or claims with respect to existing or subsequently acquired operations or under present laws and regulations or those that may be adopted or imposed in the future.

Environmental laws and regulations may change from time to time, as may related interpretations and other guidance. Changes in environmental laws or regulations could result in higher expenses and payments, and uncertainty relating to environmental laws or regulations may also affect how we conduct our operations and structure our investments and could limit our ability to enforce our rights. Changes in environmental and climate change laws or regulations, including laws relating to greenhouse gas emissions, could lead to new or additional investment in product designs and could increase environmental compliance expenditures. Changes in climate change concerns, or in the regulation of such concerns, including greenhouse gas emissions, could subject us to additional costs and restrictions, including increased energy and raw materials costs. If environmental laws or regulations are either changed or adopted and impose significant operational restrictions and compliance requirements upon us or our products, they could negatively impact our reputation, business, capital expenditures, results of operations, financial condition and competitive position.

Item 1B. Unresolved Staff Comments.

None.

Item 1C. Executive Officers of the Registrant.

Name and age	Present Caterpillar Inc. position and date of initial election	Principal positions held during the past five years if other than Caterpillar Inc. position currently held
D. James Umpleby III (61)	Chairman of the Board (2018) and Chief Executive Officer (2017)	Group President (2013-2016)
Andrew R.J. Bonfield (57)	Chief Financial Officer (2018)	Group Chief Financial Officer for a multinational electricity and gas utility company (2010-2018)
Bob De Lange (50)	Group President (2017)	Vice President (2015-2016), Worldwide Product Manager, Medium Wheel Loaders, (2013-2014)
Denise C. Johnson (53)	Group President (2016)	Vice President (2012-2016)
William P. Ainsworth (63)	Group President (2019)	President/CEO, Progress Rail & Senior Vice President and Strategic Advisor to Caterpillar Inc. (2017-2019), President/CEO, Progress Rail - Vice President (2014-2017)
Ramin Younessi (55)	Group President (2018)	Vice President (2013-2018)
Suzette M. Long (54)	Chief Legal Officer, General Counsel and Corporate Secretary (2017)	Interim Executive Vice President, Law and Public Policy (2017), Deputy General Counsel (2013-2017)
Cheryl C. Johnson (59)	Chief Human Resources Officer (2017)	Executive Vice President of Human Resources for a global multi-industry aerospace, defense and industrial manufacturing company (2012-2017)
G. Michael Marvel (58)	Chief Accounting Officer (2019)	Director of Corporate Financial Reporting (2018-2019), Chief Financial Officer for Solar Turbines Incorporated (2013-2018)

Item 2. Properties.**General Information**

Caterpillar's operations are highly integrated. Although the majority of our plants are involved primarily in production relating to our Construction Industries, Resource Industries or Energy & Transportation segments, several plants are involved in manufacturing relating to more than one business segment. In addition, several plants reported in our financial statements under the All Other segment are involved in the manufacturing of components that are used in the assembly of products for more than one business segment. Caterpillar's parts distribution centers are involved in the storage and distribution of parts for Construction Industries, Resource Industries and Energy & Transportation. The research and development activities carried on at our Technical Center in Mossville, Illinois involve products for Construction Industries, Resource Industries and Energy & Transportation.

We believe the properties we own to be generally well maintained and adequate for present use. Through planned capital expenditures, we expect these properties to remain adequate for future needs. Properties we lease are covered by leases expiring over terms of generally one to ten years. We do not anticipate any difficulty in retaining occupancy of any leased facilities, either by renewing leases prior to expiration or by replacing them with equivalent leased facilities.

Headquarters and Other Key Offices

Our corporate headquarters are in leased offices located in Deerfield, Illinois. Our Financial Products business is headquartered in offices in Nashville, Tennessee. Additional key offices are located inside and outside the United States.

Technical Center, Training Centers, Demonstration Areas and Proving Grounds

We operate Technical Centers located in Mossville, Illinois; Wuxi, China; and Chennai, India. Our demonstration centers are located in Tinaja Hills, Arizona; Edwards, Illinois; Chichibu, Japan and Malaga, Spain. We have various other technical and training centers, demonstration areas and proving grounds located both inside and outside the United States.

Parts Distribution Centers

Distribution of our parts is conducted from parts distribution centers inside and outside the United States. We operate parts distribution centers in the following locations: Arvin, California; Denver, Colorado; Miami, Florida; Atlanta, Georgia; Morton, Illinois; St. Paul, Minnesota; Clayton, Ohio; York, Pennsylvania; Waco, Texas; Spokane, Washington; Melbourne, Australia; Queensland, Australia; Grimbergen, Belgium; Piracicaba, Brazil; Shanghai, China; Sagami, Japan; San Luis Potosi, Mexico; Singapore, Republic of Singapore; Moscow, Russia; Johannesburg, South Africa; and Dubai, United Arab Emirates. We also own or lease other facilities that support our distribution activities.

Remanufacturing and Components

Remanufacturing of our products is reported in our Energy & Transportation segment and is conducted primarily at the facilities in the following locations: Franklin, Indiana; Bogor, Indonesia; Corinth, Mississippi; Prentiss County, Mississippi; West Fargo, North Dakota; Piracicaba, Brazil; Shanghai, China; Nuevo Laredo, Mexico; and Shrewsbury, United Kingdom.

Component manufacturing is reported in the All Other segment and is conducted primarily at facilities in the following locations: East Peoria, Illinois; Mapleton, Illinois; Peoria, Illinois; Bogor, Indonesia; Menominee, Michigan; Boonville, Missouri; West Plains, Missouri; Goldsboro, North Carolina; Sumter, South Carolina; Tianjin, China; Xuzhou, China; Atessa, Italy; Bazzano, Italy; Frosinone, Italy; San Eusebio, Italy; Ramos Arizpe, Mexico; Pyeongtaek, South Korea; and Skinningrove, United Kingdom.

We also lease or own other facilities that support our remanufacturing and component manufacturing activities.

Manufacturing

Manufacturing of products for our Construction Industries, Resource Industries and Energy & Transportation segments is conducted primarily at the locations listed below. These facilities are believed to be suitable for their intended purposes, with adequate capacities for current and projected needs for existing products.

Our principal manufacturing facilities include those used by the following segments in the following locations:

Segment	U.S. Facilities	Facilities Outside the U.S.
Construction Industries	Arkansas: North Little Rock Georgia: Athens, LaGrange Illinois: Decatur, East Peoria Kansas: Wamego Minnesota: Brooklyn Park North Carolina: Clayton, Sanford Texas: Victoria	Brazil: Campo Largo, Piracicaba China: Suzhou, Wujiang, Xuzhou, Qingzhou France: Grenoble, Echirolles Hungary: Godollo India: Thiruvallur Indonesia: Jakarta Italy: Minerbio Japan: Akashi Mexico: Torreon Netherlands: Den Bosch Poland: Janow, Sosnowiec Thailand: Rayong United Kingdom: Desford, Stockton
Resource Industries	Illinois: Aurora, Decatur, East Peoria, Joliet South Carolina: Sumter Tennessee: Dyersburg Texas: Denison Wisconsin: South Milwaukee	China: Wuxi Germany: Dortmund, Lunen India: Thiruvallur Indonesia: Batam Italy: Jesi Mexico: Acuna, Monterrey, Reynosa Russia: Tosno Thailand: Rayong United Kingdom: Peterlee, Springvale
Energy & Transportation	Alabama: Albertville, Montgomery California: San Diego Georgia: Griffin Illinois: Island Lake, LaGrange, Mossville, Mapleton, Pontiac Indiana: Lafayette, Muncie Kentucky: Decoursey, Mayfield Oklahoma: Broken Arrow North Carolina: Winston-Salem Texas: Channelview, DeSoto, Mabank, San Antonio, Schertz, Seguin, Sherman	Australia: Cardiff, Perth, Redbank, Revesby Brazil: Curitiba, Hortolandia, Piracicaba, Sete Lagoas China: Tianjin, Wuxi Czech Republic: Zatec, Zbrak Germany: Kiel, Mannheim, Rostock India: Aurangabad, Hosur Italy: Pistoria Mexico: San Luis Potosi, Tijuana Republic of Singapore: Singapore Sweden: Ockero Islands United Kingdom: Larne, Peterborough, Sandiacre, South Queensferry, Stafford, Wimborne

Item 3. Legal Proceedings.

Certain legal proceedings in which we are involved are discussed in Note 22 — "Environmental and legal matters" of Part II, Item 8 "Financial Statements and Supplementary Data" and should be considered an integral part of Part I, Item 3 "Legal Proceedings."

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Common Stock (NYSE: CAT)

Listing Information: Caterpillar common stock is listed on the New York Stock Exchange in the United States, and on stock exchanges in France and Switzerland.

Number of Shareholders: Shareholders of record at the end of 2019 totaled 25,985, compared with 26,938 at the end of 2018.

Performance Graph: Total Cumulative Shareholder Return for Five-Year Period Ending December 31, 2019

The graph below shows the cumulative shareholder return assuming an investment of \$100 on December 31, 2014, and reinvestment of dividends issued thereafter.

	2014	2015	2016	2017	2018	2019
Caterpillar Inc.	\$ 100.00	\$ 77.03	\$ 109.46	\$ 191.59	\$ 157.95	\$ 188.77
S&P 500	\$ 100.00	\$ 101.38	\$ 113.51	\$ 138.29	\$ 132.23	\$ 173.86

Non-U.S. Employee Stock Purchase Plans

As of December 31, 2019, we had 24 employee stock purchase plans (the “EIP Plans”) administered outside the United States for our non-U.S. employees, which had approximately 12,000 active participants in the aggregate. During the fourth quarter of 2019, approximately 87,000 shares of Caterpillar common stock were purchased by the EIP Plans pursuant to the terms of such plans.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased ^{2,3}	Average Price Paid per Share ^{2,3}	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares that May Yet be Purchased under the Program (in billions) ¹
October 1-31, 2019	4,755,142	\$ 137.65	4,755,142	\$ 6.022
November 1-30, 2019	36,414	\$ 137.31	36,414	\$ 6.017
December 1-31, 2019	2,890	\$ 139.73	2,890	\$ 6.017
Total	4,794,446	\$ 137.64	4,794,446	

¹ In July 2018, the Board approved a share repurchase authorization of up to \$10.0 billion of Caterpillar common stock effective January 1, 2019, with no expiration (the 2018 Authorization). As of December 31, 2019, approximately \$6.0 billion remained available under the 2018 Authorization.

² During the fourth quarter of 2019, we entered into an accelerated share repurchase agreement (ASR) with a third-party financial institution to purchase \$600 million of our common stock. In October 2019, upon payment of \$600 million to the financial institution, we received 3.5 million shares. In January 2020, upon final settlement of the ASR, we received an additional 0.7 million shares. In total, we repurchased 4.2 million shares under this ASR at an average price per share of \$142.48.

³ In October of 2019, we repurchased 1.3 million shares for \$158 million in open market transactions at an average price per share of \$124.43. In November and December of 2019, we repurchased a minimal number of shares in open market transactions as illustrated in the above table.

Share repurchases in the table above are reported based on the trade dates.

¹ Profit (loss) attributable to common shareholders.² Computed on weighted-average number of shares outstanding.³ Computed on weighted-average number of shares outstanding diluted by assumed exercise of stock-based compensation awards, using the treasury stock method. In 2016, the assumed exercise of stock-based compensation awards was not considered because the impact would be antidilutive.⁴ Represents profit (loss) divided by average shareholders' equity (beginning of year shareholders' equity plus end of year shareholders' equity divided by two).

Additional information required by Item 6 is included in Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our discussion of cautionary statements and significant risks to the company's business under Item 1A. Risk Factors of the 2019 Form 10-K.

OVERVIEW

Our sales and revenues for 2019 were \$53.800 billion, a 2 percent decrease from 2018 sales and revenues of \$54.722 billion. The decrease was primarily due to lower **sales volume**. The sales volume decline was mostly due to changes in dealer inventories, partially offset by higher end-user demand. Sales were lower in **EAME** and Asia/Pacific, while North America and **Latin America** were about flat. Sales declined in **Energy & Transportation** and **Construction Industries**, while **Resource Industries** was about flat. Profit per share for 2019 was \$10.74, compared to profit per share of \$10.26 in 2018. Profit was \$6.093 billion in 2019, compared with \$6.147 billion in 2018. The decrease was primarily due to higher tax expense as operating profit was about flat. Operating profit was about flat as favorable **price realization**, lower selling, general and administrative (SG&A) and research and development (R&D) expenses and higher Financial Products' profit were offset by higher **manufacturing costs**, lower sales volume and unfavorable **currency** impacts.

Fourth-quarter 2019 sales and revenues were \$13.144 billion, down \$1.198 billion, or 8 percent, from \$14.342 billion in the fourth quarter of 2018. Fourth-quarter 2019 profit was \$1.97 per share, compared with \$1.78 per share in the fourth quarter of 2018. Fourth-quarter 2019 profit was \$1.098 billion, compared with \$1.048 billion in 2018.

Highlights for 2019 include:

- Sales and revenues in 2019 were \$53.800 billion, down 2 percent from 2018. Sales declined in Energy & Transportation and Construction Industries, while Resource Industries was about flat.
- Operating profit as a percent of sales and revenues was 15.4 percent in 2019, compared with 15.2 percent in 2018.
- Profit was \$10.74 per share for 2019, and excluding the items in the table below, **adjusted profit per share** was \$11.06. For 2018 profit was \$10.26 per share, and excluding the items in the table below, adjusted profit per share was \$11.22.
- In order for our results to be more meaningful to our readers, we have separately quantified the impact of several significant items:

	Full Year 2019		Full Year 2018	
	Profit Before Taxes	Profit Per Share	Profit Before Taxes	Profit Per Share
(Dollars in millions except per share data)				
Profit.....	\$ 7,812	\$ 10.74	\$ 7,822	\$ 10.26
Mark-to-market losses ¹	468	0.64	495	0.64
U.S. tax reform impact	—	(0.31)	—	(0.17)
Restructuring costs ²	—	—	386	0.50
Deferred tax valuation allowance adjustments.....	—	—	—	(0.01)
Adjusted profit.....	\$ 8,280	\$ 11.06	\$ 8,703	\$ 11.22

¹ Profit per share at statutory tax rates.

² Profit per share for 2018 restructuring costs were at statutory tax rates. 2019 restructuring costs were not material.

- Enterprise operating cash flow for 2019 was about \$6.9 billion, compared with about \$6.6 billion in 2018. **Machinery, Energy & Transportation (ME&T)** operating cash flow for 2019 was about \$4.9 billion, more than sufficient to cover capital expenditures and dividends. ME&T operating cash flow for 2018 was about \$6.3 billion.

Notes:

- Glossary of terms included on pages 44-46; first occurrence of terms shown in bold italics.
- Information on non-GAAP financial measures is included on pages 58-59.
- Some amounts within this report are rounded to the millions or billions and may not add. In addition, the sum of the components reported across periods may not equal the total amount reported year-to-date due to rounding.

2019 COMPARED WITH 2018**CONSOLIDATED SALES AND REVENUES**

The chart above graphically illustrates reasons for the change in consolidated sales and revenues between 2018 (at left) and 2019 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's Board of Directors and employees.

Total sales and revenues were \$53.800 billion in 2019, a decrease of \$922 million, or 2 percent, compared with \$54.722 billion in 2018. The decrease was mostly due to lower sales volume driven by changes in dealer inventories, partially offset by higher end-user demand. Unfavorable currency impacts, primarily from a weaker euro, Australian dollar, Chinese yuan and Brazilian real, were mostly offset by favorable price realization. Sales decreased in Energy & Transportation and Construction Industries, while Resource Industries was about flat. Sales decreased in EAME and Asia/Pacific, while North America and Latin America were about flat.

North America sales were about flat compared with prior year as favorable price realization was mostly offset by lower sales volume. Sales volume declined primarily due to changes in dealer inventories as dealers increased inventories more during 2018 than 2019, partially offset by higher end-user demand.

Sales were about flat in Latin America as higher sales volume was offset by an unfavorable currency impact from a weaker Brazilian real. Sales volume increased due to higher end-user demand which was mostly offset by changes in dealer inventories as dealers increased inventories more during 2018 than 2019.

EAME sales decreased 6 percent primarily due to lower sales volume and the unfavorable impact of a weaker euro, partially offset by higher price realization. The decrease in sales volume was primarily due to changes in dealer inventories. Dealers increased inventories during 2018 and decreased inventories during 2019.

Asia/Pacific sales declined 4 percent primarily due to unfavorable currency impacts of a weaker Australian dollar and Chinese yuan and lower sales volume. Sales volume decreased due to changes in dealer inventories, partially offset by higher end-user demand. Dealer inventories increased more during 2018 than 2019.

Dealer machine and engine inventories increased about \$2.3 billion in 2018, compared with an increase of about \$800 million in 2019. Dealers are independent, and the reasons for changes in their inventory levels vary, including their expectations of future demand and product delivery times. Dealers' demand expectations take into account seasonal changes, macroeconomic conditions, machine rental rates and other factors. Delivery times can vary based on availability of product from Caterpillar factories and product distribution centers. We expect dealer inventories to decline about \$1.0 to \$1.5 billion during 2020.

Sales and Revenues by Segment

¹ Includes revenues from Machinery, Energy & Transportation of \$524 million and \$470 million in 2019 and 2018, respectively.

CONSOLIDATED OPERATING PROFIT

The chart above graphically illustrates reasons for the change in consolidated operating profit between 2018 (at left) and 2019 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's Board of Directors and employees. The bar entitled Other includes *consolidating adjustments* and *Machinery, Energy & Transportation other operating (income) expenses*.

Operating profit was \$8.290 billion in 2019, about flat with \$8.293 billion in 2018. Favorable price realization mostly offset higher manufacturing costs. Lower sales volume offset favorable selling, general and administrative (SG&A) and research and development (R&D) expenses and higher profit from Financial Products.

Manufacturing costs increased due to higher warranty expense, increased variable labor and burden, unfavorable cost absorption, and higher material costs. Cost absorption was unfavorable as inventory increased during 2018, compared with a decrease during 2019. The increase was partially offset by lower period manufacturing costs driven by lower short-term incentive compensation expense and the favorable impact of restructuring and cost-reduction actions.

SG&A/R&D expenses decreased due to lower short-term incentive compensation expense, partially offset by investments aligned with the company's strategic growth initiatives.

Short-term incentive compensation expense is directly related to financial and operational performance, measured against targets set annually. Short-term incentive compensation expense in 2018 was about \$1.4 billion, compared with about \$700 million in 2019.

For 2020, we expect short-term incentive compensation expense will be about \$800 million. We also expect lower manufacturing costs.

Operating profit margin was 15.4 percent in 2019, compared with 15.2 percent in 2018.

Other Profit/Loss and Tax Items

- Interest expense excluding Financial Products in 2019 was \$421 million, compared with \$404 million in 2018. The increase was due to higher average debt outstanding during 2019 than 2018.
- Other income (expense) in 2019 was expense of \$57 million, compared with expense of \$67 million in 2018. The decrease was due to a lower expected return on *pension and other postretirement benefit (OPEB)* plan assets more than offset by lower foreign exchange losses, unrealized and realized gains on marketable securities at Insurance Services and the favorable impact of commodity hedges.
- The provision for income taxes for 2019 reflected an annual effective tax rate of 25.2 percent, compared with 24.1 percent for 2018, excluding the discrete items discussed in the following paragraph. The increase from 2018 was largely driven by the application of U.S. tax reform provisions to the earnings of certain non-U.S. subsidiaries, which do not have a calendar fiscal year-end. These provisions did not apply to these subsidiaries in 2018.

The provision for income taxes also included the following:

- A tax benefit of \$178 million to adjust previously unrecognized tax benefits as a result of receipt of additional guidance in 2019 related to the calculation of the mandatory deemed repatriation of non-U.S. earnings due to U.S. tax reform. In 2018, the mandatory deemed repatriation estimate increased by \$50 million.
- A tax benefit of \$41 million in 2019, compared with \$56 million in 2018, for the settlement of stock-based compensation awards with associated tax deductions in excess of cumulative U.S. GAAP compensation expense.
- A net benefit of \$183 million in 2018 to adjust deferred tax balances. (See Note – 6 “Income Taxes” of Part II, Item 8 “Financial Statements and Supplementary Data” for more information.)

Construction Industries

Construction Industries’ total sales were \$22.649 billion for 2019, a decrease of \$588 million, or 3 percent, compared with \$23.237 billion for 2018. The decrease was primarily due to lower sales volume driven by changes in dealer inventories, partially offset by higher end-user demand. Dealer inventories increased significantly more during 2018 than during 2019. Favorable price realization was offset by unfavorable currency impacts from a weaker euro, Chinese yuan and Australian dollar.

Sales increased in North America and Latin America, and decreased in Asia/Pacific and EAME.

- In North America, the sales increase was primarily due to higher demand for construction equipment and favorable price realization.
- Sales were higher in Latin America. While construction activities remained at low levels, the increase was driven by road and non-residential construction activities.
- Sales decreased in EAME primarily due to changes in dealer inventories and the unfavorable impact of a weaker euro, partially offset by favorable price realization. Dealer inventories increased during 2018, compared with a decrease during 2019.

- Sales in Asia/Pacific decreased mostly due to lower demand, including changes in dealer inventories, and unfavorable currency impacts. The unfavorable currency impacts were due to a weaker Chinese yuan and Australian dollar. Dealers increased inventories during 2018 and decreased inventories during 2019. The lower demand was primarily in China due to continued competitive pressures. In addition, demand was lower across the region.

Construction Industries' profit was \$3.931 billion in 2019, a decrease of \$243 million, or 6 percent, compared with \$4.174 billion in 2018. The decrease was primarily due to lower sales volume, including an unfavorable mix of products, and higher manufacturing costs, which were partially offset by favorable price realization and lower SG&A/R&D expenses. Manufacturing costs increased primarily due to unfavorable variable labor and burden. Lower SG&A/R&D expenses were due to lower short-term incentive compensation expense, partially offset by investments aligned with the company's strategic growth initiatives.

Construction Industries' profit as a percent of total sales was 17.4 percent in 2019, compared with 18.0 percent in 2018.

Resource Industries

Resource Industries' total sales were \$10.276 billion in 2019, about flat with \$10.270 billion in 2018. Higher end-user demand for equipment and favorable price realization were offset by changes in dealer inventories and unfavorable currency impacts, primarily the weaker Australian dollar and euro. Higher end-user demand was driven by increased capital investment by mining customers to support ongoing mine site operations. End-user demand also increased for our non-residential construction and quarry and aggregate customers. Dealers increased inventories more significantly during 2018 than during 2019.

Resource Industries' profit was \$1.629 billion in 2019, an increase of \$26 million, or 2 percent, compared with \$1.603 billion in 2018. The improvement was mostly due to favorable price realization, partially offset by higher manufacturing costs. Manufacturing costs increased due to higher warranty expense, unfavorable cost absorption, increased variable labor and burden and higher material costs, partially offset by the favorable period manufacturing costs due to the impact of restructuring and cost-reduction actions and lower short-term incentive compensation expense. Cost absorption was unfavorable as inventory increased more during 2018 than 2019.

Resource Industries' profit as a percent of total sales was 15.9 percent in 2019, compared with 15.6 percent in 2018.

Energy & Transportation

Sales by Application

(Millions of dollars)	2019	2018	\$ Change	% Change
Oil and Gas	\$ 5,205	\$ 5,763	\$ (558)	(10%)
Power Generation.....	4,474	4,334	140	3%
Industrial	3,749	3,640	109	3%
Transportation	5,057	5,095	(38)	(1%)
External Sales	18,485	18,832	(347)	(2%)
Inter-Segment.....	3,612	3,953	(341)	(9%)
Total Sales	<u>\$ 22,097</u>	<u>\$ 22,785</u>	<u>\$ (688)</u>	<u>(3%)</u>

Energy & Transportation's total sales were \$22.097 billion in 2019, compared with \$22.785 billion in 2018. Sales declined primarily due to lower inter-segment engine sales and unfavorable currency impacts, primarily from the weaker euro and Australian dollar.

- Oil and Gas – Sales decreased in North America primarily due to lower new equipment demand for well servicing and the timing of turbine project deliveries for gas compression and production. Lower sales in North America were partially offset by increases in all other regions, primarily Asia/Pacific.
- Power Generation – Sales increased mostly due to higher deliveries of diesel reciprocating engines in North America and higher turbine sales across all regions. The increase was partially offset by lower diesel reciprocating engine sales in EAME and Asia/Pacific driven by unfavorable currency impacts and lower volume.
- Industrial – Sales improved primarily in North America and Asia/Pacific driven by higher end-user demand.
- Transportation – Sales were about flat as lower locomotive sales were offset by stronger marine demand.

Energy & Transportation's profit was \$3.910 billion for 2019, a decrease of \$28 million, or 1 percent, compared with \$3.938 billion for 2018. The decrease was mostly due to lower sales volumes, partially offset by lower SG&A/R&D expenses. Lower SG&A/R&D expenses were primarily due to lower short-term incentive compensation expense. Higher manufacturing costs were more than offset by favorable price realization and favorable other operating (income) expenses.

Energy & Transportation's profit as a percent of total sales was 17.7 percent in 2019, compared with 17.3 percent in 2018.

Financial Products Segment

Financial Products' segment revenues were \$3.434 billion, an increase of \$155 million, or 5 percent, from 2018. The increase was primarily due to higher average financing rates in North America and Asia/Pacific, an increase in earned premiums from Insurance Services across all regions and higher average *earning assets* in North America. These favorable impacts were partially offset by the absence of fees associated with an intercompany credit facility in North America.

Financial Products' segment profit was \$832 million in 2019, compared with \$505 million in 2018. Most of the increase was due to lower provision for credit losses at Cat Financial, driven by a lower allowance rate compared with 2018. The lower allowance rate was due to write-offs of accounts in 2019 that were reserved for in 2018, primarily in the Cat Power Finance portfolio. In addition, there was a favorable impact from an increase in net yield on average earning assets and a favorable impact from equity securities in Insurance Services. These favorable impacts were partially offset by higher SG&A expenses and the absence of the intercompany credit facility.

At the end of 2019, past dues at Cat Financial were 3.14 percent, compared with 3.55 percent at the end 2018. Write-offs, net of recoveries, were \$237 million for 2019, an increase from \$189 million for 2018, primarily due to Mining, Caterpillar Power Finance and EAME, partially offset by a decrease in Latin America. The increase in Mining was due to a small number of customer balances written off in 2019, while the increases in Caterpillar Power Finance and EAME were concentrated in the marine portfolio and the Middle East, respectively. As of December 31, 2019, Cat Financial's allowance for credit losses totaled \$424 million, or 1.50 percent of finance receivables, compared with \$511 million, or 1.80 percent of finance receivables, at December 31, 2018.

Corporate Items and Eliminations

Expense for corporate items and eliminations was \$1.585 billion in 2019, an increase of \$19 million from 2018. The increase was primarily due to methodology differences, mostly offset by lower restructuring costs and timing differences.

FOURTH QUARTER 2019 COMPARED WITH FOURTH QUARTER 2018**CONSOLIDATED SALES AND REVENUES**

The chart above graphically illustrates reasons for the change in consolidated sales and revenues between the fourth quarter of 2018 (at left) and the fourth quarter of 2019 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's Board of Directors and employees.

Total sales and revenues of \$13.144 billion in the fourth quarter of 2019 decreased \$1.198 billion, or 8 percent, compared with \$14.342 billion in the fourth quarter of 2018. The decline was due to lower sales volume driven by the impact from changes in dealer inventories and lower end-user demand, primarily in Construction Industries and Resource Industries. Dealers decreased machine and engine inventories about \$700 million during the fourth quarter of 2019, compared with an increase of about \$200 million during the fourth quarter of 2018.

The largest sales decrease was in North America, which declined 14 percent due to lower demand, including changes in dealer inventories. Dealer inventories increased during the fourth quarter of 2018, compared with a decrease during the fourth quarter of 2019.

Sales decreased 16 percent in Latin America due to lower demand across the region.

EAME sales decreased 6 percent primarily due to changes in dealer inventories and unfavorable currency impacts, primarily from the weaker euro. Dealer inventories decreased more during the fourth quarter of 2019 than the fourth quarter of 2018.

Asia/Pacific sales were about flat as higher sales volume was offset by unfavorable price realization and currency impacts, primarily from the weaker Australian dollar. Sales volume was higher as improved end-user demand was partially offset by changes in dealer inventories. Dealer inventories increased more during the fourth quarter of 2018 than the fourth quarter of 2019.

Dealers decreased machine and engine inventories about \$700 million during the fourth quarter of 2019, compared with an increase of about \$200 million during the fourth quarter of 2018. Dealers are independent, and the reasons for changes in their inventory levels vary, including their expectations of future demand and product delivery times. Dealers' demand expectations take into account seasonal changes, macroeconomic conditions, machine rental rates and other factors. Delivery times can vary based on availability of product from Caterpillar factories and product distribution centers.

CONSOLIDATED OPERATING PROFIT

The chart above graphically illustrates reasons for the change in consolidated operating profit between the fourth quarter of 2018 (at left) and the fourth quarter of 2019 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's Board of Directors and employees. The bar entitled Other includes consolidating adjustments and Machinery, Energy & Transportation other operating (income) expenses.

Operating profit for the fourth quarter of 2019 was \$1.850 billion, a decrease of \$33 million, or 2 percent, compared with \$1.883 billion in the fourth quarter of 2018. The decrease was primarily due to lower sales volume, mostly offset by lower SG&A and R&D expenses and higher profit from Financial Products.

Lower SG&A/R&D expenses were mostly due to a reduction in short-term incentive compensation expense and timing of R&D expenses.

Financial Products' operating profit was higher, primarily due to lower provisions for credit losses related to the Cat Power Finance portfolio compared with the fourth quarter of 2018.

In addition, favorable manufacturing costs were mostly offset by unfavorable price realization. Manufacturing costs decreased primarily due to lower period manufacturing and material costs, partially offset by higher warranty expense. Period manufacturing costs declined mainly due to lower short-term incentive compensation and the favorable impact of restructuring and cost-reduction actions.

Short-term incentive compensation expense was about \$120 million in the fourth quarter of 2019, compared with about \$310 million in the fourth quarter of 2018.

Operating profit margin in the fourth quarter of 2019 was 14.1 percent, compared with 13.1 percent in the fourth quarter of 2018.

Profit (Loss) by Segment				
(Millions of dollars)	Fourth Quarter 2019	Fourth Quarter 2018	\$ Change	% Change
Construction Industries.....	\$ 659	\$ 845	\$ (186)	(22%)

Corporate Items and Eliminations	(6)	54	(60)	
Financial Products	204	83	121	146%
Consolidating Adjustments.....	(103)	(102)	(1)	
Consolidated Operating Profit	\$ 1,850	\$ 1,883	\$ (33)	(2%)

Other Profit/Loss and Tax Items

- Interest expense excluding Financial Products in the fourth quarter of 2019 was \$112 million, compared with \$99 million in the fourth quarter of 2018. The increase was due to higher average debt outstanding during the fourth quarter of 2019, compared with the fourth quarter of 2018.
- Other income (expense) in the fourth quarter of 2019 was expense of \$373 million, compared with expense of \$417 million in the fourth quarter of 2018. The decrease in expense was due to the favorable impact of commodity hedges, higher realized gains and lower unrealized losses on marketable securities at Insurance Services, which were partially offset by unfavorable pension and OPEB costs.
- The provision for income taxes in the fourth quarter reflected an annual effective tax rate of 25.2 percent, compared with 24.1 percent for the full year of 2018, excluding discrete items discussed in the following paragraph. The increase from 2018 was largely driven by the application of U.S. tax reform provisions to the earnings of certain non-U.S. subsidiaries, which do not have a calendar fiscal year-end. These provisions did not apply to these subsidiaries in 2018.

The provision for income taxes also included the following:

- The change from the third-quarter estimated annual tax rate of 26 percent to the annual effective tax rate of 25.2 percent resulted in a \$54 million tax benefit in the fourth quarter of 2019.
- A tax benefit of \$13 million in the fourth quarter of 2019, compared to \$4 million in the fourth quarter of 2018, for the settlement of stock-based compensation awards with associated tax deductions in excess of cumulative U.S. GAAP compensation expense.
- A net tax benefit of \$13 million in the fourth quarter of 2018 for other discrete items.

Construction Industries

Construction Industries' total sales were \$5.020 billion in the fourth quarter of 2019, a decrease of \$685 million, or 12 percent, compared with \$5.705 billion in the fourth quarter of 2018. The decrease was due to lower sales volume, driven mostly by the impact from changes in dealer inventories. Dealers decreased inventories during the fourth quarter of 2019, compared with dealer inventories that were about flat during the fourth quarter of 2018. Unfavorable price realization also contributed to the decline in sales.

- In North America, sales decreased due to lower demand driven by the impact from changes in dealer inventories, while end-user demand was about flat. Dealers decreased inventories during the fourth quarter of 2019, compared with an increase during the fourth quarter of 2018.
- Sales were higher in Latin America. While construction activities remained at low levels, the increase was driven by road and residential construction activities.
- In EAME, the sales decrease was primarily due to the impact from changes in dealer inventories and lower end-user demand across most of the region. Dealers decreased inventories more during the fourth quarter of 2019 than during the fourth quarter of 2018.

- Sales in Asia/Pacific were about flat as unfavorable price realization was mostly offset by a few countries' higher sales volume.

Construction Industries' profit was \$659 million in the fourth quarter of 2019, a decrease of \$186 million, or 22 percent, compared with \$845 million in the fourth quarter of 2018. The decrease was primarily due to lower sales volume.

In addition, favorable manufacturing costs were mostly offset by unfavorable price realization. Manufacturing costs decreased due to lower period manufacturing and material costs. Period manufacturing costs declined mainly due to the favorable impact of restructuring and cost-reduction actions as well as lower short-term incentive compensation.

Construction Industries' profit as a percent of total sales was 13.1 percent in the fourth quarter of 2019, compared with 14.8 percent in the fourth quarter of 2018.

Resource Industries

Resource Industries' total sales were \$2.395 billion in the fourth quarter of 2019, a decrease of \$402 million, or 14 percent, compared with \$2.797 billion in the fourth quarter of 2018. The decrease was due to lower sales volume, driven by changes in dealer inventories and lower end-user demand. Dealers increased inventories during the fourth quarter of 2018, compared with a decrease during the fourth quarter of 2019. While commodity prices are generally supportive of reinvestment, the company continues to believe mining customers remained disciplined in their capital expenditures due to economic uncertainty, resulting in lower sales in the quarter. In addition, end-user demand decreased for equipment supporting non-residential construction.

Resource Industries' profit was \$261 million in the fourth quarter of 2019, a decrease of \$139 million, or 35 percent, compared with \$400 million in the fourth quarter of 2018. The decrease was mainly due to lower sales volume, partially offset by lower SG&A/R&D expenses and favorable price realization. The decrease in SG&A/R&D expenses reflected a reduction in short-term incentive compensation expense and timing of R&D expenses.

Resource Industries' profit as a percent of total sales was 10.9 percent in the fourth quarter of 2019, compared with 14.3 percent in the fourth quarter of 2018.

Energy & Transportation

Sales by Application

(Millions of dollars)	Fourth Quarter 2019	Fourth Quarter 2018	\$ Change	% Change
Oil and Gas	\$ 1,523	\$ 1,719	\$ (196)	(11%)
Power Generation.....	1,294	1,271	23	2%
Industrial	908	902	6	1%
Transportation	1,441	1,373	68	5%
External Sales	5,166	5,265	(99)	(2%)
Inter-Segment.....	783	1,022	(239)	(23%)
Total Sales	\$ 5,949	\$ 6,287	\$ (338)	(5%)

Energy & Transportation's total sales were \$5.949 billion in the fourth quarter of 2019, a decrease of \$338 million, or 5 percent, compared with \$6.287 billion in the fourth quarter of 2018. Sales declined primarily due to lower inter-segment engine sales and unfavorable currency impacts.

- Oil and Gas - Sales were lower mainly in North America. The sales decline was largely due to lower demand for reciprocating engines used in gas compression and lower turbine project deliveries.
- Power Generation - Sales increased slightly primarily due to higher deliveries for turbines in EAME.
- Industrial - Sales were about flat as slightly higher sales in North America were partially offset by lower sales in Latin America and EAME.
- Transportation - Sales were higher mainly due to stronger marine demand in EAME.

Energy & Transportation's profit was \$1.165 billion in the fourth quarter of 2019, an increase of \$86 million, or 8 percent, compared with \$1.079 billion in the fourth quarter of 2018. The increase was mostly due to lower SG&A/R&D expenses, primarily due to a reduction in short-term incentive compensation expense and lower R&D project expenses. Lower manufacturing costs were mostly offset by lower sales volume.

Energy & Transportation's profit as a percent of total sales was 19.6 percent in the fourth quarter of 2019, compared with 17.2 percent in the fourth quarter of 2018.

Financial Products Segment

Financial Products' segment revenues were \$846 million in the fourth quarter of 2019, an increase of \$34 million, or 4 percent, from the fourth quarter of 2018. The increase was primarily due to a favorable impact from returned or repossessed equipment in Europe and higher average financing rates in North America.

Financial Products' segment profit was \$210 million in the fourth quarter of 2019, compared with \$29 million in the fourth quarter of 2018. Most of the increase was due to lower provision for credit losses at Cat Financial, driven by a lower allowance rate compared with 2018. The lower allowance rate was due to write-offs of accounts in 2019 that were reserved for in 2018, primarily in the Cat Power Finance portfolio. In addition, there was a favorable impact from equity securities in Insurance Services, as well as favorable impacts from an increase in net yield on average earning assets and returned or repossessed equipment. These favorable impacts were partially offset by higher SG&A expenses.

Corporate Items and Eliminations

Expense for corporate items and eliminations was \$331 million in the fourth quarter of 2019, an increase of \$10 million from the fourth quarter of 2018. The increase was primarily due to methodology differences, offset by timing differences and lower restructuring costs.

2018 COMPARED WITH 2017

CONSOLIDATED SALES AND REVENUES

The chart above graphically illustrates reasons for the change in consolidated sales and revenues between 2017 (at left) and 2018 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's Board of Directors and employees.

Total sales and revenues were \$54.722 billion in 2018, an increase of \$9.260 billion, or 20 percent, compared with \$45.462 billion in 2017. The increase was primarily due to higher sales volume driven by improved demand for equipment across the three primary segments, including changes in dealer inventories. Favorable price realization across the three primary segments also contributed to the sales improvement. In addition, sales were higher due to currency impacts, primarily from a stronger euro. Financial Products' revenues increased slightly.

Sales increased in all regions, with the largest sales increase in North America, which improved 23 percent as strong economic conditions in key end markets drove higher demand. Also contributing to higher sales was an increase in dealer inventories during 2018, compared with dealer inventories that were about flat in 2017.

Sales increased 13 percent in Latin America primarily due to stabilizing economic conditions in several countries in the region that resulted in improved demand from low levels.

EAME sales increased 16 percent primarily due to higher demand, including changes in dealer inventories. The improvement in demand was primarily in Europe. The impact of a stronger euro and favorable price realization also contributed to higher sales. Dealer inventories increased more significantly in 2018 than in 2017.

Asia/Pacific sales increased 28 percent primarily due to higher demand in several countries across the region, including changes in dealer inventories and favorable price realization. Dealer inventories increased during 2018 as compared with dealer inventories that were about flat in 2017.

Dealer machine and engine inventories increased about \$2.3 billion in 2018, compared with an increase of about \$100 million in 2017. Dealers are independent, and the reasons for changes in their inventory levels vary, including their expectations of future demand and product delivery times. Dealers' demand expectations take into account seasonal changes, macroeconomic conditions, machine rental rates and other factors. Delivery times can vary based on availability of product from Caterpillar factories and product distribution centers.

Sales and Revenues by Segment

CONSOLIDATED OPERATING PROFIT

The chart above graphically illustrates reasons for the change in consolidated operating profit between 2017 (at left) and 2018 (at right). Caterpillar management utilizes these charts internally to visually communicate with the company's Board of Directors and employees. The bar entitled Other includes consolidating adjustments and Machinery, Energy & Transportation other operating (income) expenses.

Operating profit was \$8.293 billion in 2018, an increase of \$3.833 billion, or 86 percent, compared with \$4.460 billion in 2017. The increase was primarily due to higher sales volume and lower restructuring costs. Higher manufacturing costs and increased SG&A/R&D expenses were mostly offset by favorable price realization.

Manufacturing costs were higher due to increased material and freight costs, partially offset by lower warranty expense. Material costs were higher primarily due to increases in steel prices. The impact of tariffs on material costs was about \$110 million during 2018. Freight costs were unfavorable primarily due to supply chain inefficiencies as the industry responds to strong global demand.

SG&A/R&D expenses increased primarily due to investments aligned with the company's strategic growth initiatives.

Restructuring costs were \$394 million in 2018, related to restructuring actions across the company. In 2017, we incurred \$1.227 billion of restructuring costs with about half related to the closure of the facility in Gosselies, Belgium, and the remainder related to other restructuring actions across the company.

Short-term incentive compensation expense is directly related to financial and operational performance, measured against targets set annually. Short-term incentive compensation expense in 2018 was about \$1.4 billion, nearly the same as 2017.

Profit (Loss) by Segment

(Millions of dollars)	2018	2017	\$ Change	% Change
Construction Industries.....	\$ 4,174	\$ 3,255	\$ 919	28 %

Consolidated Operating Profit	\$ 8,293	\$ 4,460	\$ 3,833	86 %

Other Profit/Loss and Tax Items

- Other income/expense in 2018 was expense of \$67 million, compared with income of \$153 million in 2017. The unfavorable change was primarily a result of an unfavorable impact from equity securities in Insurance Services. Effective January 1, 2018, we adopted a new U.S. GAAP accounting rule that requires our equity securities to be measured at fair value through earnings. Previously, the fair value adjustments for these securities were reported in equity until the securities were sold or an impairment was recognized. We adopted the standard using the modified retrospective approach, with no change to prior year financial statements. During 2018, we recognized a loss of \$33 million related to fair value adjustments. During 2017, we recognized gains on sales of securities of \$104 million. In addition, the absence of a 2017 pretax gain of \$85 million on the sale of Caterpillar's equity investment in IronPlanet contributed to the unfavorable change.
- The provision for income taxes for 2018 reflects an annual effective tax rate of 24.1 percent, compared with 27.7 percent for the full year of 2017, excluding the items discussed below. The decrease was primarily due to the reduction in the U.S. corporate tax rate beginning January 1, 2018, along with other changes in the geographic mix of profits from a tax perspective.

We have completed our accounting for the income tax effects of U.S. tax reform legislation and included measurement period adjustments in 2018 of \$104 million to reduce the provisionally estimated charge of \$2.371 billion recognized in 2017. A \$154 million benefit revised the estimated impact of the write-down of U.S. net deferred tax assets to reflect the reduction in the U.S. corporate tax rate from 35 percent to 21 percent. This benefit primarily related to the decision to make an additional discretionary pension contribution of \$1.0 billion to U.S. pension plans in 2018 which was treated as deductible on the 2017 U.S. tax return. A \$50 million charge revised the provisionally estimated cost of a mandatory deemed repatriation of non-U.S. earnings, including changes in the deferred tax liability related to the amount of earnings considered not indefinitely reinvested as well as the amount of unrecognized tax benefits and state tax liabilities associated with these tax positions.

The provision for income taxes in 2018 and 2017 also included non-cash benefits of \$63 million and \$111 million, respectively, from reductions in the valuation allowance against U.S. state deferred tax assets due to improved profits in the United States. An additional benefit of \$25 million was included in 2018 due to the release of a valuation allowance for a certain non-U.S. subsidiary. The provision for income taxes in 2018 also included a charge of \$59 million to correct for an error which resulted in an understatement of the valuation allowance offsetting deferred tax assets for prior years. This error had the effect of overstating profit by \$17 million and \$33 million for 2017 and 2016, respectively. Management has concluded that the error was not material to any period presented. In addition, a tax benefit of \$56 million was recorded in 2018, compared with \$64 million in 2017, for the settlement of stock-based compensation awards with associated tax deductions in excess of cumulative U.S. GAAP compensation expense.

Construction Industries

Construction Industries' total sales were \$23.237 billion in 2018, compared with \$19.240 billion in 2017. The increase was mostly due to higher sales volume for construction equipment. Sales were also higher due to currency impacts, primarily from a stronger euro.

- Sales volume increased primarily due to higher demand for construction equipment and changes in dealer inventories. Dealer inventories increased significantly more during 2018 than during 2017.

Sales increased in all regions.

- In North America, the sales increase was primarily due to higher demand for construction equipment, primarily to support oil and gas activities, including pipelines, non-residential building construction and infrastructure activities. In addition, sales increased due to changes in dealer inventories, which increased during 2018, compared with a slight decrease during 2017.
- Although construction activities remained weak in Latin America, sales were higher in the region.
- Sales increased in EAME primarily due to higher demand and the favorable impact of currency, mostly from a stronger euro. Higher demand was driven by increased construction activities across several countries in the region. Favorable price realization also contributed to the sales increase.
- Sales in Asia/Pacific were higher in several countries in the region, most significantly in China, stemming from increased building construction and infrastructure investment. Changes in dealer inventories contributed to the sales improvement as dealer inventories increased in 2018 and were about flat in 2017.

Construction Industries' profit was \$4.174 billion in 2018, compared with \$3.255 billion in 2017. The increase in profit was a result of higher sales volume and favorable price realization, partially offset by higher material and freight costs, and increased SG&A/R&D expenses, partially due to spending for strategic growth initiatives.

Construction Industries' profit as a percent of total sales was 18.0 percent in 2018, compared with 16.9 percent in 2017.

Resource Industries

Resource Industries' total sales were \$10.270 billion in 2018, an increase of \$2.409 billion from 2017. The increase was primarily due to higher demand for both mining and heavy construction equipment, including aftermarket parts. Favorable commodity price levels and increased mining production contributed to higher mining equipment sales. In addition, increased sales to heavy construction, quarry and aggregate customers were driven by positive global economic growth. Resource Industries' customers globally continue to focus on improving productivity and efficiency of existing machine assets, thereby extending equipment life cycles and lowering operating costs. Rebuild, overhaul and maintenance activity was robust, resulting in higher aftermarket parts sales. Favorable price realization also contributed to the sales improvement.

Resource Industries' profit was \$1.603 billion in 2018, compared with \$698 million in 2017. The improvement was mostly due to higher sales volume and favorable price realization, partially offset by increased manufacturing costs and unfavorable currency impacts. Manufacturing costs were unfavorable as lower warranty expense was more than offset by higher freight and material costs.

Resource Industries' profit as a percent of total sales was 15.6 percent in 2018, compared with 8.9 percent in 2017.

Energy & Transportation

Sales by Application

(Millions of dollars)	2018	2017	\$ Change	% Change
Oil and Gas	\$ 5,763	\$ 4,424	\$ 1,339	30%
Power Generation.....	4,334	3,551	783	22%
Industrial	3,640	3,445	195	6%
Transportation	5,095	4,544	551	12%
External Sales	18,832	15,964	2,868	18%
Inter-Segment.....	3,953	3,418	535	16%
Total Sales	\$ 22,785	\$ 19,382	\$ 3,403	18%

Energy & Transportation's total sales were \$22.785 billion in 2018, compared with \$19.382 billion in 2017. The increase was primarily due to higher sales volume across all applications. Favorable price realization also contributed to the increase in sales.

- Oil and Gas — Sales increased due to higher demand in North America for well servicing and gas compression applications. Growth in U.S. onshore oil and gas drove increased sales for reciprocating engines and related aftermarket parts. Sales of turbines and turbine-related services were higher for production applications.
- Power Generation — Sales improved across all regions, with the largest increase in North America, primarily for reciprocating engine applications including data centers, and for aftermarket parts. In addition, sales increased in EAME from reciprocating engine projects, turbines and turbine-related services and favorable currency.
- Industrial — Sales were higher in Asia/Pacific and North America, primarily due to improving economic conditions supporting higher engine sales into industrial applications. Sales in EAME were about flat as economic uncertainty in a few countries in the Middle East was mostly offset by favorable currency impacts.
- Transportation — Sales were higher for rail services driven by acquisitions in Asia/Pacific and EAME and increased rail traffic in North America. Marine sales were higher in Asia/Pacific, led by increased activity in the ferry sector.

Energy & Transportation's profit was \$3.938 billion in 2018, compared with \$2.856 billion in 2017. The improvement was due to higher sales volume and favorable price realization. This was partially offset due to increased spending for strategic growth initiatives and higher freight costs.

Energy & Transportation's profit as a percent of total sales was 17.3 percent in 2018, compared with 14.7 percent in 2017.

Financial Products Segment

Financial Products' segment revenues were \$3.279 billion, an increase of \$186 million, or 6 percent, from 2017. The increase was primarily due to higher average financing rates and higher average earning assets in North America and Asia/Pacific. These favorable impacts were partially offset by lower intercompany lending activity in North America, lower average earning assets in Latin America and lower average financing rates in Europe.

Financial Products' segment profit was \$505 million in 2018, compared with \$792 million in 2017. The decrease was primarily due to an increase in the provision for credit losses at Cat Financial, an unfavorable impact from equity securities in Insurance Services and lower intercompany lending activity. These unfavorable impacts were partially offset by higher average earning assets and an increase in net yield on average earning assets.

At the end of 2018, past dues at Cat Financial were 3.55 percent, compared with 2.78 percent at the end of 2017. Write-offs, net of recoveries, were \$189 million for 2018, compared with \$114 million for 2017. As of December 31, 2018, Cat Financial's allowance for credit losses totaled \$511 million, or 1.80 percent of finance receivables, compared with \$365 million, or 1.33 percent of finance receivables at December 31, 2017. The increase in past dues, write-offs and allowance for credit losses was primarily due to weakening in the Cat Power Finance portfolio.

Corporate Items and Eliminations

Expense for corporate items and eliminations was \$1.566 billion in 2018, a decrease of \$1.209 billion from 2017. The decrease in expense was mostly due to lower restructuring costs and methodology differences. Restructuring costs were \$394 million in 2018. In 2017, restructuring costs impacting operating profit were \$1.227 billion with about half related to the closure of the facility in Gosselies, Belgium and the remainder related to other restructuring actions across the company.

RESTRUCTURING COSTS

Restructuring costs for 2019, 2018, and 2017 were as follows:

(Millions of dollars)	2019	2018	2017
Employee separations ¹	\$ 48	\$ 112	\$ 525
Contract terminations ¹	1	7	183
Long-lived asset impairments ¹	65	93	346
Defined benefit plan curtailments and termination benefits ²	—	(8)	29
Other ³	122	182	173
Total restructuring costs	<u>\$ 236</u>	<u>\$ 386</u>	<u>\$ 1,256</u>

¹ Recognized in Other operating (income) expenses.

² Recognized in Other income (expense).

³ Represents costs related to our restructuring programs, primarily for project management, inventory write-downs, accelerated depreciation and equipment relocation, and also LIFO inventory decrement benefits from inventory liquidations at closed facilities, all of which are primarily included in Cost of goods sold.

The restructuring costs in 2019 were primarily related to restructuring actions across the company. The restructuring costs in 2018 were primarily related to ongoing facility closures across the company. In 2017, about half of the restructuring costs were related to the closure of the facility in Gosselies, Belgium, within Construction Industries, and the remainder was related to other restructuring actions across the company.

Certain restructuring costs are a reconciling item between Segment profit and Consolidated profit before taxes.

The following table summarizes the 2018 and 2019 employee separation activity:

(Millions of dollars)	
Liability balance at December 31, 2017.....	\$ 249
Increase in liability (separation charges).....	112
Reduction in liability (payments).....	(276)
Liability balance at December 31, 2018.....	\$ 85
Increase in liability (separation charges).....	48
Reduction in liability (payments).....	(85)
Liability balance at December 31, 2019.....	<u>\$ 48</u>

Most of the remaining liability balance as of December 31, 2019 is expected to be paid in 2020.

In March 2017, Caterpillar informed Belgian authorities of the decision to proceed to a collective dismissal, which led to the closure of the Gosselies site, impacting about 2,000 employees. Production of Caterpillar products at the Gosselies site ended during the second quarter of 2017. The other operations and functions at the Gosselies site were phased out by the end of the second quarter of 2018. The program concluded in 2018, and we incurred a total of \$647 million of restructuring costs (primarily in 2017) under this program. These costs were primarily related to employee separation costs, long-lived asset impairments and other costs which were partially offset by a LIFO inventory decrement benefit.

In September 2015, we announced a large scale restructuring plan (the Plan) including a voluntary retirement enhancement program for qualifying U.S. employees, several voluntary separation programs outside of the United States, additional involuntary programs throughout the company and manufacturing facility consolidations and closures. The largest action among those included in the Plan was related to our European manufacturing footprint which led to the Gosselies, Belgium, facility closure as discussed above. We incurred \$43 million, \$121 million and \$817 million of restructuring costs associated with these actions in 2019, 2018 and 2017, respectively. The Plan concluded in 2019, and total restructuring costs incurred since the inception of the Plan were \$1,831 million.

In 2020, we expect to incur about \$300 - \$400 million of restructuring costs, about half for restructuring actions across the company and the remainder for strategic actions to address a small number of products. We expect that prior restructuring actions will result in an incremental benefit to operating costs, primarily Costs of goods sold and SG&A expenses of about \$200 million in 2020 compared with 2019.

GLOSSARY OF TERMS

1. **Adjusted Profit Per Share** - For 2019, profit per share excluding pension and OPEB mark-to-market losses and a discrete tax benefit related to U.S. tax reform. For 2018, profit per share excluding pension and OPEB mark-to-market losses, restructuring costs, certain deferred tax valuation allowance adjustments and the impact of U.S. tax reform.
2. **All Other Segment** - Primarily includes activities such as: business strategy, product management and development, manufacturing and sourcing of filters and fluids, undercarriage, ground engaging tools, fluid transfer products, precision seals, rubber sealing and connecting components primarily for Cat® products; parts distribution; integrated logistics solutions, distribution services responsible for dealer development and administration including a wholly owned dealer in Japan, dealer portfolio management and ensuring the most efficient and effective distribution of machines, engines and parts; and digital investments for new customer and dealer solutions that integrate data analytics with state-of-the-art digital technologies while transforming the buying experience.
3. **Consolidating Adjustments** - Elimination of transactions between Machinery, Energy & Transportation and Financial Products.
4. **Construction Industries** - A segment primarily responsible for supporting customers using machinery in infrastructure, forestry and building construction applications. Responsibilities include business strategy, product design, product management and development, manufacturing, marketing and sales and product support. The product portfolio includes asphalt pavers; backhoe loaders; compactors; cold planers; compact track and multi-terrain loaders; mini, small, medium and large track excavators; forestry excavators; feller bunchers; harvesters; knuckleboom loaders; motor graders; pipelayers; road reclaimers; skidders; skid steer loaders; telehandlers; small and medium track-type tractors; track-type loaders; utility vehicles; wheel excavators; compact, small and medium wheel loaders; and related parts and work tools.

5. **Corporate Items and Eliminations** - Includes corporate-level expenses; timing differences, as some expenses are reported in segment profit on a cash basis; methodology differences between segment and consolidated external reporting; certain restructuring costs; and inter-segment eliminations.
6. **Currency** - With respect to sales and revenues, currency represents the translation impact on sales resulting from changes in foreign currency exchange rates versus the U.S. dollar. With respect to operating profit, currency represents the net translation impact on sales and operating costs resulting from changes in foreign currency exchange rates versus the U.S. dollar. Currency only includes the impact on sales and operating profit for the Machinery, Energy & Transportation lines of business; currency impacts on Financial Products' revenues and operating profit are included in the Financial Products' portions of the respective analyses. With respect to other income/expense, currency represents the effects of forward and option contracts entered into by the company to reduce the risk of fluctuations in exchange rates (hedging) and the net effect of changes in foreign currency exchange rates on our foreign currency assets and liabilities for consolidated results (translation).
7. **EAME** - A geographic region including Europe, Africa, the Middle East and the Commonwealth of Independent States (CIS).
8. **Earning Assets** - Assets consisting primarily of total finance receivables net of unearned income, plus equipment on operating leases, less accumulated depreciation at Cat Financial.
9. **Energy & Transportation** - A segment primarily responsible for supporting customers using reciprocating engines, turbines, diesel-electric locomotives and related parts across industries serving Oil and Gas, Power Generation, Industrial and Transportation applications, including marine and rail-related businesses. Responsibilities include business strategy, product design, product management and development, manufacturing, marketing and sales and product support of turbine machinery and integrated systems and solutions and turbine-related services; reciprocating engine-powered generator sets; integrated systems used in the electric power generation industry; reciprocating engines and integrated systems and solutions for the marine and oil and gas industries; reciprocating engines supplied to the industrial industry as well as Cat machinery; the remanufacturing of Caterpillar engines and components and remanufacturing services for other companies; the business strategy, product design, product management and development, manufacturing, remanufacturing, leasing and service of diesel-electric locomotives and components and other rail-related products and services and product support of on-highway vocational trucks for North America.
10. **Financial Products Segment** - Provides financing alternatives to customers and dealers around the world for Caterpillar products, as well as financing for vehicles, power generation facilities and marine vessels that, in most cases, incorporate Caterpillar products. Financing plans include operating and finance leases, installment sale contracts, working capital loans and wholesale financing plans. The segment also provides insurance and risk management products and services that help customers and dealers manage their business risk. Insurance and risk management products offered include physical damage insurance, inventory protection plans, extended service coverage for machines and engines, and dealer property and casualty insurance. The various forms of financing, insurance and risk management products offered to customers and dealers help support the purchase and lease of our equipment. The segment also earns revenues from Machinery, Energy & Transportation, but the related costs are not allocated to operating segments. Financial Products' segment profit is determined on a pretax basis and includes other income/expense items.
11. **Latin America** - A geographic region including Central and South American countries and Mexico.
12. **Machinery, Energy & Transportation (ME&T)** - Represents the aggregate total of Construction Industries, Resource Industries, Energy & Transportation, All Other Segment and related corporate items and eliminations.
13. **Machinery, Energy & Transportation (ME&T) Other Operating (Income) Expenses** - Comprised primarily of gains/losses on disposal of long-lived assets, gains/losses on divestitures and legal settlements and accruals.
14. **Manufacturing Costs** - Manufacturing costs exclude the impacts of currency and represent the volume-adjusted change for variable costs and the absolute dollar change for period manufacturing costs. Variable manufacturing costs are defined as having a direct relationship with the volume of production. This includes material costs, direct labor and other costs that vary directly with production volume such as freight, power to operate machines and supplies that are consumed in the manufacturing process. Period manufacturing costs support production but are defined as generally not having a direct relationship to short-term changes in volume. Examples include machinery and equipment repairs, depreciation on manufacturing assets, facility support, procurement, factory scheduling, manufacturing planning and operations management.
15. **Mark-to-market gains/losses** - Represents the net gain or loss of actual results differing from our assumptions and the effects of changing assumptions for our defined benefit pension and OPEB plans. These gains and losses are immediately recognized through earnings upon the annual remeasurement in the fourth quarter, or on an interim basis as triggering events warrant remeasurement.
16. **Pension and Other Postemployment Benefit (OPEB)** - The company's defined-benefit pension and postemployment benefit plans.

17. **Price Realization** - The impact of net price changes excluding currency and new product introductions. Price realization includes geographic mix of sales, which is the impact of changes in the relative weighting of sales prices between geographic regions.
18. **Resource Industries** - A segment primarily responsible for supporting customers using machinery in mining, heavy construction, quarry and aggregates, waste and material handling applications. Responsibilities include business strategy, product design, product management and development, manufacturing, marketing and sales and product support. The product portfolio includes large track-type tractors; large mining trucks; autonomous ready vehicles and solutions; hard rock vehicles; longwall miners; electric rope shovels; draglines; hydraulic shovels; rotary drills; large wheel loaders; off-highway trucks; articulated trucks; wheel tractor scrapers; wheel dozers; landfill compactors; soil compactors; hard rock continuous mining systems; select work tools; machinery components and related parts. In addition to equipment, Resource Industries also develops and sells technology products and services to provide customers fleet management, equipment management analytics and autonomous machine capabilities. Resource Industries also manages areas that provide services to other parts of the company, including integrated manufacturing and research and development.
19. **Restructuring Costs** - May include costs for employee separation, long-lived asset impairments and contract terminations. These costs are included in Other operating (income) expenses except for defined-benefit plan curtailment losses and special termination benefits, which are included in Other income (expense). Restructuring costs also include other exit-related costs which may consist of accelerated depreciation, inventory write-downs, building demolition, equipment relocation and project management costs and LIFO inventory decrement benefits from inventory liquidations at closed facilities, all of which are primarily included in Cost of goods sold.
20. **Sales Volume** - With respect to sales and revenues, sales volume represents the impact of changes in the quantities sold for Machinery, Energy & Transportation as well as the incremental sales impact of new product introductions, including emissions-related product updates. With respect to operating profit, sales volume represents the impact of changes in the quantities sold for Machinery, Energy & Transportation combined with product mix as well as the net operating profit impact of new product introductions, including emissions-related product updates. Product mix represents the net operating profit impact of changes in the relative weighting of Machinery, Energy & Transportation sales with respect to total sales. The impact of sales volume on segment profit includes inter-segment sales.
21. **Services** - Enterprise services include, but are not limited to, aftermarket parts, Financial Products' revenues and other service-related revenues. Machinery, Energy & Transportation segments exclude most Financial Products' revenues.

LIQUIDITY AND CAPITAL RESOURCES

Sources of funds

We generate significant capital resources from operating activities, which are the primary source of funding for our ME&T operations. Funding for these businesses is also available from commercial paper and long-term debt issuances. Financial Products' operations are funded primarily from commercial paper, term debt issuances and collections from its existing portfolio. During 2019, we experienced favorable liquidity conditions globally in both our ME&T and Financial Products' operations. On a consolidated basis, we ended 2019 with \$8.28 billion of cash, an increase of \$427 million from year-end 2018. We intend to maintain a strong cash and liquidity position.

Consolidated operating cash flow for 2019 was \$6.91 billion, up from \$6.56 billion in 2018. The increase was due to favorable changes in working capital in 2019, mostly offset by lower profit adjusted for non-cash items, which included lower accruals for short-term incentive compensation payments, and a larger discretionary pension contribution. Within working capital, changes to inventories, accounts receivable, customer advances and accrued expenses favorably impacted cash flow but were partially offset by changes in accounts payable. See further discussion of operating cash flow under ME&T and Financial Products.

Total debt as of December 31, 2019 was \$37.66 billion, an increase of \$1.10 billion from year-end 2018. Debt related to Financial Products decreased \$43 million. Debt related to ME&T increased \$1.15 billion in 2019, primarily due to the issuance of debt to finance a discretionary pension contribution, which was partially offset by the impact of new accounting guidance on a previously failed sale-leaseback transaction in Japan. On September 19, 2019, we issued \$1.0 billion of 3.250% Senior Notes due 2049 and \$500 million of 2.600% Senior Notes due 2029. During 2019, we repurchased \$4.05 billion of Caterpillar common stock.

We have three global credit facilities with a syndicate of banks totaling \$10.50 billion (Credit Facility) available in the aggregate to both Caterpillar and Cat Financial for general liquidity purposes. Based on management's allocation decision, which can be revised from time to time, the portion of the Credit Facility available to ME&T as of December 31, 2019 was \$2.75 billion. Information on our Credit Facility is as follows:

- The 364-day facility of \$3.15 billion (of which \$0.82 billion is available to ME&T) expires in September 2020.
- The three-year facility, as amended and restated in September 2019, of \$2.73 billion (of which \$0.72 billion is available to ME&T) expires in September 2022.
- The five-year facility, as amended and restated in September 2019, of \$4.62 billion (of which \$1.21 billion is available to ME&T) expires in September 2024.

At December 31, 2019, Caterpillar's consolidated net worth was \$14.63 billion, which was above the \$9.00 billion required under the Credit Facility. The consolidated net worth is defined as the consolidated shareholder's equity including preferred stock but excluding the pension and other postretirement benefits balance within Accumulated other comprehensive income (loss).

At December 31, 2019, Cat Financial's covenant interest coverage ratio was 1.77 to 1. This is above the 1.15 to 1 minimum ratio, calculated as (1) profit excluding income taxes, interest expense and net gain/(loss) from interest rate derivatives to (2) interest expense calculated at the end of each calendar quarter for the rolling four quarter period then most recently ended, required by the Credit Facility.

In addition, at December 31, 2019, Cat Financial's six-month covenant leverage ratio was 7.65 to 1 and year-end covenant leverage ratio was 7.46 to 1. This is below the maximum ratio of debt to net worth of 10 to 1, calculated (1) on a monthly basis as the average of the leverage ratios determined on the last day of each of the six preceding calendar months and (2) at each December 31, required by the Credit Facility.

In the event Caterpillar or Cat Financial does not meet one or more of their respective financial covenants under the Credit Facility in the future (and are unable to obtain a consent or waiver), the syndicate of banks may terminate the commitments allocated to the party that does not meet its covenants. Additionally, in such event, certain of Cat Financial's other lenders under other loan agreements where similar financial covenants or cross default provisions are applicable, may, at their election, choose to pursue remedies under those loan agreements, including accelerating the repayment of outstanding borrowings. At December 31, 2019, there were no borrowings under the Credit Facility.

Our total credit commitments and available credit as of December 31, 2019 were:

(Millions of dollars)	December 31, 2019		
	Consolidated	Machinery, Energy & Transportation	Financial Products
Credit lines available:			
Global credit facilities	\$ 10,500	\$ 2,751	\$ 7,749
Other external	4,999	194	4,805
Total credit lines available.....	15,499	2,945	12,554
Less: Commercial paper outstanding	(4,168)	—	(4,168)
Less: Utilized credit	(1,247)	—	(1,247)
Available credit	<u>\$ 10,084</u>	<u>\$ 2,945</u>	<u>\$ 7,139</u>

The other consolidated credit lines with banks as of December 31, 2019 totaled \$5.00 billion. These committed and uncommitted credit lines, which may be eligible for renewal at various future dates or have no specified expiration date, are used primarily by our subsidiaries for local funding requirements. Caterpillar or Cat Financial may guarantee subsidiary borrowings under these lines.

We receive debt ratings from the major credit rating agencies. Moody's rates our debt as "low-A", while Fitch and S&P maintain a "mid-A" debt rating. This split rating has not had a material impact on our borrowing costs or our overall financial health. However, a downgrade of our credit ratings by any of the major credit rating agencies would result in increased borrowing costs and could make access to certain credit markets more difficult. In the event economic conditions deteriorate such that access to debt markets becomes unavailable, ME&T's operations would rely on cash flow from operations, use of existing cash balances, borrowings from Cat Financial and access to our Credit Facility. Our Financial Products' operations would rely on cash flow from its existing portfolio, existing cash balances, access to our Credit Facility and other credit line facilities of Cat Financial and potential borrowings from Caterpillar. In addition, we maintain a support agreement with Cat Financial, which requires Caterpillar to remain the sole owner of Cat Financial and may, under certain circumstances, require Caterpillar to make payments to Cat Financial should Cat Financial fail to maintain certain financial ratios.

Machinery, Energy & Transportation

Net cash provided by operating activities was \$4.87 billion in 2019, compared with \$6.35 billion in 2018. The decrease was primarily due to lower profit in 2019 adjusted for non-cash items, which included lower accruals for short-term compensation payments, and a larger discretionary pension contribution partially offset by favorable changes in working capital. Within working capital, changes to inventories, accounts receivable, customer advances and accrued expenses favorably impacted cash flow but were partially offset by changes in accounts payable.

Net cash used for investing activities in 2019 was \$48 million, compared with net cash used of \$1.19 billion in 2018. The change was primarily due to decreased ME&T lending with Financial Products during 2019 and the acquisitions of ECM S.p.A. and Downer Freight Rail in 2018.

Net cash used for financing activities during 2019 was \$4.48 billion, compared with net cash used of \$5.47 billion in 2018. The change was primarily due to the issuance of \$1.5 billion of long-term debt used to fund a discretionary pension contribution. This was partially offset by an increase in repurchases of Caterpillar common stock of \$249 million and an increase in dividends paid of \$181 million.

While our short-term priorities for the use of cash may vary from time to time as business needs and conditions dictate, our long-term cash deployment strategy is focused on the following priorities. Our top priority is to maintain a strong financial position in support of a Mid-A rating. Next, we intend to fund operational requirements and commitments. Then, we intend to fund priorities that profitably grow the company and return capital to shareholders through dividend growth and share repurchases. Additional information on cash deployment is as follows:

Strong financial position — Our top priority is to maintain a strong financial position in support of a mid-A rating. We track a diverse group of financial metrics that focus on liquidity, leverage, cash flow and margins which align with our cash deployment actions and the various methodologies used by the major credit rating agencies.

Operational excellence and commitments — Capital expenditures were \$1.07 billion during 2019, compared to \$1.22 billion in 2018. We expect ME&T's capital expenditures in 2020 to be about \$1.2 billion. We made \$1.81 billion of contributions to our pension and other postretirement benefit plans during 2019, including a \$1.5 billion discretionary U.S. pension plan contribution. By comparison, we made \$1.35 billion of contributions to our pension and other postretirement plans in 2018, including a \$1.0 billion discretionary contribution made to our U.S. pension plans. We expect to make approximately \$280 million of contributions to our pension and OPEB plans in 2020.

Fund strategic growth initiatives and return capital to shareholders — We intend to utilize our liquidity and debt capacity to fund targeted investments that drive long-term profitable growth focused in the areas of expanded offerings and services, including acquisitions.

As part of our new capital allocation strategy, ME&T free cash flow is a liquidity measure we will use going forward to determine the cash generated and available for financing activities including debt repayments, dividends and share repurchases. We define ME&T free cash flow as cash from ME&T operations excluding discretionary pension and other postretirement benefit plan contributions less capital expenditures. A goal of our new capital allocation strategy is to return substantially all ME&T free cash flow to shareholders in the form of dividends and share repurchases, while maintaining our mid-A rating.

Our share repurchase plans are subject to the company's cash deployment priorities and are evaluated on an ongoing basis considering the financial condition of the company and the economic outlook, corporate cash flow, the company's liquidity needs and the health and stability of global credit markets. The timing and amount of future repurchases may vary depending on market conditions and investing priorities. In July 2018, the Board of Directors approved an authorization to repurchase up to \$10 billion of Caterpillar common stock (the 2018 Authorization) effective January 1, 2019, with no expiration. In 2019, we repurchased \$4.05 billion of Caterpillar common stock, with \$5.95 billion remaining under the 2018 Authorization as of December 31, 2019. Caterpillar's basic shares outstanding as of December 31, 2019 were approximately 550 million.

Each quarter, our Board of Directors reviews the company's dividend for the applicable quarter. The Board evaluates the financial condition of the company and considers the economic outlook, corporate cash flow, the company's liquidity needs, and the health and stability of global credit markets to determine whether to maintain or change the quarterly dividend. Dividends totaled \$2.13 billion in 2019, representing 86 cents per share paid in each of the first and second quarters and \$1.03 per share paid in each of the third and fourth quarters.

Financial Products

Financial Products operating cash flow was \$1.50 billion in 2019, compared with \$1.52 billion in 2018. Net cash used for investing activities was \$414 million in 2019, compared with \$2.78 billion in 2018. The change was primarily due to the impact of net intercompany purchased receivables and higher collections of finance receivables. Net cash used for financing activities in 2019 was \$991 million, compared with net cash provided by financing activities of \$1.26 billion in 2018. The change was primarily due to lower portfolio funding requirements and lower net intercompany borrowings, partially offset by a lower dividend payment to ME&T.

Contractual obligations

The company has committed cash outflow related to long-term debt, operating lease agreements, postretirement benefit obligations, purchase obligations, interest on long-term debt and other long-term contractual obligations. As of December 31, 2019, minimum payments for these obligations were:

(Millions of dollars)	2020	2021-2022	2023-2024	After 2024	Total
Long-term debt:					
Machinery, Energy & Transportation.....	\$ 16	\$ 1,919	\$ 1,102	\$ 6,716	\$ 9,753
Financial Products	6,198	12,508	4,334	341	23,381
Total long-term debt ¹	6,214	14,427	5,436	7,057	33,134
Operating leases.....	185	225	110	175	695
Postretirement benefit obligations ²	280	705	745	1,860	3,590
Purchase obligations:					
Accounts payable ³	5,957	—	—	—	5,957
Purchase orders ⁴	5,103	3	—	—	5,106
Other contractual obligations ⁵	160	87	26	—	273
Total purchase obligations	11,220	90	26	—	11,336
Interest on long-term debt ⁶	909	1,291	834	6,362	9,396
Other long-term obligations ⁷	685	546	159	90	1,480
Total contractual obligations.....	\$ 19,493	\$ 17,284	\$ 7,310	\$ 15,544	\$ 59,631

¹ Amounts exclude unamortized discounts, debt issuance costs, and fair value adjustments.

² Amounts represent expected contributions to our pension and other postretirement benefit plans through 2029, offset by expected Medicare Part D subsidy receipts.

³ Amount represents invoices received and recorded as liabilities in 2019, but scheduled for payment in 2020. These represent short-term obligations made in the ordinary course of business.

⁴ Amount represents contractual obligations for material and services on order at December 31, 2019 but not yet delivered. These represent short-term obligations made in the ordinary course of business.

⁵ Amounts represent long-term commitments entered into with key suppliers for minimum purchases quantities.

⁶ Amounts represent estimated contractual interest payments on long-term debt, including finance lease interest payments.

⁷ Amounts represent contractual obligations primarily for logistics services agreements related to our former third party logistics business, software license and development contracts and IT consulting contracts and outsourcing contracts for benefit plan administration and software system support.

The total amount of gross unrecognized tax benefits for uncertain tax positions, including positions impacting only the timing of tax benefits, was \$1,778 million at December 31, 2019. Payment of these obligations would result from settlements with taxing authorities. Due to the difficulty in determining the timing of settlements, these obligations are not included in the table above. We do not expect to make a tax payment related to these obligations within the next year that would significantly impact liquidity.

Off-balance sheet arrangements

We are a party to certain off-balance sheet arrangements, primarily in the form of guarantees. Information related to guarantees appears in Note 21 – “Guarantees and product warranty” of Part II, Item 8 “Financial Statements and Supplementary Data”.

RECENT ACCOUNTING PRONOUNCEMENTS

For a discussion of recent accounting pronouncements, see Note 1J — “New accounting guidance” of Part II, Item 8 “Financial Statements and Supplementary Data.”

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts. The more significant estimates include: residual values for leased assets, fair values for goodwill impairment tests, warranty liability, reserves for product liability and insurance losses, postretirement benefits, post-sale discounts, credit losses and income taxes. We have incorporated many years of data into the determination of each of these estimates and we have not historically experienced significant adjustments. These assumptions are reviewed at least annually with the Audit Committee of the Board of Directors. Following are the methods and assumptions used in determining our estimates and an indication of the risks inherent in each.

Residual values for leased assets – The residual value of Cat Financial’s leased equipment is determined based on its estimated end-of-term market value. We estimate the residual value of leased equipment at the inception of the lease based on a number of factors, including historical wholesale market sales prices, past remarketing experience and any known significant market/product trends. The following critical factors are also considered in our residual value estimates: lease term, market size and demand, total expected hours of usage, machine configuration, application, location, model changes, quantities, third-party residual guarantees and contractual customer purchase options.

Upon termination of the lease, the equipment is either purchased by the lessee or sold to a third party, in which case we may record a gain or a loss for the difference between the estimated residual value and the sale price.

During the term of our leases, we monitor residual values. For operating leases, adjustments to depreciation expense reflecting changes in residual value estimates are recorded prospectively on a straight-line basis. For finance leases, residual value adjustments are recognized through a reduction of finance revenue over the remaining lease term.

We evaluate the carrying value of equipment on operating leases for potential impairment when we determine a triggering event has occurred. When a triggering event occurs, a test for recoverability is performed by comparing projected undiscounted future cash flows to the carrying value of the equipment on operating leases. If the test for recoverability identifies a possible impairment, the fair value of the equipment on operating leases is measured in accordance with the fair value measurement framework. An impairment charge is recognized for the amount by which the carrying value of the equipment on operating leases exceeds its estimated fair value.

At December 31, 2019, the aggregate residual value of equipment on operating leases was \$2.15 billion. Without consideration of other factors such as third-party residual guarantees or contractual customer purchase options, a 10 percent non-temporary decrease in the market value of our equipment subject to operating leases would reduce residual value estimates and result in the recognition of approximately \$80 million of additional annual depreciation expense.

Fair values for goodwill impairment tests – We test goodwill for impairment annually, at the reporting unit level, and whenever events or circumstances make it more likely than not that an impairment may have occurred, such as a significant adverse change in the business climate or a decision to sell all or a portion of a reporting unit. We perform our annual goodwill impairment test as of October 1 and monitor for interim triggering events on an ongoing basis.

Goodwill is reviewed for impairment utilizing either a qualitative assessment or a quantitative goodwill impairment test. If we choose to perform a qualitative assessment and determine the fair value more likely than not exceeds the carrying value, no further evaluation is necessary. For reporting units where we perform the quantitative goodwill impairment test, we compare the fair value of each reporting unit, which we primarily determine using an income approach based on the present value of discounted cash flows, to the respective carrying value, which includes goodwill. If the fair value of the reporting unit exceeds its carrying value, the goodwill is not considered impaired. If the carrying value is higher than the fair value, the difference would be recognized as an impairment loss.

The impairment test process requires valuation of the respective reporting unit, which we primarily determine using an income approach based on a discounted five year forecasted cash flow with a year-five residual value. The residual value is computed using the constant growth method, which values the forecasted cash flows in perpetuity. The income approach is supported by a reconciliation of our calculated fair value for Caterpillar to the company's market capitalization. The assumptions about future cash flows and growth rates are based on each reporting unit's long-term forecast and are subject to review and approval by senior management. A reporting unit's discount rate is a risk-adjusted weighted average cost of capital, which we believe approximates the rate from a market participant's perspective. The estimated fair value could be impacted by changes in market conditions, interest rates, growth rates, tax rates, costs, pricing and capital expenditures. The fair value determination is categorized as Level 3 in the fair value hierarchy due to its use of internal projections and unobservable measurement inputs.

Our annual impairment tests completed in the fourth quarter of 2019 indicated the fair value of each reporting unit was substantially above its respective carrying value, including goodwill. Caterpillar's market capitalization has remained significantly above the net book value of the Company.

An unfavorable change in our expectations for the financial performance of our reporting units, particularly long-term growth and profitability, would reduce the fair value of our reporting units. The demand for our equipment and related parts is highly cyclical and significantly impacted by commodity prices, although the impact may vary by reporting unit. The energy and mining industries are major users of our products, including the coal, iron ore, gold, copper, oil and natural gas industries. Decisions to purchase our products are dependent upon the performance of those industries, which in turn are dependent in part on commodity prices. Lower commodity prices or industry specific circumstances that have a negative impact to the valuation assumptions may reduce the fair value of our reporting units. Should such events occur and it becomes more likely than not that a reporting unit's fair value has fallen below its carrying value, we will perform an interim goodwill impairment test(s), in addition to the annual impairment test. Future impairment tests may result in a goodwill impairment, depending on the outcome of the quantitative impairment test. A goodwill impairment would be reported as a non-cash charge to earnings.

Warranty liability – At the time a sale is recognized, we record estimated future warranty costs. The warranty liability is determined by applying historical claim rate experience to the current field population and dealer inventory. Generally, historical claim rates are based on actual warranty experience for each product by machine model/engine size by customer or dealer location (inside or outside North America). Specific rates are developed for each product shipment month and are updated monthly based on actual warranty claim experience. Warranty costs may differ from those estimated if actual claim rates are higher or lower than our historical rates.

Product liability and insurance loss reserve – We determine these reserves based upon reported claims in process of settlement and actuarial estimates for losses incurred but not reported. Loss reserves, including incurred but not reported reserves, are based on estimates and ultimate settlements may vary significantly from such estimates due to increased claims frequency or severity over historical levels.

Postretirement benefits – We sponsor defined benefit pension plans and/or other postretirement benefit plans (retirement healthcare and life insurance) to employees in many of our locations throughout the world. There are assumptions used in the accounting for these defined benefit plans that include discount rate, expected return on plan assets, expected rate of compensation increase, the future health care trend rate, mortality and other economic and demographic assumptions. The actuarial assumptions we use may change or differ significantly from actual results, which may result in a material impact to our consolidated financial statements.

The effects of actual results differing from our assumptions and the effects of changing assumptions are considered actuarial gains or losses. We utilize a mark-to-market approach in recognizing actuarial gains or losses immediately through earnings upon the annual remeasurement in the fourth quarter, or on an interim basis as triggering events warrant remeasurement.

Primary actuarial assumptions were determined as follows:

- The assumed discount rate is used to discount future benefit obligations back to today's dollars. The U.S. discount rate is based on a benefit cash flow-matching approach and represents the rate at which our benefit obligations could effectively be settled as of our measurement date, December 31. The benefit cash flow-matching approach involves analyzing Caterpillar's projected cash flows against a high quality bond yield curve, calculated using a wide population of corporate Aa bonds available on the measurement date. A similar approach is used to determine the assumed discount rate for our most significant non-U.S. plans. In estimating the service and interest cost components of net periodic benefit cost, we utilize a full yield curve approach in determining a discount rate. This approach applies the specific spot rates along the yield curve used in the determination of the benefit obligation to the relevant projected cash flows.

Discount rates are sensitive to changes in interest rates. A decrease in the discount rate would increase our obligation and future expense.

- The expected long-term rate of return on plan assets is based on our estimate of long-term passive returns for equities and fixed income securities weighted by the allocation of our plan assets. Based on historical performance, we increase the passive returns due to our active management of the plan assets. This rate is impacted by changes in general market conditions, but because it represents a long-term rate, it is not significantly impacted by short-term market swings. Changes in our allocation of plan assets would also impact this rate. For example, a shift to more fixed income securities would lower the rate. A decrease in the rate would increase our expense. The expected return on plan assets is calculated using the fair value of plan assets as of our measurement date, December 31.
- The expected rate of compensation increase is used to develop benefit obligations using projected pay at retirement. It represents average long-term salary increases. This rate is influenced by our long-term compensation policies. An increase in the rate would increase our obligation and expense.
- The assumed health care trend rate represents the rate at which health care costs are assumed to increase and is based on historical and expected experience. Changes in our projections of future health care costs due to general economic conditions and those specific to health care (e.g., technology driven cost changes) will impact this trend rate. An increase in the trend rate would increase our obligation and expense.
- The mortality assumption is used to estimate the life expectancy of plan participants. An increase in the life expectancy of plan participants will result in an increase in our obligation and expense.

Postretirement Benefit Plan Actuarial Assumptions Sensitivity

The effects of a one percentage-point change in certain actuarial assumptions on 2019 pension and OPEB costs and obligations are as follows:

(Millions of dollars)	2019 Benefit Cost		Year-end Benefit Obligation	
	One percentage-point increase	One percentage-point decrease	One percentage-point increase	One percentage-point decrease
U.S. Pension benefits:				
Assumed discount rate	\$ 54	\$ (71)	\$ (1,893)	\$ 2,305
Expected rate of compensation increase	2	(2)	—	—
Expected long-term rate of return on plan assets	(122)	122	—	—
Non-U.S. Pension benefits:				
Assumed discount rate	7	(10)	(634)	610
Expected rate of compensation increase	5	(4)	41	(35)
Expected long-term rate of return on plan assets	(39)	39	—	—
Other postretirement benefits:				
Assumed discount rate	8	(10)	(366)	437
Expected rate of compensation increase	—	—	1	(1)
Expected long-term rate of return on plan assets	(3)	3	—	—
Assumed health care cost trend rate	13	(11)	158	(133)

Actuarial Assumptions

	U.S. Pension Benefits			Non-U.S. Pension Benefits			Other Postretirement Benefits		
	2019	2018	2017	2019	2018	2017	2019	2018	2017
Weighted-average assumptions used to determine benefit obligation, end of year:									
Discount rate	3.2%	4.2%	3.5%	1.9%	2.5%	2.4%	3.2%	4.2%	3.6%
Rate of compensation increase ¹	—%	4.0%	4.0%	2.0%	3.0%	4.0%	4.0%	4.0%	4.0%
Weighted-average assumptions used to determine net periodic benefit cost:									
Discount rate used to measure service cost	4.3%	3.7%	4.2%	2.5%	2.3%	2.4%	4.1%	3.5%	3.9%
Discount rate used to measure interest cost	3.9%	3.2%	3.3%	2.3%	2.2%	2.3%	3.9%	3.2%	3.3%
Expected rate of return on plan assets	5.9%	6.3%	6.7%	3.8%	5.2%	5.9%	7.2%	7.5%	7.5%
Rate of compensation increase	4.0%	4.0%	4.0%	3.0%	4.0%	4.0%	4.1%	4.0%	4.0%
Health care cost trend rates at year-end:									
Health care trend rate assumed for next year							6.1%	6.1%	6.1%
Rate that the cost trend rate gradually declines to							5.0%	5.0%	5.0%
Year that the cost trend rate reaches ultimate rate							2025	2025	2022

¹ Effective December 31, 2019, all U.S. pension benefits were frozen, and accordingly this assumption is no longer applicable.

See Note 12 - “Postemployment benefit plans” of Part II, Item 8 “Financial Statement and Supplemental Data” for further information regarding the accounting for postretirement benefits.

Post-sale discount reserve – We provide discounts to dealers through merchandising programs. We have numerous programs that are designed to promote the sale of our products. The most common dealer programs provide a discount when the dealer sells a product to a targeted end user. The amount of accrued post-sale discounts was \$1.7 billion and \$1.5 billion as of December 31, 2019 and 2018, respectively. The reserve represents discounts that we expect to pay on previously sold units and is reviewed at least quarterly. The reserve is adjusted if discounts paid differ from those estimated. Historically, those adjustments have not been material.

Credit loss reserve – The allowance for credit losses is an estimate of the losses inherent in our finance receivable portfolio and includes consideration of accounts that have been individually identified as impaired, as well as pools of finance receivables where it is probable that certain receivables in the pool are impaired but the individual accounts cannot yet be identified. In identifying and measuring impairment, management takes into consideration past loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower’s ability to repay, estimated value of underlying collateral and current economic conditions.

Accounts are identified for individual review based on past-due status and information available about the customer, such as financial statements, news reports and published credit ratings, as well as general information regarding industry trends and the economic environment in which our customers operate. The allowance for credit losses attributable to finance receivables that are individually evaluated and determined to be impaired is based on the present value of expected future cash flows discounted at the receivables’ effective interest rate, the fair value of the collateral for collateral-dependent receivables or the observable market price of the receivable. In determining collateral value, we estimate the current fair market value of the collateral less selling costs. We also consider credit enhancements such as additional collateral and contractual third-party guarantees. The allowance for credit losses attributable to the remaining accounts not yet individually identified as impaired is estimated based on loss forecast models utilizing probabilities of default, our estimate of the loss emergence period and the estimated loss given default. In addition, qualitative factors not able to be fully captured in our loss forecast models including industry trends, macroeconomic factors and model imprecision are considered in the evaluation of the adequacy of the allowance for credit losses. These qualitative factors are subjective and require a degree of management judgment.

While management believes it has exercised prudent judgment and applied reasonable assumptions, there can be no assurance that in the future, changes in economic conditions or other factors would not cause changes in the financial health of our customers. If the financial health of our customers deteriorates, the timing and level of payments received could be impacted and therefore, could result in a change to our estimated losses.

Income taxes – We are subject to the income tax laws of the many jurisdictions in which we operate. These tax laws are complex, and the manner in which they apply to our facts is sometimes open to interpretation. In establishing the provision for income taxes, we must make judgments about the application of these inherently complex tax laws. Our income tax positions and analysis are based on currently enacted tax law. Future changes in tax law or related interpretations could significantly impact the provision for income taxes, the amount of taxes payable, and the deferred tax asset and liability balances. Changes in tax law are reflected in the period of enactment with related interpretations considered in the period received.

Despite our belief that our tax return positions are consistent with applicable tax laws, we believe that taxing authorities could challenge certain positions. Settlement of any challenge can result in no change, a complete disallowance, or some partial adjustment reached through negotiations or litigation. We record tax benefits for uncertain tax positions based upon management’s evaluation of the information available at the reporting date. To be recognized in the financial statements, a tax benefit must be at least more likely than not of being sustained based on technical merits. The benefit for positions meeting the recognition threshold is measured as the largest benefit more likely than not of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. Significant judgment is required in making these determinations and adjustments to unrecognized tax benefits may be necessary to reflect actual taxes payable upon settlement. Adjustments related to positions impacting the effective tax rate affect the provision for income taxes. Adjustments related to positions impacting the timing of deductions impact deferred tax assets and liabilities. For tax years 2007 to 2012 including the impact of a loss carryback to 2005, the IRS has proposed to tax in the United States profits earned from certain parts transactions by Caterpillar SARL (CSARL), based on the IRS examination team’s application of “substance-over-form” or “assignment-of-income” judicial doctrines. CSARL is primarily taxable locally in Switzerland. We are vigorously contesting the proposed increases to tax and penalties for these years of approximately \$2.3 billion. We believe that the relevant transactions complied with applicable tax laws and did not violate judicial doctrines. The purchase of parts by CSARL from unrelated parties and the subsequent sale of those parts to unrelated dealers outside the United States have substantial legal, commercial, and economic consequences for the parties involved. Therefore, we have concluded that the largest amount of benefit that is more likely than not to be sustained related to this position is the entire benefit. As a result, no amount related to these IRS adjustments is reflected in unrecognized tax benefits. We have filed U.S. income tax returns on this same basis for years after 2012. We currently believe the ultimate disposition of this matter will not have a material adverse effect on our consolidated financial position, liquidity or results of operations.

Deferred tax assets generally represent tax benefits for tax deductions or credits available in future tax returns. Certain estimates and assumptions are required to determine whether it is more likely than not that all or some portion of the benefit of a deferred tax asset will not be realized. In making this assessment, management analyzes the trend of U.S. GAAP earnings and estimates the impact of future taxable income, reversing temporary differences and available prudent and feasible tax planning strategies. We give less weight in this analysis to mark-to-market adjustments to remeasure our pension and OPEB plans as we do not consider these adjustments indicative of ongoing earnings trends. Should a change in facts or circumstances lead to a change in judgment about the ultimate realizability of a deferred tax asset, we record or adjust the related valuation allowance in the period that the change in facts and circumstances occurs, along with a corresponding increase or decrease in the provision for income taxes.

Additional information related to income taxes is included in Note 6 - "Income taxes" of Part II, Item 8 "Financial statements and Supplementary Data."

OTHER MATTERS

ENVIRONMENTAL AND LEGAL MATTERS

The Company is regulated by federal, state and international environmental laws governing our use, transport and disposal of substances and control of emissions. In addition to governing our manufacturing and other operations, these laws often impact the development of our products, including, but not limited to, required compliance with air emissions standards applicable to internal combustion engines. We have made, and will continue to make, significant research and development and capital expenditures to comply with these emissions standards.

We are engaged in remedial activities at a number of locations, often with other companies, pursuant to federal and state laws. When it is probable we will pay remedial costs at a site, and those costs can be reasonably estimated, the investigation, remediation, and operating and maintenance costs are accrued against our earnings. Costs are accrued based on consideration of currently available data and information with respect to each individual site, including available technologies, current applicable laws and regulations, and prior remediation experience. Where no amount within a range of estimates is more likely, we accrue the minimum. Where multiple potentially responsible parties are involved, we consider our proportionate share of the probable costs. In formulating the estimate of probable costs, we do not consider amounts expected to be recovered from insurance companies or others. We reassess these accrued amounts on a quarterly basis. The amount recorded for environmental remediation is not material and is included in Accrued expenses. We believe there is no more than a remote chance that a material amount for remedial activities at any individual site, or at all the sites in the aggregate, will be required.

On January 27, 2020, the Brazilian Federal Environmental Agency ("IBAMA") issued Caterpillar Brasil Ltda a notice of violation regarding allegations around the requirements for use of imported oils at the Piracicaba, Brazil facility. We have instituted processes to address the allegations. While we are still discussing resolution of these allegations with IBAMA, the initial notice from IBAMA included a proposed fine of approximately \$370,000. We do not expect this fine or our response to address the allegations to have a material adverse effect on the Company's consolidated results of operations, financial position or liquidity.

On January 7, 2015, the Company received a grand jury subpoena from the U.S. District Court for the Central District of Illinois. The subpoena requests documents and information from the Company relating to, among other things, financial information concerning U.S. and non-U.S. Caterpillar subsidiaries (including undistributed profits of non-U.S. subsidiaries and the movement of cash among U.S. and non-U.S. subsidiaries). The Company has received additional subpoenas relating to this investigation requesting additional documents and information relating to, among other things, the purchase and resale of replacement parts by Caterpillar Inc. and non-U.S. Caterpillar subsidiaries, dividend distributions of certain non-U.S. Caterpillar subsidiaries, and Caterpillar SARL and related structures. On March 2-3, 2017, agents with the Department of Commerce, the Federal Deposit Insurance Corporation and the Internal Revenue Service executed search and seizure warrants at three facilities of the Company in the Peoria, Illinois area, including its former corporate headquarters. The warrants identify, and agents seized, documents and information related to, among other things, the export of products from the United States, the movement of products between the United States and Switzerland, the relationship between Caterpillar Inc. and Caterpillar SARL, and sales outside the United States. It is the Company's understanding that the warrants, which concern both tax and export activities, are related to the ongoing grand jury investigation. The Company is continuing to cooperate with this investigation. The Company is unable to predict the outcome or reasonably estimate any potential loss; however, we currently believe that this matter will not have a material adverse effect on the Company's consolidated results of operations, financial position or liquidity.

On March 20, 2014, Brazil's Administrative Council for Economic Defense (CADE) published a Technical Opinion which named 18 companies and over 100 individuals as defendants, including two subsidiaries of Caterpillar Inc., MGE - Equipamentos e Serviços Ferroviários Ltda. (MGE) and Caterpillar Brasil Ltda. The publication of the Technical Opinion opened CADE's official administrative investigation into allegations that the defendants participated in anticompetitive bid activity for the construction and maintenance of metro and train networks in Brazil. While companies cannot be held criminally liable for anticompetitive conduct in Brazil, criminal charges have been brought against one current employee of MGE and two former employees of MGE involving the same conduct alleged by CADE. On July 8, 2019, CADE found MGE, one of its current employees and two of its former employees liable for anticompetitive conduct. CBL was dismissed from the proceeding without any finding of liability. MGE intends to appeal CADE's findings. We currently believe that this matter will not have a material adverse effect on the Company's consolidated results of operations, financial position or liquidity.

In addition, we are involved in other unresolved legal actions that arise in the normal course of business. The most prevalent of these unresolved actions involve disputes related to product design, manufacture and performance liability (including claimed asbestos exposure), contracts, employment issues, environmental matters, intellectual property rights, taxes (other than income taxes) and securities laws. The aggregate range of reasonably possible losses in excess of accrued liabilities, if any, associated with these unresolved legal actions is not material. In some cases, we cannot reasonably estimate a range of loss because there is insufficient information regarding the matter. However, we believe there is no more than a remote chance that any liability arising from these matters would be material. Although it is not possible to predict with certainty the outcome of these unresolved legal actions, we believe that these actions will not individually or in the aggregate have a material adverse effect on our consolidated results of operations, financial position or liquidity.

RETIREMENT BENEFITS

We recognize mark-to-market gains and losses immediately through earnings upon the remeasurement of our pension and OPEB plans. Mark-to-market gains and losses represent the effects of actual results differing from our assumptions and the effects of changing assumptions. Changes in discount rates and differences between the actual return on plan assets and the expected return on plan assets generally have the largest impact on mark-to-market gains and losses.

The table below summarizes the amounts of net periodic benefit cost recognized for 2019, 2018 and 2017, respectively, and includes expected cost for 2020.

(Millions of dollars)	2020 Expected	2019	2018	2017
U.S. Pension Benefits	\$ (308)	\$ (7)	\$ (149)	\$ (85)
Non-U.S. Pension Benefits	(4)	19	(69)	(22)
Other Postretirement Benefits	150	158	138	148
Mark-to-market loss (gain)	— ¹	468	495	301
Total net periodic benefit cost (benefit)	<u>\$ (162)</u>	<u>\$ 638</u>	<u>\$ 415</u>	<u>\$ 342</u>

¹ Expected net periodic benefit cost (benefit) does not include an estimate for mark-to-market gains or losses.

- **Expected decrease in expense in 2020 compared to 2019** - Excluding the impact of mark-to-market gains and losses, our net periodic benefit cost is expected to decrease \$332 million in 2020. This decrease is primarily due to lower interest cost as a result of lower discount rates at year-end 2019, elimination of service cost for our U.S. pension plans freezing benefit accruals and higher expected return on plan assets due to a higher asset base at year-end 2019.
- **Increase in expense in 2019 compared to 2018** - Primarily due to lower expected return on plan assets (U.S. pension plans had an expected rate of return of 5.9 percent in 2019 compared to 6.3 percent in 2018) and higher interest costs due to higher discount rates at year-end 2018.
- **Increase in expense in 2018 compared to 2017** - Primarily due to higher net mark-to-market losses in 2018 compared to 2017. This was partially offset by a higher expected return on plan assets and curtailment gains compared to curtailment and termination charges in 2017.

The primary factors that resulted in mark-to-market losses for 2019, 2018 and 2017 are described below. The net mark-to-market losses were included in Other income (expense) in the Results of Operations.

- **2019 net mark-to-market loss of \$468 million** - Primarily due to lower discount rates at the end of 2019 compared to the end of 2018. This was partially offset by a higher actual return on plan assets compared to the expected return on plan assets (U.S. pension plans had an actual rate of return of 22.3 percent compared to an expected rate of return of 5.9 percent).
- **2018 net mark-to-market loss of \$495 million** - Primarily due to the difference between the actual return on plan assets compared to the expected return on plan assets (U.S. pension plans had an actual rate of return of negative 5.4 percent compared to an expected rate of return of 6.3 percent). This was partially offset by higher discount rates at the end of 2018 compared to the end of 2017.
- **2017 net mark-to-market loss of \$301 million** - Primarily due to lower discount rates at the end of 2017 compared to the end of 2016 and changes in our mortality assumption (discussed below). This was partially offset by the difference between the actual return on plan assets compared to the expected return on plan assets (U.S. pension plans had an actual rate of return of 15.5 percent compared to an expected rate of return of 6.7 percent).

In the fourth quarter of 2017, the company reviewed and made changes to the mortality assumptions primarily for our U.S. pension plans which resulted in an overall increase in the life expectancy of plan participants. As of December 31, 2017 these changes resulted in an increase in our Liability for postemployment benefits of approximately \$290 million.

In the first quarter of 2017, we announced the closure of our Gosselies, Belgium facility. This announcement impacted certain employees that participated in a defined benefit pension plan and resulted in a net loss of \$20 million in the first quarter of 2017 for curtailment and termination benefits.

SENSITIVITY

Foreign Exchange Rate Sensitivity

ME&T operations use foreign currency forward and option contracts to manage unmatched foreign currency cash inflow and outflow. Our objective is to minimize the risk of exchange rate movements that would reduce the U.S. dollar value of our foreign currency cash flow. Our policy allows for managing anticipated foreign currency cash flow for up to approximately five years. Based on the anticipated and firmly committed cash inflow and outflow for our ME&T operations for the next 12 months and the foreign currency derivative instruments in place at year-end, a hypothetical 10 percent weakening of the U.S. dollar relative to all other currencies would adversely affect our expected 2020 cash flow for our ME&T operations by approximately \$225 million. Last year similar assumptions and calculations yielded a potential \$250 million adverse impact on 2019 cash flow. We determine our net exposures by calculating the difference in cash inflow and outflow by currency and adding or subtracting outstanding foreign currency derivative instruments. We multiply these net amounts by 10 percent to determine the sensitivity.

In managing foreign currency risk for our Financial Products operations, our objective is to minimize earnings volatility resulting from conversion and the remeasurement of net foreign currency balance sheet positions and future transactions denominated in foreign currencies. Since our policy allows the use of foreign currency forward, option and cross currency contracts to offset the risk of currency mismatch between our assets and liabilities and exchange rate risk associated with future transactions denominated in foreign currencies, a 10 percent change in the value of the U.S. dollar relative to all other currencies would not have a material effect on our consolidated financial position, results of operations or cash flow. Neither our policy nor the effect of a 10 percent change in the value of the U.S. dollar has changed from that reported at the end of last year.

The effect of the hypothetical change in exchange rates ignores the effect this movement may have on other variables, including competitive risk. If it were possible to quantify this competitive impact, the results would probably be different from the sensitivity effects shown above. In addition, it is unlikely that all currencies would uniformly strengthen or weaken relative to the U.S. dollar. In reality, some currencies may weaken while others may strengthen. Our primary exposure (excluding competitive risk) is to exchange rate movements in the Swiss franc, Chinese yuan, Japanese yen, Indian rupee, and Australian dollar.

Interest Rate Sensitivity

For our ME&T operations, we have the option to use interest rate contracts to lower the cost of borrowed funds by attaching fixed-to-floating interest rate contracts to fixed-rate debt, and by entering into forward rate agreements on future debt issuances. A hypothetical 100 basis point adverse move in interest rates along the entire interest rate yield curve would have a minimal impact to the 2020 pre-tax earnings of ME&T. Last year, similar assumptions and calculations yielded a minimal impact to 2019 pre-tax earnings.

For our Financial Products operations, we use interest rate derivative instruments primarily to meet our match-funding objectives and strategies. We have a match-funding policy that addresses the interest rate risk by aligning the interest rate profile (fixed or floating rate and duration) of our debt portfolio with the interest rate profile of our finance receivable portfolio within predetermined range on an ongoing basis. In connection with that policy, we use interest rate derivative instruments to modify the debt structure to match assets within the finance receivable portfolio. Match funding reduces the volatility of margins between interest-bearing assets and interest-bearing liabilities, regardless of which direction interest rates move.

In order to properly manage sensitivity to changes in interest rates, Financial Products measures the potential impact of different interest rate assumptions on pre-tax earnings. All on-balance sheet positions, including derivative financial instruments, are included in the analysis. The primary assumptions included in the analysis are that there are no new fixed rate assets or liabilities, the proportion of fixed rate debt to fixed rate assets remains unchanged and the level of floating rate assets and debt remain constant. An analysis of the December 31, 2019 balance sheet, using these assumptions, estimates the impact of a 100 basis point immediate and sustained adverse change in interest rates to have a minimal impact on 2020 pre-tax earnings. Last year, similar assumptions and calculations yielded a minimal impact to 2019 pre-tax earnings.

This analysis does not necessarily represent our current outlook of future market interest rate movement, nor does it consider any actions management could undertake in response to changes in interest rates. Accordingly, no assurance can be given that actual results would be consistent with the results of our estimate.

NON-GAAP FINANCIAL MEASURES

The following definitions are provided for the non-GAAP financial measures used in this report. These non-GAAP financial measures have no standardized meaning prescribed by U.S. GAAP and therefore are unlikely to be comparable to the calculation of similar measures for other companies. Management does not intend these items to be considered in isolation or as a substitute for the related GAAP measures.

We believe it is important to separately quantify the profit impact of several significant items in order for our results to be meaningful to our readers. These items consist of (i) pension and OPEB mark-to-market losses resulting from plan remeasurements, (ii) U.S. tax reform impact, (iii) restructuring costs in 2018, which were incurred to generate longer-term benefits and (iv) certain deferred tax valuation allowance adjustments. We do not consider these items indicative of earnings from ongoing business activities and believe the non-GAAP measures will provide investors with useful perspective on underlying business results and trends and aid with assessing our period-over-period results. In addition, we provide a calculation of ME&T free cash flow as we believe it is an important measure for investors to determine the cash generation available for financing activities including debt repayments, dividends and share repurchases.

Reconciliations of adjusted operating profit margin to the most directly comparable GAAP measure, operating profit as a percent of sales and revenues are as follows:

	Three Months Ended December 31,		Twelve Months Ended December 31,	
	2019	2018	2019	2018
Operating profit as a percent of total sales and revenues	14.1%	13.1%	15.4%	15.2%
Restructuring costs ¹	—%	0.7%	—%	0.7%
Adjusted operating profit margin	14.1%	13.8%	15.4%	15.9%

¹ 2019 Restructuring costs were not material.

Reconciliations of adjusted profit before taxes to the most directly comparable GAAP measure, consolidated profit before taxes, are as follows:

(millions of dollars)	Three Months Ended December 31,		Twelve Months Ended December 31,	
	2019	2018	2019	2018
Profit before taxes	\$ 1,365	\$ 1,367	\$ 7,812	\$ 7,822
Mark-to-market losses	\$ 468	\$ 495	\$ 468	\$ 495
Restructuring costs	\$ —	\$ 93	\$ —	\$ 386
Adjusted profit before taxes	\$ 1,833	\$ 1,955	\$ 8,280	\$ 8,703

Reconciliations of adjusted profit per share to the most directly comparable GAAP measure, profit per share - diluted, are as follows:

	Three Months Ended December 31,		Twelve Months Ended December 31,	
	2019	2018	2019	2018
Profit per share - diluted	\$ 1.97	\$ 1.78	\$ 10.74	\$ 10.26
Per share mark-to-market losses ¹	\$ 0.65	\$ 0.66	\$ 0.64	\$ 0.64
Per share U.S. tax reform impact	\$ —	\$ 0.09	\$ (0.31)	\$ (0.17)
Per share restructuring costs ²	\$ —	\$ 0.13	\$ —	\$ 0.50
Per share deferred tax valuation allowance adjustments	\$ —	\$ (0.11)	\$ —	\$ (0.01)
Adjusted profit per share	\$ 2.63	\$ 2.55	\$ 11.06	\$ 11.22

¹ At statutory tax rates.

² 2018 restructuring costs were at statutory tax rates. 2019 restructuring costs were not material.

Reconciliations of ME&T free cash flow to the most directly comparable GAAP measure, net cash provided by operating activities are as follows:

Millions of dollars	Twelve Months Ended December 31,	
	2019	2018
ME&T net cash provided by operating activities ¹	\$ 4,871	\$ 6,347
ME&T discretionary pension contributions	\$ 1,500	\$ 1,000
ME&T capital expenditures	\$ (1,074)	\$ (1,221)
ME&T free cash flow	\$ 5,297	\$ 6,126

¹ See reconciliation of ME&T net cash provided by operating activities to consolidated net cash provided by operating activities on page 63.

Supplemental Consolidating Data

We are providing supplemental consolidating data for the purpose of additional analysis. The data has been grouped as follows:

Consolidated – Caterpillar Inc. and its subsidiaries.

Machinery, Energy & Transportation – Caterpillar defines Machinery, Energy & Transportation as it is presented in the supplemental data as Caterpillar Inc. and its subsidiaries with Financial Products accounted for on the equity basis. Machinery, Energy & Transportation information relates to the design, manufacturing and marketing of our products. Financial Products' information relates to the financing to customers and dealers for the purchase and lease of Caterpillar and other equipment. The nature of these businesses is different, especially with regard to the financial position and cash flow items. Caterpillar management utilizes this presentation internally to highlight these differences. We also believe this presentation will assist readers in understanding our business.

Financial Products – Our finance and insurance subsidiaries, primarily Cat Financial and Insurance Services.

Consolidating Adjustments – Eliminations of transactions between Machinery, Energy & Transportation and Financial Products.

Pages 61 to 63 reconcile Machinery, Energy & Transportation with Financial Products on the equity basis to Caterpillar Inc. consolidated financial information.

Supplemental Data for Results of Operations

**MANAGEMENT’S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING**

The management of Caterpillar Inc. (company) is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rule 13a-15(f) under the Exchange Act. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the company’s internal control over financial reporting as of December 31, 2019. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework* (2013). Based on our assessment we concluded that, as of December 31, 2019, the company’s internal control over financial reporting was effective based on those criteria.

The effectiveness of the company’s internal control over financial reporting as of December 31, 2019 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm. Their report appears on pages 66-67.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Caterpillar Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated statement of financial position of Caterpillar Inc. and its subsidiaries (the “Company”) as of December 31, 2019 and 2018, and the related consolidated statements of results of operations, comprehensive income (loss), changes in shareholders’ equity, and cash flow for each of the three years in the period ended December 31, 2019, including the related notes (collectively referred to as the “consolidated financial statements”). We also have audited the Company’s internal control over financial reporting as of December 31, 2019, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2019 and 2018, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2019 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2019, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Company’s management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on the Company’s consolidated financial statements and on the Company’s internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Uncertain Tax Position - Caterpillar SARL IRS Examination

As described in Note 6 to the consolidated financial statements, as a result of the audits of the Company's U.S. 2007 to 2012 income tax returns, including the impact of a loss carryback to 2005, the Internal Revenue Service ("IRS") has proposed to tax in the U.S. profits earned from certain parts transactions by Caterpillar SARL ("CSARL"). This proposal is based on the IRS examination team's application of the "substance-over-form" or "assignment-of-income" judicial doctrines. As described by management, the Company is vigorously contesting the proposed increases to tax and penalties for these years of approximately \$2.3 billion, as management believes that the relevant transactions complied with applicable tax laws and did not violate judicial doctrines. As disclosed by management, the purchase of parts by CSARL from unrelated parties and the subsequent sale of those parts to unrelated dealers outside the U.S. have substantial legal, commercial, and economic consequences for the parties involved. Management has concluded that the largest amount of benefit that is more likely than not to be sustained related to this position is the entire benefit. As a result, no amount related to these IRS adjustments is reflected in the Company's unrecognized tax benefits. The Company has filed U.S. income tax returns on this same basis for years after 2012.

The principal considerations for our determination that performing procedures relating to the uncertain tax position arising from the CSARL IRS Examination is a critical audit matter are there was significant judgment by management in evaluating the amount of the benefit that is more likely than not to be sustained related to the position, which in turn led to a high degree of auditor judgment, subjectivity and effort in performing procedures to evaluate whether the position was more likely than not to be sustained. Also, the audit effort involved the use of professionals with specialized skill and knowledge to assist in evaluating the audit evidence obtained from these procedures.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the uncertain tax position arising from the CSARL IRS Examination. These procedures also included, among others, (i) evaluating management's process for determining the reasonableness of the uncertain tax position, including reading certain intercompany and third-party agreements which are relevant to evaluating the legal form and substance of the CSARL transaction flows; (ii) evaluating management's assessment of whether the position was more likely than not to produce a tax benefit and the determination by management of the largest amount of benefit that is more likely than not to be sustained related to this position; and (iii) evaluating the Revenue Agent Reports ("RARs") from the IRS and management's protests of the RARs. Professionals with specialized skill and knowledge were used to assist in evaluating the applicable tax laws and judicial doctrines related to this matter as well as changes in relevant tax regulations, rulings, and case law.

Net cash provided by (used for) financing activities	<u>(4,538)</u>	<u>(3,650)</u>	<u>(3,657)</u>
Effect of exchange rate changes on cash	<u>(44)</u>	<u>(126)</u>	<u>38</u>
Increase (decrease) in cash and short-term investments and restricted cash	402	(430)	1,121
Cash and short-term investments and restricted cash at beginning of period	7,890	8,320	7,199
Cash and short-term investments and restricted cash at end of period	<u>\$ 8,292</u>	<u>\$ 7,890</u>	<u>\$ 8,320</u>

All short-term investments, which consist primarily of highly liquid investments with original maturities of three months or less, are considered to be cash equivalents.

See accompanying notes to Consolidated Financial Statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Operations and summary of significant accounting policies

A. Nature of operations

Information in our financial statements and related commentary are presented in the following categories:

Machinery, Energy & Transportation (ME&T) – Represents the aggregate total of Construction Industries, Resource Industries, Energy & Transportation and All Other operating segment and related corporate items and eliminations.

Financial Products – Primarily includes the company’s Financial Products Segment. This category includes Caterpillar Financial Services Corporation (Cat Financial), Caterpillar Insurance Holdings Inc. (Insurance Services) and their respective subsidiaries.

Our products are sold primarily under the brands “Caterpillar,” “CAT,” design versions of “CAT” and “Caterpillar,” “EMD,” “FG Wilson,” “MaK,” “MWM,” “Perkins,” “Progress Rail,” “SEM” and “Solar Turbines”.

We conduct operations in our ME&T lines of business under highly competitive conditions, including intense price competition. We place great emphasis on the high quality and performance of our products and our dealers’ service support. Although no one competitor is believed to produce all of the same types of equipment that we do, there are numerous companies, large and small, which compete with us in the sale of each of our products.

Our machines are distributed principally through a worldwide organization of dealers (dealer network), 46 located in the United States and 119 located outside the United States, serving 191 countries. Reciprocating engines are sold principally through the dealer network and to other manufacturers for use in products. Some of the reciprocating engines manufactured by our subsidiary Perkins Engines Company Limited, are also sold through its worldwide network of 67 distributors covering 178 countries. The FG Wilson branded electric power generation systems primarily manufactured by our subsidiary Caterpillar Northern Ireland Limited are sold through its worldwide network of 150 distributors covering 109 countries. Some of the large, medium speed reciprocating engines are also sold under the MaK brand through a worldwide network of 20 distributors covering 130 countries. Our dealers do not deal exclusively with our products; however, in most cases sales and servicing of our products are the dealers’ principal business. Some products, primarily turbines and locomotives, are sold directly to end customers through sales forces employed by the company. At times, these employees are assisted by independent sales representatives.

The Financial Products line of business also conducts operations under highly competitive conditions. Financing for users of Caterpillar products is available through a variety of competitive sources, principally commercial banks and finance and leasing companies. We offer various financing plans designed to increase the opportunity for sales of our products and generate financing income for our company. A significant portion of Financial Products activity is conducted in North America, with additional offices in Latin America, Asia/Pacific, Europe, Africa and the Middle East.

B. Basis of presentation

The consolidated financial statements include the accounts of Caterpillar Inc. and its subsidiaries where we have a controlling financial interest.

Investments in companies where our ownership exceeds 20 percent and we do not have a controlling interest or where the ownership is less than 20 percent and for which we have a significant influence are accounted for by the equity method.

We consolidate all variable interest entities (VIEs) where Caterpillar Inc. is the primary beneficiary. For VIEs, we assess whether we are the primary beneficiary as prescribed by the accounting guidance on the consolidation of VIEs. The primary beneficiary of a VIE is the party that has both the power to direct the activities that most significantly impact the entity’s economic performance and the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE. See Note 21 for further discussion on a consolidated VIE.

We have affiliates, suppliers and dealers that are VIEs of which we are not the primary beneficiary. Although we have provided financial support, we do not have the power to direct the activities that most significantly impact the economic performance of each entity. Our maximum exposure to loss from these VIEs for which we are not the primary beneficiary was \$133 million and \$131 million as of December 31, 2019 and 2018, respectively.

Cat Financial has end-user customers that are VIEs of which we are not the primary beneficiary. Although we have provided financial support to these entities and therefore have a variable interest, we do not have the power to direct the activities that most significantly impact their economic performance. Our maximum exposure to loss from our involvement with these VIEs is limited to the credit risk inherently present in the financial support that we have provided. These risks are evaluated and reflected in our financial statements as part of our overall portfolio of finance receivables and related allowance for credit losses.

Shipping and handling costs are included in Cost of goods sold in Statement 1. Other operating (income) expenses primarily include Cat Financial's depreciation of equipment leased to others, Insurance Services' underwriting expenses, (gains) losses on disposal of long-lived assets, long-lived asset impairment charges, legal settlements and accruals, contract termination costs and employee separation charges.

Prepaid expenses and other current assets in Statement 3 primarily include prepaid insurance, contract assets, right of return assets, prepaid and refundable income taxes, assets held for sale, core to be returned for remanufacturing, restricted cash and other short-term investments.

Certain amounts for prior years have been reclassified to conform with the current-year financial statement presentation.

C. Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is principally determined using the last-in, first-out (LIFO) method. The value of inventories on the LIFO basis represented about 60 percent and 65 percent of total inventories at December 31, 2019 and 2018, respectively.

If the FIFO (first-in, first-out) method had been in use, inventories would have been \$2,086 million and \$2,009 million higher than reported at December 31, 2019 and 2018, respectively.

D. Depreciation and amortization

Depreciation of plant and equipment is computed principally using accelerated methods. Depreciation on equipment leased to others, primarily for Financial Products, is computed using the straight-line method over the term of the lease. The depreciable basis is the original cost of the equipment less the estimated residual value of the equipment at the end of the lease term. In 2019, 2018 and 2017, Cat Financial depreciation on equipment leased to others was \$813 million, \$819 million and \$810 million, respectively, and was included in Other operating (income) expenses in Statement 1. In 2019, 2018 and 2017, consolidated depreciation expense was \$2,253 million, \$2,435 million and \$2,555 million, respectively. Amortization of purchased finite-lived intangibles is computed principally using the straight-line method, generally not to exceed a period of 20 years.

E. Foreign currency translation

The functional currency for most of our ME&T consolidated companies is the U.S. dollar. The functional currency for most of our Financial Products and affiliates accounted for under the equity method is the respective local currency. Gains and losses resulting from the remeasurement of foreign currency amounts to the functional currency are included in Other income (expense) in Statement 1. Gains and losses resulting from translating assets and liabilities from the functional currency to U.S. dollars are included in Accumulated other comprehensive income (loss) in Statement 3.

F. Derivative financial instruments

Our earnings and cash flow are subject to fluctuations due to changes in foreign currency exchange rates, interest rates and commodity prices. Our Risk Management Policy (policy) allows for the use of derivative financial instruments to prudently manage foreign currency exchange rate, interest rate and commodity price exposures. Our policy specifies that derivatives are not to be used for speculative purposes. Derivatives that we use are primarily foreign currency forward, option and cross currency contracts, interest rate contracts and commodity forward and option contracts. All derivatives are recorded at fair value. See Note 4 for more information.

G. Income taxes

The provision for income taxes is determined using the asset and liability approach taking into account guidance related to uncertain tax positions. Tax laws require items to be included in tax filings at different times than the items are reflected in the financial statements. A current liability is recognized for the estimated taxes payable for the current year. Deferred taxes represent the future tax consequences expected to occur when the reported amounts of assets and liabilities are recovered or paid. Deferred taxes are adjusted for enacted changes in tax rates and tax laws. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized. See Note 6 for further discussion.

H. Goodwill

For acquisitions accounted for as a business combination, goodwill represents the excess of the cost over the fair value of the net assets acquired. We are required to test goodwill for impairment, at the reporting unit level, annually and when events or circumstances make it more likely than not that an impairment may have occurred. A reporting unit is an operating segment or one level below an operating segment (referred to as a component) to which goodwill is assigned when initially recorded. We assign goodwill to reporting units based on our integration plans and the expected synergies resulting from the acquisition. Because Caterpillar is a highly integrated company, the businesses we acquire are sometimes combined with or integrated into existing reporting units. When changes occur in the composition of our operating segments or reporting units, goodwill is reassigned to the affected reporting units based on their relative fair values.

We perform our annual goodwill impairment test as of October 1 and monitor for interim triggering events on an ongoing basis. Goodwill is reviewed for impairment utilizing either a qualitative assessment or a quantitative goodwill impairment test. If we choose to perform a qualitative assessment and determine the fair value more likely than not exceeds the carrying value, no further evaluation is necessary. For reporting units where we perform the quantitative goodwill impairment test, we compare the fair value of each reporting unit, which we primarily determine using an income approach based on the present value of discounted cash flows, to the respective carrying value, which includes goodwill. If the fair value of the reporting unit exceeds its carrying value, the goodwill is not considered impaired. If the carrying value is higher than the fair value, the difference would be recognized as an impairment loss. See Note 10 for further details.

I. Estimates in financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts. The more significant estimates include: residual values for leased assets; fair values for goodwill impairment tests; warranty liability and reserves for product liability and insurance losses, postretirement benefits, post-sale discounts, credit losses and income taxes.

J. New accounting guidance

Adoption of new accounting standards

Lease accounting - (Accounting Standards Update (ASU) 2016-02) - In February 2016, the Financial Accounting Standards Board (FASB) issued accounting guidance that revises the accounting for leases. Under the new guidance, lessees are required to recognize a right-of-use asset and a lease liability for substantially all leases. The new guidance continues to classify leases as either financing or operating, with classification affecting the pattern of expense recognition. The accounting applied by a lessor under the new guidance is substantially equivalent to prior lease accounting guidance. The new guidance was effective January 1, 2019 and was applied using a modified retrospective approach through a cumulative effect adjustment to retained earnings as of January 1, 2019. The prior period comparative information has not been recast and continues to be reported under the accounting guidance in effect for those periods.

The new guidance provides a number of optional practical expedients in transition. We elected the “package of practical expedients,” which allows us not to reassess under the new guidance our prior conclusions about lease identification, lease classification and initial direct costs. We did not elect the use-of-hindsight practical expedient. In addition, the new guidance provides practical expedients for an entity’s ongoing lessee accounting. For certain property and information technology equipment leases, we have elected to separate payments for lease components from non-lease components. For all other leases, we have elected not to separate lease and non-lease components. We have elected the short-term lease recognition exemption for all leases that qualify, which means we have not recognized right-of-use assets or lease liabilities for these leases with a term of twelve months or less.

The most significant effects of adoption relate to the recognition of right-of-use assets and lease liabilities on our balance sheet for operating leases and providing new disclosures about our leasing activities. In addition, we derecognized existing assets and debt obligations for a sale-leaseback transaction that qualified for sale accounting under the new guidance. The gain associated with this change in accounting was recognized through opening retained earnings as of January 1, 2019. The adoption did not have a material impact on our financial statements.

In March 2019, the FASB issued Leases - Codification improvements (ASU 2019-01) which amended the new leasing guidance. Under these amendments, lessors that are not manufacturers or dealers will use their cost, less any discounts that may apply, as the fair value of the underlying asset, and lessors within the scope of Financial Services-Depository and Lending guidance will present all principal payments received under leases within investment activities on the statement of cash flows. We adopted the new guidance effective January 1, 2019, and the adoption did not have a material impact to our financial statements.

See Note 20 for additional information.

The cumulative effect of initially applying the new lease guidance to our consolidated financial statements on January 1, 2019 was as follows:

Consolidated Statement of Financial Position			
(Millions of dollars)	Balance as of December 31, 2018	Cumulative Impact from Adopting New Lease Guidance	Balance as of January 1, 2019
Assets			
Prepaid expenses and other current assets.....	\$ 1,765	\$ (17)	\$ 1,748
Property, plant and equipment - net.....	\$ 13,574	\$ (26)	\$ 13,548
Noncurrent deferred and refundable income taxes.....	\$ 1,439	\$ (77)	\$ 1,362
Other assets.....	\$ 2,332	\$ 713	\$ 3,045
Liabilities			
Accrued expenses.....	\$ 3,573	\$ (27)	\$ 3,546
Other current liabilities.....	\$ 1,919	\$ 209	\$ 2,128
Long-term debt due after one year			
Machinery, Energy & Transportation.....	\$ 8,005	\$ (362)	\$ 7,643
Other liabilities.....	\$ 3,756	\$ 538	\$ 4,294
Shareholders' equity			
Profit employed in the business.....	\$ 30,427	\$ 235	\$ 30,662

We adopted the following ASUs effective January 1, 2019, none of which had a material impact on our financial statements:

ASU	Description
2017-08	Premium amortization on purchased callable debt securities
2017-12	Derivatives and hedging - Targeted improvements
2018-02	Reclassification of certain tax effects from accumulated other comprehensive income

Accounting standards issued but not yet adopted

Credit losses (ASU 2016-13) – In June 2016, the FASB issued accounting guidance to introduce a new model for recognizing credit losses on financial instruments based on an estimate of current expected credit losses. The new guidance will apply to loans, accounts receivable, trade receivables, other financial assets measured at amortized cost, loan commitments and other off-balance sheet credit exposures. The new guidance will also apply to debt securities and other financial assets measured at fair value through other comprehensive income. The new guidance was effective January 1, 2020. We do not expect the adoption to have a material impact on our financial statements.

We consider the applicability and impact of all ASUs. ASUs not listed above were assessed and either determined to be not applicable or not expected to have a material impact on our financial statements.

2. Sales and revenue recognition

A. Sales of Machinery, Energy & Transportation

Sales of ME&T are recognized when all the following criteria are satisfied: (i) a contract with an independently owned and operated dealer or an end user exists which has commercial substance; (ii) it is probable we will collect the amount charged to the dealer or end user; and (iii) we have completed our performance obligation whereby the dealer or end user has obtained control of the product. A contract with commercial substance exists once we receive and accept a purchase order under a dealer sales agreement, or once we enter into a contract with an end user. If collectibility is not probable, the sale is deferred and not recognized until collection is probable or payment is received. Control of our products typically transfers when title and risk of ownership of the product has transferred to the dealer or end user. Typically, where product is produced and sold in the same country, title and risk of ownership transfer when the product is shipped. Products that are exported from a country for sale typically transfer title and risk of ownership at the border of the destination country.

Our remanufacturing operations are primarily focused on the remanufacture of Cat engines and components and rail related products. In this business, used engines and related components (core) are inspected, cleaned and remanufactured. In connection with the sale of our remanufactured product to dealers, we collect a deposit that is repaid if the dealer returns an acceptable core within a specified time period. Caterpillar owns and has title to the cores when they are returned from dealers. The rebuilt engine or component (the core plus any new content) is then sold as a remanufactured product to dealers and end users. Revenue is recognized pursuant to the same transfer of control criteria as ME&T sales noted above. At the time of sale, the deposit is recognized in Other current liabilities in Statement 3, and the core to be returned is recognized as an asset in Prepaid expenses and other current assets in Statement 3 at the estimated replacement cost (based on historical experience with usable cores). Upon receipt of an acceptable core, we repay the deposit and relieve the liability. The returned core asset is then transferred into inventory. In the event that the deposit is forfeited (i.e., upon failure by the dealer to return an acceptable core in the specified time period), we recognize the core deposit and the cost of the core in Sales and Cost of goods sold, respectively.

We provide discounts to dealers through merchandising programs. We have numerous programs that are designed to promote the sale of our products. The most common dealer programs provide a discount when the dealer sells a product to a targeted end user. Generally, the cost of these discounts is estimated for each product by model by geographic region based on historical experience and known changes in merchandising programs. The cost of these discounts is reported as a reduction to the transaction price when the product sale is recognized. A corresponding post-sale discount reserve is accrued in Statement 3, which represents discounts we expect to pay on units sold. If discounts paid differ from those estimated, the difference is reported as a change in the transaction price.

Except for replacement parts, no right of return exists on the sale of our products. We estimate replacement part returns based on historical experience and recognize a parts return asset in Prepaid expenses and other current assets in Statement 3, which represents our right to recover replacement parts we expect will be returned. We also recognize a refund liability in Other current liabilities in Statement 3 for the refund we expect to pay for returned parts. If actual replacement part returns differ from those estimated, the difference in the estimated replacement part return asset and refund liability is recognized in Cost of goods sold and Sales, respectively.

Our standard dealer invoice terms are established by marketing region. Our invoice terms for end user sales are established by the responsible business unit. Payments from dealers are due shortly after the time of sale. When a sale is made to a dealer, the dealer is responsible for payment even if the product is not sold to an end user. Dealers and end users must make payment within the established invoice terms to avoid potential interest costs. Interest at or above prevailing market rates may be charged on any past due balance, and generally our practice is to not forgive this interest. In addition, Cat Financial provides wholesale inventory financing for a dealer's purchase of inventory. Wholesale inventory receivables have varying payment terms and are included in Receivables – trade and other and Long-term receivables – trade and other in Statement 3. See Note 7 for further information. Trade receivables from dealers and end users were \$7,648 million, \$7,743 million and \$6,399 million as of December 31, 2019, December 31, 2018 and January 1, 2018, respectively, and are recognized in Receivables – trade and other in Statement 3. Long-term trade receivables from dealers and end users were \$693 million, \$674 million and \$639 million as of December 31, 2019, December 31, 2018 and January 1, 2018, respectively, and are recognized in Long-term receivables – trade and other in Statement 3.

We establish a bad debt allowance for ME&T receivables when it becomes probable that the receivable will not be collected. Our allowance for bad debts is not significant.

We invoice in advance of recognizing the sale of certain products. We recognize advanced customer payments as a contract liability in Customer advances and Other liabilities in Statement 3. Contract liabilities were \$1,654 million, \$1,680 million and \$1,868 million as of December 31, 2019, December 31, 2018 and January 1, 2018, respectively. We reduce the contract liability when revenue is recognized. During 2019, we recognized \$1,171 million of revenue that was recorded as a contract liability at the beginning of 2019. During 2018, we recognized \$1,294 million of revenue that was recorded as a contract liability at the beginning of 2018.

We have elected the practical expedient to not adjust the amount of revenue to be recognized under a contract with a dealer or end user for the effects of time value of money when the timing difference between receipt of payment and recognition of revenue is less than one year.

As of December 31, 2019, we have entered into contracts with dealers and end users for which sales have not been recognized as we have not satisfied our performance obligations and transferred control of the products. The dollar amount of unsatisfied performance obligations for contracts with an original duration greater than one year is \$6.2 billion, of which \$2.4 billion is expected to be completed and revenue recognized in the twelve months following December 31, 2019. We have elected the practical expedient to not disclose unsatisfied performance obligations with an original contract duration of one year or less. Contracts with an original duration of one year or less are primarily sales to dealers for machinery, engines and replacement parts.

Sales and other related taxes are excluded from the transaction price. Shipping and handling costs associated with outbound freight after control over a product has transferred are accounted for as a fulfillment cost and are included in Cost of goods sold.

We provide a standard manufacturer's warranty of our products at no additional cost. At the time a sale is recognized, we record estimated future warranty costs. See Note 21 for further discussion of our product warranty liabilities.

See Note 23 for further disaggregated sales and revenues information.

B. Revenues of Financial Products

Revenues of Financial Products are generated primarily from finance revenue on finance receivables and rental payments on operating leases. Finance revenue is recorded over the life of the related finance receivable using the interest method, including the accretion of certain direct origination costs that are deferred. Revenue from rental payments received on operating leases is recognized on a straight-line basis over the term of the lease.

Recognition of finance revenue and rental revenue is suspended and the account is placed on non-accrual status when management determines that collection of future income is not probable (generally after 120 days past due). Recognition is resumed, and previously suspended income is recognized, when the account becomes current and collection of remaining amounts is considered probable. See Note 7 for more information.

Revenues are presented net of sales and other related taxes.

3. Stock-based compensation

Our stock-based compensation plans primarily provide for the granting of stock options, stock-settled stock appreciation rights (SARs), restricted stock units (RSUs) and performance-based restricted stock units (PRSUs) to Officers and other key employees, as well as non-employee Directors. Stock options permit a holder to buy Caterpillar stock at the stock's price when the option was granted. SARs permit a holder the right to receive the value in shares of the appreciation in Caterpillar stock that occurred from the date the right was granted up to the date of exercise. RSUs are agreements to issue shares of Caterpillar stock at the time of vesting. PRSUs are similar to RSUs and include performance conditions in the vesting terms of the award.

Our long-standing practices and policies specify that all stock-based compensation awards are approved by the Compensation Committee (the Committee) of the Board of Directors. The award approval process specifies the grant date, value and terms of the award. The same terms and conditions are consistently applied to all employee grants, including Officers. The Committee approves all individual Officer grants. The number of stock-based compensation award units included in an individual's award is determined based on the methodology approved by the Committee. The exercise price methodology approved by the Committee is the closing price of the Company stock on the date of the grant. In June of 2014, shareholders approved the Caterpillar Inc. 2014 Long-Term Incentive Plan (the Plan) under which all new stock-based compensation awards are granted. In June of 2017, the Plan was amended and restated. The Plan initially provided that up to 38,800,000 Common Shares would be reserved for future issuance under the Plan, subject to adjustment in certain events. Subsequent to the shareholder approval of the amendment and restatement of the Plan, an additional 36,000,000 Common Shares became available for all awards under the Plan.

Common stock issued from Treasury stock under the plans totaled 5,126,379 for 2019, 5,590,641 for 2018 and 11,139,748 for 2017. The total number of shares authorized for equity awards under the amended and restated Caterpillar Inc. 2014 Long-Term Incentive Plan is 74,800,000, of which 40,754,720 shares remained available for issuance as of December 31, 2019.

Stock option and RSU awards generally vest according to a three-year graded vesting schedule. One-third of the award will become vested on the first anniversary of the grant date, one-third of the award will become vested on the second anniversary of the grant date and one-third of the award will become vested on the third anniversary of the grant date. PRSU awards generally have a three-year performance period and cliff vest at the end of the period based upon achievement of performance targets established at the time of grant.

Upon separation from service, if the participant is 55 years of age or older with more than five years of service, the participant meets the criteria for a "Long Service Separation." Award terms for stock option and RSU grants allow for continued vesting as of each vesting date specified in the award document for employees who meet the criteria for a "Long Service Separation" and fulfill a requisite service period of six months. Compensation expense for eligible employees for the grants was recognized over the period from the grant date to the end date of the six-month requisite service period. For employees who become eligible for a "Long Service Separation" subsequent to the end date of the six-month requisite service period and prior to the completion of the vesting period, compensation expense is recognized over the period from the grant date to the date eligibility is achieved.

For PRSU awards granted in 2018 and 2017, only a prorated number of shares may vest at the end of the performance period based upon achievement of the performance target, with the proration based upon the number of months of continuous employment during the three-year performance period. Employees with a "Long Service Separation" must also fulfill a six-month requisite service period in order to be eligible for the prorated vesting of outstanding PRSU awards granted in 2018 and 2017. Compensation expense for the 2018 and 2017 PRSU grants is being recognized on a straight-line basis over the three-year performance period for all participants. Award terms for the 2019 PRSU grant allowed for continued vesting upon achievement of the performance target specified in the award document for employees who meet the criteria for a "Long Service Separation" and fulfill a requisite service period of six months. Compensation expense for the 2019 PRSU grant with respect to employees who have met the criteria for a "Long Service Separation" is recognized over the period from the grant date to the end of the six-month requisite service period. For employees who become eligible for a "Long Service Separation" subsequent to the end date of the six-month requisite service period and prior to the completion of the vesting period, compensation expense is recognized over the period from the grant date to the date eligibility is achieved.

At grant, option awards and SARs have a term life of ten years. For awards granted prior to 2016, if the "Long Service Separation" criteria are met, the vested options/SARs have a life that is the lesser of ten years from the original grant date or five years from the separation date. For awards granted beginning in 2016, the vested options have a life equal to ten years from the original grant date.

Accounting guidance on share-based payments requires companies to estimate the fair value of options/SARs on the date of grant using an option-pricing model. The fair value of our option/SAR grants was estimated using a lattice-based option-pricing model. The lattice-based option-pricing model considers a range of assumptions related to volatility, risk-free interest rate and historical employee behavior. Expected volatility was based on historical Caterpillar stock price movement and current implied volatilities from traded options on Caterpillar stock. The risk-free interest rate was based on U.S. Treasury security yields at the time of grant. The weighted-average dividend yield was based on historical information. The expected life was determined from the lattice-based model. The lattice-based model incorporated exercise and post vesting forfeiture assumptions based on analysis of historical data. The following table provides the assumptions used in determining the fair value of the Option awards for the years ended December 31, 2019, 2018 and 2017, respectively.

	Grant Year		
	2019	2018	2017
Weighted-average dividend yield.....	2.6%	2.7%	3.4%
Weighted-average volatility.....	29.1%	30.2%	29.2%
Range of volatilities.....	25.1-38.7%	21.5-33.0%	22.1-33.0%
Range of risk-free interest rates.....	2.48-2.68%	2.02-2.87%	0.81-2.35%
Weighted-average expected lives	7 years	8 years	8 years

Beginning with the 2018 grant, RSU and PRSU awards are credited with dividend equivalent units on each date that a cash dividend is paid to holders of Common Stock. The fair value of the RSU and PRSU awards granted in 2019 and 2018 was determined as the closing stock price on the date of the grant. Prior to 2018, RSU and PRSU awards were not credited with dividend equivalent units and the fair value was determined by reducing the stock price on the date of the grant by the present value of the estimated dividends to be paid during the vesting period. The estimated dividends were based on Caterpillar's quarterly dividend per share at the time of the grant.

Please refer to Tables I and II below for additional information on our stock-based compensation awards.

TABLE I — Financial Information Related to Stock-based Compensation

	Stock options / SARs		RSUs		PRSUs	
	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Outstanding at January 1, 2019	17,841,669	\$ 91.93	1,566,070	\$ 112.99	735,299	\$ 115.18
Granted to officers and key employees ¹	1,499,524	\$ 138.35	687,294	\$ 138.61	359,122	\$ 138.67

	<u>14,464,994</u>		\$ 99.29	\$ 705	<u>11,154,215</u>		\$ 89.84	\$ 647

¹ No SARs were granted during the year ended December 31, 2019.

² The difference between a stock award's exercise price and the underlying stock's closing market price at December 31, 2019, for awards with market price greater than the exercise price. Amounts are in millions of dollars.

The computations of weighted-average exercise prices and aggregate intrinsic values are not applicable to RSUs or PRSUs since these awards represent an agreement to issue shares of stock at the time of vesting. At December 31, 2019, there were 1,369,203 outstanding RSUs with a weighted average remaining contractual life of 1.5 years and 670,115 outstanding PRSUs with a weighted-average remaining contractual life of 1.5 years.

TABLE II— Additional Stock-based Award Information

(Dollars in millions except per share data)	2019	2018	2017
Stock options/SARs activity:			
Weighted-average fair value per share of stock awards granted	\$ 40.98	\$ 46.09	\$ 25.01
Intrinsic value of stock awards exercised	\$ 264	\$ 348	\$ 504
Fair value of stock awards vested ¹	\$ 100	\$ 86	\$ 191
Cash received from stock awards exercised	\$ 298	\$ 370	\$ 629
RSUs activity:			
Weighted-average fair value per share of stock awards granted	\$ 138.61	\$ 150.58	\$ 90.11
Fair value of stock awards vested ²	\$ 110	\$ 180	\$ 189
PRSUs activity:			
Weighted-average fair value per share of stock awards granted	\$ 138.67	\$ 150.98	\$ 86.78
Fair value of stock awards vested ²	\$ 59	\$ 70	\$ 20

¹ Based on the grant date fair value.

² Based on the underlying stock's closing market price on the vesting date.

In accordance with guidance on share-based payments, stock-based compensation expense is based on the grant date fair value and is classified within Cost of goods sold, Selling, general and administrative expenses and Research and development expenses corresponding to the same line item as the cash compensation paid to respective employees, officers and non-employee directors. Stock-based compensation expense is recognized on a straight-line basis over the requisite service period for awards with terms that specify cliff or graded vesting and contain only service conditions. Stock-based compensation expense for PRSUs is based on the probable number of shares expected to vest and is recognized primarily on a straight-line basis.

Before tax, stock-based compensation expense for 2019, 2018 and 2017 was \$205 million, \$197 million and \$206 million, respectively, with a corresponding income tax benefit of \$35 million, \$36 million and \$40 million, respectively.

The amount of stock-based compensation expense capitalized for the years ended December 31, 2019, 2018 and 2017 did not have a significant impact on our financial statements.

At December 31, 2019, there was \$161 million of total unrecognized compensation cost from stock-based compensation arrangements granted under the plans, which is related to non-vested stock-based awards. The compensation expense is expected to be recognized over a weighted-average period of approximately 1.6 years.

We currently use shares in treasury stock to satisfy share award exercises.

The cash tax benefits realized from stock awards exercised for 2019, 2018 and 2017 were \$89 million, \$103 million and \$205 million, respectively. We use the direct only method and tax law ordering approach to calculate the tax effects of stock-based compensation.

4. Derivative financial instruments and risk management

Our earnings and cash flow are subject to fluctuations due to changes in foreign currency exchange rates, interest rates and commodity prices. Our Risk Management Policy (policy) allows for the use of derivative financial instruments to prudently manage foreign currency exchange rate, interest rate and commodity price exposures. Our policy specifies that derivatives are not to be used for speculative purposes. Derivatives that we use are primarily foreign currency forward, option and cross currency contracts, interest rate contracts and commodity forward and option contracts. Our derivative activities are subject to the management, direction and control of our senior financial officers. Risk management practices, including the use of financial derivative instruments, are presented to the Audit Committee of the Board of Directors at least annually.

All derivatives are recognized in Statement 3 at their fair value. On the date the derivative contract is entered into, we designate the derivative as (1) a hedge of the fair value of a recognized asset or liability (fair value hedge), (2) a hedge of a forecasted transaction or the variability of cash flow (cash flow hedge) or (3) an undesignated instrument. Changes in the fair value of a derivative that is qualified, designated and highly effective as a fair value hedge, along with the gain or loss on the hedged recognized asset or liability that is attributable to the hedged risk, are recorded in current earnings. Changes in the fair value of a derivative that is qualified, designated and highly effective as a cash flow hedge are recorded in Accumulated other comprehensive income (loss) (AOCI), to the extent effective, in Statement 3 until they are reclassified to earnings in the same period or periods during which the hedged transaction affects earnings. Changes in the fair value of undesignated derivative instruments are reported in current earnings. Cash flows from designated derivative financial instruments are classified within the same category as the item being hedged on Statement 5. Cash flows from undesignated derivative financial instruments are included in the investing category on Statement 5.

We formally document all relationships between hedging instruments and hedged items, as well as the risk-management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that are designated as fair value hedges to specific assets and liabilities in Statement 3 and linking cash flow hedges to specific forecasted transactions or variability of cash flow.

We also formally assess, both at the hedge's inception and on an ongoing basis, whether the designated derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flow of hedged items. When a derivative is determined not to be highly effective as a hedge or the underlying hedged transaction is no longer probable, we discontinue hedge accounting prospectively, in accordance with the derecognition criteria for hedge accounting.

A. Foreign currency exchange rate risk

Foreign currency exchange rate movements create a degree of risk by affecting the U.S. dollar value of sales made and costs incurred in foreign currencies. Movements in foreign currency rates also affect our competitive position as these changes may affect business practices and/or pricing strategies of non-U.S.-based competitors. Additionally, we have balance sheet positions denominated in foreign currencies, thereby creating exposure to movements in exchange rates.

Our ME&T operations purchase, manufacture and sell products in many locations around the world. As we have a diversified revenue and cost base, we manage our future foreign currency cash flow exposure on a net basis. We use foreign currency forward and option contracts to manage unmatched foreign currency cash inflow and outflow. Our objective is to minimize the risk of exchange rate movements that would reduce the U.S. dollar value of our foreign currency cash flow. Our policy allows for managing anticipated foreign currency cash flow for up to approximately five years. As of December 31, 2019, the maximum term of these outstanding contracts was approximately 60 months.

We generally designate as cash flow hedges at inception of the contract any Australian dollar, Brazilian real, British pound, Canadian dollar, Chinese yuan, Indian rupee, Japanese yen, Mexican peso, Singapore dollar or Thailand baht forward or option contracts that meet the requirements for hedge accounting and the maturity extends beyond the current quarter-end. Designation is performed on a specific exposure basis to support hedge accounting. The remainder of ME&T foreign currency contracts are undesignated.

As of December 31, 2019, \$1 million of deferred net losses, net of tax, included in equity (AOCI in Statement 3), are expected to be reclassified to current earnings (Other income (expense) in Statement 1) over the next twelve months when earnings are affected by the hedged transactions. The actual amount recorded in Other income (expense) will vary based on exchange rates at the time the hedged transactions impact earnings.

In managing foreign currency risk for our Financial Products operations, our objective is to minimize earnings volatility resulting from conversion and the remeasurement of net foreign currency balance sheet positions and future transactions denominated in foreign currencies. Our policy allows the use of foreign currency forward, option and cross currency contracts to offset the risk of currency mismatch between our assets and liabilities and exchange rate risk associated with future transactions denominated in foreign currencies. Our foreign currency forward and option contracts are primarily undesignated. We designate fixed-to-fixed cross currency contracts as cash flow hedges to protect against movements in exchange rates on foreign currency fixed-rate assets and liabilities.

B. Interest rate risk

Interest rate movements create a degree of risk by affecting the amount of our interest payments and the value of our fixed-rate debt. Our practice is to use interest rate contracts to manage our exposure to interest rate changes.

Our ME&T operations generally use fixed-rate debt as a source of funding. Our objective is to minimize the cost of borrowed funds. Our policy allows us to enter into fixed-to-floating interest rate contracts and forward rate agreements to meet that objective. We designate fixed-to-floating interest rate contracts as fair value hedges at inception of the contract, and we designate certain forward rate agreements as cash flow hedges at inception of the contract.

Financial Products operations has a match-funding policy that addresses interest rate risk by aligning the interest rate profile (fixed or floating rate and duration) of Cat Financial's debt portfolio with the interest rate profile of our receivables portfolio within predetermined ranges on an ongoing basis. In connection with that policy, we use interest rate derivative instruments to modify the debt structure to match assets within the receivables portfolio. This matched funding reduces the volatility of margins between interest-bearing assets and interest-bearing liabilities, regardless of which direction interest rates move.

Our policy allows us to use fixed-to-floating, floating-to-fixed and floating-to-floating interest rate contracts to meet the match-funding objective. We designate fixed-to-floating interest rate contracts as fair value hedges to protect debt against changes in fair value due to changes in the benchmark interest rate. We designate most floating-to-fixed interest rate contracts as cash flow hedges to protect against the variability of cash flows due to changes in the benchmark interest rate.

We have, at certain times, liquidated fixed-to-floating and floating-to-fixed interest rate contracts at both ME&T and Financial Products. The gains or losses associated with these contracts at the time of liquidation are amortized into earnings over the original term of the previously designated hedged item.

C. Commodity price risk

Commodity price movements create a degree of risk by affecting the price we must pay for certain raw materials. Our policy is to use commodity forward and option contracts to manage the commodity risk and reduce the cost of purchased materials.

Our ME&T operations purchase base and precious metals embedded in the components we purchase from suppliers. Our suppliers pass on to us price changes in the commodity portion of the component cost. In addition, we are subject to price changes on energy products such as natural gas and diesel fuel purchased for operational use.

Our objective is to minimize volatility in the price of these commodities. Our policy allows us to enter into commodity forward and option contracts to lock in the purchase price of a portion of these commodities within a five-year horizon. All such commodity forward and option contracts are undesignated.

The location and fair value of derivative instruments reported in Statement 3 are as follows:

We enter into International Swaps and Derivatives Association (ISDA) master netting agreements within ME&T and Financial Products that permit the net settlement of amounts owed under their respective derivative contracts. Under these master netting agreements, net settlement generally permits the company or the counterparty to determine the net amount payable for contracts due on the same date and in the same currency for similar types of derivative transactions. The master netting agreements generally also provide for net settlement of all outstanding contracts with a counterparty in the case of an event of default or a termination event.

Collateral is generally not required of the counterparties or of our company under the master netting agreements. As of December 31, 2019 and 2018, no cash collateral was received or pledged under the master netting agreements.

The effect of the net settlement provisions of the master netting agreements on our derivative balances upon an event of default or termination event is as follows:

December 31, 2019				Gross Amounts Not Offset in the Statement of Financial Position

Provision (benefit) for income taxes.....	<u>\$ 1,746</u>	<u>22.4 %</u>	<u>\$ 1,698</u>	<u>21.7 %</u>	<u>\$ 3,339</u>	<u>81.8 %</u>

¹ Excludes amounts included in valuation allowances and mandatory deemed repatriation of non-U.S. earnings.

Included in the line item above labeled “Non-U.S. subsidiaries taxed at other than the U.S. rate” are the effects of local and U.S. taxes related to earnings of non-U.S. subsidiaries, changes in the amount of unrecognized tax benefits associated with these earnings, losses at non-U.S. subsidiaries without local tax benefits due to valuation allowances and other permanent differences between tax and U.S. GAAP results. Although not individually significant by jurisdiction, pre-tax permanent differences due to nondeductible net foreign exchange gains/losses of non-U.S. subsidiaries were approximately \$36 million of net losses in 2019, \$180 million of net losses in 2018 and \$160 million of net gains in 2017.

Included in the line item above labeled “Valuation allowances” are decreases in the valuation allowance for U.S. state deferred tax assets resulting in a \$63 million non-cash benefit in 2018, net of federal deferred tax adjustment at 21 percent, compared to a \$111 million non-cash benefit in 2017, net of federal deferred tax adjustment at 35 percent. The primary driver of the decreases in the U.S. state valuation allowance was improved U.S. GAAP profits expected to recur in certain state jurisdictions.

Also included in 2018 was a decrease in the valuation allowance for a non-U.S. subsidiary of \$25 million offset by a charge of \$59 million to correct for an error which resulted in an understatement of the valuation allowance offsetting deferred tax assets for prior years. This error had the effect of overstating profit by \$17 million for the year ended December 31, 2017. Management has concluded that the error was not material to any period presented.

On December 22, 2017, U.S. tax legislation was enacted containing a broad range of tax reform provisions including a corporate tax rate reduction and changes in the U.S. taxation of non-U.S. earnings. In 2018, measurement period adjustments of \$104 million reduced the provisionally estimated charge of \$2.371 billion recognized during the fourth quarter of 2017. A \$154 million benefit revised the estimated impact of the write-down of U.S. net deferred tax assets to reflect the reduction in the U.S. corporate tax rate from 35 percent to 21 percent. This benefit primarily related to the decision to make an additional discretionary pension contribution of \$1.0 billion to U.S. pension plans in 2018 which was treated as deductible on the 2017 U.S. tax return. A \$50 million charge revised the estimated cost of a mandatory deemed repatriation of non-U.S. earnings, including changes in the deferred tax liability related to the amount of earnings considered not indefinitely reinvested as well as the amount of unrecognized tax benefits and state tax liabilities associated with these tax positions. During 2019, a \$178 million tax benefit was recorded to adjust previously unrecognized tax benefits as a result of receipt of additional guidance related to the calculation of the mandatory deemed repatriation of non-U.S. earnings.

As a result of U.S. tax reform legislation, distributions of profits from non-U.S. subsidiaries are not expected to cause a significant incremental U.S. tax impact in the future. However, these distributions may be subject to non-U.S. withholding taxes if profits are distributed from certain jurisdictions. Undistributed profits of non-U.S. subsidiaries of approximately \$14 billion are considered indefinitely reinvested. Determination of the amount of unrecognized deferred tax liability related to indefinitely reinvested profits is not feasible primarily due to our legal entity structure and the complexity of U.S. and local tax laws.

The components of profit (loss) before taxes were:

(Millions of dollars)	Years ended December 31,		
	2019	2018	2017
U.S.	\$ 2,888	\$ 2,131	\$ 240
Non-U.S.	4,924	5,691	3,842
	<u>\$ 7,812</u>	<u>\$ 7,822</u>	<u>\$ 4,082</u>

Profit before taxes, as shown above, is based on the location of the entity to which such earnings are attributable. Where an entity's earnings are subject to taxation, however, may not correlate solely to where an entity is located. Thus, the income tax provision shown below as U.S. or non-U.S. may not correspond to the earnings shown above.

The components of the provision (benefit) for income taxes were:

(Millions of dollars)	Years ended December 31,		
	2019	2018	2017
Current tax provision (benefit):			
U.S. ¹	\$ 405	\$ 179	\$ 963
Non-U.S.	1,261	1,291	1,124
State (U.S.)	52	8	39
	<u>1,718</u>	<u>1,478</u>	<u>2,126</u>
Deferred tax provision (benefit):			
U.S. ¹	17	298	1,385
Non-U.S.	(7)	4	(17)
State (U.S.)	18	(82)	(155)
	<u>28</u>	<u>220</u>	<u>1,213</u>
Total provision (benefit) for income taxes.....	<u>\$ 1,746</u>	<u>\$ 1,698</u>	<u>\$ 3,339</u>

¹ Includes U.S. taxes related to non-U.S. earnings. We account for U.S. taxes on global intangible low-taxed income as a period cost.

We paid net income tax and related interest of \$1,847 million, \$1,429 million and \$1,404 million in 2019, 2018 and 2017, respectively.

Accounting for income taxes under U.S. GAAP requires that individual tax-paying entities of the company offset all deferred tax liabilities and assets within each particular tax jurisdiction and present them as a noncurrent deferred tax liability or asset in the Consolidated Financial Position. Amounts in different tax jurisdictions cannot be offset against each other. The amount of deferred income taxes at December 31, included on the following lines in Statement 3, are as follows:

(Millions of dollars)	December 31,	
	2019	2018
Assets:		
Noncurrent deferred and refundable income taxes	\$ 1,324	\$ 1,363
Liabilities:		
Other liabilities.....	414	331
Deferred income taxes—net	<u>\$ 910</u>	<u>\$ 1,032</u>

The components of deferred tax assets and liabilities were:

(Millions of dollars)	December 31,	
	2019	2018
Deferred income tax assets:		
Tax carryforwards	\$ 1,218	\$ 1,312
Postemployment benefits other than pensions	876	793
Pension	445	785
Warranty reserves	263	237
Research expenditures	219	—
Allowance for credit losses	171	155
Post sale discounts	200	158
Other employee compensation and benefits	197	186
Lease obligations	157	—
Stock-based compensation	107	121
Other—net	250	298
	4,103	4,045
Deferred income tax liabilities:		
Capital and intangible assets, including lease basis differences	(1,574)	(1,381)
Bond discount	(122)	(127)
Translation	(194)	(190)
Other outside basis differences	(257)	(271)
Undistributed profits of non-U.S. subsidiaries	(118)	(129)
	(2,265)	(2,098)
Valuation allowance for deferred tax assets	(928)	(915)
Deferred income taxes—net	\$ 910	\$ 1,032

At December 31, 2019, approximately \$1,320 million of U.S. state tax net operating losses (NOLs) and \$125 million of U.S. state tax credit carryforwards were available. The state NOLs primarily expire over the next twenty years. The state tax credit carryforwards primarily expire over the next fifteen years, with some credits having an unlimited carryforward period. In total, we have established a valuation allowance of \$172 million related to certain of these carryforwards.

At December 31, 2019, approximately \$264 million of U.S. foreign tax credits were available for carryforward. These credits expire in 2028.

At December 31, 2019, amounts and expiration dates of net operating loss and interest carryforwards in various non-U.S. taxing jurisdictions were:

(Millions of dollars)						
2020	2021	2022	2023-2025	2026-2040	Unlimited	Total
\$ 104	\$ 53	\$ 81	\$ 59	\$ 451	\$ 3,627	\$ 4,375

At December 31, 2019, non-U.S. entities that have not yet demonstrated consistent and/or sustainable profitability to support the realization of net deferred tax assets have recorded valuation allowances of \$750 million, including certain entities in Luxembourg.

A reconciliation of the beginning and ending amount of gross unrecognized tax benefits for uncertain tax positions, including positions impacting only the timing of tax benefits, follows.

Reconciliation of unrecognized tax benefits: ¹

(Millions of dollars)	Years ended December 31,		
	2019	2018	2017
Balance at January 1,	\$ 1,796	\$ 1,286	\$ 1,032
Additions for tax positions related to current year	72	61	270
Additions for tax positions related to prior years	112	461	20
Reductions for tax positions related to prior years	(201)	(5)	(27)
Reductions for settlements ²	—	(6)	(9)
Reductions for expiration of statute of limitations	(1)	(1)	—
Balance at December 31,	<u>\$ 1,778</u>	<u>\$ 1,796</u>	<u>\$ 1,286</u>
Amount that, if recognized, would impact the effective tax rate	<u>\$ 1,616</u>	<u>\$ 1,716</u>	<u>\$ 1,209</u>

¹ Foreign currency impacts are included within each line as applicable.

² Includes cash payment or other reduction of assets to settle liability.

We classify interest and penalties on income taxes as a component of the provision for income taxes. We recognized a net provision for interest and penalties of \$43 million, \$42 million and \$38 million during the years ended December 31, 2019, 2018 and 2017, respectively. The total amount of interest and penalties accrued was \$233 million and \$190 million as of December 31, 2019 and 2018, respectively.

On January 31, 2018, we received a Revenue Agent's Report from the IRS indicating the end of the field examination of our U.S. income tax returns for 2010 to 2012. In the audits of 2007 to 2012 including the impact of a loss carryback to 2005, the IRS has proposed to tax in the United States profits earned from certain parts transactions by Caterpillar SARL (CSARL), based on the IRS examination team's application of the "substance-over-form" or "assignment-of-income" judicial doctrines. We are vigorously contesting the proposed increases to tax and penalties for these years of approximately \$2.3 billion. We believe that the relevant transactions complied with applicable tax laws and did not violate judicial doctrines. We have filed U.S. income tax returns on this same basis for years after 2012. Based on the information currently available, we do not anticipate a significant change to our unrecognized tax benefits for this position within the next 12 months. We currently believe the ultimate disposition of this matter will not have a material adverse effect on our consolidated financial position, liquidity or results of operations.

With the exception of a loss carryback to 2005, tax years prior to 2007 are generally no longer subject to U.S. tax assessment. In our major non-U.S. jurisdictions including Australia, Brazil, China, Germany, India, Japan, Mexico, Switzerland, Singapore and the U.K., tax years are typically subject to examination for three to ten years. Due to the uncertainty related to the timing and potential outcome of audits, we cannot estimate the range of reasonably possible change in unrecognized tax benefits in the next 12 months.

7. Cat Financial Financing Activities

A. Wholesale inventory receivables

Wholesale inventory receivables are receivables of Cat Financial that arise when Cat Financial provides financing for a dealer's purchase of inventory. These receivables are included in Receivables—trade and other and Long-term receivables—trade and other in Statement 3 and were \$1,401 million and \$1,308 million, at December 31, 2019 and 2018, respectively.

Contractual maturities of outstanding wholesale inventory receivables:

(Millions of dollars)

December 31, 2019

Amounts Due In	Wholesale Loans	Wholesale Leases	Total
2020	\$ 630	\$ 65	\$ 695
2021	235	48	283
2022	166	32	198
2023	61	22	83
2024	27	14	41
Thereafter	21	16	37
Total	1,140	197	1,337
Guaranteed residual value ¹	25	50	75
Unguaranteed residual value	—	33	33
Less: Unearned income	(10)	(34)	(44)
Total	\$ 1,155	\$ 246	\$ 1,401

¹ For Wholesale loans, represents residual value on failed sale leasebacks.

Cat Financial's wholesale inventory receivables generally may be repaid or refinanced without penalty prior to contractual maturity. Accordingly, this presentation should not be regarded as a forecast of future cash collections.

Please refer to Note 18 and Table III for fair value information.

B. Finance receivables

Finance receivables are receivables of Cat Financial and are reported in Statement 3 net of an allowance for credit losses.

Contractual maturities of outstanding finance receivables:

(Millions of dollars)

December 31, 2019

Amounts Due In	Retail Loans	Retail Leases	Total
2020	\$ 6,280	\$ 3,134	\$ 9,414
2021	3,582	2,005	5,587
2022	2,610	1,076	3,686
2023	1,634	472	2,106
2024	622	182	804
Thereafter	417	62	479
Total	15,145	6,931	22,076
Guaranteed residual value ¹	53	390	443
Unguaranteed residual value	—	798	798
Less: Unearned income	(265)	(655)	(920)
Total	\$ 14,933	\$ 7,464	\$ 22,397

¹ For Retail loans, represents residual value on failed sale leasebacks.

Cat Financial's finance receivables generally may be repaid or refinanced without penalty prior to contractual maturity. Accordingly, this presentation should not be regarded as a forecast of future cash collections.

Please refer to Note 18 and Table III for fair value information.

C. Allowance for credit losses

The allowance for credit losses is an estimate of the losses inherent in Cat Financial's finance receivable portfolio and includes consideration of accounts that have been individually identified as impaired, as well as pools of finance receivables where it is probable that certain receivables in the pool are impaired but the individual accounts cannot yet be identified. In identifying and measuring impairment, management takes into consideration past loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of underlying collateral and current economic conditions.

Accounts are identified for individual review based on past-due status and information available about the customer, such as financial statements, news reports and published credit ratings, as well as general information regarding industry trends and the economic environment in which Cat Financial's customers operate. The allowance for credit losses attributable to finance receivables that are individually evaluated and determined to be impaired is based on the present value of expected future cash flows discounted at the receivables' effective interest rate, the fair value of the collateral for collateral-dependent receivables or the observable market price of the receivable. In determining collateral value, Cat Financial estimates the current fair market value of the collateral less selling costs. Cat Financial also considers credit enhancements such as additional collateral and contractual third-party guarantees. The allowance for credit losses attributable to the remaining accounts not yet individually identified as impaired is estimated based on loss forecast models utilizing probabilities of default, our estimate of the loss emergence period and the estimated loss given default. In addition, qualitative factors not able to be fully captured in the loss forecast models including industry trends, macroeconomic factors and model imprecision are considered in the evaluation of the adequacy of the allowance for credit losses. These qualitative factors are subjective and require a degree of management judgment.

Cat Financial's allowance for credit losses is segregated into two portfolio segments:

- Customer - Finance receivables with end-user customers.
- Dealer - Finance receivables with Caterpillar dealers.

A portfolio segment is the level at which the Company develops a systematic methodology for determining its allowance for credit losses.

Cat Financial further evaluates portfolio segments by the class of finance receivables, which is defined as a level of information (below a portfolio segment) in which the finance receivables have the same initial measurement attribute and a similar method for assessing and monitoring credit risk. Typically, Cat Financial's finance receivables within a geographic area have similar credit risk profiles and methods for assessing and monitoring credit risk. Cat Financial's classes, which align with management reporting for credit losses, are as follows:

- North America - Finance receivables originated in the United States and Canada.
- EAME - Finance receivables originated in Europe, Africa, Middle East and the Commonwealth of Independent States.
- Asia Pacific - Finance receivables originated in Australia, New Zealand, China, Japan, Southeast Asia and India.
- Mining - Finance receivables related to large mining customers worldwide.
- Latin America - Finance receivables originated in Mexico and Central and South American countries.
- Caterpillar Power Finance - Finance receivables originated worldwide related to marine vessels with Caterpillar engines and Caterpillar electrical power generation, gas compression and co-generation systems and non-Caterpillar equipment that is powered by these systems.

An analysis of the allowance for credit losses was as follows:

(Millions of dollars)	December 31, 2019		
	Customer	Dealer	Total
Allowance for Credit Losses:			
Balance at beginning of year	\$ 486	\$ 21	\$ 507

Credit quality of finance receivables

At origination, Cat Financial evaluates credit risk based on a variety of credit quality factors including prior payment experience, customer financial information, credit-rating agency ratings, loan-to-value ratios and other internal metrics. On an ongoing basis, Cat Financial monitors credit quality based on past-due status and collection experience as there is a meaningful correlation between the past-due status of customers and the risk of loss.

In determining past-due status, Cat Financial considers the entire recorded investment in finance receivable past due when any installment is over 30 days past due. The tables below summarize the recorded investment of finance receivables by aging category.

(Millions of dollars)		December 31, 2019

Impaired finance receivables

For all classes, a finance receivable is considered impaired, based on current information and events, if it is probable that Cat Financial will be unable to collect all amounts due according to the contractual terms. Impaired finance receivables include finance receivables that have been restructured and are considered to be troubled debt restructurings.

There were \$78 million of impaired finance receivables with a related allowance of \$39 million and \$14 million as of December 31, 2019 and 2018, respectively, for the Dealer portfolio segment, all of which was in Latin America. There were no impaired finance receivables as of December 31, 2017 for the Dealer portfolio segment. Cat Financial's recorded investment in impaired finance receivables and the related unpaid principal balances and allowances for the Customer portfolio segment were as follows:

(Millions of dollars)	December 31, 2019			December 31, 2018

Recognition of income is suspended and the finance receivable is placed on non-accrual status when management determines that collection of future income is not probable (generally after 120 days past due). Recognition is resumed and previously suspended income is recognized when the finance receivable becomes current and collection of remaining amounts is considered probable. Payments received while the finance receivable is on non-accrual status are applied to interest and principal in accordance with the contractual terms.

As of December 31, 2019 and 2018, there were \$78 million in finance receivables on non-accrual status for the Dealer portfolio segment, all of which was in Latin America.

The recorded investment in Customer finance receivables on non-accrual status was as follows:

(Millions of dollars)	December 31,	
	2019	2018
North America	\$ 44	\$ 77
EAME	165	154
Asia Pacific	21	4

Caterpillar Power Finance	361	416
Total	\$ 727	\$ 807

Troubled Debt Restructurings

A restructuring of a finance receivable constitutes a troubled debt restructuring (TDR) when the lender grants a concession it would not otherwise consider to a borrower experiencing financial difficulties. Concessions granted may include extended contract maturities, inclusion of interest only periods, below market interest rates, extended skip payment periods and reduction of principal and/or accrued interest.

There were no finance receivables modified as TDRs during the years ended December 31, 2019, 2018 or 2017 for the Dealer portfolio segment. Cat Financial's recorded investment in finance receivables in the Customer portfolio segment modified as TDRs during the years ended December 31, 2019, 2018 and 2017 were as follows:

(Millions of dollars)	Year ended December 31, 2019		
	Number of Contracts	Pre-TDR Recorded Investment	Post-TDR Recorded Investment
North America	15	\$ 11	\$ 11
EAME	19	17	17
Asia Pacific	—	—	—
Mining	2	8	8

Caterpillar Power Finance	12	133	99
Total	52	\$ 186	\$ 152

	Year ended December 31, 2017		
	Number of Contracts	Pre-TDR Recorded Investment	Post-TDR Recorded Investment
North America	43	\$ 34	\$ 35
EAME	4	1	1
Asia Pacific	10	39	31
Mining	2	57	56
Latin America	17	26	27
Caterpillar Power Finance ¹	68	422	407
Total	144	\$ 579	\$ 557

¹ In Caterpillar Power Finance, 48 contracts with a pre-TDR recorded investment of \$265 million and a post-TDR recorded investment of \$258 million were related to six customers.

TDRs in the Customer portfolio segment with a payment default (defined as 91+ days past due) during the years ended December 31, 2019, 2018 and 2017 which had been modified within twelve months prior to the default date, were as follows:

(Millions of dollars)	Year ended December 31, 2019		Year ended December 31, 2018		Year ended December 31, 2017	
	Number of Contracts	Post-TDR Recorded Investment	Number of Contracts	Post-TDR Recorded Investment	Number of Contracts	Post-TDR Recorded Investment
North America	11	\$ 5	10	\$ 10	4	\$ 3
EAME	—	—	—	—	1	—
Asia Pacific	—	—	—	—	4	1
Latin America ¹	—	—	3	1	243	17
Caterpillar Power Finance ...	1	10	3	33	—	—
Total	12	\$ 15	16	\$ 44	252	\$ 21

¹ In Latin America, 238 contracts with a post-TDR recorded investment of \$16 million were related to two customers for the year ended December 31, 2017.

8. Inventories

Inventories (principally using the LIFO method) are comprised of the following:

(Millions of dollars)	December 31,	
	2019	2018
Raw materials	\$ 4,263	\$ 4,477
Work-in-process	1,147	1,259
Finished goods	5,598	5,562
Supplies	258	231
Total inventories	\$ 11,266	\$ 11,529

During the third quarter of 2019, changes were made to the classification of inventories primarily related to purchased parts between Raw materials, Work-in-process and Finished goods. The prior year amounts have been retrospectively adjusted to conform to the current-year classification.

During 2017, closure of our facility in Gosselies, Belgium resulted in a liquidation of LIFO inventory. The liquidated inventory was carried at lower costs prevailing in prior years as compared with current costs. The effect of this reduction in inventory decreased Cost of goods sold by approximately \$66 million and increased Profit by approximately \$49 million or \$0.08 per share. The impact of LIFO liquidations during 2019 and 2018 was not significant to Statement 1.

We had long-term material purchase obligations of approximately \$270 million at December 31, 2019.

9. Property, plant and equipment

(Millions of dollars)	Useful Lives (Years)	December 31,	
		2019	2018
Land	—	\$ 664	\$ 671
Buildings and land improvements	20-45	6,710	6,977
Machinery, equipment and other	2-10	13,287	13,733
Software	3-7	1,728	1,703
Equipment leased to others	1-7	6,208	6,015
Construction-in-process	—	620	682
Total property, plant and equipment, at cost		29,217	29,781
Less: Accumulated depreciation		(16,313)	(16,207)
Property, plant and equipment—net		<u>\$ 12,904</u>	<u>\$ 13,574</u>

10. Intangible assets and goodwill**A. Intangible assets**

Intangible assets are comprised of the following:

(Millions of dollars)	Weighted Amortizable Life (Years)	December 31, 2019		
		Gross Carrying Amount	Accumulated Amortization	Net
Customer relationships	15	\$ 2,450	\$ (1,406)	\$ 1,044
Intellectual property	12	1,510	(1,055)	455
Other	13	191	(125)	66
Total finite-lived intangible assets	14	<u>\$ 4,151</u>	<u>\$ (2,586)</u>	<u>\$ 1,565</u>

(Millions of dollars)	Weighted Amortizable Life (Years)	December 31, 2018		
		Gross Carrying Amount	Accumulated Amortization	Net
Customer relationships	15	\$ 2,463	\$ (1,249)	\$ 1,214
Intellectual property	11	1,557	(965)	592
Other	13	199	(108)	91
Total finite-lived intangible assets	14	<u>\$ 4,219</u>	<u>\$ (2,322)</u>	<u>\$ 1,897</u>

During 2018, we acquired finite-lived intangible assets of \$112 million and \$6 million due to the purchase of ECM S.p.A. and Downer Freight Rail, respectively. See Note 24 for details on these acquisitions.

Finite-lived intangible assets are amortized over their estimated useful lives and tested for impairment if events or changes in circumstances indicate that the asset may be impaired.

Amortization expense related to intangible assets was \$324 million, \$331 million and \$323 million for 2019, 2018 and 2017, respectively.

As of December 31, 2019, amortization expense related to intangible assets is expected to be:

(Millions of dollars)					
2020	2021	2022	2023	2024	Thereafter
\$310	\$292	\$273	\$215	\$158	\$317

B. Goodwill

In 2018, we acquired net assets with related goodwill of \$127 million in the Energy & Transportation segment. We recorded goodwill of \$109 million related to the acquisition of ECM S.p.A. and \$18 million related to the acquisition of Downer Freight Rail. See Note 24 for details on these acquisitions.

There were no goodwill impairments during 2019, 2018 or 2017.

The changes in carrying amount of goodwill by reportable segment for the years ended December 31, 2019 and 2018 were as follows:

(Millions of dollars)	December 31, 2018	Acquisitions	Other Adjustments ¹	December 31, 2019

¹ Other adjustments are comprised primarily of foreign currency translation.

² Includes All Other operating segment (See Note 23).

11. Investments in debt and equity securities

We have investments in certain debt and equity securities, primarily at Insurance Services, which are recorded at fair value and are primarily included in Other assets in Statement 3.

Debt securities have been classified as available-for-sale, and the unrealized gains and losses arising from the revaluation of these debt securities are included, net of applicable deferred income taxes, in equity (Accumulated other comprehensive income (loss) in Statement 3). The unrealized gains and losses arising from the revaluation of the equity securities are included in Other income (expense) in Statement 1. Realized gains and losses on sales of investments are generally determined using the specific identification method for debt and equity securities and are included in Other income (expense) in Statement 1.

The cost basis and fair value of debt securities with unrealized gains and losses included in equity (Accumulated other comprehensive income (loss) in Statement 3) were as follows:

(Millions of dollars)	December 31, 2019			December 31, 2018		
	Cost Basis	Unrealized Pretax Net Gains (Losses)	Fair Value	Cost Basis	Unrealized Pretax Net Gains (Losses)	Fair Value
Government debt						
U.S. treasury bonds.....	\$ 9	\$ —	\$ 9	\$ 9	\$ —	\$ 9
Other U.S. and non-U.S. government bonds ..	54	—	54	42	—	42
Corporate bonds						
Corporate bonds.....	836	20	856	735	(15)	720
Asset-backed securities.....	62	—	62	63	—	63
Mortgage-backed debt securities						
U.S. governmental agency.....	327	4	331	301	(4)	297
Residential	6	—	6	7	—	7
Commercial.....	46	1	47	14	(1)	13
Total debt securities.....	\$ 1,340	\$ 25	\$ 1,365	\$ 1,171	\$ (20)	\$ 1,151

As of December 31 2019 and 2018, the total unrealized loss for available -for-sale investments in an unrealized loss position that are not other-than-temporarily impaired was \$1 million and \$21 million, respectively.

The cost basis and fair value of the available-for-sale debt securities at December 31, 2019, by contractual maturity, is shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to prepay and creditors may have the right to call obligations.

(Millions of dollars)	December 31, 2019	
	Cost Basis	Fair Value
Due in one year or less.....	\$ 80	\$ 80
Due after one year through five years.....	701	715
Due after five years through ten years	148	153
Due after ten years	32	33
U.S. governmental agency mortgage-backed securities	327	331
Residential mortgage-backed securities.....	6	6
Commercial mortgage-backed securities.....	46	47
Total debt securities – available-for-sale	\$ 1,340	\$ 1,365

Sales of Securities:

(Millions of dollars)	Years Ended December 31,		
	2019 ¹	2018 ¹	2017
Proceeds from the sale of available-for-sale securities	\$ 260	\$ 247	\$ 930
Gross gains from the sale of available-for-sale securities.....	\$ 1	\$ —	\$ 109
Gross losses from the sale of available-for-sale securities.....	\$ 1	\$ —	\$ 5

¹ Beginning January 1, 2018, equity securities are no longer classified as available-for-sale securities.

For the years ended December 31 2019 and 2018, the net unrealized gains (losses) for equity securities held at December 31, 2019 and 2018 were \$29 million and \$(25) million, respectively.

12. Postemployment benefit plans

We provide defined benefit pension plans, defined contribution plans and/or other postretirement benefit plans (retirement health care and life insurance) to employees in many of our locations throughout the world. Our defined benefit pension plans provide a benefit based on years of service and/or the employee's average earnings near retirement. Our defined contribution plans allow employees to contribute a portion of their salary to help save for retirement, and in most cases, we provide a matching contribution. The benefit obligation related to our non-U.S. defined benefit pension plans are for employees located primarily in Europe, Japan and Brazil. For other postretirement benefits (OPEB), substantially all of our benefit obligation is for employees located in the United States.

Our U.S. defined benefit pension plans for support and management employees were frozen for certain employees on December 31, 2010 and were frozen for the remaining employees on December 31, 2019. On the respective transition dates employees move to a retirement benefit that provides a frozen pension benefit and a 401(k) plan that will include a matching contribution and a new annual employer contribution.

In the first quarter of 2017, we announced the closure of our Gosselies, Belgium facility. This announcement impacted certain employees that participated in a defined benefit pension plan and resulted in a net loss of \$20 million in the first quarter of 2017 for curtailment and termination benefits.

All curtailments and termination benefits were recognized in Other income (expense) in Statement 1.

A. Obligations, assets and funded status

	U.S. Pension Benefits		Non-U.S. Pension Benefits		Other Postretirement Benefits	
	2019	2018	2019	2018	2019	2018
Weighted-average assumptions used to determine benefit obligation, end of year:						
Discount rate	3.2%	4.2%	1.9%	2.5%	3.2%	4.2%
Rate of compensation increase ¹	—%	4.0%	2.0%	3.0%	4.0%	4.0%

¹ Effective December 31, 2019, all U.S. pension benefits were frozen, and accordingly this assumption is no longer applicable.

The assumed discount rate is used to discount future benefit obligations back to today's dollars. The U.S. discount rate is based on a benefit cash flow-matching approach and represents the rate at which our benefit obligations could effectively be settled as of our measurement date, December 31. The benefit cash flow-matching approach involves analyzing Caterpillar's projected cash flows against a high quality bond yield curve, calculated using a wide population of corporate Aa bonds available on the measurement date. A similar process is used to determine the assumed discount rate for our most significant non-U.S. plans. This rate is sensitive to changes in interest rates. A decrease in the discount rate would increase our obligation and future expense.

(Millions of dollars)	U.S. Pension Benefits		Non-U.S. Pension Benefits		Other Postretirement Benefits	
	2019	2018	2019	2018	2019	2018

Amounts recognized in Accumulated other comprehensive income (pre-tax) consist of:						
Prior service cost (credit).....	\$ —	\$ —	\$ 16	\$ 20	\$ (78)	\$ (126)

¹ The Liability for postemployment benefits reported in Statement 3 includes our liability for other postemployment benefits and our liability for non-qualified deferred compensation plans. For 2019, these liabilities were \$60 million and \$432 million, respectively. For 2018, these liabilities were \$119 million and \$351 million, respectively.

(Millions of dollars)	U.S. Pension Benefits		Non-U.S. Pension Benefits	
	2019	2018	2019	2018
Pension plans with projected benefit obligation in excess of plan assets:				
Projected benefit obligation	\$ 14,037	\$ 15,614	\$ 2,010	\$ 1,821
Accumulated benefit obligation	\$ 14,037	\$ 15,541	\$ 1,896	\$ 1,723
Fair value of plan assets	\$ 12,039	\$ 12,349	\$ 1,384	\$ 1,189
Pension plans with accumulated benefit obligation in excess of plan assets:				
Projected benefit obligation	\$ 14,037	\$ 15,614	\$ 1,875	\$ 1,655
Accumulated benefit obligation	\$ 14,037	\$ 15,541	\$ 1,799	\$ 1,603
Fair value of plan assets	\$ 12,039	\$ 12,349	\$ 1,269	\$ 1,047

The accumulated postretirement benefit obligation exceeds plan assets for all of our other postretirement benefit plans for all years presented.

B. Net periodic benefit cost

(Millions of dollars)	U.S. Pension Benefits			Non-U.S. Pension Benefits			Other Postretirement Benefits		
	2019	2018	2017	2019	2018	2017	2019	2018	2017
Components of net periodic benefit cost:									
Service cost.....	\$ 115	\$ 125	\$ 115	\$ 80	\$ 89	\$ 95	\$ 80	\$ 83	\$ 78
Interest cost.....	600	534	525	94	96	101	136	125	130
Expected return on plan assets ...	(721)	(808)	(734)	(148)	(221)	(231)	(18)	(32)	(37)
Curtailments, settlements and termination benefits.....	(1)	—	9	(7)	(33)	15	—	(2)	—
Amortization of prior service cost (credit) ¹	—	—	—	—	—	(2)	(40)	(36)	(23)
Actuarial loss (gain) ²	72	534	481	90	111	(195)	306	(150)	15
Net Periodic benefit cost (benefit) ³	\$ 65	\$ 385	\$ 396	\$ 109	\$ 42	\$ (217)	\$ 464	\$ (12)	\$ 163
Other changes in plan assets and benefit obligations recognized in other comprehensive income (pre-tax):									
Current year prior service cost (credit).....	\$ —	\$ —	\$ —	\$ (4)	\$ 20	\$ 3	\$ 8	\$ (20)	\$ (77)
Amortization of prior service (cost) credit ¹	—	—	—	—	—	2	40	36	23
Total recognized in other comprehensive income.....	—	—	—	(4)	20	5	48	16	(54)
Total recognized in net periodic cost and other comprehensive income.....	\$ 65	\$ 385	\$ 396	\$ 105	\$ 62	\$ (212)	\$ 512	\$ 4	\$ 109
Weighted-average assumptions used to determine net periodic benefit cost:									
Discount rate used to measure service cost.....	4.3%	3.7%	4.2%	2.5%	2.3%	2.4%	4.1%	3.5%	3.9%
Discount rate used to measure interest cost.....	3.9%	3.2%	3.3%	2.3%	2.2%	2.3%	3.9%	3.2%	3.3%
Expected rate of return on plan assets ⁴	5.9%	6.3%	6.7%	3.8%	5.2%	5.9%	7.2%	7.5%	7.5%
Rate of compensation increase ...	4.0%	4.0%	4.0%	3.0%	4.0%	4.0%	4.1%	4.0%	4.0%

¹ The estimated amount of prior service cost (credit) that will be amortized from Accumulated other comprehensive income (loss) at December 31, 2019 into net periodic benefit cost (pre-tax) in 2020 is a credit of \$38 million for Other Postretirement Benefits.

² Actuarial loss (gain) represents the effects of actual results differing from our assumptions and the effects of changing assumptions. We recognize actuarial loss (gain) immediately through earnings upon the annual remeasurement in the fourth quarter, or on an interim basis as triggering events warrant remeasurement.

³ The service cost component is included in Operating costs and all other components are included in Other income (expense) in Statement 1.

⁴ The weighted-average rates for 2020 are 5.1 percent and 3.2 percent for U.S. and non-U.S. pension plans, respectively.

The discount rates used in the determination of our service and interest cost components are determined by utilizing a full yield curve approach which applies specific spot rates along the yield curve used in the determination of the benefit obligation to the relevant projected cash flows.

Our U.S. expected long-term rate of return on plan assets is based on our estimate of long-term passive returns for equities and fixed income securities weighted by the allocation of our pension assets. Based on historical performance, we increase the passive returns due to our active management of the plan assets. To arrive at our expected long-term return, the amount added for active management was 0.40 percent for 2019, 0.75 percent for 2018 and 0.80 percent for 2017. A similar process is used to determine this rate for our non-U.S. plans.

The assumed health care trend rate represents the rate at which health care costs are assumed to increase. We assumed a weighted-average increase of 6.1 percent in our calculation of 2019 benefit expense. We expect a weighted-average increase of 6.1 percent during 2020. The 2020 rates are assumed to decrease gradually to the ultimate health care trend rate of 5 percent in 2025. This rate represents 3 percent general inflation plus 2 percent additional health care inflation.

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one-percentage-point change in assumed health care cost trend rates would have had the following effects:

(Millions of dollars)	One-percentage-point increase	One-percentage-point decrease
Effect on 2019 service and interest cost components of other postretirement benefit cost.....	\$ 13	\$ (11)
Effect on accumulated postretirement benefit obligation	\$ 158	\$ (133)

C. Expected contributions and benefit payments

Information about expected contributions and benefit payments for pension and other postretirement benefit plans is as follows:

(Millions of dollars)	2020						
Expected employer contributions:							
U.S. Pension Benefits	\$ 40						
Non-U.S. Pension Benefits	\$ 105						
Other Postretirement Benefits.....	\$ 135						
Expected benefit payments:	2020	2021	2022	2023	2024	2025-2029	Total
U.S. Pension Benefits	\$ 1,020	\$ 1,010	\$ 1,010	\$ 1,010	\$ 1,010	\$ 5,005	\$ 10,065
Non-U.S. Pension Benefits	\$ 280	\$ 175	\$ 180	\$ 185	\$ 190	\$ 1,055	\$ 2,065
Other Postretirement Benefits.....	\$ 290	\$ 285	\$ 280	\$ 275	\$ 270	\$ 1,340	\$ 2,740
Expected Medicare Part D subsidy:	\$ 9	\$ 9	\$ 9	\$ 8	\$ 8	\$ 35	\$ 78

The above table reflects the total expected employer contributions and expected benefits to be paid from the plan or from company assets and does not include the participants' share of the cost. The expected benefit payments for our other postretirement benefits include payments for prescription drug benefits. The above table also includes Medicare Part D subsidy amounts expected to be received by the company which will offset other postretirement benefit payments.

D. Plan assets

In general, our strategy for both the U.S. and non-U.S. pensions includes ongoing alignment of our investments to our liabilities, while reducing risk in our portfolio. The current U.S. pension target asset allocation is 70 percent fixed income and 30 percent equities. This target allocation will be revisited periodically to ensure it reflects our overall objectives. The non-U.S. pension weighted-average target allocations are 79 percent fixed income, 12 percent equities, 5 percent real estate and 4 percent other. The target allocations for each plan vary based upon local statutory requirements, demographics of plan participants and funded status. The non-U.S. plan assets are primarily invested in non-U.S. securities.

Our target allocation for the other postretirement benefit plans is 70 percent equities and 30 percent fixed income.

The U.S. plans are rebalanced to within the appropriate target asset allocation ranges on a monthly basis. The frequency of rebalancing for the non-U.S. plans varies depending on the plan. As a result of our diversification strategies, there are no significant concentrations of risk within the portfolio of investments.

The use of certain derivative instruments is permitted where appropriate and necessary for achieving overall investment policy objectives. The plans do not use derivative contracts for speculative purposes.

The accounting guidance on fair value measurements specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques (Level 1, 2 and 3). See Note 18 for a discussion of the fair value hierarchy.

Fair values are determined as follows:

- Equity securities are primarily based on valuations for identical instruments in active markets.
- Fixed income securities are primarily based upon models that take into consideration such market-based factors as recent sales, risk-free yield curves and prices of similarly rated bonds.
- Real estate is stated at the fund's net asset value or at appraised value.
- Cash, short-term instruments and other are based on the carrying amount, which approximates fair value, or the fund's net asset value.

The fair value of the pension and other postretirement benefit plan assets by category is summarized below:

(Millions of dollars)	December 31, 2019				
	Level 1	Level 2	Level 3	Measured at NAV	Total Assets at Fair Value

E. Defined contribution plans

We have both U.S. and non-U.S. employee defined contribution plans to help employees save for retirement. Our primary U.S. 401(k) plan allows eligible employees to contribute a portion of their cash compensation to the plan on a tax-deferred basis. Employees with frozen defined benefit pension accruals are eligible for matching contributions equal to 100 percent of employee contributions to the plan up to 6 percent of cash compensation and an annual employer contribution that ranges from 3 to 5 percent of cash compensation (depending on years of service and age). Employees that were still accruing benefits under a defined benefit pension plan up to December 31, 2019 were eligible for matching contributions equal to 50 percent of employee contributions up to 6 percent of cash compensation. All our U.S. defined benefit pension plans were frozen on December 31, 2019 for remaining employees still accruing a benefit. Starting in 2020, these employees will receive matching contributions equal to 100 percent of employee contributions to the plan up to 6 percent of cash compensation and an annual employer contribution that ranges from 3 to 5 percent of cash compensation (depending on years of service and age).

These 401(k) plans include various investment funds, including a non-leveraged employee stock ownership plan (ESOP). As of December 31, 2019 and 2018, the ESOP held 14.9 million and 17.2 million shares, respectively. All of the shares held by the ESOP were allocated to participant accounts. Dividends paid to participants are automatically reinvested into company shares unless the participant elects to have all or a portion of the dividend paid to the participant. Various other U.S. and non-U.S. defined contribution plans generally allow eligible employees to contribute a portion of their cash compensation to the plans, and in most cases, we provide a matching contribution to the funds.

Total company costs related to U.S. and non-U.S. defined contribution plans were as follows:

(Millions of dollars)	December 31,		
	2019	2018	2017
U.S. plans	\$ 414	\$ 271	\$ 375
Non-U.S. plans	83	89	73
	<u>\$ 497</u>	<u>\$ 360</u>	<u>\$ 448</u>

13. Short-term borrowings

Debentures—\$500 million of 4.750% due 2064	4.81%	494	494	
Debentures—\$246 million of 7.375% due 2097 ²	7.51%	241	241	
Finance lease obligations & other ³		128	497	
Total Machinery, Energy & Transportation		9,141	8,005	
Financial Products:				
Medium-term notes		16,719	16,592	
Other		421	403	
Total Financial Products		17,140	16,995	
Total long-term debt due after one year		\$ 26,281	\$ 25,000	

¹ Effective yield to maturity includes the impact of discounts, premiums and debt issuance costs.

² Redeemable at our option in whole or in part at any time at a redemption price equal to the greater of (i) 100% of the principal amount or (ii) the discounted present value of the notes or debentures, calculated in accordance with the terms of such notes or debentures.

³ 2018 includes \$360 million related to a financing transaction in Japan entered into in 2017 that was removed in 2019 due to the new lease accounting guidance adopted January 1, 2019. See Note 1J for additional information.

All outstanding notes and debentures are unsecured and rank equally with one another.

On September 19, 2019, we issued \$1.0 billion of 3.250% Senior Notes due 2049 and \$500 million of 2.600% Senior Notes due 2029.

Cat Financial's medium-term notes are offered by prospectus and are issued through agents at fixed and floating rates. Medium-term notes due after one year have a weighted average interest rate of 2.7% with remaining maturities up to 8 years at December 31, 2019.

The above table includes \$28.5 million of medium-term notes that can be called at par.

The aggregate amounts of maturities of long-term debt during each of the years 2020 through 2024, including amounts due within one year and classified as current, are:

(Millions of dollars)	December 31,				
	2020	2021	2022	2023	2024
Machinery, Energy & Transportation.....	\$ 16	\$ 1,403	\$ 513	\$ 93	\$ 1,007
Financial Products	6,194	7,732	4,744	2,167	2,157
	<u>\$ 6,210</u>	<u>\$ 9,135</u>	<u>\$ 5,257</u>	<u>\$ 2,260</u>	<u>\$ 3,164</u>

Interest paid on short-term and long-term borrowings for 2019, 2018 and 2017 was \$1,057 million, \$1,088 million and \$1,131 million, respectively. Interest paid in 2017 includes a prepayment fee of \$58 million related to the early retirement of our 7.90% senior notes due December 2018.

Medium-term notes of \$1.50 billion matured January 10, 2020 and were excluded from Current maturities of long-term debt as of December 31, 2019 due to an issuance on January 9, 2020 of two \$750 million medium-term notes, maturing in 2021 and 2022. The table above reflects the maturity dates of the new medium-term notes.

Please refer to Note 18 and Table III for fair value information on long-term debt.

15. Credit commitments

(Millions of dollars)	December 31, 2019		
	Consolidated	Machinery, Energy & Transportation	Financial Products
Credit lines available:			
Global credit facilities	\$ 10,500	\$ 2,751	\$ 7,749
Other external.....	4,999	194	4,805
Total credit lines available	15,499	2,945	12,554
Less: Commercial paper outstanding	(4,168)	—	(4,168)
Less: Utilized credit.....	(1,247)	—	(1,247)
Available credit.....	<u>\$ 10,084</u>	<u>\$ 2,945</u>	<u>\$ 7,139</u>

We have three global credit facilities with a syndicate of banks totaling \$10.50 billion (Credit Facility) available in the aggregate to both Caterpillar and Cat Financial for general liquidity purposes. Based on management's allocation decision, which can be revised from time to time, the portion of the Credit Facility available to ME&T as of December 31, 2019 was \$2.75 billion. Information on our Credit Facility is as follows:

- The 364-day facility of \$3.15 billion (of which \$0.82 billion is available to ME&T) expires in September 2020.
- The three-year facility, as amended and restated in September 2019, of \$2.73 billion (of which \$0.72 billion is available to ME&T) expires in September 2022.
- The five-year facility, as amended and restated in September 2019, of \$4.62 billion (of which \$1.21 billion is available to ME&T) expires in September 2024.

Other consolidated credit lines with banks as of December 31, 2019 totaled \$5.00 billion. These committed and uncommitted credit lines, which may be eligible for renewal at various future dates or have no specified expiration date, are used primarily by our subsidiaries for local funding requirements. Caterpillar or Cat Financial may guarantee subsidiary borrowings under these lines.

At December 31, 2019, Caterpillar's consolidated net worth was \$14.63 billion, which was above the \$9.00 billion required under the Credit Facility. The consolidated net worth is defined as the consolidated shareholders' equity including preferred stock but excluding the pension and other postretirement benefits balance within Accumulated other comprehensive income (loss).

At December 31, 2019, Cat Financial's covenant interest coverage ratio was 1.77 to 1. This is above the 1.15 to 1 minimum ratio, calculated as (1) profit excluding income taxes, interest expense and net gain/(loss) from interest rate derivatives to (2) interest expense calculated at the end of each calendar quarter for the rolling four quarter period then most recently ended, required by the Credit Facility.

In addition, at December 31, 2019, Cat Financial's six-month covenant leverage ratio was 7.65 to 1 and year-end covenant leverage ratio was 7.46 to 1. This is below the maximum ratio of debt to net worth of 10 to 1, calculated (1) on a monthly basis as the average of the leverage ratios determined on the last day of each of the six preceding calendar months and (2) at each December 31, required by the Credit Facility.

In the event Caterpillar or Cat Financial does not meet one or more of their respective financial covenants under the Credit Facility in the future (and are unable to obtain a consent or waiver), the syndicate of banks may terminate the commitments allocated to the party that does not meet its covenants. Additionally, in such event, certain of Cat Financial's other lenders under other loan agreements where similar financial covenants or cross default provisions are applicable may, at their election, choose to pursue remedies under those loan agreements, including accelerating the repayment of outstanding borrowings. At December 31, 2019, there were no borrowings under the Credit Facility.

16. Profit per share

Computations of profit per share:

(Dollars in millions except per share data)

	2019	2018	2017
Profit for the period (A) ¹	\$ 6,093	\$ 6,147	\$ 754
Determination of shares (in millions):			
Weighted average number of common shares outstanding (B)	561.6	591.4	591.8
Shares issuable on exercise of stock awards, net of shares assumed to be purchased out of proceeds at average market price	5.9	8.0	7.5
Average common shares outstanding for fully diluted computation (C) ²	567.5	599.4	599.3
Profit per share of common stock:			
Assuming no dilution (A/B)	\$ 10.85	\$ 10.39	\$ 1.27
Assuming full dilution (A/C) ²	\$ 10.74	\$ 10.26	\$ 1.26
Shares outstanding as of December 31 (in millions)	550.1	575.5	597.6

¹ Profit attributable to common shareholders.

² Diluted by assumed exercise of stock-based compensation awards using the treasury stock method.

For the year ended December 31, 2019 and 2018, 3.0 million and 1.5 million outstanding stock options, respectively, were excluded from the computation of diluted earnings per share because the effect would have been antidilutive. For 2017, no outstanding SARs and stock options were excluded from the computation of diluted earnings per share because all outstanding SARs and stock options had a dilutive effect.

In July 2018, the Board approved a new share repurchase authorization of up to \$10.0 billion of Caterpillar common stock effective January 1, 2019, with no expiration.

During 2019 and 2018, we repurchased 30.6 million and 27.7 million shares of Caterpillar common stock, respectively, at an aggregate cost of \$4.0 billion and \$3.8 billion, respectively. These purchases were made through a combination of accelerated stock repurchase agreements with third-party financial institutions and open market transactions.

We did not repurchase any Caterpillar common stock during 2017.

17. Accumulated other comprehensive income (loss)

Comprehensive income and its components are presented in Statement 2. Changes in Accumulated other comprehensive income (loss), net of tax, included in Statement 4, consisted of the following:

(Millions of dollars)	Foreign currency translation	Pension and other postretirement benefits	Derivative financial instruments	Available- for-sale securities	Total
Balance at December 31, 2016	<u>\$ (1,970)</u>	<u>\$ 14</u>	<u>\$ (115)</u>	<u>\$ 32</u>	<u>\$ (2,039)</u>
Other comprehensive income (loss) before reclassifications	752	48	(3)	41	838
Amounts reclassified from accumulated other comprehensive (income) loss	13	(16)	77	(65)	9
Other comprehensive income (loss)	<u>765</u>	<u>32</u>	<u>74</u>	<u>(24)</u>	<u>847</u>
Balance at December 31, 2017	<u>\$ (1,205)</u>	<u>\$ 46</u>	<u>\$ (41)</u>	<u>\$ 8</u>	<u>\$ (1,192)</u>
Adjustment to adopt recognition and measurement of financial assets and liabilities guidance	—	—	—	(11)	(11)
Balance at January 1, 2018	<u>(1,205)</u>	<u>46</u>	<u>(41)</u>	<u>(3)</u>	<u>(1,203)</u>
Other comprehensive income (loss) before reclassifications	(397)	(6)	61	(12)	(354)
Amounts reclassified from accumulated other comprehensive (income) loss	1	(28)	(100)	—	(127)
Other comprehensive income (loss)	<u>(396)</u>	<u>(34)</u>	<u>(39)</u>	<u>(12)</u>	<u>(481)</u>
Balance at December 31, 2018	<u>\$ (1,601)</u>	<u>\$ 12</u>	<u>\$ (80)</u>	<u>\$ (15)</u>	<u>\$ (1,684)</u>
Adjustment to adopt new accounting guidance related to reclassification of certain tax effects from accumulated other comprehensive income	<u>98</u>	<u>19</u>	<u>(9)</u>	<u>—</u>	<u>108</u>
Balance at January 1, 2019	<u>(1,503)</u>	<u>31</u>	<u>(89)</u>	<u>(15)</u>	<u>(1,576)</u>
Other comprehensive income (loss) before reclassifications	16	(4)	43	35	90
Amounts reclassified from accumulated other comprehensive (income) loss	—	(30)	(51)	—	(81)
Other comprehensive income (loss)	<u>16</u>	<u>(34)</u>	<u>(8)</u>	<u>35</u>	<u>9</u>
Balance at December 31, 2019	<u>\$ (1,487)</u>	<u>\$ (3)</u>	<u>\$ (97)</u>	<u>\$ 20</u>	<u>\$ (1,567)</u>

The effect of the reclassifications out of Accumulated other comprehensive income (loss) on Statement 1 is as follows:

(Millions of dollars)	Classification of income (expense)	Year ended December 31,		
		2019	2018	2017
Foreign currency translation:				
Gain (loss) on foreign currency translation	Other income (expense)	\$ —	\$ (1)	\$ (13)

Total reclassifications from Accumulated other comprehensive income (loss)		<u>\$ 81</u>	<u>\$ 127</u>	<u>\$ (9)</u>

18. Fair value disclosures

A. Fair value measurements

The guidance on fair value measurements defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. This guidance also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. In accordance with this guidance, fair value measurements are classified under the following hierarchy:

- **Level 1** – Quoted prices for identical instruments in active markets.
- **Level 2** – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.
- **Level 3** – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

When available, we use quoted market prices to determine fair value, and we classify such measurements within Level 1. In some cases where market prices are not available, we make use of observable market based inputs to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon valuations in which one or more significant inputs are unobservable, including internally developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Fair value measurement includes the consideration of nonperformance risk. Nonperformance risk refers to the risk that an obligation (either by a counterparty or Caterpillar) will not be fulfilled. For financial assets traded in an active market (Level 1 and certain Level 2), the nonperformance risk is included in the market price. For certain other financial assets and liabilities (certain Level 2 and Level 3), our fair value calculations have been adjusted accordingly.

Investments in debt and equity securities

We have investments in certain debt and equity securities, primarily at Insurance Services, that are recorded at fair value. Fair values for our U.S. treasury bonds and large capitalization value and smaller company growth equity securities are based upon valuations for identical instruments in active markets. Fair values for other government bonds, corporate bonds and mortgage-backed debt securities are based upon models that take into consideration such market-based factors as recent sales, risk-free yield curves and prices of similarly rated bonds.

In addition, Insurance Services has an equity investment in a real estate investment trust (REIT) which is recorded at fair value based on the net asset value (NAV) of the investment and is not classified within the fair value hierarchy.

See Note 11 for additional information on our investments in debt and equity securities.

Derivative financial instruments

The fair value of interest rate contracts is primarily based on models that utilize the appropriate market-based forward swap curves and zero-coupon interest rates to determine discounted cash flows. The fair value of foreign currency and commodity forward, option and cross currency contracts is based on a valuation model that discounts cash flows resulting from the differential between the contract price and the market-based forward rate.

Assets and liabilities measured on a recurring basis at fair value, primarily related to Financial Products, included in Statement 3 as of December 31, 2019 and 2018 are summarized below:

	December 31, 2019				
(Millions of dollars)	Level 1	Level 2	Level 3	Measured at NAV	Total Assets / Liabilities, at Fair Value

In addition to the amounts above, Cat Financial impaired loans are subject to measurement at fair value on a nonrecurring basis and are classified as Level 3 measurements. A loan is considered impaired when management determines that collection of contractual amounts due is not probable. In these cases, an allowance for credit losses may be established based either on the present value of expected future cash flows discounted at the receivables' effective interest rate, the fair value of the collateral for collateral-dependent receivables, or the observable market price of the receivable. In determining collateral value, Cat Financial estimates the current fair market value of the collateral less selling costs. Cat Financial had impaired loans with a fair value of \$343 million and \$469 million for the years ended December 31, 2019 and 2018, respectively.

B. Fair values of financial instruments

In addition to the methods and assumptions we use to record the fair value of financial instruments as discussed in the Fair value measurements section above, we used the following methods and assumptions to estimate the fair value of our financial instruments:

Cash and short-term investments

Carrying amount approximated fair value.

Restricted cash and short-term investments

Carrying amount approximated fair value. Restricted cash and short-term investments are included in Prepaid expenses and other current assets in Statement 3.

Finance receivables

Fair value was estimated by discounting the future cash flows using current rates, representative of receivables with similar remaining maturities.

Wholesale inventory receivables

Fair value was estimated by discounting the future cash flows using current rates, representative of receivables with similar remaining maturities.

Short-term borrowings

Carrying amount approximated fair value.

Long-term debt

Fair value for fixed and floating rate debt was estimated based on quoted market prices.

Guarantees

The fair value of guarantees is based upon our estimate of the premium a market participant would require to issue the same guarantee in a stand-alone arms-length transaction with an unrelated party. If quoted or observable market prices are not available, fair value is based upon internally developed models that utilize current market-based assumptions.

Fair values of our financial instruments were as follows:

TABLE III—Fair Values of Financial Instruments							
(Millions of dollars)	2019		2018		Fair Value Levels	Reference	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value			
Assets at December 31,

¹ Represents finance leases and failed sale leasebacks of \$7,800 million at December 31, 2019 and finance leases of \$7,463 million at December 31, 2018, respectively.

19. Concentration of credit risk

Financial instruments with potential credit risk consist primarily of trade and finance receivables and short-term and long-term investments. Additionally, to a lesser extent, we have a potential credit risk associated with counterparties to derivative contracts.

Trade receivables are primarily short-term receivables from independently owned and operated dealers and customers which arise in the normal course of business. We perform regular credit evaluations of our dealers and customers. Collateral generally is not required, and the majority of our trade receivables are unsecured. We do, however, when deemed necessary, make use of various devices such as security agreements and letters of credit to protect our interests. No single dealer or customer represents a significant concentration of credit risk.

Finance receivables and wholesale inventory receivables primarily represent receivables under installment sales contracts, receivables arising from leasing transactions and notes receivable. We generally maintain a secured interest in the equipment financed. No single customer or dealer represents a significant concentration of credit risk.

Short-term and long-term investments are held with high quality institutions and, by policy, the amount of credit exposure to any one institution is limited. Long-term investments, primarily included in Other assets in Statement 3, are comprised primarily of available-for-sale debt securities and equity securities at Insurance Services.

For derivative contracts, collateral is generally not required of the counterparties or of our company. The company generally enters into International Swaps and Derivatives Association (ISDA) master netting agreements within ME&T and Financial Products that permit the net settlement of amounts owed under their respective derivative contracts. Our exposure to credit loss in the event of nonperformance by the counterparties is limited to only those gains that we have recorded, but for which we have not yet received cash payment. The master netting agreements reduce the amount of loss the company would incur should the counterparties fail to meet their obligations. At December 31, 2019 and 2018, the maximum exposure to credit loss was \$116 million and \$131 million, respectively, before the application of any master netting agreements.

Please refer to Note 18 and Table III above for fair value information.

20. Leases

A. Lessee arrangements

We lease certain property, information technology equipment, warehouse equipment, vehicles and other equipment through operating leases. We recognize a lease liability and corresponding right-of-use asset based on the present value of lease payments. To determine the present value of lease payments for most of our leases, we use our incremental borrowing rate based on information available on the lease commencement date. For certain property and information technology equipment leases, we have elected to separate payments for lease components from non-lease components. For all other leases, we have elected not to separate payments for lease and non-lease components. Our lease agreements may include options to extend or terminate the lease. When it is reasonably certain that we will exercise that option, we have included the option in the recognition of right-of-use assets and lease liabilities. We have elected not to recognize right-of-use assets or lease liabilities for leases with a term of twelve months or less.

Our finance leases are not significant and therefore are not included in the following disclosures.

The components of lease costs were as follows:

(Millions of dollars)	
	Year ended December 31
	2019
Operating lease cost.....	\$ 232
Short-term lease cost.....	\$ 57

Operating lease right-of-use assets are recognized in Other assets in Statement 3. The operating lease liabilities are recognized in Other current liabilities and Other liabilities.

Supplemental information related to leases was as follows:

(Millions of dollars)		December 31, 2019	January 1, 2019
Operating Leases			
Other assets	\$	624	\$ 713
Other current liabilities	\$	173	\$ 209
Other liabilities	\$	461	\$ 511
Weighted average remaining lease term			
Operating leases		7 years	7 years
Weighted average discount rates			
Operating leases		2%	2%

Maturities of operating lease liabilities at December 31, 2019 and minimum payments for operating leases having initial or remaining non-cancelable terms in excess of one year at December 31, 2018 were as follows:

(Millions of dollars)	December 31, 2019
Amounts Due In	
2020	\$ 185
2021	139
2022	86
2023	64
2024	46
Thereafter	175
Total lease payments	695
Less: Imputed interest	(61)
Total	\$ 634
December 31, 2018

2020	154
2021	111
2022	67
2023	50
Thereafter	185
Total	\$ 772

Supplemental cash flow information related to leases was as follows:

(Millions of dollars)	Year ended December 31	
	2019	
Cash paid for amounts included in the measurement of lease liabilities		
Operating cash flows from operating leases	\$	224
Right-of-use assets obtained in exchange for lease obligations:		
Operating leases	\$	122

B. Lessor arrangements

We lease Caterpillar machinery, engines and other equipment to customers and dealers around the world, primarily through Cat Financial. Cat Financial leases to customers primarily through sales-type (non-tax) leases, where the lessee for tax purposes is considered to be the owner of the equipment during the term of the lease. Cat Financial also offers tax leases that are classified as either operating or direct finance leases for financial accounting purposes, depending on the characteristics of the lease. For tax purposes, Cat Financial is considered the owner of the equipment. Our lease agreements may include options for the lessee to purchase the underlying asset at the end of the lease term for either a stated fixed price or fair market value.

The residual value of Cat Financial's leased equipment is determined based on its estimated end-of-term market value. We estimate the residual value of leased equipment at the inception of the lease based on a number of factors, including historical wholesale market sales prices, past remarketing experience and any known significant market/product trends. The following critical factors are also considered in our residual value estimates: lease term, market size and demand, total expected hours of usage, machine configuration, application, location, model changes, quantities, third-party residual guarantees and contractual customer purchase options.

During the term of our leases, we monitor residual values. For operating leases, adjustments to depreciation expense reflecting changes in residual value estimates are recorded prospectively on a straight-line basis. For finance leases, residual value adjustments are recognized through a reduction of finance revenue over the remaining lease term.

See Note 7 for contractual maturities of finance lease receivables (sales-type and direct finance leases).

The carrying amount of equipment leased to others, included in Property, plant and equipment - net in Statement 3, under operating leases was as follows:

(Millions of dollars)	December 31,	
	2019	2018
Equipment leased to others - at original cost	\$ 6,208	\$ 6,015
Less: Accumulated depreciation	(1,960)	(1,744)
Equipment leased to others - net	<u>\$ 4,248</u>	<u>\$ 4,271</u>

Payments due for operating leases at December 31, 2019 and scheduled minimum rental payments for operating leases at December 31, 2018 were as follows:

(Millions of dollars)

December 31, 2019

2020	2021	2022	2023	2024	Thereafter	Total
\$861	\$558	\$299	\$149	\$74	\$70	\$2,011

December 31, 2018

2019	2020	2021	2022	2023	Thereafter	Total
\$896	\$574	\$314	\$158	\$71	\$69	\$2,082

Revenues from finance and operating leases, primarily included in Revenues of Financial Products on Statement 1, were as follows:

(Millions of dollars)

	Year ended December 31
	2019
Finance lease revenue.....	\$ 521
Operating lease revenue	1,248
Total	<u>\$ 1,769</u>

Revenues are presented net of sales and other related taxes.

21. Guarantees and product warranty

Caterpillar dealer performance guarantees

We have provided an indemnity to a third-party insurance company for potential losses related to performance bonds issued on behalf of Caterpillar dealers. The bonds have varying terms and are issued to insure governmental agencies against nonperformance by certain dealers. We also provided guarantees to third-parties related to the performance of contractual obligations by certain Caterpillar dealers. These guarantees have varying terms and cover potential financial losses incurred by the third parties resulting from the dealers' nonperformance.

In 2016, we provided a guarantee to an end user related to the performance of contractual obligations by a Caterpillar dealer. Under the guarantee, which expires in 2025, non-performance by the Caterpillar dealer could require Caterpillar to satisfy the contractual obligations by providing goods, services or financial compensation to the end user up to an annual designated cap.

Supplier consortium performance guarantees

We have provided guarantees to a customer in Brazil and a customer in Europe related to the performance of contractual obligations by supplier consortiums to which our Caterpillar subsidiaries are members. The guarantees cover potential damages incurred by the customers resulting from the supplier consortiums' non-performance. The damages are capped except for failure of the consortiums to meet certain obligations outlined in the contract in the normal course of business. The guarantee for the customer in Europe will expire when the supplier consortium performs all of its contractual obligations, which are expected to be completed in 2022. The agreement with the customer in Brazil was terminated during second quarter of 2019. No payments were made under the guarantee.

We have dealer performance guarantees and third-party performance guarantees that do not limit potential payment to end users related to indemnities and other commercial contractual obligations. In addition, we have entered into contracts involving industry standard indemnifications that do not limit potential payment. For these unlimited guarantees, we are unable to estimate a maximum potential amount of future payments that could result from claims made.

No significant loss has been experienced or is anticipated under any of these guarantees. At December 31, 2019 and 2018, the related recorded liability was \$5 million and \$8 million, respectively. The maximum potential amount of future payments (undiscounted and without reduction for any amounts that may possibly be recovered under recourse or collateralized provisions) we could be required to make under the guarantees at December 31 are as follows:

(Millions of dollars)	2019	2018
Caterpillar dealer performance guarantees.....	\$ 1,150	\$ 1,244
Supplier consortium performance guarantees.....	238	527
Other guarantees.....	221	207
Total guarantees	<u>\$ 1,609</u>	<u>\$ 1,978</u>

Cat Financial provides guarantees to repurchase certain loans of Caterpillar dealers from a special-purpose corporation (SPC) that qualifies as a variable interest entity. The purpose of the SPC is to provide short-term working capital loans to Caterpillar dealers. This SPC issues commercial paper and uses the proceeds to fund its loan program. Cat Financial has a loan purchase agreement with the SPC that obligates Cat Financial to purchase certain loans that are not paid at maturity. Cat Financial receives a fee for providing this guarantee, which provides a source of liquidity for the SPC. Cat Financial is the primary beneficiary of the SPC as its guarantees result in Cat Financial having both the power to direct the activities that most significantly impact the SPC's economic performance and the obligation to absorb losses, and therefore Cat Financial has consolidated the financial statements of the SPC. As of December 31, 2019 and 2018, the SPC's assets of \$1,453 million and \$1,149 million, respectively, were primarily comprised of loans to dealers, and the SPC's liabilities of \$1,452 million and \$1,148 million, respectively, were primarily comprised of commercial paper. The assets of the SPC are not available to pay Cat Financial's creditors. Cat Financial may be obligated to perform under the guarantee if the SPC experiences losses. No loss has been experienced or is anticipated under this loan purchase agreement.

Cat Financial has commitments to extend credit to customers and Caterpillar dealers through lines of credit and other pre-approved credit arrangements. Cat Financial applies the same credit policies and approval process for these commitments to extend credit as we do for other financing. Collateral is not required for these commitments, but if credit is extended, collateral may be required upon funding. The amount of unused commitments to extend credit to Caterpillar dealers was \$11,154 million at December 31, 2019. The amount of unused commitments to extend credit to customers was \$693 million at December 31, 2019. A significant portion of these commitments is not expected to be fully drawn upon; therefore, the total commitment amounts do not represent a future cash requirement. Cat Financial generally has the right to unconditionally cancel, alter, or amend the terms of these commitments at any time.

Our product warranty liability is determined by applying historical claim rate experience to the current field population and dealer inventory. Generally, historical claim rates are based on actual warranty experience for each product by machine model/ engine size by customer or dealer location (inside or outside North America). Specific rates are developed for each product shipment month and are updated monthly based on actual warranty claim experience.

(Millions of dollars)	2019	2018
Warranty liability, January 1.....	\$ 1,391	\$ 1,419
Reduction in liability (payments)	(903)	(783)
Increase in liability (new warranties)	1,053	755
Warranty liability, December 31	<u>\$ 1,541</u>	<u>\$ 1,391</u>

22. Environmental and legal matters

The Company is regulated by federal, state and international environmental laws governing our use, transport and disposal of substances and control of emissions. In addition to governing our manufacturing and other operations, these laws often impact the development of our products, including, but not limited to, required compliance with air emissions standards applicable to internal combustion engines. We have made, and will continue to make, significant research and development and capital expenditures to comply with these emissions standards.

We are engaged in remedial activities at a number of locations, often with other companies, pursuant to federal and state laws. When it is probable we will pay remedial costs at a site, and those costs can be reasonably estimated, the investigation, remediation, and operating and maintenance costs are accrued against our earnings. Costs are accrued based on consideration of currently available data and information with respect to each individual site, including available technologies, current applicable laws and regulations, and prior remediation experience. Where no amount within a range of estimates is more likely, we accrue the minimum. Where multiple potentially responsible parties are involved, we consider our proportionate share of the probable costs. In formulating the estimate of probable costs, we do not consider amounts expected to be recovered from insurance companies or others. We reassess these accrued amounts on a quarterly basis. The amount recorded for environmental remediation is not material and is included in Accrued expenses. We believe there is no more than a remote chance that a material amount for remedial activities at any individual site, or at all the sites in the aggregate, will be required.

On January 27, 2020, the Brazilian Federal Environmental Agency (“IBAMA”) issued Caterpillar Brasil Ltda a notice of violation regarding allegations around the requirements for use of imported oils at the Piracicaba, Brazil facility. We have instituted processes to address the allegations. While we are still discussing resolution of these allegations with IBAMA, the initial notice from IBAMA included a proposed fine of approximately \$370,000. We do not expect this fine or our response to address the allegations to have a material adverse effect on the Company’s consolidated results of operations, financial position or liquidity.

On January 7, 2015, the Company received a grand jury subpoena from the U.S. District Court for the Central District of Illinois. The subpoena requests documents and information from the Company relating to, among other things, financial information concerning U.S. and non-U.S. Caterpillar subsidiaries (including undistributed profits of non-U.S. subsidiaries and the movement of cash among U.S. and non-U.S. subsidiaries). The Company has received additional subpoenas relating to this investigation requesting additional documents and information relating to, among other things, the purchase and resale of replacement parts by Caterpillar Inc. and non-U.S. Caterpillar subsidiaries, dividend distributions of certain non-U.S. Caterpillar subsidiaries, and Caterpillar SARL (CSARL) and related structures. On March 2-3, 2017, agents with the Department of Commerce, the Federal Deposit Insurance Corporation and the Internal Revenue Service executed search and seizure warrants at three facilities of the Company in the Peoria, Illinois area, including its former corporate headquarters. The warrants identify, and agents seized, documents and information related to, among other things, the export of products from the United States, the movement of products between the United States and Switzerland, the relationship between Caterpillar Inc. and CSARL, and sales outside the United States. It is the Company’s understanding that the warrants, which concern both tax and export activities, are related to the ongoing grand jury investigation. The Company is continuing to cooperate with this investigation. The Company is unable to predict the outcome or reasonably estimate any potential loss; however, we currently believe that this matter will not have a material adverse effect on the Company’s consolidated results of operations, financial position or liquidity.

On March 20, 2014, Brazil’s Administrative Council for Economic Defense (CADE) published a Technical Opinion which named 18 companies and over 100 individuals as defendants, including two subsidiaries of Caterpillar Inc., MGE - Equipamentos e Serviços Ferroviários Ltda. (MGE) and Caterpillar Brasil Ltda (CBL). The publication of the Technical Opinion opened CADE’s official administrative investigation into allegations that the defendants participated in anticompetitive bid activity for the construction and maintenance of metro and train networks in Brazil. While companies cannot be held criminally liable for anticompetitive conduct in Brazil, criminal charges have been brought against one current employee of MGE and two former employees of MGE involving the same conduct alleged by CADE. On July 8, 2019, CADE found MGE, one of its current employees and two of its former employees liable for anticompetitive conduct. CBL was dismissed from the proceeding without any finding of liability. MGE intends to appeal CADE’s findings. We currently believe that this matter will not have a material adverse effect on the Company’s consolidated results of operations, financial position or liquidity.

In addition, we are involved in other unresolved legal actions that arise in the normal course of business. The most prevalent of these unresolved actions involve disputes related to product design, manufacture and performance liability (including claimed asbestos and welding fumes exposure), contracts, employment issues, environmental matters, intellectual property rights, taxes (other than income taxes) and securities laws. The aggregate range of reasonably possible losses in excess of accrued liabilities, if any, associated with these unresolved legal actions is not material. In some cases, we cannot reasonably estimate a range of loss because there is insufficient information regarding the matter. However, we believe there is no more than a remote chance that any liability arising from these matters would be material. Although it is not possible to predict with certainty the outcome of these unresolved legal actions, we believe that these actions will not individually or in the aggregate have a material adverse effect on our consolidated results of operations, financial position or liquidity.

23. Segment information

A. Basis for segment information

Our Executive Office is comprised of a Chief Executive Officer (CEO), four Group Presidents, a Chief Financial Officer (CFO), a Chief Legal Officer, General Counsel and Corporate Secretary and a Chief Human Resources Officer. The Group Presidents and CFO are accountable for a related set of end-to-end businesses that they manage. The Chief Legal Officer, General Counsel and Corporate Secretary leads the Law, Security and Public Policy Division. The Chief Human Resources Officer leads the Human Resources Organization. The CEO allocates resources and manages performance at the Group President/CFO level. As such, the CEO serves as our Chief Operating Decision Maker, and operating segments are primarily based on the Group President/CFO reporting structure.

Three of our operating segments, Construction Industries, Resource Industries and Energy & Transportation are led by Group Presidents. One operating segment, Financial Products, is led by the CFO who also has responsibility for Corporate Services. Corporate Services is a cost center primarily responsible for the performance of certain support functions globally and to provide centralized services; it does not meet the definition of an operating segment. One Group President leads one smaller operating segment that is included in the All Other operating segment. The Law, Security and Public Policy Division and the Human Resources Organization are cost centers and do not meet the definition of an operating segment.

B. Description of segments

We have five operating segments, of which four are reportable segments. Following is a brief description of our reportable segments and the business activities included in the All Other operating segment:

Construction Industries: A segment primarily responsible for supporting customers using machinery in infrastructure, forestry and building construction applications. Responsibilities include business strategy, product design, product management and development, manufacturing, marketing and sales and product support. The product portfolio includes asphalt pavers; backhoe loaders; compactors; cold planers; compact track and multi-terrain loaders; mini, small, medium and large track excavators; forestry excavators; feller bunchers; harvesters; knuckleboom loaders; motor graders; pipelayers; road reclaimers; site prep tractors; skidders; skid steer loaders; telehandlers; small and medium track-type tractors; track-type loaders; utility vehicles; wheel excavators; compact, small and medium wheel loaders; and related parts and work tools. Inter-segment sales are a source of revenue for this segment.

Resource Industries: A segment primarily responsible for supporting customers using machinery in mining, heavy construction, quarry and aggregates, waste and material handling applications. Responsibilities include business strategy, product design, product management and development, manufacturing, marketing and sales and product support. The product portfolio includes large track-type tractors; large mining trucks; autonomous ready vehicles and solutions; hard rock vehicles; longwall miners; electric rope shovels; draglines; hydraulic shovels; rotary drills; large wheel loaders; off-highway trucks; articulated trucks; wheel tractor scrapers; wheel dozers; landfill compactors; soil compactors; hard rock continuous mining systems; select work tools; machinery components and related parts. In addition to equipment, Resource Industries also develops and sells technology products and services to provide customers fleet management, equipment management analytics and autonomous machine capabilities. Resource Industries also manages areas that provide services to other parts of the company, including integrated manufacturing and research and development. Inter-segment sales are a source of revenue for this segment.

Energy & Transportation: A segment primarily responsible for supporting customers using reciprocating engines, turbines, diesel-electric locomotives and related parts across industries serving Oil and Gas, Power Generation, Industrial and Transportation applications, including marine and rail-related businesses. Responsibilities include business strategy, product design, product management and development, manufacturing, marketing and sales and product support of turbine machinery and integrated systems and solutions and turbine-related services; reciprocating engine-powered generator sets; integrated systems used in the electric power generation industry; reciprocating engines and integrated systems and solutions for the marine and oil and gas industries; reciprocating engines supplied to the industrial industry as well as Cat machinery; the remanufacturing of Caterpillar engines and components and remanufacturing services for other companies; the business strategy, product design, product management and development, manufacturing, remanufacturing, leasing and service of diesel-electric locomotives and components and other rail-related products and services; and product support of on-highway vocational trucks for North America. Inter-segment sales are a source of revenue for this segment.

Financial Products Segment: Provides financing alternatives to customers and dealers around the world for Caterpillar products, as well as financing for vehicles, power generation facilities and marine vessels that, in most cases, incorporate Caterpillar products. Financing plans include operating and finance leases, installment sale contracts, working capital loans and wholesale financing plans. The segment also provides insurance and risk management products and services that help customers and dealers manage their business risk. Insurance and risk management products offered include physical damage insurance, inventory protection plans, extended service coverage for machines and engines, and dealer property and casualty insurance. The various forms of financing, insurance and risk management products offered to customers and dealers help support the purchase and lease of our equipment. The segment also earns revenues from ME&T, but the related costs are not allocated to operating segments.

All Other operating segment: Primarily includes activities such as: business strategy, product management and development, manufacturing and sourcing of filters and fluids, undercarriage, ground-engaging tools, fluid transfer products, precision seals, rubber sealing and connecting components primarily for Cat products; parts distribution; integrated logistics solutions, distribution services responsible for dealer development and administration including a wholly owned dealer in Japan, dealer portfolio management and ensuring the most efficient and effective distribution of machines, engines and parts; and digital investments for new customer and dealer solutions that integrate data analytics with state-of-the-art digital technologies while transforming the buying experience. Results for the All Other operating segment are included as a reconciling item between reportable segments and consolidated external reporting.

C. Segment measurement and reconciliations

There are several methodology differences between our segment reporting and our external reporting. The following is a list of the more significant methodology differences:

- ME&T segment net assets generally include inventories, receivables, property, plant and equipment, goodwill, intangibles, accounts payable and customer advances. Beginning in 2019, operating lease right-of-use assets are included in segment assets. In 2018, the present value of future lease payments for certain ME&T operating leases was included in segment assets while the estimated financing component of the lease payments was excluded. Liabilities other than accounts payable and customer advances are generally managed at the corporate level and are not included in segment operations. Financial Products Segment assets generally include all categories of assets.
- Segment inventories and cost of sales are valued using a current cost methodology.
- Goodwill allocated to segments is amortized using a fixed amount based on a 20 year useful life. This methodology difference only impacts segment assets; no goodwill amortization expense is included in segment profit. In addition, only a portion of goodwill for certain acquisitions made in 2011 or later has been allocated to segments.
- Currency exposures for ME&T are generally managed at the corporate level and the effects of changes in exchange rates on results of operations within the year are not included in segment profit. The net difference created in the translation of revenues and costs between exchange rates used for U.S. GAAP reporting and exchange rates used for segment reporting is reported as a methodology difference.
- Stock-based compensation expense is not included in segment profit.
- Postretirement benefit expenses are split; segments are generally responsible for service costs, with the remaining elements of net periodic benefit cost included as a methodology difference.
- ME&T segment profit is determined on a pretax basis and excludes interest expense and most other income/expense items. Financial Products Segment profit is determined on a pretax basis and includes other income/expense items.

Reconciling items are created based on accounting differences between segment reporting and our consolidated external reporting. Please refer to pages 137 to 143 for financial information regarding significant reconciling items. Most of our reconciling items are self-explanatory given the above explanations. For the reconciliation of profit, we have grouped the reconciling items as follows:

- **Corporate costs:** These costs are related to corporate requirements primarily for compliance and legal functions for the benefit of the entire organization.

- **Restructuring costs:** May include costs for employee separation, long-lived asset impairments and contract terminations. These costs are included in Other operating (income) expenses except for defined-benefit plan curtailment losses and special termination benefits, which are included in Other income (expense). Restructuring costs also include other exit-related costs which may consist of accelerated depreciation, inventory write-downs, building demolition, equipment relocation and project management costs and LIFO inventory decrement benefits from inventory liquidations at closed facilities, all of which are primarily included in Cost of goods sold. Beginning in 2019, only certain restructuring costs are excluded from segment profit. A table, Reconciliation of Restructuring costs on page 140, has been included to illustrate how segment profit would have been impacted by the restructuring costs. See Note 25 for more information.
- **Methodology differences:** See previous discussion of significant accounting differences between segment reporting and consolidated external reporting.
- **Timing:** Timing differences in the recognition of costs between segment reporting and consolidated external reporting. For example, certain costs are reported on the cash basis for segment reporting and the accrual basis for consolidated external reporting.

Segment Information (Millions of dollars)

¹ Sales of ME&T are based on dealer or customer location. Revenues from services provided are based on where service is rendered.

24. Acquisitions

ECM S.p.A.

On January 2, 2018, we acquired 100 percent of the equity in privately held ECM S.p.A. (ECM). Headquartered in Pistoia, Italy, ECM designs, manufactures, sells and services advanced signal systems for the rail industry. The ECM acquisition was executed to expand our presence in the international freight and transit industries through a combination of broad product offerings and strong reputation in the signaling market. The purchase price for the acquisition was \$225 million, consisting of \$249 million paid at closing, net of \$25 million of cash acquired and \$1 million of debt assumed.

The transaction was financed with available cash. Tangible assets as of the acquisition date were \$109 million, recorded at their fair values, and primarily included cash of \$25 million, receivables of \$28 million, inventories of \$29 million, and property, plant and equipment of \$17 million. Finite-lived intangible assets acquired of \$112 million included customer relationships, developed technology and trade names. The finite lived intangible assets are being amortized on a straight-line basis over a weighted-average amortization period of approximately 13 years. Liabilities assumed as of the acquisition date were \$79 million, recorded at their fair values, and primarily included accounts payable of \$38 million and net deferred tax liabilities of \$29 million. Goodwill of \$109 million, non-deductible for income tax purposes, represented the excess of the consideration transferred over the net assets recognized and represented the estimated future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. Factors that contributed to a purchase price resulting in the recognition of goodwill include ECM's strategic fit into our rail product portfolio, the opportunity to provide a complete line-up of signaling and train control systems and the acquired assembled workforce. The results of the acquired business for the period from the acquisition date are included in the accompanying consolidated financial statements and reported in the Energy & Transportation segment in Note 23. Assuming this transaction had been made at the beginning of any period presented, the consolidated pro forma results would not be materially different from reported results.

Downer Freight Rail

On January 2, 2018, we completed the acquisition of certain assets and liabilities of the Downer Freight Rail business (Downer Freight Rail). Headquartered in North Ryde, Australia, Downer Freight Rail provides a full suite of rolling stock, aftermarket parts and services throughout Australia. The acquisition was executed to strengthen our existing Rail footprint in Australia, which currently includes rolling stock maintenance facilities, as well as infrastructure and signaling facilities. The purchase price for the acquisition was \$97 million.

The transaction was financed with available cash. Tangible assets as of the acquisition date were \$86 million, recorded at their fair values, and primarily included receivables of \$23 million, inventories of \$40 million, and property, plant and equipment of \$15 million. Finite-lived customer relationship intangible assets acquired were \$6 million. The finite lived intangible assets are being amortized on a straight-line basis over an amortization period of 15 years. Liabilities assumed as of the acquisition date were \$14 million, which represented their fair values. Goodwill of \$18 million, not expected to be deducted for income tax purposes, represented the excess of the consideration transferred over the net assets recognized and represented the estimated future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. Factors that contributed to a purchase price resulting in the recognition of goodwill include Downer Freight Rail's strategic fit into our rail product portfolio, the opportunity to expand our aftermarket parts and maintenance service portfolio in Australia and the acquired assembled workforce. The results of the acquired business for the period from the acquisition date are included in the accompanying consolidated financial statements and reported in the Energy & Transportation segment in Note 23. Assuming this transaction had been made at the beginning of any period presented, the consolidated pro forma results would not be materially different from reported results.

25. Restructuring costs

Our accounting for employee separations is dependent upon how the particular program is designed. For voluntary programs, eligible separation costs are recognized at the time of employee acceptance unless the acceptance requires explicit approval by the company. For involuntary programs, eligible costs are recognized when management has approved the program, the affected employees have been properly notified and the costs are estimable.

Restructuring costs for 2019, 2018 and 2017 were as follows:

(Millions of dollars)	2019	2018	2017
Employee separations ¹	\$ 48	\$ 112	\$ 525
Contract terminations ¹	1	7	183
Long-lived asset impairments ¹	65	93	346
Defined benefit plan curtailments and termination benefits ²	—	(8)	29
Other ³	122	182	173
Total restructuring costs	<u>\$ 236</u>	<u>\$ 386</u>	<u>\$ 1,256</u>

¹ Recognized in Other operating (income) expenses.

² Recognized in Other income (expense).

³ Represents costs related to our restructuring programs, primarily for project management, inventory write-downs, accelerated depreciation and equipment relocation, and also LIFO inventory decrement benefits from inventory liquidations at closed facilities, all of which are primarily included in Cost of goods sold.

The restructuring costs in 2019 were primarily related to restructuring actions across the company. The restructuring costs in 2018 were primarily related to ongoing facility closures across the company. In 2017, about half of the restructuring costs were related to the closure of the facility in Gosselies, Belgium, within Construction Industries, and the remainder was related to other restructuring actions across the company.

Certain restructuring costs are a reconciling item between Segment profit and Consolidated profit before taxes. See Note 23 for more information.

The following table summarizes the 2018 and 2019 employee separation activity:

(Millions of dollars)	
Liability balance at December 31, 2017	\$ 249
Increase in liability (separation charges)	112
Reduction in liability (payments)	(276)
Liability balance at December 31, 2018	\$ 85
Increase in liability (separation charges)	48
Reduction in liability (payments)	(85)
Liability balance at December 31, 2019	<u>\$ 48</u>

Most of the remaining liability balance as of December 31, 2019 is expected to be paid in 2020.

In March 2017, Caterpillar informed Belgian authorities of the decision to proceed to a collective dismissal, which led to the closure of the Gosselies site, impacting about 2,000 employees. Production of Caterpillar products at the Gosselies site ended during the second quarter of 2017. The other operations and functions at the Gosselies site were phased out by the end of the second quarter of 2018. The program concluded in 2018, and we incurred a total of \$647 million of restructuring costs (primarily in 2017) under the program. Those costs were primarily related to employee separation costs, long-lived asset impairments, and other costs which were partially offset by a LIFO inventory decrement benefit.

In September 2015, we announced a large scale restructuring plan (the Plan) including a voluntary retirement enhancement program for qualifying U.S. employees, several voluntary separation programs outside of the United States, additional involuntary programs throughout the company and manufacturing facility consolidations and closures. The largest action among those included in the Plan was related to our European manufacturing footprint which led to the Gosselies, Belgium, facility, closure as discussed above. We incurred \$43 million, \$121 million and \$817 million of restructuring costs associated with these actions in 2019, 2018 and 2017, respectively. The Plan concluded in 2019, and total restructuring costs incurred since inception of the Plan were \$1,831 million.

26. Selected quarterly financial results (unaudited)

	2019 Quarter			
	1st	2nd	3rd	4th
(Dollars in millions except per share data)

Profit per common share–diluted ²	\$ 2.74	\$ 2.82	\$ 2.88	\$ 1.78

¹ Profit attributable to common shareholders.

² Diluted by assumed exercise of stock-based compensation awards using the treasury stock method.

³ The first quarter of 2019 includes a benefit of \$178 million to adjust unrecognized tax benefits due to the receipt of final regulations providing additional guidance related to the calculation of the mandatory deemed repatriation of non-U.S. earnings due to U.S. tax reform. The fourth quarter of 2018 includes a charge of \$50 million due to an estimated increase in the mandatory deemed repatriation of non-U.S. earnings.

⁴ The third quarter of 2018 includes a benefit of \$154 million due to the revised estimated impact of the write-down of U.S. net deferred tax assets to reflect the reduction in the U.S. corporate tax rate from 35 percent to 21 percent. The third quarter of 2018 also includes a charge of \$59 million to increase the valuation allowance against deferred tax assets for prior years. See Note 6 for additional details.

⁵ The fourth quarter of 2019 and fourth quarter of 2018 include pre-tax pension and other postretirement benefit plan actuarial losses of \$468 million and \$495 million, respectively. See Note 12 for additional information on these costs.

⁶ The fourth quarter of 2018 includes a benefit of \$63 million from reductions in the valuation allowance against U.S. state deferred tax assets. See Note 6 for additional information.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

Not Applicable.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of the company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the company's disclosure controls and procedures, as that term is defined in Rule 13a-15(e) under the Exchange Act, as of the end of the period covered by this annual report. Based on that evaluation, the CEO and CFO concluded that the company's disclosure controls and procedures were effective as of the end of the period covered by this annual report.

Management's Report on Internal Control Over Financial Reporting

Management's report on the company's internal control over financial reporting as of December 31, 2019 is included on page 65 of Part II, Item 8 "Financial Statements and Supplementary Data." The effectiveness of the company's internal control over financial reporting as of December 31, 2019 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm. Their report appears on pages 66-67 of Part II, Item 8 "Financial Statements and Supplementary Data."

Changes in Internal Control over Financial Reporting

During the last fiscal quarter, there has been no significant change in the company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

Item 9B. Other Information.

Not Applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Identification of Directors and Business Experience

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

Identification of Executive Officers and Business Experience

Information required by this Item appears in Item 1C of this Form 10-K.

Family Relationships

There are no family relationships between the officers and directors of the company.

Legal Proceedings Involving Officers and Directors

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

Audit Committee Financial Expert

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

Identification of Audit Committee

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

Shareholder Recommendation of Board Nominees

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

Compliance with Section 16(a) of the Exchange Act

If applicable, information required by this Item relating to compliance with Section 16(a) of the Exchange Act is incorporated by reference from the 2020 Proxy Statement.

Code of Ethics

Our Worldwide Code of Conduct (Code), first published in 1974 and most recently updated in 2015, sets a high standard for honesty and ethical behavior by every director and employee, including the principal executive officer, principal financial officer and principal accounting officer. The Code is posted on our website at www.Caterpillar.com/code. To obtain a copy of the Code at no charge, submit a written request to the Corporate Secretary at 510 Lake Cook Road, Suite 100, Deerfield, IL 60015-4971. We post on our website at www.Caterpillar.com/code any required amendments to or waivers granted under our Code pursuant to SEC or New York Stock Exchange disclosure rules.

Item 11. Executive Compensation.

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Information required by this Item relating to security ownership of certain beneficial owners and management is incorporated by reference from the 2020 Proxy Statement.

Information required by this Item relating to securities authorized for issuance under equity compensation plans is included in the following table:

**Equity Compensation Plan Information
(as of December 31, 2019)**

Plan category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted- average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	17,467,057	\$ 99.29	40,754,720
Equity compensation plans not approved by security holders	N/A	N/A	N/A
Total	17,467,057	\$ 99.29	40,754,720

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

Item 14. Principal Accountant Fees and Services.

Information required by this Item is incorporated by reference from the 2020 Proxy Statement.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

Exhibits:

- 3.1 Restated Certificate of Incorporation, effective June 13, 2012 (incorporated by reference from Exhibit 3.1 to the Company's Form 10-Q filed for the quarter ended June 30, 2012)
- 3.2 Bylaws amended and restated as of June 8, 2016 (incorporated by reference from Exhibit 3.1 to the Company's Current Report on Form 8-K filed June 10, 2016)
- 4.1 Indenture dated as of May 1, 1987, between Caterpillar Inc. and The First National Bank of Chicago, as Trustee (incorporated by reference from Exhibit 4.1 to Form S-3 filed February 19, 1997)
- 4.2 First Supplemental Indenture, dated as of June 1, 1989, between Caterpillar Inc. and The First National Bank of Chicago, as Trustee (incorporated by reference from Exhibit 4.2 to Form S-3 filed February 19, 1997)
- 4.3 Appointment of Citibank, N.A. as Successor Trustee, dated October 1, 1991, under the Indenture, as supplemented, dated as of May 1, 1987 (incorporated by reference from Exhibit 4.3 to Form S-3 filed February 19, 1997)
- 4.4 Second Supplemental Indenture, dated as of May 15, 1992, between Caterpillar Inc. and Citibank, N.A., as Successor Trustee (incorporated by reference from Exhibit 4.4 to Form S-3 filed February 19, 1997)
- 4.5 Third Supplemental Indenture, dated as of December 16, 1996, between Caterpillar Inc. and Citibank, N.A., as Successor Trustee (incorporated by reference from Exhibit 4.5 to Form S-3 filed February 19, 1997)
- 4.6 Tri-Party Agreement, dated as of November 2, 2006, between Caterpillar Inc., Citibank, N.A. and U.S. Bank National Association appointing U.S. Bank as Successor Trustee under the Indenture dated as of May 1, 1987, as amended and supplemented (incorporated by reference from Exhibit 4.6 to the Company's Annual Report on Form 10-K for the year ended December 31, 2006)
- 4.7 Form of 2.600% Senior Note due 2022 (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K, filed June 25, 2012)
- 4.8 Form of 3.803% Rule 144A Global Debenture due 2042 (incorporated by reference from Exhibit 4.1 to the Company's Current Report on Form 8-K, filed August 28, 2012)
- 4.9 Form of 3.803% Regulation S Global Debenture due 2042 (incorporated by reference from Exhibit 4.2 to Form 8-K, filed August 28, 2012)
- 4.10 Form of 3.803% Global Debenture due 2042 (incorporated by reference from Exhibit 4.9 to Form S-4 filed on September 7, 2012)
- 4.11 Form of 3.40% Senior Note due 2024 (incorporated by reference from Exhibit 4.1 to the Company's Current Report on Form 8-K, filed on May 8, 2014)
- 4.12 Form of 4.30% Senior Note due 2044 (incorporated by reference from Exhibit 4.2 to the Company's Current Report on Form 8-K, filed on May 8, 2014)

DESCRIPTION OF SECURITIES

DESCRIPTION OF OUR COMMON STOCK

As of December 31, 2019, Caterpillar Inc. (the “Company,” “we,” “our,” or “us”) had common stock, par value \$1.00 per share (the “Common Stock”) registered under Section 12 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Our Common Stock is traded on the New York Stock Exchange (“NYSE”) under the symbol “CAT”.

The following description of the Common Stock is only a summary and is subject to, and is qualified in its entirety by reference to the provisions of our Restated Certificate of Incorporation (our “Charter”), our Amended and Restated Bylaws (our “Bylaws”), each of which is incorporated by reference as an exhibit to the Annual Report on Form 10-K of which this Exhibit is a part, and the applicable provisions of the Delaware General Corporation Law (the “DGCL”).

Description of Common Stock

The total number of shares of Common Stock authorized by the Charter is 2,000,000,000. All issued and outstanding shares of Common Stock are fully paid and non-assessable. Holders of Common Stock have no preemptive, subscription or conversion rights and are not liable for further calls or assessments. Subject to the prior right of any future series of preferred stock, holders of Common Stock are entitled to receive such dividends as may be declared by the board of directors out of funds legally available and to share ratably in the assets available for distribution upon liquidation. Each share of Common Stock is entitled to one vote at all meetings of stockholders. The holders of Common Stock are not entitled to cumulative voting rights in the election of directors.

Possible Anti-Takeover Provisions

Our Charter authorizes our board of directors to cause preferred stock to be issued in one or more series, without stockholder action. Our board of directors is authorized to issue up to 5,000,000 shares of preferred stock, with par value of \$1.00 per share, and can determine the number of shares of each series, as well as the rights, preferences and limitations of each series. Shares of our authorized and unissued common stock and preferred stock could (within the limits imposed by applicable law and any applicable rules of the NYSE) be issued in one or more transactions or preferred stock could be issued with terms, provisions and rights which would make a takeover of the Company more difficult or more costly and, therefore, less likely. For example, the board of directors may issue such capital stock to a holder or holders who might thereby obtain sufficient voting power, either by voting with the common stock or separately as a class, to defeat or delay a proposed business combination which may be opposed by the board of directors, or to assure that any proposal to remove directors, or to alter, amend or repeal certain provisions in our Charter would not receive the required stockholder vote or any class vote

which would be required to effect such changes. Any such issuance of additional stock could be effected by the board of directors acting alone without further stockholder approval.

Certain provisions of our Charter and Bylaws could make more difficult certain unsolicited or hostile attempts to take over the Company, as described below.

Our Charter and Bylaws provide that no action shall be taken by stockholders by written consent and that a special meeting of the stockholders may be called only by the Chairman of the board of directors, the chief executive officer, the secretary, or the board of directors pursuant to a resolution approved by a majority of the entire board of directors, or by stockholders representing in the aggregate not less than 25% of the total number of shares of stock entitled to vote.

Our Charter and Bylaws provide that vacancies on the board of directors shall be filled by the affirmative vote of a majority of the remaining directors then in office and not by the stockholders. Our Charter and Bylaws further provide certain advance notice requirements in connection with stockholder nominations for the election of directors and other matters to be properly brought before an annual or special meeting by a stockholder.

Section 203 (the “Anti-Takeover Law”) of the DGCL prevents, subject to certain exceptions, certain Delaware corporations from engaging, under certain circumstances, in a “business combination” (which includes a merger or sale of more than 10% of the corporation’s assets) with any “interested stockholder” (a stockholder who owns 15% or more of the corporation’s outstanding voting stock) for three years following the date that such stockholder became an “interested stockholder.” A Delaware corporation may “opt out” of the Anti-Takeover Law with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from an amendment approved by at least a majority of the outstanding voting shares. The Company is a Delaware corporation that is covered by the Anti-Takeover Law and has not “opted out” of its provisions.

In addition, our Bylaws provide that, unless the Company consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Company, (ii) any action asserting a claim of breach of fiduciary duty owed by any director, officer or other employee of the Company to the Company or the Company’s stockholders, (iii) any action asserting a claim against the Company or any director or officer or other employee of the Company arising pursuant to any provision of the DGCL or the Company’s Charter or Bylaws (as either may be amended from time to time) or (iv) any action asserting a claim against the Company or any director or officer or other employee of the Company governed by the internal affairs doctrine. Our Bylaws also provide that any person (including any entity) purchasing or otherwise acquiring any interest in shares of capital stock of the Company will be deemed to have notice of and consented to the exclusive forum provisions described above.

DESCRIPTION OF OUR DEBT SECURITIES

As of December 31, 2019, Caterpillar Inc. had three series of debt securities registered under Section 12 of the Exchange Act: our 9 3/8% Debentures due March 15, 2021 (the “2021 Debentures”), our 8% Debentures due February 15, 2023 (the “2023 Debentures”) and our 5.3% Debentures due September 15, 2035 (the “2035 Debentures” and, together with the 2021 Debentures and the 2023 Debentures, the “Debt Securities”).

The following summary of each series of our Debt Securities is subject to and qualified in its entirety by reference to the Indenture, dated as of May 1, 1987, between Caterpillar Inc. and The First National Bank of Chicago, as trustee, as supplemented by the First Supplemental Indenture, dated as of June 1, 1989, between Caterpillar Inc. and The First National Bank of Chicago, as trustee, as further supplemented by the Second Supplemental Indenture, dated as of May 15, 1992, between Caterpillar Inc. and Citibank, N.A. as Successor Trustee and as further supplemented by the Third Supplemental Indenture, dated as of December 16, 1996, between Caterpillar Inc. and Citibank, N.A. as Successor Trustee (as supplemented, the “Indenture”).

The 2021 Debentures

We issued \$250,000,000 aggregate principal amount of 2021 Debentures on March 15, 1991. The 2021 Debentures were issued under the Indenture and pursuant to a Prospectus dated March 8, 1991 and a Prospectus Supplement dated March 14, 1991. The 2021 Debentures will mature on March 15, 2021. Interest on the 2021 Debentures accrues at a rate of 9 3/8% per year and is payable on March 15 and September 15 of each year and commenced on September 15, 1991.

The 2021 Debentures may not be redeemed prior to maturity.

The 2021 Debentures are traded on the NYSE under the symbol “CAT21.”

The 2023 Debentures

We issued \$200,000,000 aggregate principal amount of 2023 Debentures on February 23, 1993. The 2023 Debentures were issued under the Indenture and pursuant to a Prospectus dated May 8, 1992 and a Prospectus Supplement dated February 16, 1993. The 2023 Debentures will mature on February 15, 2023. Interest on the 2023 Debentures accrues at a rate of 8% per year and is payable on February 15 and August 15 of each year and commenced on August 15, 1993.

The 2023 Debentures may not be redeemed prior to maturity.

The 2023 Debentures are traded on the NYSE under the symbol “CAT23.”

The 2035 Debentures

We issued \$307,320,000 aggregate principal amount of 2035 Debentures on September 13, 2005. The 2035 Debentures were issued under the Indenture and pursuant to an Offer to Exchange dated August 10, 2005. The 2035 Debentures were limited to \$500,000,000 aggregate principal amount. The 2035 Debentures will mature on September 15, 2035. Interest on the 2035

Debentures accrues at a rate of 5.3% per year and is payable on March 15 and September 15 of each year and commenced on March 15, 2006.

The 2035 Debentures may be redeemed in whole or in part at Caterpillar's option at a redemption price equal to the greater of 100% of the principal amount of the 2035 Debentures to be redeemed or the sum of the present values of the remaining scheduled payments of the principal and interest on the 2035 Debentures to be redeemed, discounted to the date of redemption on a semi-annual basis at the applicable Treasury Rate plus 15 basis points, plus, in each case, accrued and unpaid interest on the principal amount being redeemed to the redemption date.

The 2035 Debentures are traded on the NYSE under the symbol "CAT35."

General

The Indenture governs our obligations under the Debt Securities. The terms of the Debt Securities include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended. The Debt Securities are subject to all such terms. Defined terms used in this description but not defined in this summary have the meanings assigned to them in the Indenture.

We have issued a significant amount of other debt securities under the Indenture that has neither been registered pursuant to Section 12 of the Exchange Act nor listed on the NYSE. You should refer to our description of the amount of debt outstanding as disclosed on our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and in other filings with the Securities and Exchange Commission.

The Debt Securities are unsubordinated and are not subject to any sinking fund provisions.

Certain Definitions

Consolidated Net Tangible Assets: means as of any particular time the aggregate amount of assets after deducting therefrom (a) all current liabilities (excluding any such liability that by its terms is extendible or renewable at the option of the obligor thereon to a time more than 12 months after the time as of which the amount thereof is being computed) and (b) all goodwill, excess of cost over assets acquired, patents, copyrights, trademarks, trade names, unamortized debt discount and expense and other like intangibles, all as shown in the most recent consolidated financial statements of the Company and its consolidated subsidiaries prepared in accordance with generally accepted accounting principles.

Important Property: means any manufacturing plant or other facility of the Company or any Restricted Subsidiary, whether now owned or hereafter acquired (other than any facility hereafter acquired for the control or abatement of atmospheric pollutants or contaminants, water pollution, noise, odor or other pollution), located in the United States of America, Canada or the Commonwealth of Puerto Rico and having a gross book value (without deduction for

depreciation) as of the date of determination of such value in excess of 1% of Consolidated Net Tangible Assets as of such date, other than any such manufacturing plant or other facility that in the opinion of the board of directors of the Company, is not of material importance to the total business conducted by the Company and its Restricted Subsidiaries as a whole.

Restricted Subsidiary: means (a) any Subsidiary other than an Unrestricted Subsidiary and (b) any Unrestricted Subsidiary which, subsequent to May 1, 1987, is designated by the board of directors as a Restricted Subsidiary; provided, however, that as a result of such designation no covenant or agreement in the Indenture would be breached.

Secured Debt: means indebtedness for money borrowed which is secured by a mortgage, pledge, lien, security interest or encumbrance on (a) any Important Property of the Company or any Restricted Subsidiary or on (b) any shares of stock or indebtedness of any Restricted Subsidiary.

Subsidiary: means a corporation more than 50% of the outstanding voting stock of which is owned, directly or indirectly, by the Company or by one or more other Subsidiaries, or by the Company and one or more other Subsidiaries.

Unrestricted Subsidiary: means (a) any Subsidiary acquired or organized after May 1, 1987; provided, however, that such Subsidiary shall not be a successor, directly or indirectly, to any Restricted Subsidiary, and (b) any subsidiary whose principal business and assets are located outside the United States of America, its territories and possessions and Canada, and (c) any Subsidiary the principal business of which consists of financing or assisting in financing (i) the Company's dealers or distributors or (ii) the acquisition or disposition of products of the Company or a Subsidiary, directly or indirectly, by dealers, distributors or other customers, and (d) any Subsidiary the principal business of which is owning, leasing, dealing in or developing real property, and (e) any Subsidiary substantially all the assets of which consist of stock or other securities of a Subsidiary or Subsidiaries of a character described in clauses (a) through (d) of this definition.

Value: means with respect to a Sale and Leaseback Transaction (as defined below), an amount equal to the greater of (a) the net proceeds of the sale of the property leased pursuant to the Sale and Leaseback Transaction or (b) the fair value of the property at the time of entering into such Sale and Leaseback Transaction, as determined by our board of directors, in either case divided first by the number of full years of the term of the lease and then multiplied by the number of full years of such term remaining at the time of determination, without regard to any renewal or extension options contained in the lease.

Restrictions on Secured Debt

The Indenture prohibits us and our Restricted Subsidiaries from creating Secured Debt (without securing the debt securities equally and ratably with Secured Debt), with the following exceptions:

- certain mortgages, pledges, liens, security interests or encumbrances to secure payment of all or part of the cost of acquisition, construction or improvement of our property or the property of a Restricted Subsidiary;
- mortgages, pledges, liens, security interests or encumbrances on property acquired, whether or not assumed by us or a Restricted Subsidiary;
- mortgages, pledges, liens, security interests or encumbrances on property, stock, or indebtedness of a Restricted Subsidiary at the time it becomes a Restricted Subsidiary;
- mortgages, pledges, liens, security interests or encumbrances on property of a corporation merged with us or a Restricted Subsidiary or at the time of a disposition of substantially all of the property of another corporation to us or a Restricted Subsidiary;
- mortgages, pledges, liens, security interests, or encumbrances on our property or the property of a Restricted Subsidiary in favor of a governmental entity pursuant to contract or statute or to secure certain indebtedness;
- extensions, renewals or replacements of any mortgage, pledge, lien, security interest or encumbrance referred to above; or
- any mortgage, pledge, lien, security interest, or encumbrance securing debt owed by us or a Restricted Subsidiary to us or a Restricted Subsidiary.

In addition to these exceptions, we or a Restricted Subsidiary may create, assume, or guarantee other Secured Debt without securing the debt securities if the total amount of Secured Debt outstanding and value of Sale and Leaseback Transactions at the time does not exceed 10% of Consolidated Net Tangible Assets.

Restrictions on Sale and Leaseback Transactions

The Indenture does not permit us or our Restricted Subsidiaries to sell or transfer (except to us or a Restricted Subsidiary) any Important Property we own with the intention of taking back a lease on the property, except for a lease not exceeding three years (a “Sale and Leaseback Transaction”), with the following exceptions:

- if we or a Restricted Subsidiary could incur Secured Debt equal to the amount received on a sale or transfer secured by a mortgage on the property to be leased without equally and ratably securing the Debt Securities; or
- if we or a Restricted Subsidiary apply an amount equal to the value of the property leased to the retirement, within 120 days after the effective date of the arrangement, of indebtedness for money borrowed by us or a Restricted Subsidiary recorded as funded debt as of the date of its creation and which, in the case of indebtedness of us, is not subordinated in right of payment to the prior payment of the Debt Securities. The amount applied to the retirement of that

indebtedness shall be reduced by (i) the principal amount of any Debt Securities delivered within 120 days of the effective date of any such arrangement to the Trustee for retirement and cancellation, and (ii) the principal amount of the indebtedness, other than Debt Securities, retired by us or a Restricted Subsidiary within 120 days of the effective date of any such arrangement. No such retirement may be effected by payment at maturity or pursuant to a mandatory prepayment provision.

Restriction on Transfer of Important Property

Neither we nor a Restricted Subsidiary can transfer Important Property to an Unrestricted Subsidiary except in limited circumstances. The transfer can occur if we apply an amount equal to the fair value of the property at the time of transfer (as determined by our board of directors) to the retirement of indebtedness of us or a Restricted Subsidiary (other than such indebtedness owed to us or any Restricted Subsidiary) that is recorded as funded debt and is not subordinated in right of payment to the Debt Securities. The debt retirement must occur within 120 days of the transfer. No such retirement may be effected pursuant to a mandatory prepayment provision.

Events of Default

Unless we indicate otherwise in a prospectus supplement, the following events are defined in the Indenture as “Events of Default” regarding the Debt Securities of any series:

- failure to pay interest on any Debt Securities when due, continued for 60 days;
- failure to pay principal of or premium, if any, on any Debt Securities when due;
- failure to deposit any sinking fund payment when due;
- failure to perform, breach or default of any other covenant or warranty in the Indenture for 60 days after we have received written notice of such failure, breach or default in accordance with the Indenture;
- certain events in bankruptcy, insolvency or reorganization; and
- any other Event of Default set forth in the applicable prospectus supplement.

Unless stated otherwise in a prospectus supplement, any Event of Default on a particular series of Debt Securities is not necessarily an Event of Default on another series of Debt Securities.

If an Event of Default occurs on outstanding Debt Securities of a particular series and continues, the Trustee or holders of at least 25% of that series’ Debt Securities may declare the principal amount of all Debt Securities in the series due and payable. Subject to any terms or conditions specified in the applicable prospectus supplement, if an Event of Default results from

bankruptcy, insolvency or reorganization, the principal amount of all the Debt Securities of a series will automatically become immediately due and payable. Under certain circumstances, holders of a majority of the Debt Securities in the series may rescind that declaration and its consequences.

The Trustee must within 90 days after a default occurs notify the holders of Debt Securities of that series of the default if we have not remedied it. The Trustee may withhold notice to the holders of any default (except with respect to the payment of principal or interest) under certain circumstances if it in good faith considers such withholding to be in the interest of holders. We are required to file an annual certificate with the Trustee, signed by an officer, about any default by us under any provisions of the Indenture.

Subject to the provisions of the Indenture relating to its duties in case of default, the Trustee shall be under no obligation to exercise any of its rights or powers under the Indenture at the request, order or direction of any holders unless such holders offer the Trustee reasonable indemnity. Subject to the provisions for indemnification and other terms of the Indenture, the holders of a majority in principal amount of the Debt Securities of a series may direct the time, method and place of conducting any proceedings for any remedy available to, or exercising any trust or power conferred on, the Trustee with respect to such Debt Securities.

Modification of Indenture

Under the Indenture, our rights and obligations and the rights of the holders of Debt Securities may be changed. Certain changes require the consent of the holders of not less than 66²/₃% in aggregate principal amount of the outstanding debt of all series to be affected. However, the following changes may not be made without the consent of each holder of the Debt Securities:

- changes to the stated maturity date of the principal or any interest installment;
- reductions in the principal amount or rate of interest due or any premium payable;
- changes to the places or currency of payment;
 - impairment of the right to institute suit for the enforcement of payment on or after the stated maturity thereof (or, in the case of redemption, on or after the redemption date);
 - reduction in the stated percentage of holders whose consent is necessary to modify the Indenture; or
 - modifications to any of the requirements for consent of holders of the Debt Securities to enter into certain supplemental indentures, the requirements to waive compliance with certain provisions of the Indenture or the requirements for a waiver of certain defaults.

Consolidation, Merger, or Sale

We cannot consolidate or merge with any other person or convey, transfer or lease our properties and assets substantially as an entirety to any other person, unless:

- we are the continuing corporation or the successor corporation is a domestic corporation and expressly assumes, by supplemental indenture, the due and punctual payment of principal of (and premium, if any) and interest on the Debt Securities and the performance and observance of every covenant of the Indenture binding on us;

immediately after giving effect to such transaction and treating any indebtedness which becomes an obligation of ours or a Subsidiary as a result of such transaction as having been incurred by us or such Subsidiary at the time of such transaction, we, that person or that successor corporation will not be in default under the Indenture; and

if, as a result of the transaction we become subject to a mortgage, pledge, lien, security interest or other encumbrance not permitted by the Indenture, we or the successor corporation take steps necessary to secure the Debt Securities equally and ratably with all indebtedness secured thereby.

Other than as described above or in any prospectus supplement, there are no covenants or other provisions in the Indenture that would afford holders of our Debt Securities additional protection in the event of a recapitalization transaction, a change of control of the Company or a highly leveraged transaction. The merger covenant described above would only apply if the recapitalization transaction, change of control or highly leveraged transaction were structured to include our merger or consolidation or a sale, lease or conveyance of all or substantially all of our assets.

Defeasance

Under certain circumstances we may be discharged from our obligations on the Debt Securities of a series at any time before the stated maturity if we deposit with the Trustee money or certain equivalents sufficient to pay principal of and interest on the Debt Securities. One condition for such defeasance, among others as described in the Indenture, is that we must deliver to the Trustee an opinion of counsel that holders of the Debt Securities will not recognize income, gain or loss for federal income tax purposes as a result of the defeasance.

Governing Law

The Indenture is, and any Debt Securities issued thereunder will be, governed by, and construed in accordance with, the laws of the State of New York.

Concerning the Trustee

The Company and its subsidiaries maintain ordinary banking relationships with U.S. Bank National Association and its affiliates and a number of other financial institutions. U.S. Bank National Association and its affiliates also serve as trustee with respect to certain other outstanding debt securities of the Company and its subsidiaries.

CATERPILLAR INC.
2014 LONG-TERM INCENTIVE PLAN
(As Amended and Restated, Effective as of October 8, 2019)

I. INTRODUCTION

1.1 Purposes. The purposes of the Caterpillar Inc. 2014 Long-Term Incentive Plan (this “Plan”) are (i) to align the interests of the Company’s stockholders and the recipients of awards under this Plan by increasing the proprietary interest of such recipients in the Company’s growth and success, (ii) to advance the interests of the Company by attracting and retaining officers, other employees, Non-Employee Directors, consultants and independent contractors and (iii) to motivate such persons to act in the long-term best interests of the Company and its stockholders. The Plan has been amended and restated, as set forth herein, effective October 8, 2019.

1.2 Certain Definitions.

(a) “**Award Gain**” shall mean (a) with respect to a given Option exercise, the product of (X) the excess of the Fair Market Value of a share of Common Stock on the date of exercise over the grant price per share of Common Stock of such Option times (Y) the number of shares purchased pursuant to the exercise of such Option, and (b) with respect to any other settlement of an award granted to the participant, the Fair Market Value of the cash or shares of Common Stock paid or payable to the participant (regardless of any elective deferral pursuant to Section 5.10) less any cash or the Fair Market Value of any shares of Common Stock or property (other than an award that would have itself then been forfeitable hereunder and excluding any payment of tax withholding) paid by the participant to the Company as a condition of or in connection with such settlement.

(b) “**Award Notice**” shall mean the written or electronic notice evidencing an award hereunder.

(c) “**Blackout Period**” shall have the meaning set forth in Section 2.1(b).

(d) “**Board**” shall mean the Board of Directors of the Company.

(e) “**Business Combination**” shall have the meaning set forth in Section 5.9(b).

(f) “**Cause**” shall have the meaning set forth in Section 5.9(c).

(g) “**Change in Control**” shall have the meaning set forth in Section 5.9(b).

(h) “**Code**” shall mean the Internal Revenue Code of 1986, as amended.

(i) “**Committee**” shall mean the Compensation and Human Resources Committee of the Board, or any successor or subcommittee thereof, consisting of two or more members of the Board, each of whom is intended to be (i) a “Non-Employee Director” within the meaning of Rule 16b-3 under the Exchange Act, and (ii) “independent” within the meaning of the rules of the New York Stock Exchange or, if the Common Stock is not listed on the New York Stock Exchange, within the meaning of the rules of the principal stock exchange on which the Common Stock is then traded.

- (j) “**Common Stock**” shall mean the common stock of the Company, and all rights appurtenant thereto.
- (k) “**Company**” shall mean Caterpillar Inc., a Delaware corporation, or any successor thereto.
- (l) “**Company Voting Securities**” shall have the meaning set forth in Section 5.9(b)(ii).
- (m) “**Exchange Act**” shall mean the Securities Exchange Act of 1934, as amended.
- (n) “**Fair Market Value**” shall mean, as of any given date, the fair market value of a share of Common Stock on a particular date determined by such methods or procedures as may be established from time to time by the Committee. Unless otherwise determined by the Committee, the Fair Market Value of a share of Common Stock as of any date shall be the closing transaction price of a share of Common Stock as reported on the New York Stock Exchange for that date or, if no closing price is reported for that date, the closing price on the next preceding date for which transactions were reported. Notwithstanding the foregoing, unless otherwise determined by the Committee, for purposes of clause (D) of Section 2.1(c) of the Plan, Fair Market Value means the actual price at which the shares of Common Stock used to acquire the shares of Common Stock are sold.
- (o) “**Forfeiture Event**” shall have the meaning set forth in Section 5.16(a).
- (p) “**Free-Standing SAR**” shall mean an SAR which is not granted in tandem with, or by reference to, an Option, which entitles the holder thereof to receive, upon exercise, shares of Common Stock (which may be Restricted Stock) or, to the extent provided in the applicable Award Notice, cash or a combination thereof, with an aggregate value equal to the excess of the Fair Market Value of one share of Common Stock on the date of exercise over the base price of such SAR, multiplied by the number of such SARs which are exercised.
- (q) “**Good Reason**” shall have the meaning set forth in Section 5.9(d).
- (r) “**Incentive Stock Option**” shall mean an option to purchase shares of Common Stock that meets the requirements of Section 422 of the Code, or any successor provision, which is intended by the Committee to constitute an Incentive Stock Option.
- (s) “**Incumbent Directors**” shall have the meaning set forth in Section 5.9(b)(i).
- (t) “**Non-Employee Director**” shall mean any director of the Company who is not an officer or employee of the Company or any Subsidiary.
- (u) “**Nonqualified Stock Option**” shall mean an option to purchase shares of Common Stock which is not an Incentive Stock Option.
- (v) “**Option**” shall mean an Incentive Stock Option or a Nonqualified Stock Option granted under this Plan.
- (w) “**Performance Award**” shall mean a right to receive an amount of cash, Common Stock, or a combination of both, contingent upon the attainment of specified Performance Measures within a specified Performance Period.

(x) **“Performance Measures”** shall mean the criteria and objectives, established by the Committee, which shall be satisfied or met (i) as a condition to the grant or exercisability of all or a portion of an Option or SAR or (ii) during the applicable Restriction Period or Performance Period as a condition to the vesting of the holder’s interest, in the case of a Restricted Stock Award, of the shares of Common Stock subject to such award, or, in the case of a Restricted Stock Unit Award or Performance Award, to the holder’s receipt of the shares of Common Stock subject to such award or of payment with respect to such award. Such criteria and objectives may consist of one or more corporate-wide or subsidiary, division, operating unit, individual or other measures, including, without limitation, any of the following: (i) attainment by a share of Common Stock of a specified Fair Market Value for a specified period of time, (ii) cash flow from operations, (iii) cash flow margin or free cash flow, (iv) cash flow per share, (v) earnings of the Company before or after taxes and/or interest, (vi) earnings before interest, taxes, depreciation, and/or amortization (“EBITDA”), (vii) EBITDA margin, (viii) economic value added, (ix) expense levels or cost reduction goals, (x) gross profit or margin, (xi) increase in stockholder value, (xii) interest expense, (xiii) inventory, (xiv) market share, (xv) net assets, (xvi) net cash provided by operations, (xvii) net operating profits after taxes, (xviii) operating expenses, (xix) operating income, (xx) operating margin, (xxi) operating profit after capital charge (“OPACC”), (xxii) percent of dealer deliveries (“PODD”), (xxiii) percent of industry sales (“PINS”), (xxiv) percent of parts sales (“POPS”), (xxv) percent of parts sales – Caterpillar branded (“POPS-C”), (xxvi) pretax income, (xxvii) price-to-earnings growth, (xxviii) price realization, (xxix) primary or fully-diluted earnings per share or profit per share, (xxx) profit after tax, (xxxi) return on assets, (xxxii) return on equity, (xxxiii) return on invested capital, (xxxiv) return on investments, (xxxv) return on sales, (xxxvi) revenues, (xxxvii) sales, (xxxviii) total cash flow, (xxxix) total stockholder (shareholder) return and (xl) strategic business criteria consisting of one or more objectives based on meeting specified goals relating to (A) acquisitions or divestitures, (B) business expansion, (C) realized production system benefits, (D) cost targets, (E) customer acquisition, (F) customer satisfaction, (G) diversity and inclusion, (H) efficiency, (I) inventory turns, (J) realized lean benefits, (K) management of employment practices and employee benefits, (L) market penetration, (M) purchasing material costs, (N) quality and quality audit scores, (O) reductions in errors and omissions, (P) reductions in lost business, (Q) supervision of litigation and information technology, (R) sustainability or (S) realized 6 Sigma benefits. Each such goal may be expressed on an absolute or relative basis and may include comparisons based on current internal targets, the past performance of the Company (including the performance of one or more subsidiaries, divisions, or operating units) or the past or current performance of other companies (or a combination of such past and current performance). In addition to the ratios specifically enumerated above, performance goals may include comparisons relating to capital (including, but not limited to, the cost of capital), shareholders’ equity, shares outstanding, assets or net assets, sales, or any combination thereof. The applicable performance measures may be applied on a pre- or post-tax basis and may be established or adjusted to include or exclude any components of any performance measure, including, without limitation, special charges such as restructuring or impairment charges, debt refinancing costs, extraordinary or noncash items, unusual, nonrecurring, infrequently occurring or one-time events affecting the Company or its financial statements or changes in law or accounting principles (“Adjustment Events”). In the sole discretion of the Committee, the Committee may amend or adjust the Performance Measures (including adjustments in the method of calculating attainment of the performance measures) or other terms and conditions of an outstanding award in recognition of any Adjustment Events.

(y) **“Performance Period”** shall mean any period designated by the Committee during which (i) the Performance Measures applicable to an award shall be measured and (ii) the conditions to vesting applicable to an award shall remain in effect.

(z) **“Permitted Transferee”** shall have the meaning set forth in Section 5.4(a).

(aa) **“Plan”** shall have the meaning set forth in Section 1.1.

(bb) “**Prior Plan**” shall mean the Caterpillar Inc. 2006 Long-Term Incentive Plan and each other plan previously maintained by the Company under which equity awards remain outstanding as of the effective date of this Plan.

(cc) “**Restricted Stock**” shall mean shares of Common Stock which are subject to a Restriction Period and which may, in addition thereto, be subject to the attainment of specified Performance Measures within a specified Performance Period.

(dd) “**Restricted Stock Award**” shall mean an award of Restricted Stock under this Plan.

(ee) “**Restricted Stock Unit**” shall mean a right to receive one share of Common Stock or, in lieu thereof and to the extent provided in the applicable Award Notice, the Fair Market Value of such share of Common Stock in cash, which shall be contingent upon the expiration of a specified Restriction Period and which may, in addition thereto, be contingent upon the attainment of specified Performance Measures within a specified Performance Period.

(ff) “**Restricted Stock Unit Award**” shall mean an award of Restricted Stock Units under this Plan.

(gg) “**Restriction Period**” shall mean any period designated by the Committee during which (i) the Common Stock subject to a Restricted Stock Award may not be sold, transferred, assigned, pledged, hypothecated or otherwise encumbered or disposed of, except as provided in this Plan or the Award Notice relating to such award, or (ii) the conditions to vesting applicable to a Restricted Stock Unit Award shall remain in effect.

(hh) “**SAR**” shall mean a stock appreciation right which may be a Free-Standing SAR or a Tandem SAR.

(ii) “**Stock Award**” shall mean a Restricted Stock Award, Restricted Stock Unit Award or Unrestricted Stock Award.

(jj) “**Subsidiary**” shall mean any corporation, limited liability company, partnership, joint venture or similar entity in which the Company owns, directly or indirectly, an equity interest possessing more than 50% of the combined voting power of the total outstanding equity interests of such entity or, in the case of a partnership, joint venture or similar entity, the possession, directly or indirectly, of the power to direct or cause the direction of management or policies of the controlled entity.

(kk) “**Substitute Award**” shall mean an award granted under this Plan upon the assumption of, or in substitution for, outstanding equity awards previously granted by a company or other entity in connection with a corporate transaction, including a merger, combination, consolidation or acquisition of property or stock; provided, however, that in no event shall the term “Substitute Award” be construed to refer to an award made in connection with the cancellation and repricing of an Option or SAR.

(ll) “**Tandem SAR**” shall mean an SAR which is granted in tandem with, or by reference to, an Option (including a Nonqualified Stock Option granted prior to the date of grant of the SAR), which entitles the holder thereof to receive, upon exercise of such SAR and surrender for cancellation of all or a portion of such Option, shares of Common Stock (which may be Restricted Stock) or, to the extent provided in the applicable Award Notice, cash or a combination thereof, with an aggregate value equal to the excess of the Fair Market Value of one share of Common Stock on the date of exercise over the base price of such

SAR, multiplied by the number of shares of Common Stock subject to such Option, or portion thereof, which is surrendered.

(mm) “**Tax Date**” shall have the meaning set forth in Section 5.5.

(nn) “**Ten Percent Holder**” shall have the meaning set forth in Section 2.1(a).

(oo) “**Unrestricted Stock**” shall mean shares of Common Stock which are not subject to a Restriction Period or Performance Measures.

(pp) “**Unrestricted Stock Award**” shall mean an award of Unrestricted Stock under this Plan.

1.3 Administration. This Plan shall be administered by the Committee. Any one or a combination of the following awards may be made under this Plan to eligible persons: (i) Options to purchase shares of Common Stock in the form of Incentive Stock Options or Nonqualified Stock Options; (ii) SARs in the form of Tandem SARs or Free-Standing SARs; (iii) Stock Awards in the form of Restricted Stock, Restricted Stock Units or Unrestricted Stock; and (iv) Performance Awards. The Committee shall, subject to the terms of this Plan, select eligible persons for participation in this Plan and determine the form, amount and timing of each award to such persons and, if applicable, the number of shares of Common Stock subject to an award, the number of SARs, the number of Restricted Stock Units, the dollar value subject to a Performance Award, the grant price or base price associated with the award, the time and conditions of exercise or settlement of the award and all other terms and conditions of the award, including, without limitation, the form of the Award Notice evidencing the award. The Committee may, in its sole discretion and for any reason at any time, take action such that (i) any or all outstanding Options and SARs shall become exercisable in part or in full, (ii) all or a portion of the Restriction Period applicable to any outstanding Restricted Stock or Restricted Stock Units shall lapse, (iii) all or a portion of the Performance Period applicable to any outstanding Restricted Stock, Restricted Stock Units or Performance Awards shall lapse and (iv) the Performance Measures (if any) applicable to any outstanding award shall be deemed to be satisfied at the target or any other level. The Committee shall, subject to the terms of this Plan, interpret this Plan and the application thereof, establish rules and regulations it deems necessary or desirable for the administration of this Plan and may impose, incidental to the grant of an award, conditions with respect to the award, such as limiting competitive employment or other activities. All such interpretations, rules, regulations and conditions shall be conclusive and binding on all parties.

The Committee may delegate some or all of its power and authority hereunder to the Board or, subject to applicable law, to one or more members of the Committee, the Chief Executive Officer or such other executive officer of the Company as the Committee deems appropriate; provided, however, that the Committee may not delegate its power and authority to one member of the Committee, the Chief Executive Officer or other executive officer of the Company with regard to the selection for participation in this Plan of an officer, director or other person subject to Section 16 of the Exchange Act or decisions concerning the timing, pricing or amount of an award to such an officer, director or other person.

No member of the Board or Committee, and neither the Chief Executive Officer nor any other executive officer to whom the Committee delegates any of its power and authority hereunder, shall be liable for any act, omission, interpretation, construction or determination made in connection with this Plan in good faith, and the members of the Board and the Committee and the Chief Executive Officer or other executive officer shall be entitled to indemnification and reimbursement by the Company in respect of any claim, loss, damage or expense (including attorneys’ fees) arising therefrom to the full extent permitted by

law (except as otherwise may be provided in the Company's Certificate of Incorporation and/or By-laws) and under any directors' and officers' liability insurance that may be in effect from time to time.

1.4 Eligibility. Participants in this Plan shall consist of such officers, other employees, Non-Employee Directors, consultants, independent contractors, and persons expected to become officers, other employees, Non-Employee Directors, consultants, and independent contractors of the Company and its Subsidiaries as the Committee in its sole discretion may select from time to time; provided, that Incentive Stock Options may be granted only to employees of the Company or a Subsidiary Corporation, within the meaning of Section 424(f) of the Code. The Committee's selection of a person to participate in this Plan at any time shall not require the Committee to select such person to participate in this Plan at any other time. Except as provided otherwise in an Award Notice, for purposes of this Plan, references to employment by the Company shall also mean employment by a Subsidiary, and references to employment shall include service as a Non-Employee Director, consultant or independent contractor. The extent to which a participant shall be considered employed during any periods during which such participant is on a leave of absence shall be determined in accordance with Company policy.

1.5 Shares Available. Subject to adjustment as provided in Section 5.8 and to all other limits set forth in this Section 1.5, 38.8 million shares of Common Stock were initially available for all awards under this Plan and no more than 38.8 million shares of Common Stock in the aggregate could be issued under the Plan in connection with Incentive Stock Options. Upon and subject to stockholder approval of the amendment and restatement of the Plan pursuant to Section 5.1, an additional 36 million shares of Common Stock shall become available for all awards under this Plan and an additional 36 million shares of Common Stock may be issued under the Plan in connection with Incentive Stock Options. To the extent the Company grants an Option or a Free-Standing SAR under the Plan, the number of shares of Common Stock that remain available for future grants under the Plan shall be reduced by an amount equal to the number of shares subject to such Option or Free-Standing SAR. To the extent the Company grants a Stock Award or settles a Performance Award in shares of Common Stock, the number of shares of Common Stock that remain available for future grants under the Plan shall be reduced by an amount equal to 2.75 times the number of shares subject to such Stock Award or Performance Award.

To the extent that shares of Common Stock subject to an outstanding Option, SAR, Stock Award or Performance Award granted under the Plan, other than Substitute Awards, are not issued or delivered by reason of (i) the expiration, termination, cancellation or forfeiture of such award (excluding shares subject to an Option cancelled upon settlement in shares of a related Tandem SAR or shares subject to a Tandem SAR cancelled upon exercise of a related Option) or (ii) the settlement of such award in cash, then such shares of Common Stock shall again be available under this Plan; provided, however, that shares of Common Stock subject to an award under this Plan shall not again be available for issuance under this Plan if such shares are (x) shares that were subject to an Option or an SAR and were not issued or delivered upon the net settlement or net exercise of such Option or SAR, (y) shares delivered to or withheld by the Company to pay the grant price or the withholding taxes related to an outstanding Option or SAR or (z) shares repurchased by the Company on the open market with the proceeds of an Option exercise. Shares delivered to or withheld by the Company to pay the withholding taxes for Stock Awards or Performance Awards granted under this Plan, but not Options or SARs, shall again be available for issuance under this Plan. The number of shares that again become available pursuant to this paragraph shall be equal to (i) one share for each share subject to an Option or Free-Standing SAR described herein and (ii) 2.75 shares for each share subject to a Stock Award or a Performance Award described herein. At the time this Plan becomes effective, none of the shares of Common Stock available for future grant under the Prior Plan shall be available for grant under this Plan and none of the shares of Common Stock subject to outstanding awards granted under the Prior Plan shall

again become available for issuance under this Plan, whether upon the expiration, termination, cancellation or forfeiture of such awards or otherwise.

The number of shares of Common Stock available for awards under this Plan shall not be reduced by (i) the number of shares of Common Stock subject to Substitute Awards or (ii) available shares under a stockholder approved plan of a company or other entity which was a party to a corporate transaction with the Company (as appropriately adjusted to reflect such corporate transaction) which become subject to awards granted under this Plan (subject to applicable stock exchange requirements).

Shares of Common Stock to be delivered under this Plan shall be made available from authorized and unissued shares of Common Stock, or authorized and issued shares of Common Stock reacquired and held as treasury shares or otherwise or a combination thereof.

1.6 Per Person Limits. Awards shall be subject to the following per person limits: (i) the maximum number of shares of Common Stock with respect to which Options or SARs, or a combination thereof, may be granted during any fiscal year of the Company to any person shall be 800,000 shares, subject to adjustment as provided in Section 5.8, (ii) with respect to Stock Awards subject to Performance Measures or Performance Awards denominated in Common Stock, the maximum number of shares of Common Stock subject to such awards that may be earned by any person for each 12-month period during a Performance Period shall be the number of shares having a Fair Market Value of \$20 million, determined as of the date of grant, subject to adjustment as provided in Section 5.8, (iii) with respect to Performance Awards denominated in cash, the maximum amount that may be earned by any person for each 12-month period during a Performance Period shall be \$20 million, and (iv) the aggregate grant date fair value of shares of Common Stock that may be granted during any fiscal year of the Company to any Non-Employee Director shall not exceed \$750,000.

II. STOCK OPTIONS AND STOCK APPRECIATION RIGHTS

2.1 Stock Options. The Committee may, in its discretion, grant Options to purchase shares of Common Stock to such eligible persons as may be selected by the Committee. Each Option, or portion thereof, that is not an Incentive Stock Option shall be a Nonqualified Stock Option. To the extent that the aggregate Fair Market Value (determined as of the date of grant) of shares of Common Stock with respect to which Options designated as Incentive Stock Options are exercisable for the first time by a participant during any calendar year (under this Plan or any other plan of the Company, or any parent or Subsidiary) exceeds the amount (currently \$100,000) established by the Code, such Options shall constitute Nonqualified Stock Options.

Options shall be subject to the following terms and conditions and shall contain such additional terms and conditions, not inconsistent with the terms of this Plan, as the Committee shall deem advisable:

(a) **Number of Shares and Grant Price.** The number of shares of Common Stock subject to an Option and the grant price per share of Common Stock purchasable upon exercise of the Option shall be determined by the Committee; provided, however, that the grant price per share of Common Stock purchasable upon exercise of an Option shall not be less than 100% of the Fair Market Value of a share of Common Stock on the date of grant of such Option; provided further, that if an Incentive Stock Option shall be granted to any person who, at the time such Option is granted, owns capital stock possessing more than 10 percent of the total combined voting power of all classes of capital stock of the Company (or of any parent or Subsidiary) (a “Ten Percent Holder”), the grant price per share of Common Stock shall not be less than the price (currently 110% of Fair Market Value) required by the Code in order to constitute an Incentive Stock Option.

Notwithstanding the foregoing, in the case of an Option that is a Substitute Award, the grant price per share of the shares subject to such Option may be less than 100% of the Fair Market Value per share on

the date of grant, provided, that the excess of: (a) the aggregate Fair Market Value (as of the date such Substitute Award is granted) of the shares subject to the Substitute Award, over (b) the aggregate purchase price thereof does not exceed the excess of: (x) the aggregate fair market value (as of the time immediately preceding the transaction giving rise to the Substitute Award, such fair market value to be determined by the Committee) of the shares of the predecessor company or other entity that were subject to the grant assumed or substituted for by the Company, over (y) the aggregate purchase price of such shares.

(b) Option Period and Exercisability. The period during which an Option may be exercised shall be determined by the Committee; provided, however, that no Option shall be exercised later than ten (10) years after its date of grant; provided further, that if an Incentive Stock Option shall be granted to a Ten Percent Holder, such Option shall not be exercised later than five years after its date of grant; provided, further, that with respect to a Nonqualified Stock Option, if the expiration date of such Option occurs during any period when the participant is prohibited from trading in securities of the Company pursuant to the Company's insider trading policy or other policy of the Company or during a period when the exercise of such Option would violate applicable securities laws (each, a "Blackout Period"), then the period during which such Option shall be exercisable shall continue until the date that is 30 days after the expiration of such Blackout Period. The Committee may, in its discretion, establish Performance Measures which shall be satisfied or met as a condition to the grant of an Option or to the exercisability of all or a portion of an Option. The Committee shall determine whether an Option shall become exercisable in cumulative or non-cumulative installments and in part or in full at any time. An exercisable Option, or portion thereof, may be exercised only with respect to whole shares of Common Stock. Prior to the exercise of an Option, the holder of such Option shall have no rights as a stockholder of the Company with respect to the shares of Common Stock subject to such Option, including the right to receive dividends or dividend equivalents.

(c) Method of Exercise. An Option may be exercised (i) by giving written or electronic notice to the Company or its designated agent, in accordance with procedures prescribed by the Company, specifying the number of whole shares of Common Stock to be purchased and paying the aggregate purchase price in full (or arrangement made for such payment to the Company's satisfaction) either (A) in cash, (B) by delivery (either actual delivery or by attestation procedures established by the Company) of shares of Common Stock having a Fair Market Value, determined as of the date of exercise, equal to the aggregate purchase price payable by reason of such exercise, (C) authorizing the Company to withhold whole shares of Common Stock which would otherwise be delivered having an aggregate Fair Market Value, determined as of the date of exercise, equal to the amount necessary to satisfy such obligation, (D) in cash by a broker-dealer acceptable to the Company to whom the optionee has submitted an irrevocable notice of exercise or (E) a combination of (A), (B) and (C), in each case to the extent set forth in the Award Notice relating to the Option, (ii) if applicable, by surrendering to the Company any Tandem SARs which are cancelled by reason of the exercise of the Option and (iii) by executing such documents as the Company may reasonably request. No shares of Common Stock shall be issued and no certificate representing shares of Common Stock shall be delivered until the full purchase price therefor and any withholding taxes thereon, as described in Section 5.5, have been paid (or arrangement made for such payment to the Company's satisfaction).

2.2 Stock Appreciation Rights. The Committee may, in its discretion, grant SARs to such eligible persons as may be selected by the Committee. The Award Notice relating to an SAR shall specify whether the SAR is a Tandem SAR or a Free-Standing SAR.

SARs shall be subject to the following terms and conditions and shall contain such additional terms and conditions, not inconsistent with the terms of this Plan, as the Committee shall deem advisable:

(a) Number of SARs and Base Price. The number of SARs subject to an award shall be determined by the Committee. Any Tandem SAR related to an Incentive Stock Option shall be granted at the same time that such Incentive Stock Option is granted. The base price of a Tandem SAR shall be the grant price per share of Common Stock of the related Option. The base price of a Free-Standing SAR shall be determined by the Committee; provided, however, that such base price shall not be less than 100% of the Fair Market Value of a share of Common Stock on the date of grant of such SAR (or, if earlier, the date of grant of the Option for which the SAR is exchanged or substituted).

Notwithstanding the foregoing, in the case of an SAR that is a Substitute Award, the base price per share of the shares subject to such SAR may be less than 100% of the Fair Market Value per share on the date of grant, provided, that the excess of: (a) the aggregate Fair Market Value (as of the date such Substitute Award is granted) of the shares subject to the Substitute Award, over (b) the aggregate base price thereof does not exceed the excess of: (x) the aggregate fair market value (as of the time immediately preceding the transaction giving rise to the Substitute Award, such fair market value to be determined by the Committee) of the shares of the predecessor company or other entity that were subject to the grant assumed or substituted for by the Company, over (y) the aggregate base price of such shares.

(b) Exercise Period and Exercisability. The period for the exercise of an SAR shall be determined by the Committee; provided, however, that no SAR shall be exercised later than ten (10) years after its date of grant; provided further, that no Tandem SAR shall be exercised later than the expiration, cancellation, forfeiture or other termination of the related Option; provided, further, if the expiration date of an SAR occurs during any Blackout Period, then the period during which such SAR shall be exercisable shall continue until the date that is 30 days after the expiration of such Blackout Period. The Committee may, in its discretion, establish Performance Measures which shall be satisfied or met as a condition to the grant of an SAR or to the exercisability of all or a portion of an SAR. The Committee shall determine whether an SAR may be exercised in cumulative or non-cumulative installments and in part or in full at any time. An exercisable SAR, or portion thereof, may be exercised only with respect to whole shares of Common Stock. If an SAR is exercised for shares of Restricted Stock, a certificate or certificates representing such Restricted Stock shall be issued in accordance with Section 3.3(c), or such shares shall be transferred to the holder in book entry form with restrictions on the shares duly noted, and the holder of such Restricted Stock shall have such rights of a stockholder of the Company as determined pursuant to Section 3.3(d). Prior to the exercise of a stock-settled SAR, the holder of such SAR shall have no rights as a stockholder of the Company with respect to the shares of Common Stock subject to such SAR, including the right to receive dividends or dividend equivalents.

(c) Method of Exercise. A Tandem SAR may be exercised (i) by giving written or electronic notice to the Company or its designated agent, in accordance with procedures prescribed by the Company, specifying the number of whole SARs which are being exercised, (ii) by surrendering to the Company any Options which are cancelled by reason of the exercise of the Tandem SAR and (iii) by executing such documents as the Company may reasonably request. A Free-Standing SAR may be exercised (A) by giving written or electronic notice to the Company, in accordance with procedures prescribed by the Company, specifying the whole number of SARs which are being exercised and (B) by executing such documents as the Company may reasonably request. No shares of Common Stock shall be issued and no certificate representing shares of Common Stock shall be delivered until any withholding taxes thereon, as described in Section 5.5, have been paid (or arrangement made for such payment to the Company's satisfaction).

2.3 Termination of Employment or Service. All of the terms relating to the exercise, cancellation or other disposition of an Option or SAR (i) upon a termination of employment with or service to the Company of the holder of such Option or SAR, as the case may be, whether by reason of disability, retirement, death

or any other reason, or (ii) during a paid or unpaid leave of absence, shall be determined by the Committee and set forth in the applicable Award Notice.

2.4 No Repricing. The Committee shall not, without the approval of the stockholders of the Company, (i) reduce the grant price or base price of any previously granted Option or SAR, (ii) cancel any previously granted Option or SAR in exchange for another Option or SAR with a lower grant price or base price or (iii) cancel any previously granted Option or SAR in exchange for cash or another award if the grant price of such Option or the base price of such SAR exceeds the Fair Market Value of a share of Common Stock on the date of such cancellation, in each case, other than in connection with a Change in Control or the adjustment provisions set forth in Section 5.8.

III. STOCK AWARDS

3.1 Stock Awards. The Committee may, in its discretion, grant Stock Awards to such eligible persons as may be selected by the Committee. The Award Notice relating to a Stock Award shall specify whether the Stock Award is a Restricted Stock Award, Restricted Stock Unit Award or Unrestricted Stock Award.

3.2 Terms of Unrestricted Stock Awards. The number of shares of Common Stock subject to an Unrestricted Stock Award shall be determined by the Committee. Unrestricted Stock Awards shall not be subject to any Restriction Periods or Performance Measures; provided, however, Unrestricted Stock Awards shall be limited to (i) awards to Non-Employee Directors, (ii) awards to newly hired employees, (iii) awards made in lieu of a cash bonus or (iv) awards granted under this Plan with respect to the number of shares of Common Stock which, in the aggregate, does not exceed five percent (5%) of the total number of shares available for awards under this Plan. Upon the grant of an Unrestricted Stock Award, subject to the Company's right to require payment of any taxes in accordance with Section 5.5, a certificate or certificates evidencing ownership of the requisite number of shares of Common Stock shall be delivered to the holder of such award or such shares shall be transferred to the holder in book entry form.

3.3 Terms of Restricted Stock Awards. Restricted Stock Awards shall be subject to the following terms and conditions and shall contain such additional terms and conditions, not inconsistent with the terms of this Plan, as the Committee shall deem advisable.

(a) Number of Shares and Other Terms. The number of shares of Common Stock subject to a Restricted Stock Award and the Restriction Period, Performance Period (if any) and Performance Measures (if any) applicable to a Restricted Stock Award shall be determined by the Committee.

(b) Vesting and Forfeiture. The Award Notice relating to a Restricted Stock Award shall provide, in the manner determined by the Committee, in its discretion, and subject to the provisions of this Plan, for the vesting of the shares of Common Stock subject to such award (i) if the holder of such award remains continuously in the employment of the Company during the specified Restriction Period and (ii) if specified Performance Measures (if any) are satisfied or met during a specified Performance Period, and for the forfeiture of the shares of Common Stock subject to such award (x) if the holder of such award does not remain continuously in the employment of the Company during the specified Restriction Period or (y) if specified Performance Measures (if any) are not satisfied or met during a specified Performance Period.

(c) Stock Issuance. During the Restriction Period, the shares of Restricted Stock shall be held by a custodian in book entry form with restrictions on such shares duly noted or, alternatively, a certificate or certificates representing a Restricted Stock Award shall be registered in the holder's name and may bear a legend, in addition to any legend which may be required pursuant to Section 5.7, indicating that the ownership of the shares of Common Stock represented by such certificate is subject to the restrictions, terms and conditions of this Plan and the Award Notice relating to the Restricted Stock Award. All such certificates shall be deposited with the Company, together with stock powers or other instruments of assignment (including a power of attorney), each endorsed in blank with a guarantee of signature if deemed necessary or appropriate, which would permit transfer to the Company of all or a portion of the shares of Common Stock subject to the Restricted Stock Award in the event such award is forfeited in whole or in part. Upon termination of any applicable Restriction Period (and the satisfaction or attainment of applicable Performance Measures), subject to the Company's right to require payment of any taxes in accordance with Section 5.5, the restrictions shall be removed from the requisite number of any shares of Common Stock that are held in book entry form, and all certificates evidencing ownership of the requisite number of shares of Common Stock shall be delivered to the holder of such award.

(d) Rights with Respect to Restricted Stock Awards. Unless otherwise set forth in the Award Notice relating to a Restricted Stock Award, and subject to the terms and conditions of a Restricted Stock Award, the holder of such award shall have all rights as a stockholder of the Company, including, but not limited to, voting rights, the right to receive dividends and the right to participate in any capital adjustment applicable to all holders of Common Stock; provided, however, that (i) a distribution with respect to shares of Common Stock, other than a regular cash dividend, and (ii) a regular cash dividend with respect to shares of Common Stock that are subject to performance-based vesting conditions, in each case, shall be deposited with the Company and shall be subject to the same restrictions as the shares of Common Stock with respect to which such distribution was made.

3.4 Terms of Restricted Stock Unit Awards. Restricted Stock Unit Awards shall be subject to the following terms and conditions and shall contain such additional terms and conditions, not inconsistent with the terms of this Plan, as the Committee shall deem advisable.

(a) Number of Shares and Other Terms. The number of shares of Common Stock subject to a Restricted Stock Unit Award and the Restriction Period, Performance Period (if any) and Performance Measures (if any) applicable to a Restricted Stock Unit Award shall be determined by the Committee.

(b) Vesting and Forfeiture. The Award Notice relating to a Restricted Stock Unit Award shall provide, in the manner determined by the Committee, in its discretion, and subject to the provisions of this Plan, for the vesting of such Restricted Stock Unit Award (i) if the holder of such award remains continuously in the employment of the Company during the specified Restriction Period and (ii) if specified Performance Measures (if any) are satisfied or met during a specified Performance Period, and for the forfeiture of the shares of Common Stock subject to such award (x) if the holder of such award does not remain continuously in the employment of the Company during the specified Restriction Period or (y) if specified Performance Measures (if any) are not satisfied or met during a specified Performance Period.

(c) Settlement of Vested Restricted Stock Unit Awards. The Award Notice relating to a Restricted Stock Unit Award shall specify (i) whether such award may be settled in shares of Common Stock or cash or a combination thereof and (ii) whether the holder thereof shall be entitled to receive, on a current or deferred basis, dividend equivalents, and, if determined by the Committee, interest on, or the deemed reinvestment of, any deferred dividend equivalents, with respect to the number of shares of Common Stock subject to such award. Any dividend equivalents with respect to Restricted Stock Units that are subject to

performance-based vesting conditions shall be subject to the same restrictions as such Restricted Stock Units. Prior to the settlement of a Restricted Stock Unit Award, the holder of such award shall have no rights as a stockholder of the Company with respect to the shares of Common Stock subject to such award.

3.5 Termination of Employment or Service. All of the terms relating to the satisfaction of Performance Measures and the termination of the Restriction Period or Performance Period relating to a Stock Award, or any forfeiture and cancellation of such award (i) upon a termination of employment with or service to the Company of the holder of such award, whether by reason of disability, retirement, death or any other reason, or (ii) during a paid or unpaid leave of absence, shall be determined by the Committee and set forth in the applicable Award Notice.

IV. PERFORMANCE AWARDS

4.1 Performance Awards. The Committee may, in its discretion, grant Performance Awards to such eligible persons as may be selected by the Committee.

4.2 Terms of Performance Awards. Performance Awards shall be subject to the following terms and conditions and shall contain such additional terms and conditions, not inconsistent with the terms of this Plan, as the Committee shall deem advisable.

(a) Value of Performance Awards and Performance Measures. The method of determining the value of the Performance Award and the Performance Measures and Performance Period applicable to a Performance Award shall be determined by the Committee.

(b) Vesting and Forfeiture. The Award Notice relating to a Performance Award shall provide, in the manner determined by the Committee, in its discretion, and subject to the provisions of this Plan, for the vesting of such Performance Award if the specified Performance Measures are satisfied or met during the specified Performance Period and for the forfeiture of such award if the specified Performance Measures are not satisfied or met during the specified Performance Period.

(c) Settlement of Vested Performance Awards. The Award Notice relating to a Performance Award shall specify whether such award may be settled in shares of Common Stock (including shares of Restricted Stock) or cash or a combination thereof. If a Performance Award is settled in shares of Restricted Stock, such shares of Restricted Stock shall be issued to the holder in book entry form or a certificate or certificates representing such Restricted Stock shall be issued in accordance with Section 3.3(c) and the holder of such Restricted Stock shall have such rights as a stockholder of the Company as determined pursuant to Section 3.3(d). Any dividends or dividend equivalents with respect to a Performance Award shall be subject to the same restrictions as such Performance Award. Prior to the settlement of a Performance Award in shares of Common Stock, including Restricted Stock, the holder of such award shall have no rights as a stockholder of the Company.

4.3 Termination of Employment or Service. All of the terms relating to the satisfaction of Performance Measures and the termination of the Performance Period relating to a Performance Award, or any forfeiture and cancellation of such award (i) upon a termination of employment with or service to the Company of the holder of such award, whether by reason of disability, retirement, death or any other reason, or (ii) during a paid or unpaid leave of absence, shall be determined by the Committee and set forth in the applicable Award Notice.

V. GENERAL

5.1 Effective Date and Term of Plan. This Plan was approved by the Board on April 9, 2014, and became effective as of June 11, 2014, the date on which the Company's stockholders approved the Plan. This Plan superseded and replaced the Prior Plan; provided that the Prior Plan shall remain in effect with respect to all outstanding awards granted under the Prior Plan until such awards have been exercised, forfeited, canceled, expired or otherwise terminated in accordance with the terms of such grants. The Plan was further amended and restated by the Board on April 12, 2017 and approved by the Company's stockholders on June 14, 2017. This amendment and restatement of the Plan, as set forth herein, was approved by the Committee on October 8, 2019. Any amendments made to the Plan after November 2, 2017 shall not be given effect with respect to any Awards that were outstanding as of such date to the extent that any such amendment would cause the transition relief for amendments made to Section 162(m) of the Code by the Tax Cuts and Jobs Act to become unavailable. The Plan shall terminate on the tenth anniversary of the Plan's effective date, June 11, 2024, unless terminated earlier by the Committee; provided that no Incentive Stock Options shall be granted later than ten (10) years after the date the Plan is adopted by the Board or the date the Plan is approved by the stockholders of the Company, whichever is earlier. Termination of this Plan shall not affect the terms or conditions of any award granted prior to termination. Awards hereunder may be made at any time prior to the termination of this Plan.

5.2 Amendments. The Committee may amend this Plan as it shall deem advisable; provided, however, that no amendment to the Plan shall be effective without the approval of the Company's stockholders if (i) stockholder approval is required by applicable law, rule or regulation, any rule of the New York Stock Exchange, or any other stock exchange on which the Common Stock is then traded, or (ii) such amendment seeks to modify Section 2.4 hereof; provided further, that no amendment may materially impair the rights of a holder of an outstanding award without the consent of such holder.

5.3 Award Notice. Each award under this Plan shall be evidenced by an Award Notice setting forth the terms and conditions applicable to such award. No award shall be valid until an Award Notice is provided by the Company and, to the extent the Committee may, in its sole discretion, require, either executed by the recipient or accepted by the recipient by electronic means approved by the Committee within the time period specified by the Committee. Upon execution by the Company, or if required, upon such execution and delivery of the Award Notice to the Company or electronic acceptance of the Award Notice, such award shall be effective as of the effective date set forth in the Award Notice.

5.4 Non-Transferability.

(a) Except as provided in Section 5.4(b), no award shall be transferable other than by will, the laws of descent and distribution, pursuant to beneficiary designation procedures approved by the Company, pursuant to a domestic relations order or, to the extent expressly permitted in the Award Notice relating to such award, to the holder's family members, a trust or entity established by the holder for estate planning purposes or a charitable organization designated by the holder (a "Permitted Transferee"), in each case, without consideration. Except to the extent permitted by the foregoing sentence or the Award Notice relating to an award, each award may be exercised or settled during the holder's lifetime only by the holder or the holder's legal representative, agent or similar person. Except as permitted by the second preceding sentence, no award may be sold, transferred, assigned, pledged, hypothecated, encumbered or otherwise disposed of (whether by operation of law or otherwise) or be subject to execution, attachment or similar process. Upon any attempt to so sell, transfer, assign, pledge, hypothecate, encumber or otherwise dispose of any award, such award and all rights thereunder shall immediately become null and void.

(b) Nonqualified Stock Options and SARs (except for any Tandem SAR granted in tandem with an Incentive Stock Option), whether vested or unvested, held by (A) participants who are considered

officers of the Company for purposes of Section 16 of the Exchange Act; (B) participants who are Directors; or (C) any participants who previously held the positions in clauses (A) and (B) may be transferred by gift or by domestic relations order to one or more Permitted Transferees. Nonqualified Stock Options and SARs (except for any Tandem SAR granted in tandem with an Incentive Stock Option), whether vested or unvested, held by all other participants and by Permitted Transferees may be transferred by gift or by domestic relations order only to Permitted Transferees and, in the case of transfers other than in connection with a domestic relations order, upon the prior written approval of the Company's Director of Total Rewards.

5.5 Tax Withholding. The Company shall have the right to require, prior to the issuance or delivery of any shares of Common Stock or the payment of any cash pursuant to an award made hereunder, payment by the holder of such award of any federal, state, local or other taxes which may be required to be withheld or paid in connection with such award. An Award Notice may provide that (i) the Company shall withhold whole shares of Common Stock which would otherwise be delivered to a holder, having an aggregate Fair Market Value determined as of the date the obligation to withhold or pay taxes arises in connection with an award (the "Tax Date"), or withhold an amount of cash which would otherwise be payable to a holder, in the amount necessary to satisfy any such obligation or (ii) the holder may satisfy any such obligation by any of the following means: (A) a cash payment to the Company; (B) delivery (either actual delivery or by attestation procedures established by the Company) to the Company of previously owned whole shares of Common Stock having an aggregate Fair Market Value, determined as of the Tax Date, equal to the amount necessary to satisfy any such obligation; (C) authorizing the Company to withhold whole shares of Common Stock which would otherwise be delivered having an aggregate Fair Market Value, determined as of the Tax Date, or withhold an amount of cash which would otherwise be payable to a holder, equal to the amount necessary to satisfy any such obligation; (D) in the case of the exercise of an Option, a cash payment by a broker-dealer acceptable to the Company to whom the optionee has submitted an irrevocable notice of exercise or (E) any combination of (A), (B) and (C), in each case to the extent set forth in the Award Notice relating to the award. Shares of Common Stock to be delivered or withheld may not have an aggregate Fair Market Value in excess of the amount determined by applying the minimum statutory withholding rate; provided, however, that if a fraction of a share of Common Stock would be required to satisfy the minimum statutory withholding taxes, then the number of shares of Common Stock to be delivered or withheld may be rounded up to the next nearest whole share of Common Stock.

5.6 Section 83(b) Election. No election under Section 83(b) of the Code (to include in gross income in the year of transfer the amounts specified in Code Section 83(b)) or under a similar provision of the laws of a jurisdiction outside the United States may be made, unless expressly permitted by the terms of the Award Notice. In any case in which a participant is permitted to make such an election in connection with an award, the participant shall notify the Company of such election within ten days of filing notice of the election with the Internal Revenue Service or other governmental authority, in addition to any filing and notification required pursuant to regulations issued under Code Section 83(b) or other applicable provision.

5.7 Restrictions on Shares. Each award made hereunder shall be subject to the requirement that if at any time the Company determines that the listing, registration or qualification of the shares of Common Stock subject to such award upon any securities exchange or under any law, or the consent or approval of any governmental body, or the taking of any other action is necessary or desirable as a condition of, or in connection with, the delivery of shares thereunder, such shares shall not be delivered unless such listing, registration, qualification, consent, approval or other action shall have been effected or obtained, free of any conditions not acceptable to the Company. The Company may require that certificates evidencing shares of Common Stock delivered pursuant to any award made hereunder bear a legend indicating that the sale, transfer or other disposition thereof by the holder is prohibited except in compliance with the Securities Act of 1933, as amended, and the rules and regulations thereunder.

5.8 Adjustment. In the event of any equity restructuring (within the meaning of Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation—Stock Compensation) that causes the per share value of shares of Common Stock to change, such as a stock dividend, stock split, spinoff, rights offering or recapitalization through an extraordinary cash dividend, the number and class of securities available under this Plan, the terms of each outstanding Option and SAR (including the number and class of securities subject to each outstanding Option or SAR and the grant price or base price per share), the terms of each outstanding Restricted Stock Award and Restricted Stock Unit Award (including the number and class of securities subject thereto), the terms of each outstanding Performance Award (including the number and class of securities subject thereto), the maximum number of securities with respect to which Options or SARs may be granted during any fiscal year of the Company to any one grantee, the maximum number of shares of Common Stock that may be awarded during any fiscal year of the Company to any one grantee pursuant to a Stock Award that is subject to Performance Measures or a Performance Award, as set forth in Section 1.6, shall be appropriately adjusted by the Committee, such adjustments to be made in the case of outstanding Options and SARs in accordance with Section 409A of the Code. In the event of any other change in corporate capitalization, including a merger, consolidation, reorganization, or partial or complete liquidation of the Company, such equitable adjustments described in the foregoing sentence may be made as determined to be appropriate and equitable by the Committee to prevent dilution or enlargement of rights of participants. In either case, the decision of the Committee regarding any such adjustment shall be final, binding and conclusive.

5.9 Change in Control.

(a) Impact of a Change in Control. Notwithstanding any other provision of the Plan to the contrary, in the event of a Change in Control:

(i) If and to the extent that outstanding awards under the Plan are (A) continued by the Company, (B) assumed by the successor corporation (or affiliate thereto) or (C) replaced with awards that preserve the existing value of the awards at the time of the Change in Control and provide for subsequent payout in accordance with a vesting schedule and Performance Measures, as applicable, that are the same or more favorable to the participants than the vesting schedule and Performance Measures applicable to the awards, then all such awards or such substitutes therefor shall remain outstanding and be governed by their respective terms and the provisions of the Plan subject to Section 5.9(a)(iv) below.

(ii) If and to the extent that outstanding awards under the Plan are not continued, assumed or replaced in accordance with Section 5.9(a)(i) above, then upon the Change in Control: (A) outstanding Options and SARs shall immediately vest and become exercisable, (B) the Restriction Period applicable to outstanding Restricted Stock Awards and Restricted Stock Unit Awards shall immediately lapse; and, with respect to Restricted Stock Unit Awards, shall be payable immediately in accordance with their terms or, if later, as of the earliest permissible date under Code Section 409A, and (C) outstanding Performance Awards granted under the Plan shall immediately vest and shall become immediately payable in accordance with their terms as if the target level of the Performance Measures had been achieved or, with respect to completed performance periods, based on the actual level of achievement.

(iii) If and to the extent that outstanding awards under the Plan are not continued, assumed or replaced in accordance with Section 5.9(a)(i) above, then the Board may, in its sole discretion, require outstanding awards to be surrendered to the Company by the holder, and to be immediately cancelled by the Company, and to provide for the holder to receive a cash payment in an amount

equal to (1) in the case of an Option or an SAR, the aggregate number of shares of Common Stock then subject to the portion of such Option or SAR surrendered multiplied by the excess, if any, of the Fair Market Value of a share of Common Stock as of the date of the Change in Control, over the grant price or base price per share of Common Stock subject to such Option or SAR, (2) in the case of a Stock Award or a Performance Award denominated in shares of Common Stock, the aggregate number of shares of Common Stock then subject to the portion of such award surrendered to the extent the Performance Measures applicable to such award have been satisfied or are deemed satisfied pursuant to Section 5.9(a)(ii), multiplied by the Fair Market Value of a share of Common Stock as of the date of the Change in Control, and (3) in the case of a Performance Award denominated in cash, the value of the Performance Award then subject to the portion of such award surrendered to the extent the Performance Measures applicable to such award have been satisfied or are deemed satisfied pursuant to Section 5.9(a)(ii).

(iv) If and to the extent that (A) outstanding awards are continued, assumed or replaced in accordance with Section 5.9(a)(i) above and (B) a participant's employment with, or performance of services for, the Company (or the company resulting from or succeeding to the business of the Company pursuant to such Change in Control) is terminated by the Company for any reason other than Cause or by such participant for Good Reason, in each case, within the 24-month period commencing on the date of the Change in Control, then, as of the date of such participant's termination: (A) outstanding Options and SARs shall immediately vest and become exercisable, (B) the Restriction Period applicable to outstanding Restricted Stock Awards and Restricted Stock Unit Awards shall immediately lapse; and, with respect to Restricted Stock Unit Awards, shall be payable immediately in accordance with their terms or, if later, as of the earliest permissible date under Code Section 409A, and (C) outstanding Performance Awards granted under the Plan shall immediately vest and shall become immediately payable in accordance with their terms as if the target level of the Performance Measures had been achieved or, with respect to completed performance periods, based on the actual level of achievement.

(v) Outstanding Options or SARs that are assumed or replaced in accordance with Section 5.9(a)(i) may be exercised by the participant in accordance with the applicable terms and conditions of such award as set forth in the applicable Award Notice or elsewhere; provided, however, that Options or SARs that become exercisable in accordance with Section 5.9(a)(iv) may be exercised until the expiration of the original full term of such Option or SAR notwithstanding the other original terms and conditions of such award.

(b) For purposes of this Plan, unless otherwise provided in an Award Notice, "Change in Control" means the occurrence of any one of the following events:

(i) During any twenty-four (24) month period, individuals who, as of the beginning of such period, constitute the Board (the "Incumbent Directors") cease for any reason to constitute at least a majority of the Board; provided that any person becoming a director subsequent to the beginning of such period whose election or nomination for election was approved by a vote of at least a majority of the Incumbent Directors then on the Board (either by a specific vote or by approval of the proxy statement of the Company in which such person is named as a nominee for director, without written objection to such nomination) shall be an Incumbent Director; provided, however, that no individual initially elected or nominated as a director of the Company as a result of an actual or threatened election contest with respect to directors or as a result of any other actual or threatened solicitation of proxies by or on behalf of any person other than the Board shall be deemed to be an Incumbent Director;

(ii) Any “person” (as such term is defined in the Exchange Act and as used in Sections 13(d)(3) and 14(d)(2) of the Exchange Act) is or becomes a “beneficial owner” (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing 20% or more of the combined voting power of the Company’s then outstanding securities eligible to vote for the election of the Board (the “Company Voting Securities”), unless the Board, as constituted immediately prior to the date on which such person acquires such beneficial interest, by resolution negates the effect of this provision in a particular circumstance, deeming that resolution to be in the best interests of Company stockholders; provided, however, that the event described in this paragraph (ii) shall not be deemed to be a Change in Control by virtue of any of the following acquisitions: (A) by the Company or any Subsidiary; (B) by any employee benefit plan (or related trust) sponsored or maintained by the Company or any Subsidiary; (C) by any underwriter temporarily holding securities pursuant to an offering of such securities; or (D) by any person of Company Voting Securities from the Company, if a majority of the Incumbent Board approves in advance the acquisition of beneficial ownership of 20% or more of Company Voting Securities by such person;

(iii) The consummation of a merger, consolidation, statutory share exchange or similar form of corporate transaction involving the Company or any of its Subsidiaries that requires the approval of the Company’s stockholders, whether for such transaction or the issuance of securities in the transaction (a “Business Combination”), that results in the voting securities of the Company outstanding immediately prior thereto representing (either by remaining outstanding or by being converted into voting securities of the surviving entity) less than 50% of the combined voting power of the voting securities of the Company or such surviving entity outstanding immediately after such Business Combination; or

(iv) The stockholders of the Company approve a plan of complete liquidation or dissolution of the Company or the consummation of a sale of all or substantially all of the Company’s assets.

Notwithstanding the foregoing, to the extent a payment to be made pursuant to an award upon a Change in Control constitutes deferred compensation that is subject to Section 409A of the Code, and such Change in Control does not constitute a “change in control event,” within the meaning of Treasury regulations promulgated under Section 409A of the Code, such payment shall be paid at the time it is otherwise scheduled to be paid, without regard to the occurrence of the Change in Control.

(c) For purposes of this Section 5.9, “Cause” means, unless otherwise provided in an Award Notice, a willful engaging in gross misconduct materially and demonstrably injurious to the Company. For this purpose, “willful” means an act or omission in bad faith and without a reasonable belief that such act or omission was in or not opposed to the best interests of the Company.

(d) For purposes of this Section 5.9, “Good Reason” means, unless otherwise provided in an Award Notice, the occurrence of any of the following circumstances (unless such circumstances are fully corrected by the Company before a participant’s termination of employment or the participant fails to provide written notice of such circumstances within 30 days after the participant becomes, or reasonably should have become, aware of such circumstances): (A) the Company’s assignment of any duties materially inconsistent with the participant’s position with the Company, or which result in a material adverse alteration in the nature or status of the responsibilities of the participant’s employment; or (B) a material reduction by the Company in the participant’s annual base salary, unless such reduction is part of a compensation reduction program affecting all similarly situated management employees.

5.10 **Deferrals.** The Committee may determine that the delivery of shares of Common Stock or the payment of cash, or a combination thereof, upon the settlement of all or a portion of any award (other than awards of Incentive Stock Options, Nonqualified Stock Options and SARs) made hereunder shall be deferred, or the Committee may, in its sole discretion, approve deferral elections made by holders of awards. Deferrals shall be for such periods and upon such terms as the Committee may determine in its sole discretion, subject to the requirements of Section 409A of the Code.

5.11 **No Right of Participation, Employment or Service.** Unless otherwise set forth in an employment agreement, no person shall have any right to participate in this Plan. Neither this Plan nor any award made hereunder shall confer upon any person any right to continued employment by or service with the Company, any Subsidiary or any affiliate of the Company or affect in any manner the right of the Company, any Subsidiary or any affiliate of the Company to terminate the employment or service of any person at any time without liability hereunder.

5.12 **Rights as Stockholder.** No person shall have any right as a stockholder of the Company with respect to any shares of Common Stock or other equity security of the Company which is subject to an award hereunder unless and until such person becomes a stockholder of record with respect to such shares of Common Stock or equity security.

5.13 **Designation of Beneficiary.** To the extent permitted by the Company, a holder of an award may file with the Company a written designation of one or more persons as such holder's beneficiary or beneficiaries (both primary and contingent) in the event of the holder's death or incapacity. To the extent an outstanding Option or SAR granted hereunder is exercisable, such beneficiary or beneficiaries shall be entitled to exercise such Option or SAR pursuant to procedures prescribed by the Company. Each beneficiary designation shall become effective only when filed in writing with the Company during the holder's lifetime on a form prescribed by the Company. The spouse of a married holder domiciled in a community property jurisdiction shall join in any designation of a beneficiary other than such spouse. The filing with the Company of a new beneficiary designation shall cancel all previously filed beneficiary designations. If a holder fails to designate a beneficiary, or if all designated beneficiaries of a holder predecease the holder, then each outstanding award held by such holder, to the extent vested or exercisable, shall be payable to or may be exercised by such holder's executor, administrator, legal representative or similar person.

5.14 **Governing Law.** This Plan, each award hereunder and the related Award Notice, and all determinations made and actions taken pursuant thereto, to the extent not otherwise governed by the Code or the laws of the United States, shall be governed by the laws of the State of Delaware and construed in accordance therewith without giving effect to principles of conflicts of laws.

5.15 **Non-U.S. Employees.** Without amending this Plan, the Committee may grant awards to eligible persons who are foreign nationals and/or reside outside the U.S. on such terms and conditions different from those specified in this Plan as may in the judgment of the Committee be necessary or desirable to foster and promote achievement of the purposes of this Plan and, in furtherance of such purposes the Committee may make such modifications, amendments, procedures, subplans and the like as may be necessary or advisable to comply with provisions of laws in other countries or jurisdictions in which the Company or its Subsidiaries operates or has employees.

5.16 **Award Forfeitures.**

(a) **Forfeiture of Options and Other Awards.** Each award granted hereunder shall be subject to the following additional forfeiture conditions, to which the participant, by accepting an award hereunder,

agrees. If any of the events specified in Section 5.16(b) occurs (a “Forfeiture Event”), all of the following forfeitures will result:

(i) The unexercised portion of any Option, whether or not vested, and any other award not then settled (except for an award that has not been settled solely due to an elective deferral pursuant to Section 5.10 by the participant and otherwise is not forfeitable in the event of any termination of service of the participant) will be immediately forfeited and canceled upon the occurrence of the Forfeiture Event; and

(ii) The participant will be obligated to repay the Company, in cash, within five business days after demand is made thereof by the Company, the total amount of Award Gain (as defined herein) realized by the participant upon each exercise of an Option or settlement of an award (regardless of any elective deferral pursuant to Section 5.10) that occurred on or after (i) the date that is 12 months before the occurrence of the Forfeiture Event, if the Forfeiture Event occurred while the participant was employed by the Company or a Subsidiary, or (ii) the date that is 12 months before the date the participant’s employment by, or service as a Director with the Company or a Subsidiary terminated, if the Forfeiture Event occurred after the participant ceased to be so employed.

(b) Events Triggering Forfeiture. The forfeitures specified in Section 5.16(a) will be triggered upon the occurrence of any one of the following Forfeiture Events at any time during the participant’s employment by or service as a Director with the Company or a Subsidiary or during the one-year period following termination of such employment or service:

(i) Non-Solicitation. The participant, for his or her own benefit or for the benefit of any other person, company or entity, directly or indirectly, (i) induces or attempts to induce or hires or otherwise counsels, induces or attempts to induce or hire or otherwise counsel, advise, encourage or solicit any person to leave the employment of or the service for the Company or any Subsidiary, (ii) hires or in any manner employs or retains the services of any individual employed by or providing services to the Company or any Subsidiary as of the date of his or her termination of employment, or employed by or providing services to the Company or any Subsidiary subsequent to such termination, (iii) solicits, pursues, calls upon or takes away, any potential customers of the Company or any Subsidiary, (iv) solicits, pursues, calls upon or takes away, any potential customer of the Company or any Subsidiary that has been the subject of a bid, offer or proposal by the Company or any Subsidiary, or of substantial preparation with a view to making such a bid, proposal or offer, within 12 months before such participant’s termination of employment with the Company or any Subsidiary, or (v) otherwise interferes with the business or accounts of the Company or any Subsidiary.

(ii) Confidential Information. The participant discloses to any person or entity or makes use of any “confidential or proprietary information” (as defined below in this Section 5.16(b)(2)) for his or her own purpose or for the benefit of any person or entity, except as may be necessary in the ordinary course of employment with or other service to the Company or any Subsidiary. Such “confidential or proprietary information” of the Company or any Subsidiary, includes, but is not limited to, the design, development, operation, building or manufacturing of products manufactured and supplied by the Company and its Subsidiaries, the identity of the Company’s or any Subsidiary’s customers, the identity of representatives of customers with whom the Company or any Subsidiary has dealt, the kinds of services provided by the Company or any Subsidiary to customers and offered to be performed for potential customers, the manner in which such services are performed or offered to be performed, the service needs of actual or prospective customers, pricing information,

information concerning the creation, acquisition or disposition of products and services, customer maintenance listings, computer software and hardware applications and other programs, personnel information, information identifying, relating to or concerning investors in the Company or any Subsidiary, joint venture partners of the Company or any Subsidiary, business partners of the Company or any Subsidiary or other entities providing financing to the Company or any Subsidiary, real estate and leasing opportunities, communications and telecommunications operations and processes, zoning and licensing matters, relationships with, or matters involving, landlords and/or property owners, and other trade secrets.

(c) Plan Does Not Prohibit Competition or Other Participation Activities. Although the conditions set forth in this Section 5.16 shall be deemed to be incorporated into an award, the Plan does not thereby prohibit the participant from engaging in any activity, including but not limited to competition with the Company and its Subsidiaries. Rather, the non-occurrence of the Forfeiture Events set forth in Section 5.16(b) is a condition to the participant's right to realize and retain value from his or her compensatory awards, and the consequence under the Plan if the participant engages in an activity giving rise to any such Forfeiture Event are the forfeitures specified herein. This provision shall not preclude the Company and the participant from entering into other written agreements concerning the subject matter of Sections 5.16(a) and 5.16(b) and, to the extent any terms of this Section 5.16 are inconsistent with any express terms of such agreement, this Section 5.16 shall not be deemed to modify or amend such terms.

(d) Committee Discretion. The Committee may, in its sole discretion, waive in whole or in part the Company's right to forfeiture under this Section 5.16, but no such waiver shall be effective unless evidenced by a writing signed by a duly authorized officer of the Company. In addition, the Committee may impose additional conditions on awards, by inclusion of appropriate provisions in the Award Notice. Nothing contained herein shall require the Committee to enforce the forfeiture provisions of this Section 5.16. Failure to enforce these provisions against any individual shall not be construed as a waiver of the Company's right to forfeiture under this Section 5.16.

5.17 Awards Subject to Clawback. Notwithstanding any other provision of the Plan to the contrary, any participant who is an officer of the Company whose negligence, intentional or gross misconduct contributes to the Company's having to restate all or a portion of its financial statements, will be required to forfeit awards granted under this Plan and any cash payment or shares of Common Stock delivered pursuant to an award, as determined by the Board of Directors, an authorized committee, or its designee, pursuant to the Caterpillar Inc. Guidelines on Corporate Governance Issues, as adopted on December 7, 2013 and any subsequent amendments, including without limitation any such amendments which the Company may be required to adopt under the Dodd-Frank Wall Street Reform and Consumer Protection Act and implementing rules and regulations thereunder, or as otherwise required by law.

5.18 Right of Setoff. The Company or any Subsidiary may, to the extent permitted by applicable law, deduct from and set off against any amounts the Company or Subsidiary may owe to the participant from time to time, including amounts payable in connection with any award, owed as wages, fringe benefits, or other compensation owed to the participant, such amounts as may be owed by the participant to the Company, although the participant shall remain liable for any part of the participant's payment obligation not satisfied through such deduction and setoff. By accepting any award granted hereunder, the participant agrees to any deduction or setoff under this Section 5.18.

IN WITNESS WHEREOF, the Company has caused this amendment and restatement to be executed by its duly authorized representative as of this 16th day of October 2019.

CATERPILLAR INC.

/s/ Cheryl Johnson

Cheryl Johnson

Chief Human Resources Officer

CATERPILLAR INC.
EXECUTIVE OFFICE ANNUAL INCENTIVE PLAN
(As Amended and Restated, October 8, 2019)

I. INTRODUCTION

1.1 Purposes. The purpose of the Caterpillar Inc. Executive Office Annual Incentive Plan, as amended and restated as set forth herein (the “Plan”), is to retain and motivate the Chief Executive Officer and Group Presidents of the Company and such other officers of the Company who have been designated by the Committee to participate in the Plan for a specified Performance Period by providing them with the opportunity to earn incentive payments based upon the extent to which specified performance goals have been achieved or exceeded for the Performance Period.

1.2 Certain Definitions.

- (a) “**Adjustment Events**” shall have the meaning set forth in Article III.
- (b) “**Award**” shall mean an award to which a Participant may be entitled under the Plan if the performance goals for a Performance Period are satisfied. An Award may be expressed as a fixed amount or pursuant to a formula that is consistent with the provisions of the Plan.
- (c) “**Award Gain**” shall mean the amount paid or payable to the Participant with respect to an Award (regardless of any elective deferral).
- (d) “**Board**” shall mean the Board of Directors of the Company.
- (e) “**Business Combination**” shall have the meaning set forth in Section 5.2(a).
- (f) “**Cause**” shall mean a willful engaging in gross misconduct materially and demonstrably injurious to the Company and its affiliates. For this purpose, willful means an act or omission in bad faith and without reasonable belief that such act or omission was in or not opposed to the best interests of the Company and its affiliates.
- (g) “**Change in Control**” shall have the meaning set forth in Section 5.2(a).
- (h) “**Code**” shall mean the Internal Revenue Code of 1986, as amended.
- (i) “**Committee**” shall mean the Compensation and Human Resources Committee of the Board, or any successor or subcommittee thereof, or such other committee designated by the Board that satisfies any then applicable requirements of the principal national stock exchange on which the common stock of the Company is then traded to constitute a compensation committee.
- (j) “**Company**” shall mean Caterpillar Inc., a Delaware corporation, and any successor thereto.
- (k) “**Company Voting Securities**” shall have the meaning set forth in Section 5.2(a).

(l) “**Disability**” shall mean, unless otherwise provided by the Committee with respect to an Award, the Participant’s qualification for long-term disability benefits under any long-term disability program sponsored by the Company or one of its subsidiaries in which the Participant participates.

(m) “**Exchange Act**” shall have the meaning set forth in Section 5.2(a).

(n) “**Forfeiture Event**” shall have the meaning set forth in Section 6.10(a).

(o) “**Incumbent Directors**” shall have the meaning set forth in Section 5.2(a).

(p) “**Long Service Separation**” shall mean, unless otherwise provided by the Committee with respect to an Award, a termination of employment, other than a termination for Cause, with the Company and all affiliates after the attainment of age 55 with five or more years of continuous service with the Company and all affiliates. Notwithstanding the foregoing, for purposes of determining years of continuous service under this provision, the Committee (or its delegate) may determine, in its discretion, that the service of a Participant who became an employee of the Company or an affiliate as the result of a corporate merger or acquisition, include service accrued by the Participant with the target company prior to the corporate merger or acquisition.

(q) “**Participant**” shall mean the Chief Executive Officer, each Group President of the Company and any other officer of the Company who is designated by the Committee to participate in the Plan for a Performance Period, in accordance with Article II. Absent a specific designation by the Committee, participation in the Plan shall be limited to the Chief Executive Officer and Group Presidents of the Company.

(r) “**Performance Period**” shall mean any period for which performance goals are established pursuant to Article IV. A Performance Period may be coincident with one or more fiscal years of the Company or a portion of any fiscal year of the Company.

(s) “**Plan**” shall mean the Caterpillar Inc. Executive Office Annual Incentive Plan, as amended and restated as set forth herein, or as it may be amended from time to time.

II. ADMINISTRATION

2.1 General. The Plan shall be administered by the Committee, which shall have the full power and authority to interpret, construe and administer the Plan and Awards granted hereunder (including in each case reconciling any inconsistencies, correcting any defaults and addressing any omissions). The Committee’s interpretation, construction and administration of the Plan and all its determinations hereunder shall be final, conclusive and binding on all persons for all purposes.

2.2 Powers and Responsibilities. The Committee shall have the following discretionary powers, rights and responsibilities in addition to those described in Section 2.1.

(a) to designate the Participants for a Performance Period;

(b) to establish the performance goals and targets and other terms and conditions that are to apply to each Participant’s Award;

(c) to determine the extent to which the performance goals for a Performance Period and other material terms applicable to the Award have been satisfied;

(d) subject to Section 409A of the Code, to determine whether, and under what circumstances and subject to what terms, an Award is to be paid on a deferred basis, including whether such a deferred payment shall be made solely at the Committee's discretion or whether a Participant may elect deferred payment; and

(e) to adopt, revise, suspend, waive or repeal, when and as appropriate, in its sole and absolute discretion, such administrative rules, guidelines and procedures for the Plan as it deems necessary or advisable to implement the terms and conditions of the Plan.

2.3 Delegation of Power. The Committee may delegate some or all of its power and authority hereunder to the Chief Executive Officer or other officer of the Company as the Committee deems appropriate; provided, however, that only the Committee shall be permitted to (a) designate persons to participate in the Plan for any Performance Period, (b) establish performance goals and Awards; and (c) determine the achievement of such performance goals.

III. PERFORMANCE GOALS

The Committee shall establish one or more objective or subjective performance goals for each Participant or for any group of Participants (or both). The performance goals may be based on one or more corporate-wide or subsidiary, division, operating unit, individual or other measures, including, without limitation, the following: (i) attainment by a share of Common Stock of a specified Fair Market Value for a specified period of time, (ii) cash flow from operations, (iii) cash flow margin or free cash flow, (iv) cash flow per share, (v) earnings of the Company before or after taxes and/or interest, (vi) earnings before interest, taxes, depreciation, and/or amortization ("EBITDA"), (vii) EBITDA margin, (viii) economic value added, (ix) expense levels or cost reduction goals, (x) gross profit or margin, (xi) increase in stockholder value, (xii) interest expense, (xiii) inventory, (xiv) market share, (xv) net assets, (xvi) net cash provided by operations, (xvii) net operating profits after taxes, (xviii) operating expenses, (xix) operating income, (xx) operating margin, (xxi) operating profit after capital charge ("OPACC"), (xxii) percent of dealer deliveries ("PODD"), (xxiii) percent of industry sales ("PINS"), (xxiv) percent of parts sales "POPS"), (xxv) percent of parts sales – Caterpillar branded ("POPS-C"), (xxvi) pretax income, (xxvii) price-to-earnings growth, (xxviii) price realization, (xxix) primary or fully-diluted earnings per share or profit per share, (xxx) profit after tax, (xxxi) return on assets, (xxxii) return on equity, (xxxiii) return on invested capital, (xxxiv) return on investments, (xxxv) return on sales, (xxxvi) revenues, (xxxvii) sales, (xxxviii) total cash flow, (xxxix) total stockholder (shareholder) return and (xl) strategic business criteria consisting of one or more objectives based on meeting specified goals relating to (A) acquisitions or divestitures, (B) business expansion, (C) realized production system benefits, (D) cost targets, (E) customer acquisition, (F) customer satisfaction, (G) diversity and inclusion, (H) efficiency, (I) inventory turns, (J) realized lean benefits, (K) management of employment practices and employee benefits, (L) market penetration, (M) purchasing material costs, (N) quality and quality audit scores, (O) reductions in errors and omissions, (P) reductions in lost business, (Q) supervision of litigation and information technology, (R) sustainability or (S) realized 6 Sigma benefits. Each such goal may be expressed on an absolute or relative basis and may include comparisons based on current internal targets, the past performance of the Company (including the performance of one or more subsidiaries, divisions, or operating units) or the past or current performance of other companies (or a combination of such past and current performance). In addition to the ratios specifically enumerated above, performance goals may include comparisons relating to capital (including, but not limited to, the cost of capital),

shareholders' equity, shares outstanding, assets or net assets, sales, or any combination thereof. The applicable performance measures may be applied on a pre- or post-tax basis and may be established or adjusted to include or exclude any components of any performance measure, including, without limitation, special charges such as restructuring or impairment charges, debt refinancing costs, extraordinary or noncash items, unusual, nonrecurring or one-time events affecting the Company or its financial statements or changes in law or accounting principles ("Adjustment Events"). In the sole discretion of the Committee, the Committee may amend or adjust the performance measures (including adjustments in the method of calculating attainment of the performance measures) or other terms and conditions of an outstanding Award, including in recognition of any Adjustment Events. Performance goals shall be subject to such other special rules and conditions as the Committee may establish at any time.

IV. TERMS OF AWARDS

4.1 Performance Goals and Targets. The Committee shall establish an Award opportunity for each Participant or group of Participants, which shall be based on the achievement of such specified performance goals. The amount payable to a Participant upon achievement of the applicable performance goals may be expressed in terms of a formula or standard, including a fixed cash amount, the allocation of a bonus pool or a percentage of the Participant's annual base salary. The Committee reserves the discretion to increase or decrease the amount of any payment with respect to any Award that would otherwise be made to any Participant pursuant to the performance goals established in accordance with Article IV.

4.2 Termination of Employment. Except as otherwise provided by the Committee or as set forth in this Section 4.2, the Participant must be employed by the Company or one of its subsidiaries on the last day of the Performance Period in order to receive a payout with respect to an Award. If a Participant terminates employment before such date by reason of death, Disability or Long Service Separation, the Participant shall be eligible for a prorated payout based on the number of days of employment during the Performance Period, based on actual performance through the entire Performance Period. Participants employed on the last day of the Performance Period, but not for the entire Performance Period, shall be eligible for a payout prorated for the number of days of the Performance Period for which they were Participants. If the Participant is deceased at the time of an Award payment for which the Participant is eligible, the payment shall be made to the Participant's estate.

4.3 Payments. At the time the Committee determines an Award opportunity for a Participant, the Committee shall establish the payment terms applicable to such Award. Such terms shall include when such payments will be made; provided, however, that the timing of such payments shall in all instances either (A) satisfy the conditions of an exception from Section 409A of the Code (e.g., the short-term deferrals exception described in Treasury Regulation Section 1.409A-1(b)(4)), or (B) comply with Section 409A of the Code and provided, further, that in the absence of such terms regarding the timing of payments, such payments shall occur no later than the 15th day of the third month of the calendar year following the calendar year in which the Participant's right to payment ceased being subject to a substantial risk of forfeiture. The Committee shall determine whether an Award will be paid in cash or in shares of common stock of the Company issued under the terms of the Company's 2014 Long-Term Incentive Plan, or any successor thereto. Except as provided in Section 5.1, but notwithstanding any other provision in the Plan to the contrary, a Participant shall not be vested in any Award and a Participant shall not be entitled to payment hereunder in advance of the actual receipt of the payment by such Participant.

4.4 Maximum Awards. No Participant shall receive a payment under the Plan with respect to any Performance Period having a value in excess of \$15 million, which maximum amount shall be proportionately adjusted with respect to Performance Periods that are less than or greater than one year in duration.

V. CHANGE IN CONTROL

5.1 Effect on Awards. Unless the Committee shall otherwise expressly provide in the notice or agreement relating to an Award, upon the occurrence of a Change in Control as defined below, all Awards for a Performance Period not completed at the time of the Change in Control shall be payable to Participants in an amount equal to the product of the target award opportunity for the Award and a fraction, the numerator of which is the number of days that have elapsed since the beginning of the Performance Period through the later of (i) the date of the Change in Control or (ii) for each Participant, the date the Participant terminates employment, and the denominator of which is the number of days in the Performance Period; provided, however, that if this Plan shall remain in effect after a Change in Control, a Performance Period is completed during that time, and the Participant's employment has not terminated, this provision shall not apply.

5.2 Change in Control Defined.

(a) For purposes of this Plan, "Change in Control" means the occurrence of any one of the following events:

(i) During any twenty-four (24) month period, individuals who, as of the beginning of such period, constitute the Board (the "Incumbent Directors") cease for any reason to constitute at least a majority of the Board; provided that any person becoming a director subsequent to the beginning of such period whose election or nomination for election was approved by a vote of at least a majority of the Incumbent Directors then on the Board (either by a specific vote or by approval of the proxy statement of the Company in which such person is named as a nominee for director, without written objection to such nomination) shall be an Incumbent Director; provided, however, that no individual initially elected or nominated as a director of the Company as a result of an actual or threatened election contest with respect to directors or as a result of any other actual or threatened solicitation of proxies by or on behalf of any person other than the Board shall be deemed to be an Incumbent Director;

(ii) Any "person" (as such term is defined in the Securities Exchange Act of 1934, as amended (the "Exchange Act") and as used in Sections 13(d)(3) and 14(d)(2) of the Exchange Act) is or becomes a "beneficial owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing 20% or more of the combined voting power of the Company's then outstanding securities eligible to vote for the election of the Board (the "Company Voting Securities"), unless the Board, as constituted immediately prior to the date on which such person acquires such beneficial interest, by resolution negates the effect of this provision in a particular circumstance, deeming that resolution to be in the best interests of Company stockholders; provided, however, that the event described in this paragraph (ii) shall not be deemed to be a Change in Control by virtue of any of the following acquisitions: (A) by the Company or any of its subsidiaries; (B) by any employee benefit plan (or related trust) sponsored or maintained by the Company or any of its subsidiaries; (C) by any underwriter temporarily holding securities pursuant to an offering of such securities; or (D) by any person of Company Voting Securities from the Company, if a majority of the Incumbent Board approves in advance the acquisition of beneficial ownership of 20% or more of Company Voting Securities by such person;

(iii) The consummation of a merger, consolidation, statutory share exchange or similar form of corporate transaction involving the Company or any of its subsidiaries that requires the approval of the Company's stockholders, whether for such transaction or the issuance of securities in the transaction (a "Business Combination"), that results in the voting securities of the Company outstanding immediately prior thereto representing (either by remaining outstanding or by being converted into voting securities of the surviving entity) less than 50% of the combined voting power of the voting securities of the Company or such surviving entity outstanding immediately after such Business Combination; or

(iv) The stockholders of the Company approve a plan of complete liquidation or dissolution of the Company or the consummation of a sale of all or substantially all of the Company's assets.

VI. GENERAL

6.1 Effective Date. This amendment and restatement of the Plan was approved by the Committee on October 8, 2019 and shall be effective for performance periods beginning on or after January 1, 2018. All amounts payable with respect to performance periods beginning prior to January 1, 2018 shall be subject to the Plan as in effect at the beginning of such performance period, and any amendments to the Plan after November 2, 2017 shall not be given effect to the extent any such amendment would cause the transition relief for the amendments made to Section 162(m) of the Code by the Tax Cuts and Jobs Act to be unavailable.

6.2 Amendments and Termination. The Committee may amend, suspend or terminate the Plan at any time (including but not limited to any time following the close of the Performance Period and prior to the date payment is made) in its sole and absolute discretion. The Committee may amend the Plan without stockholder approval, unless such approval is necessary to comply with applicable laws, including provisions of the Exchange Act or the Code. Termination of the Plan shall not affect any Awards previously paid under the Plan.

6.3 Non-Transferability of Awards. No Award shall be transferable other than by will, the laws of descent and distribution or pursuant to beneficiary designation procedures approved by the Company. Except to the extent permitted by the foregoing sentence, no Award may be sold, transferred, assigned, pledged, hypothecated, encumbered or otherwise disposed of (whether by operation of law or otherwise) or be subject to execution, attachment or similar process. Upon any attempt to sell, transfer, assign, pledge, hypothecate, encumber or otherwise dispose of any such Award, such Award and all rights thereunder shall immediately become null and void.

6.4 Tax Withholding. The Company shall have the right to withhold from the payment of any Award or require, prior to the payment of any Award, payment by the Participant of any Federal, state, local or other taxes which may be required to be withheld or paid in connection with such Award.

6.5 No Right of Participation or Employment. No person shall have any right to participate in the Plan. Neither the Plan nor any Award shall confer upon any person any right to continued employment by the Company or any subsidiary or affiliate of the Company or affect in any manner the right of the Company or any subsidiary or affiliate of the Company to terminate the employment of any person at any time without liability hereunder.

6.6 Governing Law. The Plan and each Award, and all determinations made and actions taken pursuant thereto, to the extent not otherwise governed by the Code or the laws of the United States, shall be governed by the laws of the State of Delaware and construed in accordance therewith without giving effect to principles of conflicts of laws.

6.7 Other Plans. Payments pursuant to the Plan shall not be treated as compensation for purposes of any other compensation or benefit plan, program or arrangement of the Company or any of its subsidiaries, unless either (a) such other plan provides that compensation such as payments made pursuant to the Plan are to be considered as compensation thereunder or (b) the Board or the Committee so determines in writing. Neither the adoption of the Plan nor the submission of the Plan to the Company's stockholders for their approval shall be construed as limiting the power of the Board or the Committee to adopt such other incentive arrangements as it may otherwise deem appropriate.

6.8 Binding Effect. The Plan shall be binding upon the Company and its successors and assigns and the Participants and their beneficiaries, personal representatives and heirs. If the Company becomes a party to any merger, consolidation or reorganization, then the Plan shall remain in full force and effect as an obligation of the Company or its successors in interest, unless the Plan is amended or terminated pursuant to Section 6.2.

6.9 Unfunded Arrangement. The Plan shall at all times be entirely unfunded and no provision shall at any time be made with respect to segregating assets of the Company for payment of any benefit hereunder. No Participant shall have any interest in any particular assets of the Company or any of its affiliates by reason of the right to receive a benefit under the Plan and any such Participant shall have only the rights of an unsecured creditor of the Company with respect to any rights under the Plan.

6.10 Award Forfeitures.

(a) **Forfeiture of Awards.** Each Award shall be subject to the following additional forfeiture conditions, to which the Participant, by accepting an Award, agrees. If any of the events specified in Section 6.10(b) occurs (a "Forfeiture Event"), the Participant will be obligated to repay the Company, in cash, within five business days after demand is made thereof by the Company, the total amount of Award Gain realized by the Participant upon the settlement of an Award (regardless of any elective deferral) that occurred on or after (i) the date that is 12 months before the occurrence of the Forfeiture Event, if the Forfeiture Event occurred while the Participant was employed by the Company or a subsidiary of the Company, or (ii) the date that is 12 months before the date the Participant's employment by the Company or a subsidiary of the Company terminated, if the Forfeiture Event occurred after the Participant ceased to be so employed.

(b) **Events Triggering Forfeiture.** The forfeitures specified in Section 6.10(a) will be triggered upon the occurrence of any one of the following Forfeiture Events at any time during the Participant's employment by the Company or a subsidiary of the Company or during the one-year period following termination of such employment:

(i) **Non-Solicitation.** The Participant, for his or her own benefit or for the benefit of any other person, company or entity, directly or indirectly, (A) induces or attempts to induce or hires or otherwise counsels, induces or attempts to induce or hire or otherwise counsel, advise, encourage or solicit any person to leave the employment of or the service for the Company or any subsidiary of the Company, (B) hires or in any manner employs or retains the services of any individual employed by or providing services to the Company or any subsidiary of the Company as of the date of his or her termination of employment, or employed by or providing services to the Company or any subsidiary of the Company subsequent to such termination, (C) solicits, pursues, calls upon or takes away, any potential customers of the Company or any subsidiary of the Company, (D) solicits, pursues, calls upon or takes away, any potential customer of the Company or any subsidiary of the Company that has been the subject of a bid, offer or proposal by the Company or any subsidiary of the Company, or of substantial preparation with a view to making such a bid, proposal or offer,

within 12 months before such Participant's termination of employment with the Company or any subsidiary of the Company, or (E) otherwise interferes with the business or accounts of the Company or any subsidiary of the Company.

(ii) **Confidential Information.** The Participant discloses to any person or entity or makes use of any "confidential or proprietary information" (as defined below in this Section 6.10(b)(ii)) for his or her own purpose or for the benefit of any person or entity, except as may be necessary in the ordinary course of employment with or other service to the Company or any subsidiary of the Company. Such "confidential or proprietary information" of the Company or any subsidiary of the Company, includes, but is not limited to, the design, development, operation, building or manufacturing of products manufactured and supplied by the Company and its subsidiaries, the identity of the Company's or any of its subsidiary's customers, the identity of representatives of customers with whom the Company or any subsidiary of the Company has dealt, the kinds of services provided by the Company or any subsidiary of the Company to customers and offered to be performed for potential customers, the manner in which such services are performed or offered to be performed, the service needs of actual or prospective customers, pricing information, information concerning the creation, acquisition or disposition of products and services, customer maintenance listings, computer software and hardware applications and other programs, personnel information, information identifying, relating to or concerning investors in the Company or any subsidiary of the Company, joint venture partners of the Company or any subsidiary of the Company, business partners of the Company or any subsidiary of the Company or other entities providing financing to the Company or any subsidiary of the Company, real estate and leasing opportunities, communications and telecommunications operations and processes, zoning and licensing matters, relationships with, or matters involving, landlords and/or property owners, and other trade secrets.

(c) **Plan Does Not Prohibit Competition or Other Participation Activities.** Although the conditions set forth in this Section 6.10 shall be deemed to be incorporated into an Award, the Plan does not thereby prohibit the Participant from engaging in any activity, including but not limited to competition with the Company and its subsidiaries. Rather, the non-occurrence of the Forfeiture Events set forth in Section 6.10(b) is a condition to the Participant's right to realize and retain value from his or her compensatory awards, and the consequence under the Plan if the Participant engages in an activity giving rise to any such Forfeiture Event are the forfeitures specified herein. This provision shall not preclude the Company and the Participant from entering into other written agreements concerning the subject matter of Sections 6.10(a) and 6.10(b) and, to the extent any terms of this Section 6.10 are inconsistent with any express terms of such agreement, this Section 6.10 shall not be deemed to modify or amend such terms.

(d) **Committee Discretion.** The Committee may, in its sole discretion, waive in whole or in part the Company's right to forfeiture under this Section 6.10, but no such waiver shall be effective unless evidenced by a writing signed by a duly authorized officer of the Company. In addition, the Committee may impose additional conditions on Awards, by inclusion of appropriate provisions in an Award notice. Nothing contained herein shall require the Committee to enforce the forfeiture provisions of this Section 6.10. Failure to enforce these provisions against any individual shall not be construed as a waiver of the Company's right to forfeiture under this Section 6.10.

6.11 Awards Subject to Clawback. Notwithstanding any other provision of the Plan to the contrary, any Participant whose negligence, intentional or gross misconduct contributes to the Company's having to restate all or a portion of its financial statements, will be required to forfeit Awards granted under this Plan and any payment delivered pursuant to an Award, as determined by the Board, an authorized committee, or its designee, pursuant to the Caterpillar Inc. Guidelines on Corporate Governance Issues, as adopted on

December 7, 2013 and any subsequent amendments, including without limitation any such amendments which the Company may be required to adopt under the Dodd-Frank Wall Street Reform and Consumer Protection Act and implementing rules and regulations thereunder, or as otherwise required by law.

6.12 Right of Setoff. The Company or any subsidiary of the Company may, to the extent permitted by applicable law, deduct from and set off against any amounts the Company or a subsidiary may owe to the Participant from time to time, including amounts payable in connection with any Award, owed as wages, fringe benefits, or other compensation owed to the Participant, such amounts as may be owed by the Participant to the Company, although the Participant shall remain liable for any part of the Participant's payment obligation not satisfied through such deduction and setoff. By accepting any Award, the Participant agrees to any deduction or setoff under this Section 6.12.

IN WITNESS WHEREOF, the Company has caused this amendment and restatement to be executed by its duly authorized representative as of this 16th day of October 2019.

CATERPILLAR INC.
SUPPLEMENTAL RETIREMENT PLAN

PREAMBLE

The Caterpillar Inc. Supplemental Retirement Plan (formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan and hereinafter referred to as the "Plan") was established as of January 1, 1976 by Caterpillar Inc. (the "Company") to provide additional pension benefits to individuals who participate in the Caterpillar Inc. Retirement Income Plan, as amended, or any successor(s) to such plan (not including the applicable supplement of the Caterpillar Inc. Retirement Income Plan that reflects the provisions and benefits of the Solar Turbines Incorporated Retirement Plan on and after the merger of the Solar Turbines Incorporated Retirement Plan with and into the Caterpillar Retirement Income Plan effective as of 11:59 PM CST on December 31, 2014) ("RIP"), but whose benefits are limited due to the application of Section 401(a)(17) and/or Section 415 of the Internal Revenue Code of 1986, as amended. The Plan also provides the benefits that would otherwise be payable pursuant to RIP but for (i) an individual's deferral of compensation under the Caterpillar Inc. Deferred Employees' Investment Plan, the Caterpillar Inc. Supplemental Employees' Investment Plan, or the Caterpillar Inc. Supplemental Deferred Compensation Plan or (ii) the exclusions from "Total Earnings" under RIP for an individual's lump sum discretionary awards and variable base pay. This amended and restated Plan is effective as of January 1, 2020.

For avoidance of doubt, all references in the Plan to RIP shall not include the applicable supplement of the Caterpillar Inc. Retirement Income Plan that reflects the provisions and benefits of the Solar Turbines Incorporated Retirement Plan on and after the merger of the Solar Turbines Incorporated Retirement Plan with and into the Caterpillar Retirement Income Plan effective as of 11:59 PM CST on December 31, 2014 and benefits under the Plan shall in no way be affected by benefits provided or not provided under such applicable supplement.

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

ARTICLE I

DEFINITIONS

1.1 General. When a word or phrase appears in the Plan with the initial letter capitalized, and the word or phrase does not begin a sentence, the word or phrase shall generally be a term defined in this Article I. The following words and phrases used in the Plan with the initial letter capitalized shall have the meanings set forth in this Article I, unless a clearly different meaning is required by the context in which the word or phrase is used or the word or phrase is defined for a limited purpose elsewhere in the Plan document:

(a) **“Adopting Affiliate”** means any Affiliate that has been authorized by the Company to adopt the Plan and which has adopted the Plan in accordance with Section 2.5. All Affiliates that adopted the Plan on or before the Effective Date and that had not terminated such adoption shall continue to be Adopting Affiliates of the Plan.

(b) **“Affiliate”** means a parent business that controls, or a subsidiary business that is controlled by, the Company.

(c) **“Beneficiary”** means, with respect to a Participant, the person or persons entitled to receive distributions of the Participant’s death benefits under RIP.

(d) **“Benefit Determination Date”** means the following:

(i) **On or After January 1, 2005, But Prior to January 1, 2009.** On or after January 1, 2005, but prior to January 1, 2009, a Participant’s Benefit Determination Date shall be the date as of which the Participant has elected to commence benefits under RIP.

(ii) **On or After January 1, 2009.** On or after January 1, 2009, a Participant’s Benefit Determination Date shall be the date determined under (1) or (2) below:

(i) With respect to (x) a Participant’s PEP Benefit (as defined in Section 3.2(b)), (y) a Choice Participant’s benefits under this Plan, or (z) a Participant’s Traditional Benefit (as defined in Section 3.2(a)) where the Participant satisfies the requirements under Section 5.2(d)(1)(i), (ii), (iii), (iv), or (v) as of the Participant’s Separation from Service, the Participant’s Benefit Determination Date shall be the first day of the month following the Participant’s Separation from Service.

(ii) With respect to a Participant’s Traditional Benefit (as defined in Section 3.2(a)) for a Participant other than a Choice Participant where the Participant does not satisfy the requirements under Section 5.2(d)(1)(i), (ii), (iii), (iv), or (v) as of the Participant’s Separation from Service, the Participant’s Benefit Determination Date shall be the first day of the month following the date that the Participant first satisfies the requirements under Section 5.2(d)(1)(i), (ii), (iii), (iv), or (v).

(e) **“Benefit Payment Date”** means the date as of which the Participant’s benefit amounts under the Plan shall be payable, as determined in accordance with Section 5.2(d).

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

(f) **“Board”** means the Board of Directors of the Company, or any authorized committee of the Board.

(g) **“Choice Participant”** means a Participant who (i) has a “frozen traditional benefit” under RIP as a result of the election made by such Participant to cease accruing a benefit under the traditional benefit formula of RIP and to begin accruing a benefit under the pension equity formula of RIP and (ii) had accrued a Traditional Benefit (as defined in Section 3.2(a)) under this Plan as of June 30, 2003.

(h) **“Code”** means the Internal Revenue Code of 1986, as amended from time to time, and any regulations promulgated thereunder.

(i) **“Company”** means Caterpillar Inc., and, to the extent provided in Section 8.8 below, any successor corporation or other entity resulting from a merger or consolidation into or with the Company or a transfer or sale of substantially all of the assets of the Company.

(j) **“DEIP”** means the Caterpillar Inc. Deferred Employees’ Investment Plan, as amended.

(k) **“Director”** means the Company’s Director of Total Rewards.

(l) **“Disability”** or **“Disabled”** means that a Participant is determined to be totally disabled by the United States Social Security Administration.

(m) **“Effective Date”** means January 1, 2020.

(n) **“ERISA”** means the Employee Retirement Income Security Act of 1974, as amended from time to time, and any regulations promulgated thereunder.

(o) **“GSCS”** means Caterpillar Logistics Services LLC (f/k/a Caterpillar Logistics Services, Inc.).

(p) **“GSCS Closing Date”** means the date on which the sale of GSCS to an entity that is not an Affiliate is completed.

(q) **“GSCS Participant”** means a Participant who is employed by GSCS upon the closing of the sale of GSCS to an entity that is not an Affiliate.

(r) **“Lump Sum Discretionary Award”** means a lump sum discretionary award paid to a Participant in accordance with the established pay practices of the Company and Adopting Affiliates and designated with earnings code 208 or 212 in the Company’s payroll system (or the equivalent earnings code for Adopting Affiliates that do not use the Company’s payroll system, or predecessor or subsequent payroll systems).

(s) **“Participant”** means an employee of the Company or any Adopting Affiliate who satisfies the eligibility requirements for participation in the Plan.

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

(t) **“Plan”** means the Caterpillar Inc. Supplemental Retirement Plan, as set forth herein and as it may be amended from time to time.

(u) **“Plan Administrator”** means the Director.

(v) **“Plan Year”** means the calendar year.

(w) **“RIP”** means the Caterpillar Inc. Retirement Income Plan, as amended or any successor(s) to such plan, other than the applicable supplement of the Caterpillar Inc. Retirement Income Plan that reflects the provisions and benefits of the Solar Turbines Incorporated Retirement Plan on and after the merger of the Solar Turbines Incorporated Retirement Plan with and into the Caterpillar Retirement Income Plan effective as of 11:59 PM CST on December 31, 2014.

(x) **“SDCP”** means the Caterpillar Inc. Supplemental Deferred Compensation Plan, as amended or any successor(s) to such plan.

(y) **“SEIP”** means the Caterpillar Inc. Supplemental Employees’ Investment Plan, as amended.

(z) **“Separation from Service”** means separation from service as determined in accordance with any regulations, rulings or other guidance issued by the Department of the Treasury pursuant to Section 409A(a)(2)(A)(i) of the Code, as it may be amended or replaced from time to time.

(aa) **“Specified Employee”** means a “key employee” as defined in Section 416(i) of the Code without regard to Section 416(i)(5) and determined in accordance with Section 409A(a)(2)(B)(i) of the Code.

(bb) **“Sunset Participant”** means a Participant who is classified as a “Sunset Participant” under the terms of RIP.

(cc) **“Unforeseeable Emergency”** means a severe financial hardship to the Participant resulting from an illness or accident of the Participant, the Participant’s spouse, or a dependent (as defined in Section 152(a) of the Code) of the Participant, loss of the Participant’s property due to casualty, or other similar extraordinary and unforeseeable circumstances arising as a result of events beyond the control of the Participant. For purposes of the Plan, an “Unforeseeable Emergency” shall not include a Participant’s need to send his or her child to college or a Participant’s desire to purchase a home. Any determination as to whether a Participant has incurred an Unforeseeable Emergency shall be made in the sole discretion of the Plan Administrator in accordance with rules prescribed pursuant to Section 409A of the Code.

(dd) **“Variable Base Pay”** means the variable base pay paid to a Participant as determined in accordance with the established pay practices of the Company and Adopting Affiliates.

1.2 Construction. The masculine gender, when appearing in the Plan, shall include the feminine gender (and vice versa), and the singular shall include the plural, unless the Plan clearly states to the contrary. Headings and subheadings are for the purpose of reference only and are not

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

to be considered in the construction of the Plan. If any provision of the Plan is determined to be for any reason invalid or unenforceable, the remaining provisions shall continue in full force and effect. All of the provisions of the Plan shall be construed and enforced according to the laws of the State of Illinois without regard to conflict of law principles and shall be administered according to the laws of such state, except as otherwise required by ERISA, the Code, or other Federal law.

ARTICLE II

ELIGIBILITY; ADOPTION BY AFFILIATES

2.1 Eligible Employees. The purpose of the Plan is to provide supplemental retirement benefits to a select group of management or highly compensated employees. This group of employees is sometimes referred to as a “top hat group.” The Plan constitutes an unfunded supplemental retirement plan and is fully exempt from Parts 2, 3, and 4 of Title I of ERISA. The Plan shall be governed and construed in accordance with Title I of ERISA.

2.2 Existing Participants. Each individual who was a Participant in the Plan as of the date of execution of this plan document shall continue as such, subject to the provisions hereof.

2.3 New Participants. An employee shall participate in the Plan if the employee is receiving, is eligible to receive, or is accruing retirement benefits pursuant to RIP; and

(a) the employee’s RIP benefits are limited by application of Section 401(a)(17) of the Code;

(b) the employee’s RIP benefits are limited by application of Section 415(b) of the Code;

(c) the employee’s RIP benefits are decreased due to the employee’s deferral of salary or incentive compensation under SEIP, DEIP or SDCP; or

(d) the employee’s RIP benefits are limited due to the exclusions from “Total Earnings” (as defined under RIP) for the employee’s Lump Sum Discretionary Awards and Variable Base Pay.

2.4 Discontinuance of Participation. As a general rule, once an individual is a Participant, he will continue as such for all future Plan Years until his retirement or other termination of employment. In addition, prior to retirement or other termination of employment, the Plan Administrator shall discontinue an individual’s participation in the Plan if the Plan Administrator concludes, in the exercise of his discretion, that the individual is no longer properly included in the top hat group. If an individual’s participation is discontinued, the individual will no longer be eligible to accrue a benefit under the Plan. The individual will not be entitled to receive a distribution, however, until the occurrence of another event (e.g., death or Separation from Service) that entitles the individual to receive a distribution.

2.5 Adoption by Affiliates. An employee of an Affiliate may not become a Participant in the Plan unless the Affiliate has previously adopted the Plan. An Affiliate of the Company may

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

adopt the Plan only with the approval of the Company. By adopting the Plan, the Affiliate shall be deemed to have agreed to assume the obligations and liabilities imposed upon it by the Plan, agreed to comply with all of the other terms and provisions of the Plan, delegated to the Plan Administrator the power and responsibility to administer the Plan with respect to the Affiliate's employees, and delegated to the Company the full power to amend or terminate the Plan with respect to the Affiliate's employees. Notwithstanding the foregoing, an Affiliate that has previously adopted the Plan may terminate its participation in the Plan in accordance with such rules and procedures that are promulgated by the Company.

ARTICLE III
DETERMINATION OF BENEFIT

3.1 General. Benefit amounts payable under the Plan shall be determined pursuant to Section 3.2 and, if applicable, adjusted pursuant to Section 3.4. Such determinations shall be made by reference to (a) the benefit amounts that would be payable to the Participant under RIP if SEIP, DEIP and SDCP deferrals and any Lump Sum Discretionary Awards or Variable Base Pay were taken into account in determining the Participant's benefits thereunder and (b) without regard to the applicable limitations under Sections 401(a)(17) and 415 of the Code. For avoidance of doubt, effective January 1, 2011, any Participant who is not a Sunset Participant shall not receive any additional benefit accruals under this Article III, and any Sunset Participant shall not receive any additional benefit accruals under this Article III effective as of the earlier of: (1) the date he is no longer a Sunset Participant or (2) January 1, 2020.

3.2 Amount of Benefit Payable to Participant. The monthly benefit payable to the Participant by the Plan shall be equal to the sum of the Participant's "Traditional Benefit" and "PEP Benefit" amounts (both as defined below), if any, determined under subsections (a) and (b) below as of the Participant's Benefit Determination Date:

(a) "Traditional Benefit". Any benefit payable to the Participant by the Plan under the "traditional benefit" provisions of RIP, as it may be amended from time to time, shall be determined as follows:

(1) Step One. The Plan Administrator shall determine the benefit that would be payable to the Participant pursuant to RIP if SEIP, DEIP and SDCP deferrals and any Lump Sum Discretionary Awards or Variable Base Pay were taken into account and without regard to the applicable limitations under Sections 401(a)(17) and 415 of the Code. For purposes of this Section 3.2(a)(1), the parenthetical phrase of Section 5.2 of RIP reading "(2% for Participants in salary grades 30 or 31 pursuant to the Company's standard salary grades or such salary grade equivalents, 2.25% for Participants in salary grade 32 pursuant to the Company's standard salary grades or such salary grade equivalents, 2.4% for Participants in salary grades 33 or higher pursuant to the Company's standard salary grades or such salary grade equivalents)" shall be disregarded.

(2) Step Two. The Plan Administrator shall determine the Participant's benefit that would be payable pursuant to RIP (as calculated as of the Participant's Benefit Determination Date).

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

(3) **Step Three.** The amount determined pursuant to paragraph (2) above shall be subtracted from the amount determined pursuant to paragraph (1) above to determine the benefit payable to the Participant pursuant to this Section 3.2(a) of the Plan (herein referred to as a Participant's "Traditional Benefit").

(b) **"PEP Benefit"**. Any benefit payable by the Plan to the Participant under the "pension equity formula" provisions of RIP, as it may be amended from time to time, shall be determined as follows:

(1) **Step One.** The Plan Administrator shall determine the single sum amount that would be payable to the Participant pursuant to RIP if SEIP, DEIP and SDCP deferrals and any Lump Sum Discretionary Awards or Variable Base Pay were taken into account and without regard to the applicable limitations under Sections 401(a)(17) and 415 of the Code.

(2) **Step Two.** The Plan Administrator shall determine the Participant's single sum amount that would be payable pursuant to RIP (as calculated as of the Participant's Benefit Determination Date).

(3) **Step Three.** The amount determined pursuant to paragraph (2) above shall be subtracted from the amount determined pursuant to paragraph (1) above to determine the single sum amount payable to the Participant pursuant to this Section 3.2(b) of the Plan (herein referred to as a Participant's "PEP Benefit").

3.3 Survivor Benefits. In the event a Participant dies after becoming vested under the Plan pursuant to Section 4.1 but prior to commencing his benefits under the Plan pursuant to Article V, a survivor benefit shall be payable as follows:

(a) **Traditional Benefit.** With respect to a Participant's Traditional Benefit, if any, determined under Section 3.2(a) (and, if applicable, adjusted under Section 3.4), the Participant's surviving spouse, if any, shall be entitled to a monthly survivor benefit payable during the spouse's lifetime and terminating with the payment for the month in which such spouse's death occurs. The monthly benefit payable to the surviving spouse shall be the portion of the amount determined under Section 3.2(a) (and, if applicable, adjusted under Section 3.4) as of the Participant's Benefit Determination Date that the surviving spouse would have been entitled to receive under this Plan if the Participant had separated from service on the date of his death, commenced benefits in accordance with Article V in the form of a 50% joint and survivor annuity, and then died immediately thereafter. A surviving spouse who was not married to the deceased Participant for at least one year at the date of death shall not be eligible for the monthly survivor benefit pursuant to this Section 3.3.

(b) **PEP Benefit.** With respect to a Participant's PEP Benefit, if any, determined under Section 3.2(b), such benefit shall be paid to the Participant's Beneficiary in a single sum amount as soon as administratively feasible after the Benefit Determination Date.

(c) **Certain Choice Participant Benefits.** Notwithstanding the provisions of (a) and (b) above, with respect to a Choice Participant who does not make a contrary election

(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

pursuant to Section 5.2(c)(3), such Participant's Beneficiary shall receive a single sum amount equal to the actuarial equivalent present value (using the actuarial assumptions under RIP applicable to the Participant as of his or her Benefit Determination Date) of the Participant's Traditional Benefit and PEP Benefit calculated as of the date specified in Section 5.2(d)(1)(i), or date of death if later, and as further adjusted by using the actuarial assumptions under RIP applicable to the Beneficiary as of the Participant's Benefit Determination Date. Notwithstanding the foregoing, if a Choice Participant makes an election pursuant to Section 5.2(c)(3) to receive his or her benefits under the Plan in the form of monthly annuity payments, his or her Beneficiary, in lieu of the single sum amount described in the preceding sentence, shall receive a monthly benefit paid for the remainder of the Beneficiary's life; provided that, the Beneficiary's monthly benefit shall be equal to the actuarially equivalent monthly benefit of such single sum amount (using the actuarial assumptions under RIP applicable to the Beneficiary as of the Participant's Benefit Determination Date); provided further that, in no event shall the Beneficiary's monthly benefit be less than the monthly survivor benefit determined under Section 3.3(a) that, but for this Section 3.3(c), would have been payable to the Participant's surviving spouse (or, if there is no surviving spouse, would have been payable under Section 3.3(a) had the Participant died with a surviving spouse). Any single sum amount or monthly benefit determined under this Section 3.3(c) shall be payable to the Participant's Beneficiary as soon as administratively feasible after the date of the Participant's death.

3.4 Early Retirement Reductions.

(a) **General.** Benefits determined pursuant to this Article III shall be subject to the same reductions for early commencement as applicable under RIP.

(b) **CEO.** Notwithstanding Section 3.4(a) or anything else herein to the contrary, if the employment of the person who occupied the position of Chief Executive Officer of the Company on December 10, 2015 (the "CEO") terminates for any reason other than death or Disability prior to the attainment of age 65, the benefit determined pursuant to this Article III shall be reduced in accordance with the early retirement provisions of RIP but substituting age 65 for age 62. Upon termination of the CEO's employment due to death or Disability, the benefits determined pursuant to this Article III for the CEO shall be subject to the same reductions for early retirement as applicable under RIP.

3.5 Future Adjustments. Any benefit amounts payable under this Plan may be adjusted to take into account future amendments to RIP and increases in retirement income that are granted under RIP due to cost-of-living increases. Any benefit amounts payable under this Plan shall be adjusted to take into account future factors and adjustments made by the Secretary of the Treasury (in regulations or otherwise) to the limitations under Sections 401(a)(17) and 415 of the Code, except as provided under Section 8.11(e).

ARTICLE IV
VESTING

4.1 Vesting. Subject to Section 8.1, each Participant shall be vested in his or her benefit, if any, that becomes payable under Article V of the Plan to the same extent that the Participant is vested in his or her benefit accrued under RIP. Notwithstanding the foregoing provisions of this

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

Section 4.1, each GSCS Participant shall be fully vested at all times from and after the GSCS Closing Date in his or her benefit payable under the Plan.

ARTICLE V
PAYMENT OF BENEFIT

5.1 Payments on or After January 1, 2005, But Prior to January 1, 2009. In accordance with the transitional guidance issued by the Internal Revenue Service and the Department of Treasury in Section 3 of IRS Notice 2007-86, any payment of benefits to a Participant or his Beneficiary commencing on or after January 1, 2005, but prior to January 1, 2009 shall be made pursuant to the Participant's applicable payment election or the applicable pre-retirement survivor provisions under RIP.

5.2 Payments on or After January 1, 2009. Any payment of benefits to a Participant commencing on or after January 1, 2009 shall be determined in accordance with this Section 5.2.

(a) Limitation on Right to Receive Distribution. A Participant shall not be entitled to receive a distribution prior to the first to occur of the following events:

(1) The Participant's Separation from Service, or in the case of a Participant who is a Specified Employee, the date which is six months after the Participant's Separation from Service;

(2) The date the Participant becomes Disabled;

(3) The Participant's death;

(4) A specified time (or pursuant to a fixed schedule) specified at the date of deferral of compensation;

(5) An Unforeseeable Emergency; or

(6) To the extent provided by the Secretary of the Treasury, a change in the ownership or effective control of the Company or an Adopting Affiliate or in the ownership of a substantial portion of the assets of the Company or an Adopting Affiliate.

This Section 5.2(a) restates the restrictions on distributions set forth in Section 409A of the Code and is intended to impose restrictions on distributions pursuant to the Plan accordingly. This Section 5.2(a) does not describe the instances in which distributions will be made. Rather, distributions will be made only if and when permitted both by this Section 5.2(a) and another provision of the Plan.

(b) General Right to Receive Distribution. Following a Participant's termination of employment or death, the Participant's benefit amounts will be paid to the Participant in the manner and at the time provided in Sections 5.2(c) and 5.2(d), as applicable. A transfer of a Participant from the Company or any Affiliate to any other Affiliate or the Company shall not be deemed to be a termination of employment for purposes of this Section 5.2(b).

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

(c) Form of Payment.

(1) **Traditional Benefit.** Any monthly benefit payable to a Participant under Section 3.2(a) (and, if applicable, adjusted under Section 3.4) shall be paid in the form of annuity payments as follows:

(i) **Unmarried Participants.** The benefits of an unmarried Participant shall be paid in the form of a single life annuity for the Participant's life. No payments shall be made after the Participant dies. Notwithstanding the foregoing, in accordance with uniform rules and procedures as may be adopted by the Plan Administrator from time to time, an unmarried Participant may elect, in lieu of a single life annuity, to have his or her benefits paid in any actuarially equivalent form of annuity permitted under RIP.

(ii) **Married Participants.** Subject to Section 3.3, the benefits of a married Participant shall be paid in the form of a joint and survivor annuity in a reduced monthly benefit for the Participant's life (as determined in accordance with the applicable actuarial assumptions in effect under RIP) and then, if the Participant's spouse is still alive, a benefit equal to 50% of the Participant's monthly benefit is paid to the spouse for the remainder of his or her life. If the Participant's spouse is not alive when the Participant dies, no further payments shall be made. Notwithstanding the foregoing, in accordance with uniform rules and procedures as may be adopted by the Plan Administrator from time to time, a married Participant may, with the written consent of the Participant's spouse, elect to waive the joint and survivor annuity of this subparagraph (ii) and instead elect a single life annuity or any actuarially equivalent form of annuity permitted under RIP.

In addition, if the Participant's Benefit Payment Date, as described in clauses (i)-(v) of Section 5.2(d)(1), is delayed pursuant to the last sentence of Section 5.2(d)(1), then any monthly benefit amounts that would have been paid if not for such last sentence will be credited with interest at five percent (5%) per annum through the Participant's Benefit Payment Date. Such delayed monthly benefit amounts and interest shall be paid in a single sum amount as soon as administratively feasible after such Benefit Payment Date.

(2) **PEP Benefit.** Any benefit payable to a Participant determined under Section 3.2(b) shall be paid in a single sum amount. In addition, if the Participant's Benefit Payment Date, as described in Section 5.2(d)(2), is delayed pursuant to the first sentence of Section 5.2(d)(2), then any single sum amount that would have been paid if not for such first sentence will be credited with interest at five percent (5%) per annum through the Participant's Benefit Payment Date. Such interest shall be paid in a single sum amount as soon as administratively feasible after such Benefit Payment Date.

(3) **Special One-Time Election for Choice Participants.** Pursuant to the transitional guidance issued by the Internal Revenue Service and the Department of Treasury, the Plan Administrator shall provide a special one-time election to Choice Participants whose benefits have not commenced as of December 31, 2008, to elect to have their benefits paid other than in the forms otherwise described in (1) and (2) above, subject to such procedures as are established by the Plan Administrator; provided that, if a Choice Participant does not make such an

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

election, any benefit amounts under the Plan that become payable to such Choice Participant shall be paid in the forms described in (1) and (2) above, as applicable. In addition, if the Participant's Benefit Payment Date, as described in Section 5.2(d)(3), is delayed pursuant to Section 5.2(d)(3), then any monthly benefit amounts or single sum amounts that would have been paid if not for such delay will be credited with interest at five percent (5%) per annum through the Participant's Benefit Payment Date in accordance with the applicable provisions of (1) and (2) above. Such delayed monthly benefit amounts or single sum amounts and interest shall be paid in a single sum amount as soon as administratively feasible after such Benefit Payment Date.

(d) Timing of Payment.

(1) **Traditional Benefit.** Except as provided below, any benefit determined under Section 3.2(a) (and, if applicable, adjusted under Section 3.4) that becomes payable to the Participant following Separation from Service shall commence on the first day of the month following the earliest of the following:

(i) the Participant's attainment of age 65 or, if later, the Participant's fifth anniversary of the date he or she commenced participation under RIP;

(ii) the Participant's attainment of age 55 with the number of the Participant's years of vesting service plus his or her age equaling at least 85;

(iii) the Participant's attainment of age 60 after completing at least 10 years of vesting service;

(iv) the Participant's attainment of age 55 after completing at least 15 years of vesting service; or

(v) the Participant's completing at least 30 years of vesting service.

For purposes of (ii), (iii), (iv) or (v) above, the Plan Administrator shall determine the Participant's "years of vesting service" by reference to the applicable terms under RIP in existence as of the date the Participant first commenced participation under this Plan.

Notwithstanding the foregoing provisions of this Section 5.2(d)(1), in no event shall any benefit payable to a Participant under Section 3.2(a) (and, if applicable, adjusted under Section 3.4) commence earlier than the first day of the month coincident with or next following a date that is at least six months after the Participant's Separation from Service, except in the event of the Participant's death, in which case any benefit payable to the Participant's Beneficiary shall commence as of the applicable date specified in Section 3.3(a).

(2) **PEP Benefit.** Any benefit determined under Section 3.2(b) that becomes payable to the Participant following Separation from Service shall be paid on the first day of the month that is at least six months after the Participant's Separation from Service. Notwithstanding the foregoing, in the event of the Participant's death, any benefit payable to the

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

Participant's Beneficiary will be paid as soon as administratively feasible after the date of the Participant's death.

(3) **Certain Choice Participant Benefits.** Any benefits that become payable to a Choice Participant following Separation from Service shall be paid on the first day of the month that is at least six months after the Participant's Separation from Service. Notwithstanding the foregoing, in the event of the Participant's death, any benefit payable to the Participant's Beneficiary will be paid as soon as administratively feasible after the date of the Participant's death.

5.3 Automatic Lump Sum Distributions. Notwithstanding any provision of the Plan to the contrary:

(a) **Certain Distributions on or After January 1, 2005, But Prior to January 1, 2009.** Effective as of January 1, 2005, but prior to January 1, 2009, if the actuarial equivalent present value of an individual's benefit amounts payable under this Plan (as determined in accordance with the applicable actuarial assumptions in effect under RIP as of the individual's Benefit Determination Date) is less than or equal to \$10,000, the individual's benefit amounts under the Plan shall be distributed in a single sum amount as soon as administratively feasible on or after such Benefit Determination Date.

(b) **Certain Distributions on or After January 1, 2009.** Effective January 1, 2009, if the sum of (i) the actuarial equivalent present value of an individual's benefit amounts payable under this Plan (as determined in accordance with the applicable actuarial assumptions in effect under RIP as of the individual's Benefit Determination Date) and (ii) the interest, if any, credited on such amounts through the individual's Benefit Payment Date (as determined in accordance with the applicable provisions of Section 5.2(c)) is less than or equal to the dollar limitation under Section 402(g)(1)(B) of the Code in effect for the calendar year in which the individual's Benefit Payment Date occurs, the individual's benefit amounts under the Plan shall be distributed in a single sum amount equal to the sum of (i) and (ii) above as soon as administratively feasible on or after such Benefit Payment Date.

5.4 Withholding. All distributions will be subject to all applicable tax and withholding requirements.

5.5 Ban on Acceleration of Benefits. Neither the time nor the schedule of any payment under the Plan may be accelerated except as permitted in regulations or other guidance issued by the Internal Revenue Service or the Department of the Treasury and as incorporated herein.

ARTICLE VI
ADMINISTRATION OF THE PLAN

6.1 General Powers and Duties. The following list of powers and duties is not intended to be exhaustive, and the Plan Administrator shall, in addition, exercise such other powers and perform such other duties as he may deem advisable in the administration of the Plan, unless such powers or duties are expressly assigned to another pursuant to the provisions of the Plan.

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

6.2 General. The Plan Administrator shall perform the duties and exercise the powers and discretion given to him in the Plan document and by applicable law and his decisions and actions shall be final and conclusive as to all persons affected thereby. The Company and the Adopting Affiliates shall furnish the Plan Administrator with all data and information that the Plan Administrator may reasonably require in order to perform his functions. The Plan Administrator may rely without question upon any such data or information.

(a) **Disputes.** Any and all disputes that may arise involving Participants or beneficiaries shall be referred to the Plan Administrator and his decision shall be final. Furthermore, if any question arises as to the meaning, interpretation or application of any provisions of the Plan, the decision of the Plan Administrator shall be final.

(b) **Agents.** The Plan Administrator may engage agents, including recordkeepers, to assist him and he may engage legal counsel who may be counsel for the Company. The Plan Administrator shall not be responsible for any action taken or omitted to be taken on the advice of such counsel, including written opinions or certificates of any agent, counsel, actuary or physician.

(c) **Insurance.** At the Director's request, the Company shall purchase liability insurance to cover the Director in his activities as the Plan Administrator.

(d) **Allocations.** The Plan Administrator is given specific authority to allocate responsibilities to others and to revoke such allocations. When the Plan Administrator has allocated authority pursuant to this paragraph, the Plan Administrator is not to be liable for the acts or omissions of the party to whom such responsibility has been allocated.

(e) **Records.** The Plan Administrator shall supervise the establishment and maintenance of records by his agents, the Company and each Adopting Affiliate containing all relevant data pertaining to any person affected hereby and his or her rights under the Plan.

(f) **Interpretations.** The Plan Administrator, in his sole discretion, shall interpret and construe the provisions of the Plan (and any underlying documents or policies).

(g) **Electronic Administration.** The Plan Administrator shall have the authority to employ alternative means (including, but not limited to, electronic, internet, intranet, voice response or telephonic) by which Participants may submit elections, directions and forms required for participation in, and the administration of, the Plan. If the Plan Administrator chooses to use these alternative means, any elections, directions or forms submitted in accordance with the rules and procedures promulgated by the Plan Administrator will be deemed to satisfy any provision of the Plan calling for the submission of a written election, direction or form.

(h) **Delegation.** The Plan Administrator may delegate his authority hereunder, in whole or in part, in his sole and absolute discretion.

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

6.3 Claims Procedures. Benefit claims under the Plan shall be resolved in accordance with Code Section 409A and uniform and nondiscriminatory procedures adopted by the Plan Administrator in accordance with Section 503 of ERISA.

ARTICLE VII
AMENDMENT

7.1 Amendment. The Company reserves the right at any time to amend, modify or suspend any or all of the provisions of this Plan, in whole or in part, at any time as designated by a written instrument duly adopted on behalf of the Company.

7.2 Effect of Amendment. Any amendment of the Plan shall not directly or indirectly reduce the benefits previously accrued by the Participant.

7.3 Termination. The Company expressly reserves the right to terminate the Plan.

(a) General. In the event of termination, the Company shall specify whether termination will change the time at which distributions are made; provided that any acceleration of a distribution is consistent with Section 409A of the Code. In the absence of such specification, the timing of distributions shall be unaffected by termination.

(b) GSCS Termination. Pursuant to the Company's authority to terminate the Plan, the Plan is irrevocably terminated with respect to all GSCS Participants upon the GSCS Closing Date and no GSCS Participant shall accrue any benefits under the Plan for any purpose after the GSCS Closing Date. Pursuant to termination of the Plan with respect to GSCS Participants pursuant to this Section 7.3(b), the present value of each GSCS Participant's benefit amounts payable under the Plan shall be distributed to the GSCS Participant in a single sum amount as soon as practicable after the GSCS Closing Date, but in no event later than December 31 next following the GSCS Closing Date. Termination of the Plan with respect to GSCS Participants will change the time at which distributions are made to GSCS Participants. Payments to GSCS Participants pursuant to this Section 7.3(b) are intended to comply with section 409A of the Code and applicable guidance issued thereunder.

ARTICLE VIII
GENERAL PROVISIONS

8.1 Participant's Rights Unsecured. The Plan at all times shall be entirely unfunded and no provision shall at any time be made with respect to segregating any assets of the Company for payment of any distributions hereunder. The right of a Participant or his or her Beneficiary to receive benefits hereunder shall be an unsecured claim against the general assets of the Company, and neither the Participant nor his Beneficiary shall have any rights in or against any specific assets of the Company. All amounts accrued by Participants hereunder shall constitute general assets of the Company and may be disposed of by the Company at such time and for such purposes as it may deem appropriate. Nothing in this Section shall preclude the Company from establishing a "Rabbi Trust," but the assets in the Rabbi Trust must be available to pay the claims of the Company's general creditors in the event of the Company's insolvency.

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

8.2 No Guaranty of Benefits. Nothing contained in the Plan shall constitute a guaranty by the Company or any other person or entity that the assets of the Company will be sufficient to pay any benefit hereunder.

8.3 No Enlargement of Employee Rights. No Participant shall have any right to receive a distribution from the Plan except in accordance with the terms of the Plan. Participation in the Plan shall not be construed to give any Participant the right to be retained in the service of the Company or an Adopting Affiliate.

8.4 Section 409A Compliance. The Company intends that the Plan meet the requirements of Section 409A of the Code and the guidance issued thereunder. The Plan shall be administered, construed and interpreted in a manner consistent with that intention.

8.5 Spendthrift Provision. No interest of any person or entity in, or right to receive a distribution under, the Plan shall be subject in any manner to sale, transfer, assignment, pledge, attachment, garnishment, or other alienation or encumbrance of any kind; nor shall any such interest or right to receive a distribution be taken, either voluntarily or involuntarily, for the satisfaction of the debts of, or other obligations or claims against, such person or entity, including claims in bankruptcy proceedings. This Section shall not preclude arrangements for the withholding of taxes from deferrals, credits, or benefit payments, arrangements for the recovery of benefit overpayments, arrangements for the transfer of benefit rights to another plan, or arrangements for direct deposit of benefit payments to an account in a bank, savings and loan association or credit union (provided that such arrangement is not part of an arrangement constituting an assignment or alienation).

8.6 Domestic Relations Orders. Notwithstanding any provision of the Plan to the contrary, and to the extent permitted by law, the amounts payable pursuant to the Plan may be assigned or alienated pursuant to a "Domestic Relations Order" (as such term is defined in Section 414(p)(1)(B) of the Code), subject to such uniform rules and procedures as may be adopted by the Plan Administrator from time to time.

8.7 Incapacity of Recipient. If the Plan Administrator is served with a court order holding that a person entitled to a distribution under the Plan is incapable of personally receiving and giving a valid receipt for such distribution, the Plan Administrator shall postpone payment until such time as a claim therefore shall have been made by a duly appointed guardian or other legal representative of such person. The Plan Administrator is under no obligation to inquire or investigate as to the competency of any person entitled to a distribution. Any payment to an appointed guardian or other legal representative under this Section shall be a payment for the account of the incapacitated person and a complete discharge of any liability of the Company and the Plan therefor.

8.8 Successors. The Plan shall be binding upon the successors and assigns of the Company and upon the heirs, beneficiaries and personal representatives of the individuals who become Participants hereunder.

8.9 Limitations on Liability. Notwithstanding any of the preceding provisions of the Plan, neither the Plan Administrator, the Director, or the Company, nor any individual acting as the Plan Administrator's, the Director's, or the Company's employee, agent, or representative shall be

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

liable to any Participant, former Participant, Beneficiary or other person for any claim, loss, liability or expense incurred in connection with the Plan.

8.10 Overpayments. If it is determined that the benefits under the Plan should not have been paid or should have been paid in a lesser amount, written notice thereof shall be given to the recipient of such benefits (or his legal representative) and he shall repay the amount of overpayment to the Company. If he fails to repay such amount of overpayment promptly, the Company shall arrange to recover for the Plan the amount of the overpayment by making an appropriate deduction or deductions from any future benefit payment or payments payable to that person (or his survivor or beneficiary) under the Plan or from any other benefit plan of the Company.

8.11 Plan Frozen. As a result of the freeze of RIP, participation and benefit accruals are frozen under the Plan. This Section 8.11 provides clarification regarding the freeze of the Plan.

(a) **Participation Frozen.** The Plan is frozen to (1) all employees hired after November 30, 2010 and (2) all employees rehired after December 31, 2010. Any employee hired or rehired after the applicable date in the preceding sentence shall not be eligible for the Plan and, in the case of a rehire, shall accrue no additional benefits under the Plan for any period of employment after such date. Similarly, the Plan is frozen to all individuals hired or rehired by the Company or any Affiliate thereof prior to the applicable date in the first sentence who, as of such date, were not Participants in the Plan and therefore such individuals will never become eligible to participate in the Plan.

(b) **Benefits Frozen – Non-Sunset Participants.** Effective January 1, 2011, the Plan is frozen with respect to any Participant who is not classified as a Sunset Participant on December 31, 2010. Any Participant who was not a Sunset Participant on December 31, 2010 shall no longer accrue any additional benefits under the Plan for periods of employment on or after January 1, 2011.

(c) **Benefits Frozen – Sunset Participants.**

(1) The Plan is frozen with respect to any Participant who is a Sunset Participant on December 31, 2010, but who later loses his status as a Sunset Participant, on the date such Participant loses status as a Sunset Participant.

(2) Effective January 1, 2020, the Plan is frozen for all employees including by way of example but not limitation, Sunset Participants.

(d) **Plan Completely Frozen – January 1, 2020.** For avoidance of doubt, no individual shall: (1) become a new Participant in the Plan after November 30, 2010 regardless of hire date or transfer date; and (2) accrue any benefits under the Plan for any period of employment on or after January 1, 2020.

(e) **No Reallocation of Benefits.** For avoidance of doubt, effective as of January 1, 2020, no benefit payments shall be reallocated from the Plan to RIP, or from RIP to the Plan, by

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

virtue of any changes to the applicable limitations under Sections 401(a)(17) and 415 of the Code or otherwise.

(f) **Vesting Service Continues.** For avoidance of doubt, a Participant shall continue to receive vesting service for any period of employment on or after the applicable freeze date referenced in this Section 8.11 for purposes of determining his or her vesting under Section 4.1 and his or her eligibility to commence benefits under Section 5.2(d).

8.12 Special Rules for Participants With Same-Sex Domestic Partners.

(a) **Generally.** Effective January 1, 2013, except as specified under this Section 8.12 or as prohibited by applicable law, to the extent the Plan provides for any benefit, right, feature, restriction, or obligation relating to, or upon, a Participant's "spouse", "Beneficiary", "survivor", or "surviving spouse" (or any individual having a similar relationship to the Participant), the Plan Administrator shall also apply such benefit, right, feature, restriction, or obligation to a Participant's "same-sex domestic partner" (as defined in (b) below) in a uniform and non-discriminatory manner that is similar to how an opposite-gender spouse would be treated under the Plan.

(b) **Definition of "Same-Sex Domestic Partner".** For purposes of this Section 8.12, the term "same-sex domestic partner" means the sole, same-sex person who is in a marriage, civil union, domestic partnership, or legal relationship similar thereto, with the Participant as recognized under the laws of the federal government or a state government of the United States of America, including its territories and possessions and the District of Columbia (or, with respect to any other country, legally recognized by the equivalent government(s) thereof). The Plan shall continue to treat such relationship as a same-sex domestic partnership, regardless of whether the Participant and his same-sex domestic partner remain in the jurisdiction where the relationship was legally entered into. In the event more than one person meets this definition for a given Participant, then the "same-sex domestic partner" shall be the person who first met the criteria in this definition. Notwithstanding anything herein to the contrary, if a Participant has a spouse recognized for purposes of federal law, no person will qualify as the Participant's same-sex domestic partner unless such Participant's marriage to such spouse is first lawfully dissolved. Except with respect to determining the length of time the same-sex domestic partner has satisfied the definition of same-sex domestic partner under the Plan, a Participant shall be considered to have a same-sex domestic partner only with respect to periods beginning on or after January 1, 2013, regardless of when such same-sex partnership was created.

(c) **Exceptions.**

(1) **Determination of Status as a "married Participant".** For purposes of Section 5.2(c)(1), a Participant shall be considered a "married Participant" only if the Participant has a spouse recognized for purposes of federal law. For avoidance of doubt, a Participant with a same-sex domestic partner is considered to be an "unmarried Participant" and is not required to obtain the same-sex domestic partner's consent for the election of any form of payment provided under the Plan, and the normal form of benefit for purposes of Section 5.2(c)(1) for any such Participant shall be a single life annuity for the Participant's life.

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

(2) **Determination of Unforeseeable Emergency.** Only a spouse recognized for purposes of federal law shall be considered a “spouse” for purposes of applying the definition of “Unforeseeable Emergency” in Section 1.1(cc).

(3) **Domestic Relations Orders.** Only a spouse recognized for purposes of federal law or another “alternate payee” (as defined under Section 414(p) of the Code) may enforce a domestic relations order against the Plan or a Participant’s interests hereunder pursuant to Section 8.6.

8.13 Determination of “spouse”. The term “spouse” means the person who is the Participant’s spouse for federal tax purposes.

Caterpillar Inc.
Supplemental Retirement Plan
(formerly known as the Caterpillar Inc. Supplemental Pension Benefit Plan)
(As Amended and Restated Effective as of January 1, 2020)

IN WITNESS WHEREOF, the Company has caused the Plan to be executed by its duly authorized representative as of the 12th day of December 2019.

Caterpillar Inc.

/s/ Cheryl H. Johnson

Cheryl H. Johnson
Chief Human Resources Officer

**THIRD AMENDMENT
TO THE
CATERPILLAR INC.
SUPPLEMENTAL DEFERRED COMPENSATION PLAN**

Effective as of January 1, 2005, Caterpillar Inc. (the “Company”) established the Caterpillar Inc. Supplemental Deferred Compensation Plan (the “Plan”). By a document dated May 9, 2017, the Plan was most recently amended and restated effective May 15, 2017. Pursuant to Article IX of the Plan, the Company has reserved the right to amend the Plan in whole or in part, at any time. By this instrument, the Company amends the Plan to: (i) remove references to SPP Pay, (ii) clarify that deferral elections are no longer suspended for a period of six-months after a participant obtains a hardship distribution under a 401(k) Plan, and (iii) reflect the merger of the Caterpillar 401(k) Retirement Plan with and into the Caterpillar 401(k) Savings Plan.

1. This Third Amendment shall be effective as of January 1, 2019, unless otherwise specified herein.

2. Effective January 1, 2020, Section 1.1(a) of the Plan shall be amended in its entirety to read as follows:

“(a) **“401(k) Plan”** means the Caterpillar 401(k) Savings Plan, as such plan may be amended or any successor to such plan, to which the Participant is eligible to make elective deferrals (without regard to the limitations of Sections 402(g) or 401(a)(17) of the Code) or to receive Company non-elective contributions as of the date the Participant’s corresponding credits under this Plan are determined.”

3. Effective January 1, 2020, Section 1.1 of the Plan shall be amended to remove Sections 1.1(c) and (d) and renumbering the rest of the Section (and any cross-references thereto) accordingly.

4. Section 1.1(dd) of the Plan (or effective January 1, 2020, Section 1.1(bb) as renumbered in accordance with this Third Amendment) is hereby amended in its entirety to read as follows:

“(dd) **“Incentive Compensation”** means STIP Pay and Lump-Sum Awards.”

5. Effective January 1, 2020, Section 1.1(gg) of the Plan (Section 1.1(ee) as renumbered in accordance with this Third Amendment) shall be amended in its entirety to read as follows:

“(gg) **“Maximum Matching Contribution Percentage”** means the same matching contribution that is applicable to the Participant in the 401(k) Plan. For purposes of this Section 1.1(gg), an individual participates in the 401(k) Plan if such individual is eligible to make elective deferrals under such 401(k) Plan (without regard to the limitations of Sections 402(g) or 401(a)(17) of the Code).”

6. Section 1.1(hh) of the Plan (or effective January 1, 2020, Section 1.1(ff) as renumbered in accordance with this Third Amendment) is hereby amended in its entirety to read as follows:

“(hh) **“NEC Eligible Pay”** means the sum of Base Pay and Incentive Compensation, minus 401(k) Plan Compensation. The Plan Administrator shall determine NEC Eligible Pay for all Participants in a uniform and nondiscriminatory manner. Notwithstanding any provision of the Plan to the contrary, NEC Eligible Pay will include such amounts paid to a Participant after the Participant's Separation from Service but within a time period identified by the Plan Administrator in its sole discretion and in a uniform and nondiscriminatory manner, which time period shall not exceed two and one-half months from the date of the Participant's Separation from Service.”

7. Section 1.1 of the Plan is hereby amended to remove Section 1.1(tt) (or effective January 1, 2020, Section 1.1(rr) as renumbered in accordance with this Third Amendment) and renumbering the rest of the Section (and any cross-references thereto) accordingly.

8. Effective January 1, 2020, Section 2.1 of the Plan is hereby amended in its entirety to read as follows:

“2.1 Eligibility and Participation. An employee shall be eligible to participate in the Plan as of the first day of the first pay period that commences in the month next following the date that he (a) is in salary grade 28 or higher pursuant to the Company’s standard salary grades; and (b) is eligible to make elective deferrals to the 401(k) Plan, provided, that, (i) for an employee first promoted to salary grade 28 or higher, clause (a) shall be satisfied after the employee’s supervisor has completed all administrative requirements to effect such promotion; and (ii) clause (b) shall not apply if he had already made elective deferrals equal to or in excess of the applicable dollar amount for purposes of Section 402(g) of the Code and (if applicable) catch-up contributions equal to or in excess of the applicable dollar amount for purposes of Sections 402(g) and 414(v)(2)(B) of the Code or he had already received compensation in excess of the applicable dollar limitation under Section 401(a)(17) of the Code, for such calendar year. Notwithstanding the foregoing, if an employee is employed in a division of the Company or by an Affiliate that does not use the Company’s standard salary grades, such employee shall be eligible to participate in the Plan if he (1) is in a salary grade that is considered in all respects to be the equivalent of a salary grade 28 or higher pursuant to the Company’s standard salary grades; and (2) is eligible to make elective deferrals to the 401(k) Plan, provided, that, clauses (1) and (2) shall be subject to the rules described in clauses (a) and (b) of this Section 2.1. The Plan Administrator shall determine in a uniform and nondiscriminatory manner whether a salary grade is equivalent for this purpose.”

9. Effective January 1, 2020, Section 2.2 of the Plan is hereby amended in its entirety to read as follows:

“2.2 Discontinuance of Participation. The Plan Administrator shall discontinue an individual’s active participation in the Plan if the individual is no longer in a salary grade of 28 or higher (or the equivalent, as described above), or no longer is eligible to make elective deferrals to the 401(k) Plan (other than by reason of the individual’s elective deferrals during a calendar year reaching the applicable dollar limitation under Section 402(g) (1) of the Code or the individual’s receiving compensation for the calendar year in excess of the applicable dollar limitation under Section 401(a)(17)

of the Code). If an individual's active participation is discontinued, the individual's Deferral Agreements shall be cancelled and the individual will not be entitled to make Deferrals or to receive Matching Credits or Non-Elective Contribution Credits under the Plan. The individual will not be entitled to receive a distribution, however, until the occurrence of another event (e.g., death or Separation from Service) that entitles the Participant to receive a distribution. The Participant's accounts will continue to be adjusted to reflect investment earnings or losses in accordance with Section 5.1 until the accounts are distributed."

10. Section 3.1(c) of the Plan is hereby amended in its entirety to read as follows:

"(c) **Revocation.** The Plan Administrator shall terminate a Participant's election to make Supplemental Deferrals and/or Excess Deferrals if the Participant has made a withdrawal due to Unforeseeable Emergency as provided in Section 6.10, but only to the extent that terminating the election would help the Participant to meet the related emergency need; provided that, any such Participant shall be permitted to complete a new Deferral Agreement during the annual election period described in Section 3.1(a), subject to the applicable restrictions in this Section 3.1 and Section 3.2."

11. Section 3.2(b) of the Plan is hereby amended in its entirety to read as follows:

"(b) **Deferral of Incentive Compensation.** Deferral Agreements that relate to the deferral of Incentive Compensation shall be completed by the Participant and delivered to the Plan Administrator prior to the date that is six months before the end of the performance period to which the Incentive Compensation relates. The Deferral Agreement will remain in effect with respect to all future Incentive Compensation until changed by the Participant in accordance with the preceding sentence. The Plan Administrator, in his discretion, may require an earlier time by which the election to defer Incentive Compensation must be completed. In addition, the Plan Administrator, in his discretion, may require that Participants make separate elections for one or more different types of Incentive Compensation (e.g., STIP Pay and Lump-Sum Awards). Notwithstanding any provision of the Plan to the contrary, a Deferral Agreement shall also apply to Incentive Compensation paid to a Participant after the Participant's Separation from Service but within a time period identified by the Plan Administrator in its sole discretion and in a uniform and non-discriminatory manner, which time

period shall not exceed two and one-half months from the date of the Participant's Separation from Service.”

12. Section 3.4(a) of the Plan is hereby amended in its entirety to read as follows:

“(a) **Supplemental Matching Credit.** The Supplemental Matching Credit shall be in an amount equal to: (1) 6% times the Maximum Matching Contribution Percentage of Base Pay deferred by the Participant as Supplemental Deferrals and (2) the Maximum Matching Contribution Percentage of the STIP Pay and Lump-Sum Awards deferred by the Participant as Supplemental Deferrals (up to a maximum deferral of 6% of the Participant's STIP Pay and Lump-Sum Awards for the Plan Year). The amount credited pursuant to this paragraph (a) shall be allocated to the Supplemental Matching Credit Account maintained for the Participant.”

13. Effective January 1, 2020, Article V of the Plan shall be amended to replace any reference to “401(k) Retirement Plan” with “401(k) Plan”.

14. This Third Amendment amends only the provisions of the Plan as set forth herein, and those provisions not expressly amended shall be considered in full force and effect. Notwithstanding the foregoing, this Third Amendment shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions and the intent of this Third Amendment.

IN WITNESS WHEREOF, the Company has caused this Third Amendment to be executed as of this 12th day of December 2019.

**FIRST AMENDMENT
TO THE
SOLAR TURBINES INCORPORATED PENSION PLAN
FOR EUROPEAN FOREIGN SERVICE EMPLOYEES**

Solar Turbines Incorporated (the “Company”) sponsors the Solar Turbines Incorporated Pension Plan for European Foreign Service Employees (the “Plan”). By a document dated March 24, 2015, the Plan was most recently amended and restated effective January 1, 2015. Pursuant to Article XIII of the Plan, the Company and the Company’s parent, Caterpillar Inc., have reserved the right to amend the Plan, in whole or in part, at any time. By this instrument, Caterpillar Inc. amends the Plan to: (i) provide that benefits will be paid in the form of a lump sum only; (ii) clarify that the Plan will no longer be funded by an insurance contract; and (iii) make certain other clarifying changes deemed appropriate.

1. This First Amendment shall be effective as of January 1, 2020.
2. Section 1.17 is amended in its entirety to read as follows:
“1.17 ‘Retirement Benefit’ means the benefits provided to Participants and their Beneficiaries in accordance with the applicable provisions of Articles IV, V and VI. The Retirement Benefit will be computed in U.S. Dollars and is paid in U.S. Dollars.”
3. Section 3.2 is amended in its entirety to read as follows:
“3.2 Early Retirement Date. Each Participant whose employment is terminated prior to his Normal Retirement Date, but after he has attained age 55 and completed at least 10 years of Credited Service or 10 years of continuous service with the Company (whichever is first to occur), may elect to retire with the approval of the Company. Such Participant’s Early Retirement Date shall be the first day of the month next following the month in which such termination of employment occurs. Early Retirement Benefits will be determined in accordance with Article IV.

4. Article IV is amended to add the following Section 4.6 to the end thereof:
“4.6 Lump Sum Distributions as Normal Form. Notwithstanding the foregoing, effective January 1, 2020, a Participant who has terminated employment with a Vested Percentage and has not commenced his or her benefits prior to January 1, 2020 shall have such benefit paid in the form of a lump sum that is the Actuarial Equivalent of the Participant’s Accrued Benefit.”
5. Section 6.1 is amended to add the following subsection (F) to the end thereof:
“(F) Notwithstanding the foregoing, effective January 1, 2020, a Spouse or eligible child that is eligible to receive a benefit pursuant to this Section 6.1 and who has not commenced his or her benefits prior to January 1, 2020 shall have such benefit paid in the form of a lump sum. For purposes of the benefit paid to an eligible child, such benefit will be calculated as though the eligible child is a full-time student.”
6. Article VIII is amended to remove Sections 8.1, 8.2 and 8.3 and renumbering the rest of the Article (and any cross-references thereto) accordingly.
7. Section 8.4 (Section 8.1, as renumbered in accordance with this First Amendment) is amended in its entirety to read as follows:
“8.1 Payment Currency. Effective January 1, 2020, the Retirement Benefit will be paid in U.S. Dollars. A Participant or Beneficiary may not elect to have his or her Retirement Benefit converted into any other currency.”
8. Article IX is amended to remove Section 9.2.
9. Section 11.1 is amended in its entirety to read as follows:
“11.1 Employer Contributions. The Company is under no obligation to make any contributions under the Plan after the Plan is terminated, whether or not benefits accrued or vested prior to such date or termination have been fully funded.”
10. Section 14.1 is amended in its entirety to read as follows:
“14.1 For periods before January 1, 2005, this Section is intended to clarify the Plan as in effect since it was established. To the extent that the Company acquires or holds designated assets in connection with its obligation hereunder, the Plan at all times shall nonetheless be entirely

unfunded, and the right of a Participant or his Beneficiary to receive benefits under the Plan shall be an unsecured claim against such assets. All amounts accrued by Participants hereunder, or designated assets acquired or held by the Company in connection with its obligation hereunder, shall constitute general assets of the Company and may be disposed of by the Company at such time and for such purposes as it may deem appropriate. To the extent the Company made contributions to an insurance contract, such contributions shall be available to pay the claims of the Company's general creditors in the event of the Company's insolvency."

11. Section 14.5 is amended in its entirety to read as follows:
"14.5 Subject to Section 14.1, any insurance contract and other designated assets acquired and held by the Company in connection with its obligation hereunder shall be the sole source of benefits under this Plan, and each employee, Participant, Beneficiary, or any other person who shall claim the right to any payment or benefit under this Plan shall be entitled to look only to such assets for payment of benefits. The Company shall have no further liability to make or continue from its own funds the payment of any benefit under the Plan."

12. This First Amendment amends only the provisions of the Plan as set forth herein, and those provisions not expressly amended shall be considered in full force and effect. Notwithstanding the foregoing, this First Amendment shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions and the intent of this First Amendment.

IN WITNESS WHEREOF, Caterpillar Inc. has caused this First Amendment to be executed as of this 12th day of December 2019.

SECTION 302 CERTIFICATION

I, D. James Umpleby III, certify that:

1. I have reviewed this annual report on Form 10-K of Caterpillar Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the annual report of Caterpillar Inc. (the “Company”) on Form 10-K for the period ending December 31, 2019 as filed with the Securities and Exchange Commission on the date hereof (the “Report”), the undersigned hereby certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to the best of our knowledge:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities and Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
