### OVHcloud and LCH SA sign cloud agreement

**Roubaix – November 20th 2025** – [OVHcloud](#), a global cloud player and the European Cloud leader, announced today that it has signed a cloud hosting agreement with LCH SA, the global clearing house based in Paris. Through this collaboration, OVHcloud will provide cloud-hosting capabilities designed to support LCH SA in enhancing its operational resilience, strengthening security, and benefiting from greater scalability and faster deployment across its services.

The migration of some of LCH SA's services to a SecNumCloud<sup>1</sup> qualified environment represents a significant milestone in the clearing house's digital transformation. OVHcloud will host a selection of LCH SA's services in full compliance with regulatory requirements applicable to LCH SA, supporting the organisation's fast-growing, diversified and global activities across asset classes.

**Octave Klab, Founder, Chairman and CEO, OVHcloud**, said: *"LCH SA is a key provider of market infrastructure in Europe and across the global financial community. Our SecNumCloud qualified solution enables LCH SA to benefit from cutting-edge cloud technology while maintaining the highest level of security and control over their data within a robust regulatory framework."*

**Corentine Poilvet Clédière, CEO, LCH SA**, and **Country Head, France, LSEG**, said: *"We are pleased to be leveraging trusted European cloud provider OVHcloud as part of LSEG's cloud strategy. Modernising our infrastructure is a significant undertaking that LCH SA is proud to deliver. Using OVHcloud's SecNumCloud qualified services will enable us to benefit from greater operational efficiency and the ability to further scale our fast-growing businesses."*

---

<sup>1</sup> SecNumCloud is a security qualification issued by ANSSI, the French National Cybersecurity Agency

### About OVHcloud

OVHcloud is a global cloud player and the leading European cloud provider operating over 500,000 servers within 46 data centers across 4 continents to reach 1,6 million customers in over 140 countries. Spearheading a trusted cloud and pioneering a sustainable cloud with the best performance-price ratio, the Group has been leveraging for over 20 years an integrated model that guarantees total control of its value chain: from the design of its servers to the construction and management of its data centers, including the orchestration of its fiber-optic network. This unique approach enables OVHcloud to independently cover all the uses of its customers so they can seize the benefits of an environmentally conscious model with a frugal use of resources and a carbon footprint reaching the best ratios in the industry. OVHcloud now offers customers the latest-generation solutions combining performance, predictable pricing, and complete data sovereignty to support their unfettered growth.
