**Bridger Unlocks New Revenue Opportunities for Artists Through Expanded Global Coverage***New agreements across Europe and Latin America strengthen Bridger's international network and increase access to royalty revenues worldwide*

Winamp Group, the parent company of Winamp, announces a new series of strategic agreements for Bridger, its copyright management platform, further strengthening its global rights coverage.

The latest partnerships with SABAM (Belgium), STIM (Sweden), TEOSTO (Finland), SOZA (Slovakia), MSG (Turkey) and SADAIC (Argentina) expand Bridger's coverage across Europe and Latin America, bringing artists and rights holders access to additional revenue streams across key music markets.

In a music industry where rights remain fragmented across territories and collection societies, coverage is a key driver of value. By expanding its international network, Bridger helps artists access more revenue opportunities worldwide while simplifying rights management.

With agreements now spanning Europe, North America, Latin America, Africa, the Middle East and Asia, Bridger continues to strengthen its position as a global rights management platform. The growing breadth of its network also reinforces the value proposition of Winamp for Creators by providing artists with broader monetization opportunities through a single ecosystem.

*"Coverage creates value. The broader the network we build, the more revenue opportunities we can unlock for artists," said **Alexandre Saboundjian, CEO of Winamp Group**. "These new agreements strengthen our ability to connect artists with additional royalty streams worldwide and represent another step toward our ambition of building one of the most comprehensive rights management infrastructures in the music industry."*
