

Share buyback mandate

Edenred announces it has entered into a share buyback agreement with an investment services provider (ISP) for a maximum amount of €50 million, which will run until October 31, 2026.

This operation is being implemented in line with the share buyback program authorized by the Shareholders' Meeting of May 7, 2026 (13th resolution) and described in section 7.2.4 of the 2025 Universal Registration Document.

The shares bought back will be used to cover the objectives of free share allocation plans.

On an indicative basis, €50 million would correspond to a total volume of 2.1 million shares (i.e., 0.9% of the share capital), at the closing price on May 29.

Information regarding transactions in Edenred's shares in line with the share buyback program will be published in accordance with applicable regulations.
