In the first nine months of 2025, **Driver's Equipment** sales increased by **€4.3 million (+11.3%)** compared to the same period of the previous year (**+21.9% in the third quarter**). In the **Americas**, revenues for the first nine months of 2025 amounted to **€12.5 million**, up **+€0.8 million (+7.0%)** versus 2024, mainly driven by sales of OMP-branded racewear. **In the Asia Pacific region, sales in the third quarter showed a strong acceleration compared to Q3 2024 (+29.5%)** across all major countries, particularly in **China**, supported by positive contributions from all major product categories. This performance allowed the Group to close the gap reported in the first half of the year compared to 2024, which had been caused by different purchasing planning from a major dealer at the end of 2024.

Regarding **sales channels**, revenues generated through **Dealers** in the first nine months amounted to **€31.8 million**, up **+€0.2 million (+0.5%)** versus the previous year, with quarterly sales growth of **+€1.0 million (+11.6%)** compared to Q3 2024, supported by a significantly higher overall order intake from dealers.

Sales to **Teams & Car Manufacturers** increased by **+€1.6 million (+12.3%)** in the first nine months, also confirming a positive growth trend in Q3 2025, up **+€0.4 million (+11.1%)** compared to Q3 2024, driven by ongoing technical partnership agreements in major global and national championships.

Sales to customers classified as **Other** grew by **+€2.6 million (+39.8%)** in the nine months and by **+€1.3 million (+80.7%)** in the quarter, mainly thanks to the increase in revenues from Racing Spirit branded products to corporate customers and, starting from Q3 2025, the contribution from Zeronoise Communication Services. Net of this contribution, growth amounted to +33.7% in the nine months and +55.6% in the quarter.

**Roberto Ferroggiaro, Chief Financial Officer of Racing Force Group**, commented:

*"The strong acceleration in sales during the third quarter is in line with our expectations and reflects the record level of order intake recorded since the beginning of the year. OMP-branded driver's equipment and Bell helmets confirm themselves as the main growth drivers, supported by the particularly positive contribution of the Group's other brands. This result stems from the constant commitment of our R&D teams to product innovation, supported by the strengthening of our organizational structure and the first tangible effects of new technical partnerships.*

*In a macroeconomic scenario still characterized by uncertainty, motorsport is experiencing a phase of strong vitality, supported by significant investments and sponsorships from brands and external operators who recognize this sector as an ideal showcase for their business. In this context, our Group has the solidity and expertise necessary to maintain its growth trajectory in the coming periods. Starting from the fourth*
